Bridging Mobilities -

Nyamnjoh, Henrietta M.

2013-12-08

This is a study on the creative appropriation of Information and Communication Technologies (ICTs) by mobile Africans and the communities to which they belong, home and away. With a focus on Cameroonian migrants from Pinyin and Mankon who are currently living in Cape Town and the Netherlands, this book examines the workings of the social fabric of mobile communities. It sheds light on how these communities are crafting lives for themselves in the host country and simultaneously linking up with the home country thanks to advances in ICTs and road and

air transport. ICTs and mobilities have complemented social relational interaction and provide migrants today with opportunities to partake in cultural practices that express their Pinyin-ness and Mankon-ness. Pinyin and Mankon migrants are still as rooted in the past as they are in the present. They were born into a community with its own sense of home, moral ethos and cultural pride but live in a context of accelerated ICTs and mobility that is fast changing the way they live their lives. Drawing on this detailed ethnographic case study and related literature, Henrietta Nyamnjoh argues that while ICTs continue to enhance mobility for those who move

Relationship Portraits Capture Emotion In Black White Photography

and for those who stay put, they have become inextricably linked in forging networks and reconfiguring existing ones. Contrary to earlier studies that predicted radical social change and the passing of traditional societies in the face of new technologies, ICTs have been appropriated to enhance the workings of existing social relations and ways of life while simultaneously pointing to new directions in ever more creative and innovative ways.

The New Art of Capturing

Love - Kathryn Hamm

2014-05-06

The first guide to posing and sensitively capturing same-sex couples on their big day, *The New Art of Capturing Love* equips semi-pro and professional wedding photographers to enter the exciting new LGBT wedding photography market. With nearly half of the states in the US (and 13 countries) currently recognizing same-sex partnerships, the market for LGBT weddings is poised for explosive growth, offering great opportunity for today's

wedding photographers. But capturing portraits in this new market requires a new approach to posing, which until now has been nearly exclusively oriented toward pairing a larger man in black with a smaller woman in white. What works for Jack and Jill won't necessarily work for Jack and Michael, let alone Jill and Louise. *The New Art of Capturing Love* rewrites these traditional techniques, giving photographers the tools to create flattering, emotion-filled images for any couple in today's dynamic wedding market.

Photographing the Female Form with Digital Infrared -

Laurie Klein 2014-07-08

Photographing female nudes is about more than just the body. For Laurie Klein, it is about capturing the feminine spirit. Laurie's creative medium is nature. The landscape plays as much of a role in her photos as does the model. Laurie's unique way of using infrared photography, and the caring, personal way she captures her subject's innermost emotions

Relationship Portraits Capture Emotion In Black White Photography

becomes a transformational experience for both photographer and client. In this book, Klein details her techniques and her inspirations in creating these unforgettable images. Shooting nudes in nature is complex. The photographer needs to know when to start with the model and arrange nature around them or see something in nature and treat the model as part of the nature. Klein gives many ideas for posing models in relationship to nature and the landscape. She masterfully uses infrared photography to capture the beauty of the surroundings and the female form. Each photo in the book is accompanied by details of the location or setting, camera settings, composition concepts and insight into the idea and execution of the shot. Part of what makes Klein's photos so unique and vibrant is that she develops a trusting environment that allows the subject to give themselves over completely to a transcendent photographic experience. Out of this usually comes a series of

fine art portraits or a substantial book for them to enjoy, share and pass on through the generations. Using the body as a landscape, Klein crafts unique and sometimes abstract images that emphasize the beauty of the female form in different ways. Sometimes the simplicity of the image is the beauty of it. The infrared photography format provides striking contrasts between the skin tones and the natural surroundings. Tips are given for choosing unique locations that can work best for creating artful images like the ones in the book. Being able to improvise and set-up a shoot when discovering a unique setting or lighting scenario can be the key to crafting a stunning portrait. Sometimes the unexpected can occur and a prepared and creative photographer can turn that into a magical moment captured in infrared. Klein is recognized for her signature infrared photography style. This book provides in insight into her creative process. The 1966 Green Bay Packers -

Relationship Portraits - Tim Walden 2016-06

Tim Walden's photographic forte is capturing relationship images—emotionally resonant images that show the connection between subjects. To achieve this goal, he strives to proceed through a three-step portrait process: capture, adjust, and refine. He studies the clients and does not push the shutter button until he sees some magic unfold. If the clients are still "in the moment," he may make a slight adjustment to the pose or lighting and capture a second, slightly varied image. If the subjects are still enthralled at that point, he will make a further refinement, producing a portrait that, in Tim's mind, is the pinnacle shot—the dynamic, emotionally evocative, storytelling images he strives for. In this book, Tim presents over 60 images from some of

his most memorable sessions, sharing with readers tips for capturing moments, enhancing the presentation, and truly amplifying the artistry of the capture to produce a fine-art image that will be cherished for generations.

Love Looks Not with the Eyes: Thirteen Years with Lee Alexander McQueen -

Anne Deniau 2012-10-15

DIVLee Alexander McQueen (1969†“2010), whose design combined visionary aesthetics, emotional power, and extraordinary craft, was known for staging provocative shows that were as much performances as venues to

Photography

display his couture creations. Charged with energy, informed by history and culture, and filled with fresh concepts, McQueen's shows have become legends not only of fashion but also of art. Anne Deniau was the only photographer allowed backstage by McQueen for 13 years, beginning in September 1997 and ending with the final show in March 2010. She captured McQueen working with his close circle of collaborators—including designer Sarah Burton, milliner Philip Treacy, jewelry designer Shaun Leane, and model Kate Moss—to create his meticulously produced spectacles. Her book offers an inspiring homage, through the art of photography, to the work of a great artist. Praise for *Love Looks Not With the Eyes: Thirteen Years With Lee Alexander McQueen: The pictures are evocative of the torture, the toughness and, most of all, the tenderness of Mr. McQueen.* —New York Times “Deniau’s close connection to McQueen and her appreciation for his

formidable talent is like many of the pieces he created: breathtaking.” —San Francisco Chronicle “The kinetic color and black-and-white photographs document the fantastical, shocking spectacle of a McQueen show in action: hairdos trussed up with birds of prey; hubcaps strapped to foreheads; faces enhanced by extraterrestrial cheek prostheses. The images are sensual, spooky, and whimsical, playing up the drama of McQueen’s vision; like one of the designer’s fabulous garments, the photographs transform fashion into high art. The book is both an homage and a memorial; this celebration of McQueen’s vast, unique talent is also a eulogy for his tragic loss.” — “Haute couture has a reputation for spectacle, but Anne Deniau’s photographs remind us that it’s also the last bastion of craftsmanship in fashion—or it was, as practiced by designer Alexander McQueen (1969–2010).” —Wall Street Journal “Lush,

previously unpublished backstage photographs from many of the late designer's provocative fashion shows.†?—The Los Angeles Times “The kinetic color and black-and-white photographs document the fantastical, shocking spectacle of a McQueen show in action: hairdos trussed up with birds of prey; hubcaps strapped to foreheads; faces enhanced by extraterrestrial cheek prostheses. The images are sensual, spooky, and whimsical, playing up the drama of McQueen's vision; like one of the designer's fabulous garments, the photographs transform fashion into high art. The book is both an homage and a memorial; this celebration of McQueen's vast, unique talent is also a eulogy for his tragic loss.†? —Publishers Weekly “Love Looks Not with the Eyes document[s] the intense work and equally intense emotions that played out behind the scenes of McQueen's poetic, passionate, and provocative shows. . . . The intimacy is

evident in the pictures.†? —Vogue “The haunting images offer a rarefied glimpse into the designer's inner world.†? —Harper's Bazaar “Deniau, in the process of documenting 26 McQueen presentations, captured images which, too, transcend photography—matching the decadent and grand world created by the hands of McQueen.†? —Time.com “Haute couture has a reputation for spectacle, but Anne Deniau's photographs remind us that it's also the last bastion of craftsmanship in fashion—or it was, as practiced by designer Alexander McQueen (1969†?2010).†? —Wall Street Journal **Mamarazzi** - Stacy Wasmuth 2011-05-04 Calling all mamarazzis! A Gift of Time - Amy

Kuebelbeck 2011-02-15

A Gift of Time is a gentle and practical guide for parents who decide to continue their pregnancy knowing that their baby's life will be brief. When prenatal testing reveals that an unborn child is expected to die before or shortly after birth, some parents will choose to proceed with the pregnancy and to welcome their child into the world. With compassion and support, *A Gift of Time* walks them step-by-step through this challenging and emotional experience—from the infant's life-limiting prenatal diagnosis and the decision to have the baby to coping with the pregnancy and making plans for the baby's birth and death. *A Gift of Time* also offers inspiration and reassurance through the memories of numerous parents who have loved a child who did not survive. Their moving experiences are stories of grief—and of hope. Their anguish over the prenatal

diagnosis turns to joy and love during the birth of their child and to gratitude and peace when reflecting on their baby's short life. Full of practical suggestions for parents and for caregivers, *A Gift of Time* also features the innovative concept of perinatal hospice and palliative care. Caring and thoughtful, the book helps parents embrace the extraordinary time they will have with their child.

An Introduction to World Cinema, 2d ed. - Aristides

Gazetas 2016-04-28

Motion pictures are more than just entertainment. In film studies courses in colleges and universities worldwide, students and professors explore the social, political, technological and historical implications of cinema. This textbook provides two things: the history of film as an art form and an analysis of its impact on society and politics. Chapters are arranged chronologically, covering the major developments in film, like the advent of talkies or the French New Wave. Each era is

examined in the context of several exemplary films commonly viewed in film studies courses. Thus students can watch *Birth of a Nation* and *Intolerance* while studying the innovations made by D.W. Griffith from 1910 to 1919. The scope is global, embracing the cinematic traditions of Asia, Latin America and Africa, as well as the ever important American and European output. Thoughtful articles from film scholars are included. The flexible structure of the text allows a variety of options for classroom use or personal study. Instructors considering this book for use in a course may request an examination copy [here](#).

Visually stunning, and unique in its collaborative approach, 'Expressive Photography' brings the spirit of the immensely popular Shutter Sisters website to the printed page through the voice and photography of its founding members.

Critical and Creative Research Methodologies in Social Work - Lia Bryant
2016-03-09

Social work research is concerned with complex social issues closely connected to communities of people who are marginalized and oppressed. This volume develops critical and creative research methodologies that place questions of social justice at their centre and take innovative approaches to collecting, analysing, interpreting and presenting

Relationship Portraits Capture Emotion In Black White Photography

research data. The first section of the book examines textual data produced from an array of methodologies focused on the spoken and/or written word. These approaches allow those who are often silenced to speak by providing space and time to capture memory and meanings that may not come to light in a time driven structured research method like an interview or a questionnaire. The second section of the book discusses visual methods, including an examination of historical artefacts like, photographs and objects, and participant engagement with art, specifically clay sculpture and drawings. Both sets of methods examine the concept of 'time', that is, how we understand time, as in our past memories, how we develop relationships and knowledge over time. These creative and critical methods provide new insights into ways of undertaking social research in social work which captures the complexity of social experiences, problems and meanings that are, more often

than not, embedded in time and place.

Desaturated Soul - Gloria Golden 2009-11

Ever since my teenage years, I've had a great desire to travel and find adventure. Using the camera to attain these goals, I have had some of the greatest adventures of my life. My life has been forever by the cultural influences and people I've encountered in my travels. The images I've taken are magical to me, and it is my hope that viewers will observe the uniqueness in each one. This goal is the basis for the collection, Desaturated Soul. Loneliness is a common motif in portraits and landscapes. I Took most of the photographs during the last ten years, a period of great change in my life. My children were on their own, and I had more free time. Feelings of loneliness sometimes crept into my world. Photography filled that void and brought me great joy. Black and white photography is soulful and exudes emotion. It's another language, with a special beauty of its own. Such

Relationship Portraits Capture Emotion In Black White Photography

fundamentally different images as portraits, landscapes, and the surreal are included in the book. By combining photographs with text, I've attempted to create a specific mood. Exposing my soul to the world has been exhilarating, yet at the same time a bit frightening. However, these visuals and the written word complement each other and comprise the final work. Drawing on inspiration from the photographs, I am highly motivated to write. Instinct is the tool that tells me whether or not to commit to a photograph. Something strikes me in an instant and I'm ready to go. My goal is to capture the feeling of the moment so as to evoke the viewer's emotional reaction. The photographer is much like a psychologist, studying the complexity of human nature and understanding human emotion. My response to mannequin photography is much the same as my response to human photography. Although the mannequins are not real, I see something in their faces or an

~~expression that seems real.~~

Giving them life through photography is quite exciting. Feelings for particular landscapes operate in a similar fashion. There's a gut feeling to photograph, something I feel in the depths of my soul. I feel the sun and the lay of the land. The cliff dwellings, for example, bring to mind the "Ancients", the Anasazi, who left the areas where they once thrived. The reasons for their departure are unknown, and their lifestyle must have been remarkable. Photographing up close creates a personal connection between the photographer and the subject. An observer might take a second look as he studies the image. In that way, he is also taking a second look at the artist, who projects his personality onto the work. When reaching into a person's soul with the camera's lens, one feels his strength or weakness. To feel the beauty and spirit of the land creates excitement in landscape photography. I would like to touch people and have them feel as they have never felt

Relationship Portraits Capture Emotion In Black White Photography

before. Some might feel a connection to the biker's strength or to the love surrounding eighty-two year old Maria. The photographs introduce thought-provoking ideas, allowing the viewer to form a greater understanding of his or her own feelings. Capturing only a small portion of what the world has to offer is my accomplishment. Given that there are so many more unique faces and places to see, there is much work to be done. My goal is to continue exploring the unusual and exotic with the camera.

The Art of Children's Portrait Photography -

Tamara Lackey 2008-11-01
Contemporary photographs that cleverly capture a child's mood or personality--whether that's a big, toothy grin or a teary tantrum--are easily

created with the tips and techniques explored in this in-depth handbook. Often called "lifestyle photography," modern techniques such as tightly cropped close-ups, vignettes, wide angles, and shallow depths produce images that are markedly less stiff and more expressive than traditional portraiture. From capturing great expressions and body language to integrating meaningful locations into the shoot to further express the subject's personality, this guide thoroughly explains how photographers can develop their image-storytelling skills to develop stunning portraits. Advice on creating platinum and chocolate-hued prints, vibrant color scenes, dramatic black & whites, and utilizing unusual textures or effects is also included.
