And Keep Your Powder Dry Margaret Mead 2000-07-30 Margaret Mead wrote this comprehensive sketch of the culture of the United States - the first since de Tocqueville - in 1942 at the beginning of the Second World War, when Americans were confronted by foreign powers from both Europe and Asia in a particularly challenging manner. Mead's work became an instant classic. It was required reading for anthropology students for nearly two decades, and was widely translated. It was revised and expanded in 1965 for a second generation of readers. Among the more controversial conclusions of her analysis are the denial of class as a motivating force in American culture, and her contention that culture is the primary determinant for individual character formation. Her process remains lucid, vivid, and arresting. As a classic study of a complex western society, it remains a monument to anthropological analysis.

Faith Formation in a Secular Age : Volume 1 (Ministry in a Secular Age) Andrew Root 2017-10-03 The loss or disaffiliation of young adults is a much-discussed topic in churches today. Many faith-formation programs focus on keeping the young, believing the youthful spirit will save the church. But do these programs have more to do with an obsession with youthfulness than with helping young people encounter the living God? Questioning the search for new or improved faith-formation programs, leading practical theologian Andrew Root offers an alternative take on the issue of youth drifting away from the church and articulates how faith can be formed in our secular age. He offers a theology of faith constructed from a rich cultural conversation, providing a deeper understanding of the phenomena of the "nones" and "moralistic therapeutic deism." Root helps readers understand why forming faith is so hard in our context and shows that what we have lost is not the ability to keep people connected to our churches but an imagination for how and where God could be present in their lives. He considers what faith is and what steps we can take to move into it, exploring a Pauline concept of faith as encounter with divine action.

Purity and Danger Professor Mary Douglas 2013-06-17 Purity and Danger is acknowledged as a modern masterpiece of anthropology. It is widely cited in non-anthropological works and gave rise to a body of application, rebuttal and development within anthropology. In 1995 the book was included among the Times Literary Supplement's hundred most influential non-fiction works since WWII. Incorporating the philosophy of religion and science and a generally holistic approach to classification, Douglas demonstrates the relevance of anthropological enquiries to an audience outside her immediate academic circle. She offers an approach to understanding rules of purity by examining what is considered unclean in various cultures. She sheds light on the symbolism of what is considered clean and dirty in relation to order in secular and religious, modern and primitive life.

The Sexual Life of Savages in North-western Melanesia Bronislaw Malinowski 1987

The Faith of a (Woman) Writer Hofstra University 1988-02-04 Reflecting the salient undercurrents of contemporary research on women writers, this volume is an appraisal of the work of the writer as woman and presents critics' perceptions about how women writers have dealt with the

complexity of changing female visions in the twentieth century. Each of the thirty-four essays, contributed by some of today's most distinguished writers, speaks to the work of a particular twentieth-century woman writer, and each constitutes a contribution to the scholarly debate. Questions are raised as to the appropriate posture a critic should adopt, and whether a critic of women's writing should deal with the work as the product of a woman's hand, dwelling on the sensibilities of the female consciousness, or assume that the proper point of departure remains the artistic and aesthetic norms that have emerged from generations of male-defined practice.

Michel Foucault offers an iconoclastic exploration of why we feel compelled to continually analyze and discuss sex, and of the social and mental mechanisms of power that cause us to direct the questions of what we are to what our sexuality is.

Magic, Science and Religion and Other Essays Bronislaw Malinowski 2014-04-10 This book contains three prolific essays by the world renown polish anthropologist Bronislaw Malinowski. First published in 1926, Magic, Science and Religion provides its readers with a seminal collection of texts exploring the concepts of magic, religion, science, rite and myth, detailing how they interlink to offer exciting and informative insights into the Trobrianders of New Guinea. A must-have for any students of anthropology and collectors of Malinowski's work, we are republishing this classic work with a new introductory biography of the author.

[Cooperation and Competition Among Primitive Peoples](#) Margaret Mead 2018-02-06 In many respects, this volume is a pioneer effort in anthropological literature. It remains firmly part of the genre of cooperative research, or "interdisciplinary research," though at the time of its original publication that phrase had yet to be coined. Additionally, this work is more theoretical in nature than a faithful anthropological record, as all the essays were written in New York City, on a low budget, and without fieldwork. The significance of these studies lies in the fact that Cooperation and Competition Among Primitive Peoples was the first attempt to think about the very complex problems of cultural character and social structure, coupled with a meticulous execution of comparative study.

Marriage and Morals Bertrand Russell 2017-12-14 First published in 1985. Marriage and Morals won Bertrand Russell the Nobel Prize for Literature in 1950. With his customary wit and clarity, Russell explores the changing role of marriage, the codes of sexual ethics and the question of population. By what codes should we live our sexual lives? Every aspect, from the origin of marriage to the values of a healthy sex life, from the influence of religion, psychoanalysis and taboos to the possibilities of eugenics, receives the incisive scrutiny of Russell's intellect. Here is the Passionate Sceptic at his most vigorous.

Sexuality and Its Discontents Jeffrey Weeks 2002-05-03 Few topics evoke so much anxiety and pleasure, pain and hope, discussion and silence as sexuality. Throughout the Christian era it has been a major moral preoccupation. Since the eighteenth century it has also been the focus of 'scientific' exploration and political activity. But, despite this obsessive concern, we are still as baffled as our predecessors about the 'true' meaning of sex. In this book Jeffrey Weeks unravels the dense web of historical, theoretical and political forces that have culminated in the contemporary crisis of sexual

meanings and values. The book begins with a powerful evocation of our present discontents and their potent signs: the rise of the New Right, the retreat of progressive forces and a wave of moral panics around sex. It argues that this crisis is rooted in a tradition which has ascribed an inflated importance to sexuality, whilst claiming a privileged access to truth. The author then examines radical debates of recent years, and asks whether they contain the potentiality for taking us beyond the existing boundaries of sexuality. From this analysis emerges a controversial 'radical pluralist' approach to sexuality built on an acceptance of diversity and choice. By linking our present discontents to a clear understanding of the past, Jeffrey Weeks presents a rational, optimistic and challenging vision of a realizable future.

Caliban and the Witch Silvia Federici 2021-07-29 'A groundbreaking work . . . Federici has become a crucial figure for . . . a new generation of feminists' Rachel Kushner, author of *The Mars Room* A cult classic since its publication in the early years of this century, *Caliban and the Witch* is Silvia Federici's history of the body in the transition to capitalism. Moving from the peasant revolts of the late Middle Ages through the European witch-hunts, the rise of scientific rationalism and the colonisation of the Americas, it gives a panoramic account of the often horrific violence with which the unruly human material of pre-capitalist societies was transformed into a set of predictable and controllable mechanisms. It is a study of indigenous traditions crushed, of the enclosure of women's reproductive powers within the nuclear family, and of how our modern world was forged in blood. This almost anecdotal historical study is often funny, sometimes disturbing, always revealing.

Encyclopedia of World Problems and Human Potential Union of International Associations 1994 The destruction of wildlife habitats ... organized crime ... AIDS ... illiteracy ... acid rain -- these are among the 130,000 topics documented and discussed in the new edition of the Encyclopedia. But its truly unique goal is to present this complex set of issues in ways that facilitate an organized response. To this end, the book also focuses on the complex relationship between problems and society's own ideological relationship with these problems. How do human priorities and perceptions aggravate or enable problems? What are the established and alternative responses? The Encyclopedia contains over 158,000 cross-references between entries, an extensive 91,000 practical key term index, bibliographies, and full cross-referencing to the Yearbook of International Organizations. For anyone concerned with the world community, here are the means to explore and participate in today's most crucial endeavors. Volume 1, World Problems, presents diverse perspectives on the nature, origin, and incidence of each issue, delving beneath news reports and official pronouncements to reveal subtle causative nuances such as psychological outlook, political inaction, scapegoating, and cover-ups.

Race Manners for the 21st Century Bruce A. Jacobs 2006 On a crowded bus, a solitary black man seethes while boarding passengers take every seat except the one next to his; in a cafeteria, whites wonder why blacks congregate at the same table every day; in front of a store, a white woman clutches her purse when a black man passes nearby. Each scenario suggests that how we act toward and react to each other on a day-to-day basis stems from racial assumptions, misunderstandings, and biases. Some we acknowledge, others we are blind to. Talking about race relations in America is never easy. Bruce A. Jacobs has written a book that shows us how we can begin not with lofty abstractions or policy arguments, but with practicality and directness. Over the past six years, Jacobs, an indefatigable promoter, has traveled the country, learning and listening as people react to his book and add their own comments. The result is a completely revised work, bringing this increasingly important subject up to date, and to a much larger audience.
