**The Kama Sutra of Vatsyayana - Vatsyayana**  
2021-08-29

The Kama Sutra of Vatsyayana Vatsyayana - The Kama Sutra of Vatsyayana by Richard Francis Burton is an edition of the ancient Indian text on sexuality and emotional needs. Vatsyayana was an ancient Indian philosopher who lived during the second or third century. Although it is often thought of as a sex manual, it is much more, with guides on living well, the nature of love, and finding a partner. Indeed, Vatsyayana says himself: 'This work is not to be used merely as an instrument for satisfying our desires'. Burton did not in fact translate the Kama Sutra - it was translated by the Indian scholar Bhagwan Lal Indrajit. It was edited by Burton to suit prevailing British attitudes to sex, but was still banned in England and the United States until 1962. Other criticisms levelled at Burton's translation is that instead of using English words for the sex organs, he uses the words 'lingam' and 'yoni', despite those words not appearing in the original work. This was seen as an attempt to distance them and make them 'other', rather than about English people's sexual organs. He also removes the agency of women, and where in the original, women's words are direct quotes, in the Burton translation, women's words are removed and put into the passive state (i.e., A woman saying 'Stop!' becomes 'She continually utters words expressive of prohibition'). Despite all this, it has been such an influential translation that even modern editions in the Hindi language are re-translations of the Burton version. The Kama Sutra is an ancient Indian

Hindu text widely considered to be the standard work on human sexual behavior in Sanskrit literature written by Vaatsyayana. A portion of the work consists of practical advice on sexual intercourse. It is largely in prose, with many inserted anustubh poetry verses. "Kama" which is one of the four goals of Hindu life, means desire including sexual desire the latter being the subject of the textbook, and "sutra" literally means a thread or line that holds things together, and more metaphorically refers to an aphorism (or line, rule, formula), or a collection of such aphorisms in the form of a manual. Contrary to popular perception, especially in the western world, Kama sutra is not exclusively a sex manual; it presents itself as a guide to a virtuous and gracious living that discusses the nature of love, family life and other aspects pertaining to pleasure oriented faculties of human life.

*Sex in Development - Vincanne Adams*  
2005-04-12

Sex in Development examines how development projects around the world intended to promote population management, disease prevention, and maternal and child health intentionally and unintentionally shape ideas about what constitutes "normal" sexual practices and identities. From sex education in Uganda to aids prevention in India to family planning in Greece, various sites of development work related to sex, sexuality, and reproduction are examined in the rich, ethnographically grounded essays in this volume. These essays demonstrate that ideas related to morality are repeatedly enacted in

ostensibly value-neutral efforts to put into practice a "global" agenda reflecting the latest medical science. *Sex in Development* combines the cultural analysis of sexuality, critiques of global development, and science and technology studies. Whether considering the resistance encountered by representatives of an American pharmaceutical company attempting to teach Russian doctors a "value free" way to offer patients birth control or the tension between Tibetan Buddhist ideas of fertility and the modernization schemes of the Chinese government, these essays show that attempts to make sex a universal moral object to be managed and controlled leave a host of moral ambiguities in their wake as they are engaged, resisted, and reinvented in different ways throughout the world. **Queerly Phrased** - Anna Livia 1997-11-20

This pioneering collection of previously unpublished articles on lesbian, gay, bisexual, and transgender language combines queer theory and feminist theory with the latest thinking on language and gender. The book expands the field well beyond the study of "gay slang" to consider gay dialects (such as Polari in England), early modern discourse on gay practices, and late twentieth-century descriptions of homosexuality. These essays examine the conversational patterns of queer speakers in a wide variety of settings, from women's friendship groups to university rap groups and electronic mail postings. Taking a global--rather than regional--approach, the contributors herein study the language usage of sexually liminal communities in a variety of linguistic and cultural contexts, such as lesbian speakers of American Sign Language, Japanese gay male couples, Hindi-speaking hijras (eunuchs) in North India, Hausa-speaking 'yan daudu (feminine men) in Nigeria, and French and Yiddish gay groups. The most accessible and diverse collection of its kind, *Queerly Phrased: Language, Gender, and Sexuality* sets a new standard in the study of language's impact on the construction of sexuality.

**Bangladesh Cinema and National Identity** - Zakir Hossain Raju 2014-12-17

Throughout the twentieth and early twenty-first centuries, cinema has been adopted as a popular cultural institution in Bangladesh. At the same time, this has been the period for the articulation of modern nationhood and cultural identity of Bengali Muslims in Bangladesh. This book analyses the relationship between cinema and modernity in Bangladesh, providing a narrative of the uneven process that produced the idea of "Bangladesh cinema." This book investigates the roles of a non-Western "national" film industry in Asia in constructing nationhood and identity within colonial and postcolonial predicaments. Drawing on the idea of cinema as public sphere and the postcolonial notion of formation of the "Bangladesh" nation, interactions between cinema and middle-class Bengali Muslims in different social and political matrices are analyzed. The author explores how the conflict among different social groups turned Bangladesh cinema into a site of contesting identities. In particular, he illustrates the connections between film production and reception in Bangladesh and a variety of nationalist constructions of Bengali Muslim identity. Questioning and debunking the usual notions of "Bangladesh" and "cinema," this book positions the cinema of Bangladesh within a transnational frame. Starting with how to locate the "beginning" of the second Bengali language cinema in colonial Bengal, the author completes the investigation by identifying a global Bangladeshi cinema in the early twenty-first century. The first major academic study on this large and vibrant national cinema, this book demonstrates that Bangladesh cinema worked as different "public spheres" for different "publics" throughout the twentieth century and beyond. Filling a niche in Global Film and Media Studies and South Asian Studies, it will be of interest to scholars and students of these disciplines.

**Kamasutra** - Vātsyāyana 2002

The Kamasutra is the oldest extant Hindu textbook of erotic love. It is about the art of living - about finding a partner, maintaining power in a marriage, committing adultery, living as or with a courtesan, using drugs - and also about the positions in sexual intercourse. It was composed in Sanskrit, the literary language of ancient India, sometime in the third century of the common era, probably in North India. It combines an encyclopedic coverage of all imaginable aspects of sex with a closely

observed sexual psychology and a dramatic, novelistic narrative of seduction, consummation, and disentanglement. Best known in English through the highly mannered, padded, and inaccurate nineteenth-century translation of Sir Richard Burton, the text is presented here in an entirely new translation into clear, vivid, sexually frank English, together with three commentaries: translated excerpts from the earliest and most famous Sanskrit commentary (13th century) and from a twentieth-century Hindi commentary, and explanatory notes by the two translators. The lively and entertaining introduction by Wendy Doniger discusses the history of the text and its reception in India and Europe, analyses its attitudes toward gender and sexual violence, and sets it in the context of ancient Indian social theory, scientific method, and sexual ethics.

*Cosmopolitan Sexuality* - Ahonaa Roy 2022-10-31  
 "In a historic verdict, the Supreme Court of India in September 2018, struck down Section 377 of the Indian Penal Code and decriminalized homosexuality and granted personal rights and freedom to the LGBTQIA community at large. However, in December 2018, the Transgender Persons Bill was passed in the Lok Sabha (the People's House and lower house of Indian Parliament) that has negated and undermined the rights of the trans community in India. The Bill omits the reference to a 'neither male nor female' formulation, and covers any person whose gender does not match the gender assigned at birth, as well as transmen, transwomen, those with intersex variations, the gender-queer, and those who designate themselves based on socio-cultural identities such as hijra, aravani, kinner and jogta. This book articulates the ethnographic and anthropological studies of hijras (eunuchs) and the popular transgender culture in India through the case study of contemporary Mumbai. It studies how their identity is shaped through consumption of various practices of beauty and takes into account the direct provincial dialogues as to how the hijras negotiate different spaces of surgeries, clinics and medicine to shape their new forms of identity. It highlights how globalizing modernity would build a concrete understanding of the way local patterns of transgender sexuality and eroticism are

shaped by this sort of culture. It attempts to build a more robust and complex understanding of sexual experiences among these subjects in the locale, thus projecting the intersection of local meanings of transgender eroticism that intersect global patterns of similar identities with their desire and sexuality. The local specificity of the hijra sexual economy relates to global transgender practices, thus proposing a nuanced discourse of space, culture and sexuality to the local context of the globalized and modernized India, instead of the articulation of global homogeneity of transgender identities"-

**Language Ideologies and the Vernacular in Colonial and Postcolonial South Asia** - Nishat Zaidi 2023-09-29

This volume critically engages with recent formulations and debates regarding the status of the regional languages of the Indian subcontinent vis-à-vis English. It explores how language ideologies of the "vernacular" are positioned in relation to the language ideologies of English in South Asia. The book probes into how we might move beyond the English-vernacular binary in India, explores what happened to "bhasha literatures" during the colonial and post-colonial periods and how to position those literatures by the side of Indian English and international literature. It looks into the ways vernacular community and political rhetoric are intertwined with Anglophone (national or global) positionalities and their roles in political processes. This book will be of

**With Respect to Sex** - Gayatri Reddy 2010-05-15

With Respect to Sex is an intimate ethnography that offers a provocative account of sexual and social difference in India. The subjects of this study are hijras or the "third sex" of India—individuals who occupy a unique, liminal space between male and female, sacred and profane. Hijras are men who sacrifice their genitalia to a goddess in return for the power to confer fertility on newlyweds and newborn children, a ritual role they are respected for, at the same time as they are stigmatized for their ambiguous sexuality. By focusing on the hijra community, Gayatri Reddy sheds new light on Indian society and the intricate negotiations of identity across various domains of everyday life.

Further, by reframing hijra identity through the local economy of respect, this ethnography highlights the complex relationships among local and global, sexual and moral, economies. This book will be regarded as the definitive work on hijras, one that will be of enormous interest to anthropologists, students of South Asian culture, and specialists in the study of gender and sexuality.

*Mapping Scientific Method* - Gita Chadha 2022-07-19

This volume explores how the scientific method enters and determines the dominant methodologies of various modern academic disciplines. It highlights the ways in which practitioners from different disciplinary backgrounds -- the humanities, the natural sciences, and the social sciences -- engage with the scientific method in their own disciplines. The book maps the discourse (within each of the disciplines) that critiques the scientific method, from different social locations, in order to argue for more complex and nuanced approaches in methodology. It also investigates the connections between the method and the structures of power and domination which exist within these disciplines. In the process, it offers a new way of thinking about the philosophy of the scientific method. Part of the Science and Technology Studies series, this volume is the first of its kind in the South Asian context to debate scientific methods and address questions by scholars based in the global south. It will be useful to students and practitioners of science, humanities, social sciences, philosophy of science, and philosophy of social science. Research scholars from these disciplines, especially those engaging in interdisciplinary research, will also benefit from this volume.
