*Hellbent for Enlightenment* - Rosemary Hamilton 1998

Rosemary Hamilton's account of her life as a follower of the notorious Indian spiritual teacher Bhagwan Shree Rajneesh (now known as Osho). Rosemary was Rajneesh's personal cook at Rajneeshpam, the controversial Oregon ashram. She remained with her teacher after his deportation from the United States, following Rajneesh back to India. A fascinating account of one woman's spiritual odyssey, as she abandons a successful career in search of enlightenment. With the guidance of Rajneesh, Rosemary follows an unusual path, utilising the unorthodox spiritual techniques (sacred sexuality, dynamic meditation techniques, and a joyous tweaking of the sacred cows of religious orthodoxies -- East and West) that made Rajneesh so popular and controversial.

**Eden Within Eden** - James J. Kopp 2009

Oregon has been the home of nearly three hundred communal experiments since the Aurora Colony was established in 1856. *Eden Within Eden* is the first book to survey the state's utopian history, from religious and Socialist groups of the nineteenth century to ecologically conscious communities of the twenty-first century. James J. Kopp examines Oregon's communal history in the context of the state as a destination for those seeking new beginnings and in the framework of utopian and communal experiences across America. *Eden Within Eden* provides rich detail about utopian communities— some realized, some only planned—many of which reflect broader social, political, economic, and cultural aspects of Oregon's history. From the dawn of communal groups in Oregon—the German Christian colony at Aurora—to Oregon's most infamous communal experiment—Rajneeshpuram—this study examines the range of attempts to establish ideal communities in the state. These include the Jewish agrarian colony of New Odessa in the 1880s as well as the “new pioneers” of the 1960s and later who captured the spirit of the counterculture as well as growing concerns about the environment. The book explores other areas of Oregon's utopian heritage as well, including literary works and idealistic city planning. There has been no comparable book published on Oregon's communal history and few such comprehensive examinations of other states. The appendix is a rich compilation that will guide individuals to additional information on the profiled—and many other—communities. *Eden Within Eden* will appeal to students and scholars of communal studies and Pacific Northwest history, as well as to general readers interested in these subjects.

**John Updike and Religion** - James Yerkes 1999

Since then his literary production of more than fifty books in four main genres - novels, short stories, poetry, and critical essays - has consistently and insightfully explored a wide range of religious issues. The essays collected here evaluate the religious dimension of Updike's prodigious literary vision, looking broadly at Updike's understanding of religion in ordinary human experience, in the context of historic Christianity, and in contemporary American culture."--BOOK JACKET.

**Crossing Boundaries** - George William Barnard 2002

The contemporary study of religion has witnessed a consistent interest in and concern about the relationship between the unitive, ascetic, and ecstatic tendencies of mystical traditions and the more mundane but ethically pressing realms of society, custom, and civilized life. The present volume explores such issues anew through a series of original essays on the mystical traditions themselves (from Kabbalah to Chinese religion) and on some of the most pressing theoretical issues and theorists (from Bergson to Schuon) of the twentieth-century study of religion.

*Fictions of America* - Judie Newman 2007-12-04

The Internet has had a huge impact on channels of communication and information, reaching across time and space to connect the world through globalisation. In this Internet-led world, story links to story, windows open on new stories and no overall authority establishes priority. This sense of globalisation has raised many questions for contemporary American Novelists, primarily the usefulness or redundancy of narrative and its potentially adaptive function. What are the right stories for such a broadband world? How do contemporary American novelists respond to issues such as the influence of the multinational corporation and its predecessors, human rights Imperialism, the literary work as a marketable commodity, translation as betrayal, data overload, and the implosion of the virtual into the biosphere? Is globalisation inevitable - or is it a fiction which fiction turns into reality? *Fictions of America* explores these questions and looks at the ways in which India, China and Africa can be said to have underwritten American culture, how literature has been marketed globally, and how novelists have answered back to power with resistant fictions. Judie Newman examines a wide range of fiction from the mid nineteenth to the twenty-first century including the transnational adoption narrative, short story, historical novel, slave narrative, international bestseller and Western to illustrate her argument. Looking closely at authors such as Bharati Mukherjee, John Updike, Emily Prager, Hannah Crafts, Zora Neale Hurston, David Bradley, Peter Høeg, and Cormac McCarthy, *Fictions of America* provides a bold response to the crucial questions raised by globalisation.

**The New Religious Movements Experience in America** - Eugene V. Gallagher 2004-10-30

Wherever and whenever they appear, new religious movements always produce conflict. Even as they attract members who enthusiastically embrace their innovative teachings, new religions often provoke strongly negative reactions—often because they challenge established notions of proper religious action, belief, and morality. Opponents of new religious movements often brand them as cults and urge their fellow citizens, their own religions, and even the government to take action against what they see as suspicious and potentially dangerous movements; the members often complain that their motives have been misconstrued and argue that their groups are unfairly persecuted. *The New Religious Movements Experience in America* outlines the conflict between representatives of the status quo and new religions and examines how these groups appear both to their members and to their cultural opponents. This work is ideal for anyone—students, parents, and teachers—who wish to gain a deeper understanding of new religious movements in America. New religions have always been part of the American religious landscape, and this book moves beyond the contemporary period to discuss examples of new religions that have originated, survived or died, and sometimes prospered throughout U. S. history. Among the groups discussed are the Mormons, the Peoples Temple, the Branch Davidians, Spiritualism, Theosophy, the

Church Universal and Triumphant, the International Society for Krishna Consciousness, the followers of Bhagwan Shree Rajneesh, Soka Gakkai, the Nation of Islam, Wiccans and neo-Pagans, the Church of Satan, the Church of Scientology, Heaven's Gate, and the Raelians. The New Religious Movements Experience in America includes a glossary and a list of resources for those interested in doing further research on the experience of the followers of new religions.

**The Cynical Educator** - Ansgar Allen 2017-04-28

Ground down, disenchanting, but committed to education. Unable to quit, yet deploring everything education has become. We suffer a weakened and weakening cynicism. This cynicism exploits the last remaining educational commitments of an otherwise broken workforce, draining that workforce of its final pleasure: Revolt. Our cynicism is reactionary and conditional - exhausting us where it might invigorate, rendering us complicit, giving safe passage to bad temper - but can be reclaimed. This book claims we need more cynicism, not less. With *The Cynical Educator* a revived, militant Cynicism affronts us. Drawing on a long history of religious denial and philosophical intrigue, it brings our educational bad faith to the surface. It confronts the educated with the fruit of their conceit.
