Frogs Into Princes Richard Bandler 1990 This work covers Neuro Linguistic Programming (NLP), a model of human experience and communication. Using the principles of NLP, the book asserts that it is possible to describe any human activity in a detailed way that allows the reader to make many changes quickly and easily. It claims that using the techniques of NLP one can learn to: cure phobias and other unpleasant feeling responses; help children and adults with learning disabilities overcome these limitations; eliminate unwanted habits, eg. smoking, drinking, over-eating and insomnia; and make changes in the interactions of couples, families and organizations so that they function in ways that are more satisfying and productive.

On the Edge: Political Cults Right and Left Dennis Tourish

2015-05-22 This is the first book to document the extent of political cults on both the right and left and explain their significance for mainstream political organizations. The authors outline the defining characteristics of cults in general, and analyze the degree to which a variety of well-known movements fall within the spectrum of cultic organizations. The book covers such individuals and groups as Lyndon LaRouche, Fred Newman, Ted Grant, Marlene Dixon, the Christian Identity movement, Posse Comitatus, Aryan Nation, militias, and the Freemen. It explores the ideological underpinnings that predispose cult followers to cultic practices, along with the measures cults use to suppress dissent, achieve intense conformity, and extract extraordinary levels of commitment.

Thought Reform and the Psychology of Totalism Robert Jay Lifton

2012-01-01 Informed by Erik Erikson's concept of the formation of ego identity, this book, which first appeared in 1961, is an analysis of the experiences of fifteen Chinese citizens and twenty-five Westerners who underwent "brainwashing" by the Communist Chinese government. Robert Lifton constructs these case histories through personal interviews and outlines a thematic pattern of death and rebirth, accompanied by feelings of guilt, that characterizes the process of "thought reform." In a new preface, Lifton addresses the implications of his model for the study of American religious cults.

The Cult of Trump Steven Hassan 2020-09-01 A masterful and eye-opening examination of Trump and the coercive control tactics he uses to build a fanatical devotion in his supporters written by “an authority on breaking away from cults...an argument that...bears consideration as the next election cycle heats up” (Kirkus Reviews). Since the 2016 election, Donald Trump’s behavior has become both more disturbing and yet increasingly familiar. He relies on phrases like, “fake news,” “build the wall,” and continues to spread the divisive mentality of us-vs.-them. He lies constantly, has no conscience, never admits when he is wrong, and projects all of his shortcomings on to others. He has become more authoritarian, more outrageous, and yet many of his followers remain blindly devoted. Scott Adams, the creator of Dilbert and a major Trump supporter, calls him one of the most persuasive people living. His need to squash alternate information and his insistence of constant ego stroking are all characteristics of other famous leaders—cult leaders. In The Cult of Trump, mind control and licensed mental health expert Steven Hassan draws parallels between our current president and people

like Jim Jones, David Koresh, Ron Hubbard, and Sun Myung Moon, arguing that this presidency is in many ways like a destructive cult. He specifically details the ways in which people are influenced through an array of social psychology methods and how they become fiercely loyal and obedient. Hassan was a former “Moonie” himself, and he presents a “thoughtful and well-researched analysis of some of the most puzzling aspects of the current presidency, including the remarkable passivity of fellow Republicans [and] the gross pandering of many members of the press” (Thomas G. Gutheil, MD and professor of psychiatry, Harvard Medical School). *The Cult of Trump* is an accessible and in-depth analysis of the president, showing that under the right circumstances, even sane, rational, well-adjusted people can be persuaded to believe the most outrageous ideas. “This book is a must for anyone who wants to understand the current political climate” (Judith Stevens-Long, PhD and author of *Living Well, Dying Well*).

The Program Toni Natalie 2019-09-24 A jaw-dropping insider look into the world of the so-called "Hollywood Sex Cult" NXIVM chronicling the rise of enigmatic cult leader, Keith Raniere, from its "Patient Zero," his former girlfriend and test subject for his coercive control techniques. Many have heard of NXIVM and its creator, Keith Raniere, the unassuming Albany man now prosecuted for ensnaring tens of thousands of people in the US, Mexico, Canada and elsewhere, to do his bidding and pay millions of dollars to participate in his self-improvement methodology. But where did Keith Raniere begin? Enter Toni Natalie, Keith's Patient Zero, the first one indoctrinated into Raniere's methodology and the first one to escape. THE PROGRAM begins with the origin story of NXIVM, follows its rise to international prominence, and takes the reader into the downfall of Raniere through Toni's eyes. During this time she bore witness to the evolution of his methodology, including his use of sex, blackmail, and employment of psychological tools such as neuro-linguistic programming to control and punish those who would not heed his wishes. She uniquely details the fortunes lost and the lives left in disarray that she witnessed contemporaneously, including members of DOS, a group of women coerced into sexual acts under the guise of a "women's empowerment" inner circle, whom Raniere exercised extreme control over directly and through his lieutenants. But far from being a victim's story, in the spirit of Erin Brockovich, Toni's is a nuanced narrative of a multi-

An Everyday Cult Gerette Buglion 2021-08-25 A personal memoir and a wake-up call for society to recognize and reject the erosion of critical thinking, *An Everyday Cult* is an essential read for understanding how people fall prey to mind control and cultic manipulation. Buglion's true-life story follows her through eighteen years under a trusted teacher's unethical tutelage and shows how her innocent quest for meaning was answered by a man who ultimately eroded her capacity for critical thinking. Through a treacherous narrative, she lays bare the hallmarks of cultic manipulation-mind control that flies under the radar of human awareness-and implores society to wake up to its ever-present abuses of power. It is a redemptive book of self-awareness and self-discovery. *An Everyday Cult* imparts a universal story, demonstrating how recognition of cultic membership--largely riddled with preconceived notions--may be an essential key to human evolution.

desire and identity. What exactly is sexual attraction and what is it like to go through life not experiencing it? What does asexuality reveal about gender roles, about romance and consent, and the pressures of society? This accessible examination of asexuality shows that the issues that aces face—confusion around sexual activity, the intersection of sexuality and identity, navigating different needs in relationships—are the same conflicts that nearly all of us will experience. Through a blend of reporting, cultural criticism, and memoir, Ace addresses the misconceptions around the “A” of LGBTQIA and invites everyone to rethink pleasure and intimacy. Journalist Angela Chen creates her path to understanding her own asexuality with the perspectives of a diverse group of asexual people. Vulnerable and honest, these stories include a woman who had blood tests done because she was convinced that “not wanting sex” was a sign of serious illness, and a man who grew up in a religious household and did everything “right,” only to realize after marriage that his experience of sexuality had never been the same as that of others. Disabled aces, aces of color, gender-nonconforming aces, and aces who both do and don’t want romantic relationships all share their experiences navigating a society in which a lack of sexual attraction is considered abnormal. Chen’s careful cultural analysis explores how societal norms limit understanding of sex and relationships and celebrates the breadth of sexuality and queerness.

ever come across.” —Douglas Preston An investigation into the November, 2019 killings of nine women and children in Northern Mexico—an event that drew international attention—The Colony examines the strange, little-understood world of a polygamist Mormon outpost. On the morning of November 4, 2019, an unassuming caravan of women and children was ambushed by masked gunmen on a desolate stretch of road in northern Mexico controlled by the Sinaloa drug cartel. Firing semi-automatic weapons, the attackers killed nine people and gravely injured five more. The victims were members of the LeBaron and La Mora communities—fundamentalist Mormons whose forebears broke from the LDS Church and settled in Mexico when their religion outlawed polygamy in the late nineteenth century. The massacre produced international headlines for weeks, and prompted President Donald Trump to threaten to send in the US Army. In The Colony, bestselling investigative journalist Sally Denton picks up where the initial, incomplete reporting on the attacks ended, and delves into the complex story of the LeBaron clan. Their homestead—Colonia LeBaron—is a portal into the past, a place that offers a glimpse of life within a polygamous community on an arid and dangerous frontier in the mid-1800s, though with smartphones and machine guns. Rooting her narrative in written sources as well as interviews with anonymous women from LeBaron itself, Denton unfolds an epic, disturbing tale that spans the first polygamist emigrations to Mexico through the LeBarons’ internal blood feud in the 1970s—started by Ervil LeBaron, known as the “Mormon Manson”—and up to the family’s recent alliance with the NXIVM sex cult, whose now-imprisoned leader, Keith Raniere, may have based his practices on the society he witnessed in Colonia LeBaron. The LeBarons’ tense but peaceful interactions with Sinaloa deteriorated in the years leading up to the ambush. LeBaron patriarchs believed they were deliberately targeted by the cartel. Others suspected that local farmers had carried out the attacks in response to the LeBarons’ seizure of

water rights for their massive pecan orchards. As Denton approaches answers to who committed the murders, and why, The Colony transforms into something more than a crime story. A descendant of polygamist Mormons herself, Denton explores what drove so many women over generations to join or remain in a community based on male supremacy and female servitude. Then and now, these women of Zion found themselves in an isolated desert, navigating the often-mysterious complications of plural marriage—and supported, Denton shows, only by one another. A mesmerizing feat of investigative journalism, The Colony doubles as an unforgettable account of sisterhood that can flourish in polygamist communities, against the odds.

Love, Sex, Fear, Death Timothy Wyllie 2009-06-01 The Process Church of the Final Judgment was the apocalyptic shadow side of the flower-powered '60s and perhaps the most notorious cult of modern times. Hundreds of black-cloaked devotees, often wearing a satanic "Goat of Mendes" and a swastika-like mandala, swept the streets of London, New York, Boston, Chicago, New Orleans, and Toronto, selling magazines and books with titles like Fear and Humanity is the Devil. And within the group's "Chapters," members would participate in "Midnight Meditations" beneath photographs of the Christ-like leader. Celebrities like Marianne Faithful, James Coburn, and Mick Jagger participated in Process publications, and Funkadelic, in its Maggot Brain album, reprinted Process' "Fear Issue." Process' "Death Issue" interviewed the freshly-imprisoned Charles Manson leading to conspiracy hysteria in such books as Ed Sanders' The Family and Maury Terry's The Ultimate Evil. A lawsuit against Sanders' Manson book led to the removal of its Process-themed chapter by Dutton. Love, Sex, Fear, Death is the shocking, surprising, and secretive inside story of The Process Church, which was later transformed into Foundation Faith of the Millennium, and most recently as the Utah-based animal sanctuary, Best Friends.

Captive Catherine Oxenberg 2018-08-07 In this heartbreaking and shocking exposé, one of Dynasty's biggest stars lays bare a secretive organization that is holding her daughter hostage and details her mission to save her in this powerful depiction of a mother's love and determination. I am a mother whose child is being abused and exploited. And I am not alone. In 2011, Catherine joined her daughter, India, at a leadership seminar for a new organization called NXIVM. Her twenty-year-old daughter was on the threshold of building a new company and they both thought this program might help her achieve her dream. But quickly, Catherine saw a sinister side to what appeared to be a self-help organization designed to help its clients become the best versions of themselves. Catherine watched in horror as her daughter fell further and further down the rabbit hole, becoming brainwashed by the organization's charismatic leader. Despite Catherine's best efforts, India was drawn deeper into the cult, eventually joining a secret, elite "sorority" of women members who are ordered to maintain a restricted diet, recruit other women as "slaves," and are branded with their leader's initials. In *Captive*, Catherine shares every parent's worst nightmare, and the lengths that a mother will go to save her child. Featuring interviews with past members of NXIVM and experts in the field of cults, Oxenberg attempts to draw back the curtain on how these groups continue to lure in members. She relates her continuing journey to try to reach her daughter, to save her from what she believes is a dangerous, mind-controlling cult.

Cultish Amanda Montell 2021-06-15 The author of the widely praised *Wordslut* analyzes the social science of cult influence:

how cultish groups from Jonestown and Scientology to SoulCycle and social media gurus use language as the ultimate form of power. What makes “cults” so intriguing and frightening? What makes them powerful? The reason why so many of us binge Manson documentaries by the dozen and fall down rabbit holes researching suburban moms gone QAnon is because we’re looking for a satisfying explanation for what causes people to join—and more importantly, stay in—extreme groups. We secretly want to know: could it happen to me? Amanda Montell’s argument is that, on some level, it already has . . . Our culture tends to provide pretty flimsy answers to questions of cult influence, mostly having to do with vague talk of “brainwashing.” But the true answer has nothing to do with freaky mind-control wizardry or Kool-Aid. In *Cultish*, Montell argues that the key to manufacturing intense ideology, community, and us/them attitudes all comes down to language. In both positive ways and shadowy ones, cultish language is something we hear—and are influenced by—every single day. Through juicy storytelling and cutting original research, Montell exposes the verbal elements that make a wide spectrum of communities “cultish,” revealing how they affect followers of groups as notorious as Heaven’s Gate, but also how they pervade our modern start-ups, Peloton leaderboards, and Instagram feeds. Incisive and darkly funny, this enrapturing take on the curious social science of power and belief will make you hear the fanatical language of “cultish” everywhere.

Lying there completely naked, I am at my most vulnerable but determined to prove my strength. I try to keep my legs closed as my body wills itself to protect my most private area. . . . I tell myself: I am a warrior. I birthed a human. I can handle pain. But nothing could have ever prepared me for the feel of this fire on my skin." Scarred is Sarah Edmondson's compelling memoir of her recruitment into the NXIVM cult, the 12 years she spent within the organization (during which she enrolled over 2,000 members and entered DOS—NXIVM's "secret sisterhood"), her breaking point, and her harrowing fight to get out, to expose Keith Raniere and the leadership, to help others, and to heal. Manhattan Cult Story Spencer Schneider 2022-07-05 “We were invisible. We had to be. We took an oath of absolute secrecy. We never even told our immediate families who we were. We went about our lives in New York City. Just like you. We were your accountants, money managers, lawyers, executive recruiters, doctors. We owned your child’s private school and sold you your brownstone. But you’d never guess our secret lives, how we lived in a kind of silent terror and fervor. There were hundreds of us.” Right under the noses of neighbors, clients, spouses, children, and friends, a secret society, simply called School—a cult of snared Manhattan professionals—has been led by the charismatic, sociopathic and dangerous leader Sharon Gans for decades. Spencer Schneider was recruited in the eighties and he stayed for more than twenty-three years as his life disintegrated, his self-esteem eroded, and he lined the pockets of Gans and her cult. Cult members met twice weekly, though they never acknowledged one another outside of meetings or gatherings. In

the name of inner development, they endured the horrors of mental, sexual, and physical abuse, forced labor, arranged marriages, swindled inheritances and savings, and systematic terrorizing. Some of them broke the law. All for Gans. “During those years,” Schneider writes, “my world was School. That’s what it’s like when you’re in a cult, even one that preys on and caters to New York’s educated elite. This is my story of how I got entangled in School and how I got out.” At its core, Manhattan Cult Story is a cautionary tale of how hundreds of well-educated, savvy, and prosperous New Yorkers became fervent followers of a brilliant but demented cult leader who posed as a teacher of ancient knowledge. It’s about double-lives, the power of group psychology, and how easy it is to be radicalized—all too relevant in today’s atmosphere of conspiracy and ideologue worship.

Terror, Love and Brainwashing Alexandra Stein 2016-11-03

Written by a cult survivor and renowned expert on cults and totalitarianism, *Terror, Love and Brainwashing* draws on the author’s 25 years of study and research to explain how almost anyone, given the right set of circumstances, can be radically manipulated to engage in otherwise incomprehensible and often dangerous acts. Illustrated with compelling stories from a range of cults and totalitarian systems, from religious to political to commercial, the book defines and analyses the common and identifiable traits that underlie almost all these groups. It focuses on how charismatic, authoritarian leaders control their followers’ attachment relationships via manipulative social structures and ideologies so that, emotionally and cognitively isolated, they become unable to act in their own survival interests. Using the evolutionary theory of attachment to demonstrate the psychological impact of these environments, and incorporating the latest neuroscientific findings, Stein illustrates how the combined dynamic of terror and ‘love’ works to break down people’s ability to think and behave rationally. From small local

cults to global players like ISIS and North Korea, the impact of these movements is widespread and growing. This important book offers clarity and a unique perspective on the dynamics of these systems of control, and concludes with guidance to foster greater awareness and prevention. It will be essential reading for mental health professionals in the field, as well as policy makers, legal professionals, cult survivors, and their families, as well as anyone with an interest in these disturbing groups. Students of social and developmental psychology will also find it fascinating.

High Priest of California Charles Willeford 2019-11-01 High Priest of California, first published in 1953, is a gritty noir thriller by Charles Willeford. The book, Willeford's first novel, centers on San Francisco used-car salesman Russell Haxby, a highly unpleasant character, who, motivated perhaps by sheer boredom, engages in small time cons and seduces a married woman. Willeford (1919-1988) is best known for his books featuring hardboiled detective Hoke Moseley. A roaring saga of the male animal on the prowl—The world was his oyster—and women his pearls!

[a tale] of hard-won survival, and creating a life after the unimaginable.”—Salon The inspiration for the Hulu docuseries *Stolen Youth*, directed by Zach Heinzerling and co-produced by Daniel Barban Levin In September 2010, at the beginning of the academic year at Sarah Lawrence College, a sophomore named Talia Ray asked her roommates if her father could stay with them for a while. No one objected. Her father, Larry Ray, was just released from prison, having spent three years behind bars after a conviction during a bitter custody dispute. Larry Ray arrived at the dorm, a communal house called Slonim Woods 9, and stayed for the whole year. Over the course of innumerable counseling sessions and “family meetings,” the intense and forceful Ray convinced his daughter’s friends that he alone could help them “achieve clarity.” Eventually, Ray and the students moved into a small Manhattan apartment, beginning years of manipulation and abuse, as Ray tightened his control over his young charges through blackmail, extortion, and ritualized humiliation. After a decade of secrecy, Larry Ray was finally indicted on charges of extortion, sex trafficking, forced labor, and money laundering. Daniel Barban Levin was one of the original residents of Slonim Woods 9. Beginning the moment Daniel set foot on Sarah Lawrence’s idyllic campus and spanning

Hoodwinked Anthony Todd Arnold 2019-04-09 To hoodwink means to deceive or trick, to cover, or to provide a false report to gain the advantage for a desired goal. The word is also textbook Donald J. Trump, who rose to political prominence when he questioned whether Barack Obama was born in the United States of America. Trump learned racism from his father Fred Trump Sr., who also taught other family members to live by the doctrine of white supremacy. In fact, Trump's racist, bigoted, and sexist view of the world were all taught by his father as decisive character traits in building his financial dynasty. Throughout his career—including as President of the United States--Trump has also relied on an adept talent for propaganda, which Adolf Hitler devoted three chapters to in his 1925 book, Mein Kampf. the MNL pathology? Through the psychoanalytic lens of Otto Kernberg, the authors explain the etiology of the charismatic MNL's clinical features: charisma, grandiosity, criminality, sadism, and paranoia. The book outlines the limitations and complexity of diagnosis, contextualizing the MNL within the transcendental and millenarian movements, and discusses the patho-dynamics of high-pressure groups and totalitarian regimes, including types of groups, methods of mind control, categories of constituents, the corporate totalitarian state, and the authoritarian demagogue. The book looks at a wide range of leaders including Donald Trump, Bhagwan Shree Rajneesh, Roger Ailes, Keith Raniere, Jan of Leiden, and Credonia Mwerinde. Distinguishing the disordered personality of the MNL from other personality disorders, and presenting a new model of overlapping descriptors to categorize high-pressure group types and identifying types of followers as well, this book represents essential reading for psychodynamically minded psychologists, psychiatrists, social workers, sociologists, political scientists, and those working in organizational development.
