Sleepless in America - Mary Sheedy Kurcinka 2009-03-17

From the author of *Raising Your Spirited Child*, the award-winning bestseller that has helped millions, a pioneering, research-based guide for parents to help their children get the sleep they need. Does your child refuse to cooperate in the morning? Does he or she get into trouble for not listening? Are you finding that your child resists sleep and "loses it" over seemingly insignificant issues? You are not alone. An estimated 69 percent of American infants, children, and teens are sleep deprived. Studies have shown that sleep deficits can contribute to hyperactivity, distraction, forgetfulness, learning problems, illness, accidents, and disruptive behaviors. Often what our misbehaving kids really need isn't more "consequences" or more medication, but more sleep. *Sleepless in America* offers weary and frustrated parents a helping hand and an exciting new approach to managing challenging behaviors by integrating research on stress, sleep, and temperament with practical strategies. Dr. Mary has helped millions with her effective parenting tips and insights, and her five-step approach enables parents to help their "tired and wired" children get the sleep they so desperately need.

Elevating Child Care: A Guide to Respectful Parenting - Janet Lansbury 2014-05-01

Janet Lansbury's advice on respectful parenting is quoted and shared by millions of readers worldwide. Inspired by the pioneering parenting philosophy of her friend and mentor, Magda Gerber, Janet's influential voice encourages parents and child care professionals to perceive babies as unique, capable human beings with natural abilities to learn without being taught; to develop motor and cognitive skills; communicate; face age appropriate struggles; initiate and direct independent play for extended periods; and much more. Once we are able to view our children in this light, even the most common daily parenting experiences become stimulating opportunities to learn, discover, and to connect with our child. "Elevating Child Care" is a collection of 30 popular and widely read articles from Janet's website that focus on some of the most common infant/toddler issues: eating, sleeping, diaper changes, communication, separation, focus and attention span, creativity, boundaries, and more. Eschewing the quick-fix 'tips and tricks' of popular parenting culture, Janet's insightful philosophy lays the foundation for a closer, more fulfilling parent/child relationship, and children who grow up to be authentic, confident, successful adults.

It's Never too Late to Sleep Train - Craig Canapari 2019-05-07

A revolutionary program that will have everyone - babies, toddler and pre-schoolers - in the house sleeping through the night. When Dr. Craig Canapari became a father, he realized that even three years of 36-hour hospital shifts didn't prepare him for the extreme sleep deprivation that comes with parenthood. Sleepless nights for kids means sleepless nights

for the rest of the family-and a grumpy group around the breakfast table in the morning. In *It's Never Too Late to Sleep Train*, Canapari harnesses the power of habit to chart a clear and concise path through this crowded, noisy world. The result is a streamlined two-step sleep training plan that focuses on cues and consequences, the two elements that shape all habits and that take on special importance in the case of children. In crisp conversational prose, Dr. Canapari distills years of clinical research and experience to make sleep training refreshingly simple and stress-free. The book is aimed at children between 6 months and early primary school age, who some falsely believe are outside the optimal "window" for sleep training. Dr. Canapari is here to prove that it's never too late. He's on your side in this battle against bedtime, and now parents and children alike can expect a lifetime of healthy sleep. As recommended by Emma Bunton in *Mama You Got This*.

This program has literally given me my life back." - McKel Neilsen "Two months ago I was at the end of my sleep rope with our 6-month-old, boy/girl twins. The Happy Sleeper - Heather Turgeon 2015-01-05

A research-based guide to helping children do what comes naturally — sleep through the night. Many parents feel pressured to ‘train’ babies and young children to sleep. Sometimes hours are spent rocking, singing, and coaxing. But kids don't need to be trained — they're built to sleep. Over time, all that cajoling can have the opposite effect to what is desired. Problems can arise when parents (with the best of intentions) overhelp or ‘helicopter parent’ at night, overshadowing their baby's biological ability to sleep well. In The Happy Sleeper, child-sleep experts Heather Turgeon and Julie Wright show parents how to avoid and undo cumbersome sleep habits. They provide guidance on how to be sensitive and nurturing, but also structured, so that your baby or young child can develop the skills they need in order to: fall asleep independently sleep through the night take healthy naps acquire natural, optimal sleep patterns for day and night. Using these methods, parents can guide their children in learning how to soothe themselves to sleep — putting kids (and the whole family) on track to a full night's sleep. PRAISE FOR HEATHER TURGEON AND JULIE WRIGHT ‘Turgeon and Wright's compassionate but firm system reminds parents that even the smallest infants are already learners, and to be more cognizant of what they want to teach. Solid information on children's brain development and physiology supports a clear and systematic “attunement” philosophy that strikes a happy balance between “cry it out” and “overhelping”.’ Publishers Weekly ‘A must-have purchase if you can't remember the last time you had an uninterrupted night's sleep.’ Baby London
