Feminism and Its Fictions Lisa Maria Hogeland 2016-11-11 During the 1970s, thousands of American women met regularly in small groups to talk about the injustices they experienced in their private lives and how those personal injustices related to the broad-based political oppression of women. They called this cultural work "consciousness raising." Women's and feminist fiction of the 1970s was dominated by a new kind of novel whose content and form were shaped by the practice of consciousness-raising. Lisa Maria Hogeland contends that consciousness-raising novels both reflected and furthered the Women's Liberation Movement's analyses of sexuality, gender, race, and political responsibility and that through their narrative structure the novels actually engaged in consciousness-raising with their readers. Using a broad range of fiction—including works by Erica Jong, Marilyn French, Marge Piercy, Alix Kates Shulman, Alison Lurie, Joanna Russ, and Joan Didion—Hogeland explores the ways in which consciousness-raising novels addressed some of the most important questions raised by second-wave feminism.

Artist and Attic Xinying Qi 1999 Artists and Attic sees the relationship between architecture and literature as a concrete reflection of nineteenth century ideology creating an iconic picture of women's position in society and literature during that period. In the Victorian house, the attic is hidden and neglected, yet to a woman artist, it is a space of her own to produce a text of her own. The author presents the neglected attic as related to the neglected woman and the limited space symbolizes the confinement of woman and the woman writer, yet obtaining this space of her own becomes the central concern to women and women writers. This book explores the function of the attic in nineteenth century British and American women's writing, as it is given meaning and life by the writers. To many of the women, the attic created a paradoxical image of their seclusion, but also of their own poetic space for freedom in creation. Many of the writers see the attic as a retreat to escape from patriarchal oppression and a place to seek social identity.

Arab Women Novelists Joseph T. Zeidan 1995-03-16 This book assesses the contribution of women to the Arabic novel, both in subject matter and form. It begins by tracing the struggle over women's rights in the Arab world, particularly the gradual improvement in women's access to education—the first area in which women made significant gains. Subsequent chapters discuss Arab women writers' remarkable talents and determination to overcome the barriers of a male-dominated culture; survey the 1950s and 1960s, during which women's writing gained momentum and more women writers emerged; and address the shift in emphasis and attitude that women's literature underwent in the late 1960s, especially following the 1967 Arab-Israeli war, when women novelists began to place more stress on international politics. Zeidan adapts Western-based feminist literary theory to a discussion of Arab women's literature but refrains from imposing that theory inappropriately on literature whose context differs significantly. He compares the women's movements in Arab and Western cultures and the development of women's literature in those cultures, and uses these comparisons to highlight similarities and differences between them as well as to consider how one affected the other. His analysis culminates in the early 1980s—the end of the formative years—when women's writing had become a familiar part of Arabic literature in general and a positive reflection on the collective Arab consciousness.

Voices and Echoes Jo-Anne Elder 2010-10-30 "Every time we raise our voices, we hear echoes." Jo-Anne Elder, from the Foreword Through short stories, journal entries and poetry, the women in Voices and Echoes explore the changing landscape of their spiritual lives. Experienced writers such as Lorna Crozier, Di Brandt and Ann Copeland, as well as strong new voices, appear to speak to each other as they draw from a wealth of personal resources to find a way to face life's questions and discover meaning in their lives. There is something familiar about these stories and poems — they echo those we've heard before and those we've half forgotten. Whether they search for a voice in a world where men monopolize or journey into painful memories to free the self from the past, they do not despair, they do not end. Individual entries become the whole story — an unending story of rebirth and reaffirmation. The book begins with an illuminating foreword that introduces readers to the cultural and philosophical background of many of the stories, and concludes with the reflections of scholars, writers and artists that are intended to provoke further discussion.

Desire and Domestic Fiction Nancy Armstrong 1987-05-07 Desire and Domestic Fiction argues that far from being removed from historical events, novels by writers from Richardson to Woolf were themselves agents of the rise of the middle class. Drawing on texts that range from 18th-century female conduct books and contract theory to modern psychoanalytic case histories and theories of reading, Armstrong shows that the emergence of a particular form of female subjectivity capable of reigning over the household paved the way for the establishment of institutions which today are accepted centers of political power. Neither passive subjects nor embattled rebels, the middle-class women who were authors and subjects of the major tradition of British fiction were among the forgers of a new form of power that worked in, and through, their writing to replace prevailing notions of "identity" with a gender-determined subjectivity. Examining the works of such novelists as Samuel Richardson, Jane Austen, and the Brontës, she reveals the ways in which these authors rewrite the domestic practices and sexual relations of the past to create the historical context through which modern institutional power would seem not only natural but also humane, and therefore to be desired.

Feminism and Contemporary Women Writers Radha Chakravarty 2014-05-30 This book attempts to deal with the problem of literary subjectivity in theory and practice. The works of six contemporary women writers — Doris Lessing, Anita Desai, Mahasweta Devi, Buchi Emecheta, Margaret Atwood and Toni Morrison — are discussed as potential ways of testing and expanding the theoretical debate. A brief history of subjectivity and subject formation is reviewed in the light of the works of thinkers such as Hobbes, Hume, Kant, Hegel, Marx, Nietzsche, Raymond Williams and Stephen Greenblatt, and the work of leading feminists is also seen contributing to the debate substantially.

The Sense and Sensibility of Madness Doreen Bauschke 2018-11-05 This volume explores the sense and sensibility of madness in literature and the arts. As madwomen and madmen venture into uncharted or prohibited terrain, they disrupt normalcy. Yet, they may also unleash the liberatory and transformative potential of unrestrained madness.

Margaret Atwood Kathryn VanSpanckeren 1988 A prolific writer and versatile social critic, Canadian novelist and poet Margaret Atwood has recently published *Bluebeard's Egg* (short stories), *Interlunar* (poetry), and *The Handmaid's Tale* a critically acclaimed best-selling novel. This international collection of essays evaluates the complete body of her work—both the acclaimed fiction and the innovative poetry. The critics represented here—American, Australian, and Canadian—address Atwood's handling of such themes as feminism, ecology, the gothic novel, and the political relationship between Canada and the United States. The essays on Atwood's novels introduce the general reader to her development as a writer, as she matures from a basically subjective, poetic vision, seen in *Surfacing* and *The Edible Woman*, to an increasingly engaged, political stance, exemplified by *The Handmaid's Tale*. Other essays examine Atwood's poetry, from her transformation of the Homeric model to her criticisms of the United States' relationship with Canada. The last two critical essays offer a unique view of Atwood through an investigation of her use of the concept of shamanism and through a presentation of eight of her vivid watercolors. The volume ends with Atwood presenting her own views in an interview with Jan Garden Castro and in a conversation between Atwood and students at the University of Tampa, Florida.

Virginia Woolf and the Politics of Style Pamela J. Transue 1986-01-01 This readable, informed, and insightful book illustrates the effects Virginia Woolf's feminism had on her art. Woolf's committed feminism combined with her integrity as an artist and her ability to metamorphose ideology into art make her work particularly suitable for a study of the complex relationship of polemic to aesthetics. There is hardly a more crucial issue for the feminist artist today, who must seek a successful fusion of her principles with her art. For the student of this art Virginia Woolf and the Politics of Style provides a means to evaluate the success or failure of these strategies. While Woolf's essays reflect a strong if somewhat quirky feminism, she was highly critical of didacticism in fiction. For that reason her novels at first glance appear relatively free of polemic. Virginia Woolf and the Politics of Style reveals that her feminism is more accurately described as latent in the novels, having been merged into the aesthetic components of style, structure, point of view, and patterns of imagery.

Feminism/postmodernism M. Prabhakar 1999

Madness and Sexual Politics in the Feminist Novel Barbara Hill Rigney 1978 A greater part of the feminist movement has considered traditional psychology to be both a product and a defense of the status quo, a patriarchal society. Here, Barbara Hill Rigney explores emerging feminist psychology by applying it to literary works by women who have depicted the relationship between madness and the female condition. The result is a fascinating and illuminating exposition, certain to be welcomed by students and scholars in literature and women's studies, as well as those in sociology and psychology whose interests include feminism and problems of women and society. Among the works Rigney considers are Charlotte Brontë's *Jane Eyre*, Virginia Woolf's *Mrs. Dalloway*, Doris Lessing's *The Four-Gated City*, and Margaret Atwood's *Surfacing*, all of which depict insanity in relation to sexual politics. These authors portray a patriarchal social system which, in itself, manifests symptoms of collusive madness in the form of war or sexual oppression and is thereby seen as threatening to female psychological survival. Each of Rigney's author subjects sees her protagonist as tragically divided between male society's prescribed roles for women and a sense of an authentic self. Thus emerges a pattern, common to all works, in which the divided self is reflected by the inevitable juxtaposition of the protagonist to a doppelgänger, an "insane" self, an extension of the protagonist who herself can be regarded as sane only by degree. A return to "true" sanity is traced through the patterns found in the selected works. Rigney explores the literary metaphor of the return of Demeter or the Amazon mother to restore the alienated female protagonists. In order to begin the return from psychosis, Rigney concludes, they must find the mother within themselves in the form of a feminist consciousness of self-worth.

Doris Lessing and the Forming of History Kevin Brazil 2016-09-20 The death of Nobel Prize-winning Doris Lessing sparked a range of commemorations that cemented her place as one of the major figures of twentieth- and twenty-first-century world literature. This volume views Lessing's writing as a whole and in retrospect, focusing on her innovative attempts to rework literary form to engage with the challenges thrown up by the sweeping historical changes through which she lived. The 12 original chapters provide new readings of Lessing's work via contexts ranging from post-war youth politics and radical women's writing to European cinema, analyse her experiments with genres from realism to autobiography and science-fiction, and draw on previously unstudied archive material. The volume also explores how Lessing's writing can provide insight into some of the issues now shaping twenty-first century scholarship - including trauma, ecocriticism, the post-human, and world literature - as they emerge as defining challenges to our own present moment in history.

Changing the Story Gayle Greene 1992-01-22 "... Changing the Story... gives an excellent and well-informed account of the differences between the American, Canadian, British, and French attitudes towards feminism and feminist fiction and literary theory.... a very readable book... which reminds us that literature can change us, and that through it we can change ourselves." -- Margaret Drabble "A distinctive contribution -- clear, elegant, precise, and well-read -- to the feminist discussion of narrative, of Anglo/Canadian/white North American novelists, and to contemporary fiction. Greene tracks how feminist novelists draw upon, and negotiate with traditional narrative patterns, and how their critical approach implicates, and provokes, social change. The book brings us to an intelligent post-humanism which does not scant the social meanings of metafictional critique. And, in addition, this book remembers hope." -- Rachel Blau DuPlessis "Changing the Story is an invaluable guide to the feminist classics of the last three decades. This is cultural criticism at its best: engaged, re-visionary, and politically astute." -- Nancy K. Miller "Greene tells a very good tale about how feminist fiction emerged, developed, made changes in the world, and now threatens to wane." -- The Women's Review of Books "Her probing analysis... should captivate general readers as well as academics." -- WLW Journal "Changing the Story is an important work of feminist criticism certain to spark controversy within the feminist community." -- American Literature The feminist fiction movement of the 1960s--1980s was and is as significant a movement as Modernism. Gayle Greene focuses on the works of Doris Lessing, Margaret Drabble, Margaret Atwood, and Margaret Laurence to trace the roots of this feminist literary explosion. She also speculates on the future of feminist fiction in the current regressive period of "post feminism."

Reading, Learning, Teaching Margaret Atwood Paul Lee Thomas 2007 Literature that confronts our students' assumptions about the world and about text is the lifeblood of English classes in American high schools and colleges. Margaret Atwood offers works in a wide variety of genres that fulfill that need. This volume introduces readers, students, and teachers to the life and works of Atwood while also suggesting a variety of ways in which her works can become valuable additions to classroom experiences with literature and writing. Furthermore, this volume confronts how and why we teach English through Atwood's writing.

(Un)like Subjects Gerardine Meaney 2012-08-21 What is the relationship between feminist critical theory and literature? This book deals with the relationship between women and writing, mothers and daughters, the maternal and history. It addresses the questions about language, writing and the relations between women which have preoccupied the three most influential French feminists and three important contemporary British women novelists. Treating both fiction and theory as texts, she traces the connections between the theorists - Hélène Cixious, Luce Irigaray and Julia Kristeva - and the novelists - Doris Lessing, Angela Carter and Muriel Spark. This reading of the work of these six major women writers explores new forms of women's identity, subjectivity and narrative and demonstrates how theoretical and literary texts can illuminate each other to bridge the gap between theory and literary criticism.

Margaret Atwood Reingard M. Nischik 2000 Novelist, poet, cultural critic, Margaret Atwood is one of the most fascinating, versatile, and productive authors of our time, a superb writer in any genre she chooses to tackle. This book was prepared on the occasion of Atwood's sixtieth birthday in November 1999. Its first aim is therefore to take stock of Atwood's multifarious works and international impact at the height of her creative powers. Secondly, the book serves as a wide-ranging introduction to the writer and her works. Fifteen informative articles written specifically for this volume by Atwood specialists from Canada, the USA, the UK, Germany, and France treat her life and status, her works (up-to-date survey articles on Atwood's novels, short fiction, poetry, and literary and cultural criticism), and important approaches to her works (from the standpoints of gender politics, mythology, ecology, popular culture, constructivism, and Canadian nationalism). A final section on creativity, transmission, and reception includes an interview with Atwood on creativity, statements by some of Atwood's important transmitters, including publishers, editors, literary agents, and translators, and some 15 statements by Atwood's fellow writers, in which they explore her importance for them. A number of photographs of Atwood, several cartoons drawn by her, an up-to-date bibliography of works by and about Atwood, and an index round out the volume. Reingard M. Nischik is Professor of American literature at the University of Konstanz, Germany.

Liberating Literature Maria Lauret 2002-09-11 *Liberating Literature* is, primarily, a bold and revealing book about feminist writers, readers, and texts. But it is also much more than that. Within this volume Maria Lauret manages to look with fresh vision at the American Civil Rights movement of the 1960s; socialist women's writing of the 1930s; the emergence of the New Left; and the second wave women's movement and its cultural practices. Lauret's historicisation of feminist political writing allows for a new definition of the genre, and enables her to illuminate the profound influence and importance of African-American women's writing. Well-grounded historically and theoretically, *Liberating Literature* speaks about and to a political and cultural tradition, and offers stunning new readings of both familiar and neglected novels within the feminist canon. Reader and students of feminist fiction cannot afford to be without this major new work.
