Women Who Perpetrate Relationship Violence -

Frederick Buttell 2014-06-03

Find out what drives women to violence in their intimate relationships—and how to prevent it. *Women Who Perpetrate Relationship Violence* examines the causes and consequences of violence initiated by women against their partners. This unique book fills the void of available literature on domestically violent women, taking a frank look at the issues surrounding female batterers who are the primary aggressors in their intimate relationships. Contributors write candidly about the similarities and differences between violent women and violent men, how to develop effective interventions,

existing theories on the development of abusive behavior in women, and society's response to violent women. The counseling and psychological community has responded to the problem of domestic abuse and violence against women. But very little has been done to address the issues of domestic abuse and violence committed by women. *Women Who Perpetrate Relationship Violence* presents innovative original research that focuses specifically on women as offenders, rather than simply adapting programs created for male batterers to women. The book includes epidemiological studies, secondary analyses, personality profiles, and a study of women entering a 16-week, court-

mandated, batterer intervention program (BIP). Women Who Perpetrate Relationship Violence examines: predictors of intimate violence, including antisocial criminal records, alcohol abuse, and personality disorders associations between interpersonal dependency and violence elevated histrionic, narcissistic, and compulsive personality traits personality disorders lethal domestic assaults recidivism differences in demographic and psychological variables between women who complete treatment programs and those who drop out and much more Women Who Perpetrate Relationship Violence is an invaluable professional resource for psychologists, social workers, and counselors.

psychological injuries, it is suitable for mental health practitioners researchers, and legal professionals who work with psychological injuries.

Treating Substance Abusers in Correctional Contexts -

Nathaniel J. Pallone 2003 The papers in this collection present an overview of new and emerging models for treatment of drug-involved offenders. They explore types of treatment that operate under the surveillance of courts and the criminal justice system, from in-prison programs to residential substance abuse treatment (RSAT) and substance abuse treatment (SAT) programs in the community. Topics covered include: outcome assessments, event-history analysis, relapse prevention, rehabilitation, diversion, and therapeutic justice.

Myths and Realities of Crime and Justice - Steven E. Barkan 2013-07-19

An Engaging and Accessible Overview of Crime and Justice in America For all their interest in crime, most Americans know

Race Ethnicity Sexual Orientation Violent Crime The Realities And The Myths

very little about the reality of crime and the criminal justice system in the United States—and most of what Americans do know is a loose collection of accumulated truths, half-truths, and outright fallacies. *Myths and Realities of Crime and Justice: What Every American Should Know, Second Edition* provides a concise but thorough overview of criminal behavior, crime, and the criminal justice system in the United States. Using up-to-date social science research to debunk many of the beliefs Americans hold about crime, the book examines key topics such as serial killers and mass murders, gun violence, criminal victimization, identity theft, policing and police corruption, plea bargaining, jury nullification, wrongful convictions, the death penalty, and the “CSI Effect.” The fully revised and updated second edition of this popular text includes the most recent crime and criminal justice data, and covers several recent high-profile crimes, including the Newtown shooting, the Jerry

Sandusky case, and the Trayvon Martin case. It also includes new sections on recent trends in crime rates, street gangs, and hate crimes. Ideally suited for students in criminal justice programs as well as professionals who work within or in tandem with the criminal justice system, *Myths and Realities of Crime and Justice: What Every American Should Know, Second Edition* is a thorough, engaging, and highly relevant portrait of crime and justice in America. [Family Empowerment as an Intervention Strategy in Juvenile Delinquency](#) - Richard Dembo 2001
Between 1994 and 1997, arrested youths processed at the Hillsborough County Juvenile Assessment Center (Florida) and their families had the option of enrolling in a Family Empowerment Intervention program. This volume discusses the concept and goals of the program and reports on its long term effects on juvenile offender recidivism and psychosocial functioning. The volume was co-published

Religion, the Community, and the Rehabilitation of Criminal Offenders - Thomas P O'Connor
2013-01-11

Explore the relationship between faith-based programs, religion, and offender rehabilitation! This book reports on current research from several disciplines to help the reader understand the nature and impact of the relationship between faith-based programs, religion, and offender rehabilitation. *Religion, the Community, and the Rehabilitation of Criminal Offenders* is a unique resource—there has been very little research published on this important topic. President Bush's faith-based initiative recognized that religion plays a role in the justice system and corrections that is overlooked but essential—it increases the role of community and caring in the system in a unique and important way. This

pathbreaking book points the way toward a system of faith-based programs that are not only effective but also economical, as these programs are often staffed by volunteers. *Religion, the Community, and the Rehabilitation of Criminal Offenders* addresses important questions regarding the importance and effectiveness of faith-based rehabilitation programs, including: What is the relationship between prison religion and offender rehabilitation? What motivates inmates to become involved with religious programs and activities? What is the prison chaplain's role in rehabilitation? Are certain religious denominations more effective than others in preventing crime, delinquency, and recidivism? How does religious activity help inmates adjust to the prison environment? What do inmates have to say about the religious programs they encounter within the system? How did Islam develop within American correctional institutions and what changes has the

movement gone through in recent years? Why do female African-American inmates tend to resist conversion to Islam while their male counterparts embrace the Muslim faith in increasing numbers? How can sacred texts and social theory be utilized as teaching tools and intervention strategies in the transformation processes of men incarcerated for violent crimes? (A fascinating study from the Sing-Sing prison) and more!

Transcendental Meditation in Criminal Rehabilitation and Crime Prevention

- Charles Nathaniel Alexander 2003

This is a collection of papers on the use of Maharishi Transcendental Meditation® and TM-Sidhi programs to reduce offender recidivism.

The papers provide a theoretical overview, new original research findings, and examples of practical implementation. Studies covering periods of 1-15 years indicate that employing the Maharishi Transcendental Meditation and TM-Sidhi programs may reduce recidivism by 35-50%.

Racialization, Crime, and Criminal Justice in Canada

- Wendy Chan 2014-04-29

Race Ethnicity Sexual Orientation Violent Crime The Realities And The Myths

Race still matters in Canada, and in the context of crime and criminal justice, it matters a lot. In this book, the authors focus on the ways in which racial minority groups are criminalized, as well as the ways in which the Canadian criminal justice system is racialized. Employing an intersectional analysis, Chan and Chunn explore how the connection between race and crime is further affected by class, gender, and other social relations. The text covers not only conventional topics such as policing, sentencing, and the media, but also neglected areas such as the criminalization of immigration, poverty, and mental illness.

Treating Substance Abusers in Correctional Contexts -

Letitia C Pallone 2012-10-12
Get the latest information on new and emerging modalities for treating drug-involved offenders! *Treating Substance Abusers in Correctional Contexts: New Understandings, New Modalities* analyzes the shift in policy and attitude away from

two decades of the harsh punishment that characterized the war on drugs toward a more treatment-oriented “medicalization” of the problem. Edited by Dr. Nathaniel J. Pallone, editor of the *Journal of Offender Rehabilitation* (Haworth), the book presents an overview of new and emerging models for treatment of drug-involved offenders in a variety of settings. An international panel of authors examines the “rather treat than fight” approach to the war on drugs proposed by the voters of California, the Governor and criminal court judges of New York, and Gen. Barry McCaffrey, former Director of the White House Office of National Drug Control Policy. *Treating Substance Abusers in Correctional Contexts* looks at treatment modalities available to offenders inside and outside correctional institutions, with community organizations and mental health and social service agencies enlisted in a continuum of care as the courts and criminal justice system

provide oversight—and often, funding. The book explores types of treatment that operate under the surveillance of courts and the criminal justice system, ranging from in-house programs for offenders under confinement in prisons and jails to residential substance abuse treatment (RSAT) and substance abuse treatment (SAT) programs in the community. Through qualitative, exploratory, and descriptive studies, outcome assessments, event-history analysis, and intensive interviews, the book examines recovery relapse prevention, rehabilitation, diversion, therapeutic justice, and the impact of prison-based substance abuse treatment programs. *Treating Substance Abusers in Correctional Contexts* also examines: the impact of deterrence versus rehabilitation on recidivism in the Drug Treatment Alternative-to-Incarceration Program (DTAP) in a major metropolitan area criminal violence and drug use in residential treatment facilities

Residential Substance Abuse Treatment (RSAT) programs for young offenders the long-term effectiveness of an adult drug court program illicit drug and injecting equipment markets inside English prisons and a clinical case report on children exposed in utero to crack cocaine *Treating Substance Abusers in Correctional Contexts: New Understandings, New Modalities* is must reading for graduate and undergraduate courses in criminal justice, corrections, offender rehabilitation, and substance abuse. The book is equally valuable as a primary textbook for continuing education coursework for counselors, psychologists, social workers, corrections officers, correctional administrators, and policymakers.

Drug Courts in Operation - James Joseph Hennessy

utilized approach to rehabilitating substance abusers. Drug courts offer their participants a chance to better themselves by providing support and structure to those that do not have it in their life, offering substance abusers a chance to participate in rehabilitation in lieu of incarceration. This insightful book examines the history of drug courts as a principal treatment alternative to incarceration, outlines the risk factors of children living with drug-addicted parents, and introduces a program to help strengthen families. The book delivers vital information on: introducing programs to help prevent narcotic use by children with drug-addicted parents the need for cultural- and gender-specific treatment plans, especially in the treatment of women and African-American males treatment dosage effects the importance of length of participation to outcomes focus groups designed to help drug court participants with their employment needs predictors

*Routledge Handbook on
Victims' Issues in Criminal
Justice* - Cliff Roberson
2017-04-21

The Routledge Handbook on Victims' Issues in Criminal Justice is a comprehensive and authoritative handbook on current issues, with a distinctive emphasis on the delivery of suitable and effective services. The editor provides an introduction and conclusion to the handbook, synthesizing original contributions from current leaders in the field, surveying victims' rights in the United States, victim participation in the criminal justice system, victims' welfare and needs, and most notably the services that have been developed in response. A section on special populations in the United States brings focus to current and emerging issues faced within the country, while a section covering international and transnational victimization explores globalization and the

implications of other legal traditions and systems. This handbook addresses the crucial and complex topic of victims' issues, examining both societal and governmental reactions to victims' concerns and acquainting readers with the issues that discord may cause, and how they affect the provision of services. This book will serve as an essential reference for academics and practitioners working with crime victims, as well as for students taking courses in victimology, criminology, sociology, and related subjects. *Cruel but Not Unusual* - Ramona Alaggia 2013-05-21 Violence in families and intimate relationships affects a significant proportion of the population—from very young children to the elderly—with far-reaching and often devastating consequences. *Cruel but Not Unusual* draws on the expertise of scholars and practitioners to present readers with the latest research and thinking about the history, conditions, and impact of violence in these

contexts. For this new edition, chapters have been updated to reflect changes in data and legislation. New chapters include an examination of trauma from a neurobiological perspective; a critical analysis of the “gender symmetry debate,” a debate that questions the gendered nature of intimate violence; and an essay on the history and evolution of the women’s movement dedicated to addressing violence against women, which advances theoretical developments that remind readers of the breadth of inclusivity that should be at the heart of working in this field.

Social Work with Multicultural Youth - Diane Deanda
2013-01-11

Explore the cultural, familial, and community resilience and protective factors that are available to different youth populations in the U.S.! The face of American youth is

changing. In 2000, ethnic minority youth constituted one third of the adolescent population; by mid-century, the combined ethnic minority youth population will exceed the white adolescent population. This vital book illustrates the diversity within the adolescent population, examines the factors that serve as barriers and as facilitators to development, and identifies strengths and protective factors contributing to resilience as well as needs and risk factors. *Social Work with Multicultural Youth* presents accurate conceptual frameworks for understanding the experiences of ethnic youth to help you create culturally relevant interventions to promote their well-being. Here is a sample of what you'll find in this important and informative book: a comprehensive epidemiological profile of adolescent populations—with current data on issues that contribute to adolescents' health and well-being cultural strengths models and resilience models

Bias - Dr. Clifton Wilcox
2011-08-10

There was also a great deal of conflict within the town of Salem, Massachusetts. Salem was a community in turmoil in 1692. Bad weather reduced harvests. An epidemic of small pox had swept through the town. Indians renewed attacks on the frontier settlements. The townspeople feared that another conflict like the recent King Phillip's War was about to engulf them. Also, there was great political uncertainty, since the King of England had revoked the colony's charter in 1684. The colonists had been without a sanctioned government since they had forced, though without

bloodshed, ejected the King's chosen replacement in 1689. On an ill-fated day in 1692, a harmless childhood game set in motion a chain of events that would forever make Salem, Massachusetts, infamous in American history.

Rehabilitation Issues, Problems, and Prospects in Boot Camp - Brent Benda

2013-04-03

Boot camps—what are their effects on criminal behavior? Public and political support for boot camps as alternative correctional facilities has rarely faltered since their inception decades ago, though their efficacy remains uncertain. *Rehabilitation Issues, Problems, and Prospects in Boot Camp* explores all facets of the controversial issue, from the attitudes and perceptions of the public, to the political motivations in maintaining them, on to the latest research on the camps and their graduates. Respected authorities discuss boot camps' effectiveness on diverse groups according to age, gender, race,

and correctional facility. Cost factors between boot camps and other correctional institutions are compared, along with the latest criminal recidivism data. Boot camps provide inmates with an uncomfortable, paramilitary-style environment with an eye toward shorter incarceration time, lower costs, and more positive effects on criminal behavior. Does this correctional model work as anticipated? *Rehabilitation Issues, Problems, and Prospects in Boot Camp* gives you the facts, revealing the public and political arguments for and against boot camps as well as the research on the theoretical predictors of criminal recidivism and the differing attitudes of attendees toward the facilities according to gender and race. Critical policy issues are identified and discussed in-depth, with particular emphasis given to the positive and negative aspects of rehabilitation possibilities of boot camps. Helpful tables clearly illustrate statistics while extensive

references provide opportunities for further insight. Rehabilitation Issues, Problems, and Prospects in Boot Camp explores questions such as: criminal recidivism—what are the theoretical predictors? what effect does gender have on criminal recidivism? what is the effect of this hypermasculine paramilitary prison environment have on males— and females? what are the differences between Native American and non-Native American perceptions of boot camp? is the perceived severity of boot camp different for

gender? what is the process for policymaking in creating and maintaining boot camps? what role does politics play in the continuation of boot camps? what corrections to boot camp facilities should be made based upon evidence and research? Rehabilitation Issues, Problems, and Prospects in Boot Camp is a thorough examination of the social and political issues about boot camps that makes essential reading for educators, students, sociologists, criminologists, psychologists, counselors, and criminal justice professionals.
