This title contains a combo of 3 books, namely: Book 1: If you're looking to boost your social skills, then this is the right book. If you want to learn more about nonverbal communication, then this is the right book. If you're open to learning more about flirting, communicating with

colleagues, etc. then this is definitely the right book. There are a lot of other reasons to get this book. You will discover more differences between extroverts and introverts, how some are more into listening and others are more into visuals, and so many more things. So don't wait. Enlighten your mind with this great source of information. Book 2: Why are so many people so bad at listening? Or am I just a complainer? Well, the truth is, it's become harder and harder for people to pay attention. Social media, technology, and our fast-paced society have all contributed to that. In this guide, we'll address the problem, as well as some hardcore tips and suggestions to help you become a better listener and likable communication guru. Other than that, we'll show you the ropes of seeing through someone's nonverbal messages, body language, negotiation tactics, sales techniques, flirtatious moves, and much more. Even when you think you're doing pretty well, you could still use some of this advice. So don't stall and get to it! We'll see you inside the book. Book 3: This guide is perfect for understanding more about body language, eye contact, and all those hidden messages that aren't coming out of your mouth. People reveal a lot just by the way they move their eyes, the subtle cues they show, and the way they move. Adie from that, we'll look into the differences of male and female communication, how to analyze your audience when you're talking to people, and how to become more extroverted (if that's what you want). Last but not least, this book shows a tip of the iceberg of theories from Jung and Freud, and the famous social learning theory that has often been challenged. All these things can help you understand yourself, human interaction, and the personality of others better. So don't wait and begin reading or listening to this book now! How To Attract Women With Humor - Leonard Bustos 2013-09-16

I'm going to show you how fun and exciting it is to approach practically any woman, practically anywhere, and have an immediate humorous

connection with her. Women are actively looking for those men who have the ability to unlock the code to their natural instinctive desires, and your going to learn how to develop those "Attractor Factors" that tap into a woman's primal needs and desires. I'm going to let you in on a little secret. Real men want to have sex with as many beautiful women as they possibly can. I know you're probably shocked at this astonishing revelation, but don't be alarmed. It's not your fault, and it's nothing to hide or be ashamed of. In fact, if your ancestors didn't feel the same way, you wouldn't be here. It's important to add that most honorable men in a relationship generally restrain themselves from acting on this primal desire mostly because of love and respect and to avoid hurting their partners. However, that doesn't mean this powerful urge still doesn't exist. To this day learning to control this instinctive impulse tends to be the ultimate male dilemma. Guess what? Women desire and crave sex too. The problem is, too many guys are either too passive and conceal their sexual interest in women, or they act like aggressive idiots and drive them away. There is a very cool and natural way to approach and attract women so they become interested in you first, and I'm going to show you how to do it. There's no doubt that women want to be sexually attractive and wanted by men. They are actively looking for those men who have the ability to unlock the code to their natural instinctive desires. This book is going to teach you how to develop those traits and skills that tap into a woman's primal needs and desires. You will become in so many words - simply irresistible. Attraction is not a choice. These are natural biological reactions embedded in our DNA developed over tens of thousands of years. Just as men have these responses to attractive women, so do women have similar reactions when they observe men with certain masculine traits. We often think of the male as competing with other males for the prize of mating with the female, but women, of course, also compete for the opportunity to mate with the male who has the most desirable traits. I'm going to teach you what those masculine traits are and how you can develop and use them so that you become more attractive and irresistible to women. I'm happy to report that some of you guys will be very relieved to know that looks

aren't at the top of the list of attraction for women. I'm just saying..... If you want to experience life's ultimate pleasure of falling in love and being in love - with all of the benefits that come with it - like incredible sex, great companionship, having someone to laugh with, someone to be there for you through good times and bad - and just having a partner to share and experience life with; then I promise to show you how to connect with her if you are willing to take the necessary steps I'm about to share. I can't think of a more important decision in life that you will ever make regarding your happiness than with whom you choose to share your life. Finding a quality woman all begins with meeting her, and in order to meet her, you'll need to know how to approach and cause her to be attracted and interested in you.
