As parents, we want to shape our children into emotionally mature and healthy human beings. In *It Starts with You*, marriage and family therapist and parent coach Nicole Schwarz offers a nonjudgmental, shame-free guide to parenting children with a calm confidence. Working from a place of grace and compassion, she encourages us to explore how our history, thoughts, and assumptions impact our parenting decisions. Moving away from traditional discipline strategies, Schwarz focuses on the importance of having a calm brain, connected relationships, respectful conversations, and a coaching

mindset with our kids. It Starts with You lays out a five-step process you can turn to whenever you're stuck in a difficult parenting situation. Each step is grounded in research and presented in a way that is easy to understand. Rather than adding unnecessary pressure, we learn that kids do not need perfect parents, but parents who are willing to learn, grow, and move forward with them in a positive direction.

Reconnecting with Your Estranged Adult Child -

Tina Gilbertson 2020-04-28

Parents whose adult children have cut off contact wonder: How did this happen? Where

did I go wrong? What happened to my loving child? Over time, holidays, birthdays, and even the birth of grandchildren may pass in silence. Anguish may turn into anger. While time, in and of itself, does not necessarily heal, actions do, and while every estrangement includes situation-specific variables, there are practical, effective, and universal techniques for understanding and healing these not-uncommon breaches.

Psychotherapist Tina Gilbertson has developed these techniques and tools over years of face-to-face and online work with parents, who have found her strategies transformative and even life-changing. Gilbertson cuts through the blame, shame, and guilt on both sides of the broken relationship. Parents will feel heard and understood but also challenged — and guided — to reclaim their role as "tone setter" and grow psychologically. Exercises, examples, and sample scripts empower parents who have felt powerless. Gilbertson shows that reconciliation is a step-by-step process, but the effort is well

The Oxford Handbook of Evolutionary Psychology and Romantic Relationships -

Todd Kennedy Shackelford 2023-02-28

"Evolutionary social science is having a renaissance. This volume showcases the empirical and theoretical advancements produced by the evolutionary study of romantic relationships. The editors assembled an international collection of contributors to trace how evolved psychological mechanisms shape strategic computation and behavior across the lifespan of a romantic partnership. Each chapter provides an overview of historic and contemporary research on the psychological mechanisms and processes underlying initiation,

maintenance, and dissolution of romantic relationships. Contributors discuss popular and cutting-edge methods for data analysis and theory development, critically analyse the state of evolutionary relationship science, and provide discerning recommendations for future research. The handbook integrates a broad range of topics (e.g., partner preference and selection, competition and conflict, jealousy and mate guarding, parenting, partner loss and divorce, and post-relationship affiliation) that are discussed alongside major sources of strategic variation in mating behavior, such as sex and gender diversity, developmental life history, neuroendocrine processes, technological advancement, and culture. Its content promises to enrich students' and established researchers' views on the current state of the discipline and should challenge a diverse cross-section of relationship scholars and clinicians to incorporate evolutionary theorizing into their professional work"--

You Can Win Your Ex Back - Leanne M. Shine
2012-09-13

The truth is any relationship that is truly special is worth trying to salvage. Anyone who tells you otherwise is wrong. It doesn't matter if you've already broken up and things seem like a lost cause. When it hurts as bad as I'm guessing it's hurting you right now, know that the pain you're feeling is your heart telling you that what you had was special and you don't want to lose it. But guess what: if you give up now or make all the wrong choices while trying to save it, you will lose your ex forever. This book has been written to help make sure that doesn't happen to you.

Intimate Relationships - Ralph Erber

current material in a concise yet thorough and rigorous manner. Chapters range from attraction to love, attachment to jealousy, conflict to relationship dissolution — all written in a warm, personal, and engaging voice. Each chapter is organized around the major issues and relevant theories, in addition to a critical evaluation about the research. When appropriate, the authors discuss and evaluate popular ideas about relationship processes in the context of scientific research. This includes critical evaluations of evolutionary approaches to attraction, victim-based accounts of abuse, and the separate-cultures view of the sexes.

You're Tearing Us Apart - P. Love 2015-10-13
No one argues with the fact that relationships in the 21st century are complicated. One recent study found that couples spend only 35 minutes per week in intimate conversation; the rest of the time they rely on electronic contact and notes. To keep a relationship from hitting "esc" or worse, "delete," this fast-paced life calls for

fast-paced strategies, and this book is full of them! Many broken relationships not only can be mended, but they can actually be magnificent. *You're Tearing Us Apart* follows a simple, get-to-the-point formula for each chapter. First, a narrative describes what it's like living with someone who is practicing relationship-threatening behaviors. Next, the psychology behind the behavior is explained, followed by a

succinct account of why this particular behavior threatens relationships. Finally, the best strategies for transformation are spelled out, covering such a wide range of options most any couple can easily comply. These four sections validate the experience of both partners, offer concrete reasons why change is necessary and then present a selection of strategies to move forward.
