

Nationalism And Sexuality Respectability And Abnormal Sexuality In Modern Europe

Nationalism and Sexuality -
George L. Mosse 2020

New Masculinities in
Contemporary German
Literature - Frauke Matthes
2023-05-13

The complex nexus between masculinity and national identity has long troubled, but also fascinated the German cultural imagination. This has become apparent again since the fall of the Iron Curtain and the turn of the millennium when transnational developments have noticeably shaped Germany's self-perception as a nation. This book examines the social and political impact of transnationalism with reference to current discourses of masculinity in novels by five

contemporary male German-language authors. Specifically, it analyses how conceptions of the masculine interact with those of nationality, ethnicity, and otherness in the selected texts and assesses the new masculinities that result from those interactions. Exploring how local discourses of masculinity become part of transnational contexts in contemporary writing, the book moves a consideration of masculinities from a "native" into a transnational sphere.

In Times of Crisis - Steven E. Aschheim 2001-02-01

The nineteenth- and twentieth-century relationship between European culture, German history, and the Jewish experience produced some of the West's most powerful and

Nationalism And Sexuality Respectability And Abnormal

Sexuality In Modern Europe

enduring intellectual ~~creations—and, perhaps in subtly paradoxical and interrelated ways, our century's darkest genocidal moments.~~ In *Times of Crisis* explores the flashpoints of this vexed relationship, mapping the coordinates of a complex triangular encounter of immense historical import. In essays that range from the question of Nietzsche's legacy to the controversy over Daniel Goldhagen's *Hitler's Willing Executioners*, the distinguished historian Steven E. Aschheim presents this encounter as an ongoing dialogue between two evolving cultural identities. He touches on past dimensions of this exchange (such as the politics of Weimar Germany) and on present dilemmas of grasping and representing it (such as the Israeli discourse on the Holocaust). His work inevitably traces the roots and ramifications of Nazism but at the same time brings into focus historical circumstances and contemporary issues often overshadowed or distorted by the Holocaust. These essays

~~reveal the ubiquitous charged inscriptions of Nazi genocide within our own culture and illuminate the projects of some later thinkers and historians—from Hannah Arendt to George Mosse to Saul Friedlander—who have wrestled with its problematics and sought to capture its essence.~~ From the broadly historical to the personal, from the politics of Weimar Germany to the experience of growing up German Jewish in South Africa, the essays expand our understanding of German Jewish history in particular, but also of historical processes in general.

Sexuality and German Fascism
- Dagmar Herzog 2005

"The interrelationship of fascism and sexuality has attracted a great deal of interest for some time now. This collection offers fresh perspectives by leading scholars on the history of sexuality under national socialism on such topics as the persecution of Jewish-gentile sex in the "race defilement" trials, homophobic propaganda

Nationalism And Sexuality Respectability And Abnormal

Sexuality In Modern Europe

and the prosecution of same-sex activity within the Wehrmacht and SS, representations of female sexuality in film, prostitution on home and battle fronts, sexual relations between Germans and foreign forced laborers, and reproductive practices among Jewish survivors. Moreover, the authors provide new insights into the relationships between Nazi sexual politics and antisemitism and challenge assumptions of Nazism as sexually repressive ; instead they emphasize the interrelationships between incitement to sexual activity and persecution and mass murder." --book jacket.

Our Friend "The Enemy" -

Thomas Weber 2008

At once a book about Oxford and Heidelberg University and about the character of European society on the eve of the World War I, Our Friend "The Enemy" challenges the idea that pre-1914 Europe was bound to collapse.

Magnus Hirschfeld and the Quest for Sexual Freedom -

E. Mancini 2010-11-08

This volume is the first full-length study on pioneering sexologist and sexual rights activist, Magnus Hirschfeld, that examines his impact on the politics and culture of late nineteenth-century and early twentieth-century Germany and the value of his rationalist humanist approach for contemporary debates on sexual rights.

Anti-Nazi Modernism - Mia Spiro 2012-12-31

Mia Spiro's Anti-Nazi Modernism marks a major step forward in the critical debates over the relationship between modernist art and politics. Spiro analyzes the antifascist, and particularly anti-Nazi, narrative methods used by key British and American fiction writers in the 1930s. Focusing on works by Djuna Barnes, Christopher Isherwood, and Virginia Woolf, Spiro illustrates how these writers use an "anti-Nazi aesthetic" to target and expose Nazism's murderous discourse of exclusion. The three writers challenge the illusion of harmony and unity

Nationalism And Sexuality Respectability And Abnormal

Sexuality In Modern Europe

promoted by the Nazi spectacle in parades, film, rallies, and propaganda. Spiro illustrates how their writings, seldom read in this way, resonate with the psychological and social theories of the period and warn against Nazism's suppression of individuality. Her approach also demonstrates how historical and cultural contexts complicate the works, often reinforcing the oppressive discourses they aim to attack. This book explores the textual ambivalences toward the "Others" in society—most prominently the Modern Woman, the homosexual, and the Jew. By doing so, Spiro uncovers important clues to the sexual and racial politics that were widespread in Europe and the United States in the years leading up to World War II.

Dangerous Sexualities - Frank Mort 2002-09-11

Dangerous Sexualities takes a look at how our ideas of health and disease are linked to moral and immoral notions of sex. Beginning in the 1830s, Frank Mort relates his social

historical narratives to the sexual choices and possibilities facing us now. This long-awaited second edition has been thoroughly updated to include new discussions of eugenics, race hygiene and social imperialism in the late nineteenth and early twentieth centuries. With a new and extended bibliography, introduction and illustrations, this second edition brings a classic into the 21st Century.

Antisemitism and Its Opponents in Modern Poland -

Robert Blobaum 2005

Antisemitism and Its Opponents in Modern Poland serves as an effective guide to some of the most complex and controversial issues of Poland's troubled past. Fourteen original essays by a team of distinguished Polish and American scholars explore the different meanings, forms of expression, content, and social range of antisemitism in modern Poland from the late nineteenth century to the present. The contributors focus on both the variations in antisemitic sentiment and

Nationalism And Sexuality Respectability And Abnormal

Sexuality In Modern Europe

those Poles who opposed such prejudices. Central themes of this significant, balanced, and timely contribution to a contentious and often emotional debate include the deterioration of Polish-Jewish relations in the era of national awakening for both the Poles and the Jews, the meaning of the various forms of violence against the Jews, intellectual movements in opposition to antisemitism, the role of the Catholic Church in promoting antisemitism, and the prospects for the Church to atone for this shameful chapter in its recent history.

The Perils of Normalcy -

Karel Plessini 2014-02-24

A taboo-breaker and a great provocateur, George L. Mosse (1918-99) was one of the great historians of the twentieth century, forging a new historiography of culture that included brilliant insights about the roles of nationalism, fascism, racism, and sexuality. Jewish, gay, and a member of a culturally elite family in Germany, Mosse came of age as the Nazis came to power,

before escaping as a teenager to England and America. Mosse was innovative and interdisciplinary as a scholar, and he shattered in his groundbreaking books prevalent assumptions about the nature of National Socialism and the Holocaust. He audaciously drew a link from bourgeois respectability and the ideology of the Enlightenment—the very core of modern Western civilization—to the extermination of the European Jews. In this intellectual biography of George Mosse, Karel Plessini draws on all of Mosse's published and unpublished work to illuminate the origins and development of his groundbreaking methods of historical analysis and the close link between his life and work. He redefined the understanding of modern mass society and politics, masterfully revealing the powerful influence of conformity and political liturgies on twentieth-century history. Mosse warned against the dangers inherent in acquiescence, showing how

Nationalism And Sexuality Respectability And Abnormal

Sexuality In Modern Europe

identity creation and ideological fervor can climax in intolerance and mass murder—a message of continuing relevance.

Confronting History - George L. Mosse 2013-09-10

Just two weeks before his death in January 1999, George L. Mosse, one of this century's great historians, finished writing his memoir, a fascinating and fluent account of a remarkable life that spanned three continents and many of the major events of the twentieth century. Writing about the events of his life through a historian's lens, Mosse gives us a personal history of our century. This is a story told with the clarity, passion, and verve that entranced thousands of Mosse's students and that countless readers have found, and will continue to find, in his scholarly books. This book describes Mosse's opulent childhood in Weimar Berlin; his exile in Paris and England, including boarding school and study at Cambridge University; his second exile in the U.S. at

Haverford, Harvard, Iowa, and Wisconsin; and his extended stays in London and Jerusalem. Mosse also deals with matters of personal identity. He discusses being a Jew and his attachment to Israel and Zionism. He addresses his gayness, his coming out, and his growing scholarly interest in issues of sexuality. This touching memoir, sometimes harrowing, often humorous, is guided in part by Mosse's belief that "what man is, only history tells," and by his constant themes of the fate of liberalism, the defining events that can bring about the generational political awakenings of youth (from the anti-fascism struggles of the 1930s to the campus anti-war movement of the 1960s, the meanings of masculinity and racial and sexual stereotypes, the enigma of exile, and - most of all - the importance of finding one's self through the pursuit of truth, and through an honest and unflinching analysis of one's place in the context of the times.

Gender Nonconformity,

Nationalism And Sexuality Respectability And Abnormal

Race, and Sexuality - Toni P. Lester 2002

How are culturally constructed stereotypes about appropriate sex-based behavior formed? If a person who is biologically female behaves in a stereotypically masculine manner, what are the social, political, and cultural forces that may police her behavior? And how will she manage her gendered image in response to that policing? Finally, how do race, ethnicity, or sexuality inform the way that sex-based roles are constructed, policed, or managed? The chapters in this book address such questions from social science perspectives and then examine personal stories of reinvention and transformation, including discussions of the lives of dancers Isadora Duncan and Bill T. Jones, playwright Lorraine Hansberry, and surrealist artist Claude Cahun. Writers from fields as diverse as history, art, psychology, law, literature, sociology, and the activist community look at gender nonconformity from

Sexuality In Modern Europe conceptual, theoretical, and empirical perspectives. They emphasize that gender nonconformists can be gay, lesbian, bisexual, transgender, or anyone else who does not fit a model of Caucasian heterosexual behavior characterized by binary masculine and feminine roles.

Fire Within - Kerry A. Trask 1995

Anderson's rendering of the war is further enriched by Rosa Kellner's splendid journal. From the Williams House Hotel, this teenage Bohemian innkeeper was a spectator and participant in the community. Her writings offer essential insights into wartime life on the homefront.

Close Reading - Frank Lentricchia 2003

DIVA reader intended for courses, presenting the continuity of close reading from New Criticism through poststructuralism./div

Contraception and Modern Ireland - Laura Kelly 2023-01-31

Contraception was the subject of intense controversy in

Nationalism And Sexuality Respectability And Abnormal

Sexuality In Modern Europe

twentieth-century Ireland.

Banned in 1935 and stigmatised by the Catholic Church, it was the focus of some of the most polarised debates before and after its legalisation in 1979. This is the first comprehensive, dedicated history of contraception in Ireland from the establishment of the Irish Free State in 1922 to the 1990s. Drawing on the experiences of Irish citizens through a wide range of archival sources and oral history, Laura Kelly provides insights into the lived experiences of those negotiating family planning, alongside the memories of activists who campaigned for and against legalisation. She highlights the influence of the Catholic Church's teachings and legal structures on Irish life showing how, for many, sex and contraception were obscured by shame. Yet, in spite of these constraints, many Irish women and men showed resistance in accessing contraceptive methods. This title is also available as Open Access.

Nationalism and Sexuality

George Lachmann Mosse 2020

The Bounds of Race - Dominick LaCapra 2018-08-06

The concept of race is central to one of the most powerful ideological formations in history, Dominick LaCapra argues in his introduction to this volume, and understanding the effects of that ideology and its intricate relations with issues of class and gender is one of the most pressing challenges to contemporary modes of thought. The eleven essays comprising *The Bounds of Race* confront this challenge with insight, rigor, and imagination. The authors take on questions of language, genre, and politics with reference to African-American, Anglo-American, African, South African, Francophone North African, British, and Afro-Hispanic texts. Individual chapters discuss writings from an array of genres including homily, autobiography, the novel, children's literature, and political and scientific discourse. Taken together, the

Nationalism And Sexuality Respectability And Abnormal

Sexuality In Modern Europe

essays argue persuasively that the existing canon must be expanded, that the protocols of interpretation must be transformed to make a prominent place for such issues as race, and that the problem of interpretation cannot be posed in the absence of theoretically informed modes of historical investigation. *The Bounds of Race* provides a subtle analysis of the variable role of racial ideologies and traces the interplay between hegemonic constraints and the strategies of resistance to them.

Historiography: Politics -

Robert M. Burns 2006

This collection aims to enable the reader to disentangle some of the ambiguities and confusions which have characterized the use of the term 'historiography'.

Queer in Europe - Robert Gillett 2016-04-15

Queer in Europe takes stock of the intellectual and social status and treatment of queer in the New Europe of the twenty-first century, addressing the ways in which

the Anglo-American term and concept 'queer' is adapted in different national contexts, where it takes on subtly different overtones, determined by local political specificities and intellectual traditions. Bringing together contributions by carefully chosen experts, this book explores key aspects of queer in a range of European national contexts, namely: Belgium, Cyprus, England, France, Germany, Hungary, Ireland, Italy, The Nordic Region, The Netherlands, Poland, Russia and Spain. Rather than prescribing a universalizing definition, the book engages with a wide spectrum of what is meant by 'queer', as each chapter negotiates the contested border between direct queer activist action based on identity categories, and more plural queer strategies that call these categories into question. The first volume in English devoted to the exploration of queer in Europe, this book makes an important intervention in contemporary queer studies.

Nationalism And Sexuality Respectability And Abnormal

~~Nationalism and Sexuality~~

George Lachmann Mosse 1985
Traces the relationship between nationalist ideology and the normative manners, morals, and sexuality of modern Europe which emerged at the end of the 18th century. Discusses the view that "outsiders"--Homosexual, insane, criminal, or Jewish - were abnormal, and the

~~Sexuality In Modern Europe~~

equation of racial degeneracy with sexual degeneracy. Some homosexuals, wishing to prove their masculinity, attacked Jews and embraced racism. In Weimar Germany, sexual decadence was blamed on the Jews. Ch. 7 (p. 133-152) deals with the relationship between sexuality and antisemitism in Germany and in Nazi thought.
