"Art, Sex and Eugenics" - Anthea Callen 2017-07-05

This book reveals how art and sex promoted the desire for the genetically perfect body. Its eight chapters demonstrate that before eugenics was stigmatized by the Holocaust and Western histories were sanitized of its prevalence, a vast array of Western politicians, physicians, eugenic societies, family leagues, health associations, laboratories and museums advocated, through verbal and visual cultures, the breeding of 'the master race'. Each chapter illustrates the uncanny resemblances between models of sexual management and the perfect eugenic body in America, Britain, France, Communist Russia and Nazi Germany both before and after the Second World War. Traced back to the eighteenth-century anatomy lesson, the perfect eugenic body is revealed as athletic, hygienic, 'pure-blooded' and sexually potent. This paradigm is shown to have persisted as much during the Bolshevik sexual revolution, as in democratic nations and fascist regimes. Consistently posed naked, these images were unashamedly exhibitionist and voyeuristic. Despite stringent legislation against obscenity, not only were these images commended for soliciting the spectator's gaze but also for motivating the spectator to act out their desire. An examination of the counter-archives of Maori and African Americans also exposes how biologically racist eugenics could be equally challenged by art. Ultimately this book establishes that art inculcated procreative sex with the *Corpus Delecti* - the delectable body, healthy, wholesome and sanctioned by eugenicists for improving the Western race.

[The Loss of Male Sexual Desire in Ancient Mesopotamia](#) - Gioele Zisa 2021-11-22

After more than fifty years since the last publication, the cuneiform texts relating to the treatment of the loss of male sexual desire and vigor in Mesopotamia are collected in this volume. The aim of the book is to present Mesopotamian medical tradition regarding the so-called *nīš libbi* therapies. *šà-zi-ga* in Sumerian, *nīš libbi* in Akkadian, lit. "raising of the 'heart'", is the expression used to indicate a group of texts intended to recover the male sexual desire. This medical tradition is preserved from the Middle Babylonian period to the Achaemenid one. This broad range testifies to the importance of the transmission of this material throughout Mesopotamian history. The book provides the edition of this textual corpus and analyzes it in the light of new knowledge on ancient Near Eastern medicine. Moreover, this volume aims to show how theories and methodologies of Cultural Anthropology, Ethnopsychiatry and Gender Studies are useful for understanding the Mesopotamian medical system. This edition is an important tool for understanding Mesopotamian medical knowledge for Assyriologist, however since the texts have been translated and discussed using the anthropological and gender perspectives they are accessible also to scholars of other research fields, such as History of Medicine, Sexuality and Gender.

Sex and International Tribunals - Chiseche Salome Mibenge 2013-07-26

Before the twenty-first century, there was little legal precedent for the prosecution of sexual violence as a war crime. Now, international tribunals have the potential to help make sense of political violence against both men and women; they have the power to uphold victims' claims and to convict the leaders and choreographers of systematic atrocity. However, by privileging certain accounts of violence over

others, tribunals more often confirm outmoded gender norms, consigning women to permanent rape victim status. In *Sex and International Tribunals*, Chiseche Salome Mibenge identifies the cultural assumptions behind the legal profession's claims to impartiality and universality. Focusing on the postwar tribunals in Rwanda and Sierra Leone, Mibenge mines the transcripts of local and supranational criminal trials and truth and reconciliation commissions in order to identify and closely examine legal definitions of forced marriage, sexual enslavement, and the conscription of children that overlook the gendered experiences of armed conflict beyond the mass rape of women and girls. In many cases, a single rape conviction constitutes sufficient proof that gender-based violence has been mainstreamed into the prosecution of war crimes. Drawing on anthropological research in African conflicts, and feminist theory, Mibenge challenges legal narratives that reinscribe essentialized notions of gender in the conduct and resolution of violent conflict and uncovers the suppressed testimonies of men and women who are unwilling or unable to recite the legal scripts that would elevate them to the status of victimhood recognized by an international and humanitarian audience. At a moment when international intervention in conflicts is increasingly an option, *Sex and International Tribunals* points the way to a more nuanced and just response from courts.

The Transnational Redress Movement for the Victims of Japanese Military Sexual Slavery - Pyong Gap Min 2020-02-10

This book examines the redress movement for the victims of Japanese military sexual slavery in South Korea, Japan, and the U.S. comprehensively. The Japanese military forcefully mobilized about 80,000-200,000 Asian women to Japanese military brothels and forced them into sexual slavery during the Asian-Pacific War (1932-1945). Korean "comfort women" are believed to have been the largest group because of Korea's colonial status. The redress movement for the victims started in South Korea in the late 1980s. The emergence of Korean "comfort women" to society to tell the truth beginning in 1991 and the discovery of Japanese historical documents, proving the responsibility of the Japanese military for establishing and operating military brothels by a Japanese historian in 1992 accelerated the redress movement for the victims. The movement has received strong support from UN human rights bodies, the U.S. and other Western countries. It has also greatly contributed to raising people's consciousness of sexual violence against women at war. However, the Japanese government has not made a sincere apology and compensation to the victims to bring justice to the victims.

Film and Sexual Politics - Kylo-Patrick R. Hart 2009-01-14

Film and Sexual Politics: A Critical Reader features a variety of noteworthy critical essays that explore the evolution, representation, and social construction of sex, gender, and sexual orientation from the early days of cinema to the early twenty-first century. This collection investigates the complex relations between film form/style and sexual

politics (past and present), as well as the ideological and social ramifications of those relations for the lived realities of individuals in the United States over the course of the twentieth century and beyond. Contrary to popular perceptions of films as relatively simplistic forms of "entertainment," the essays in this collection demonstrate clearly how the act of producing meaning through the use of cinematic verbal and visual signs is far from a simple process with negligible historical consequences. This book offers insightful and satisfying reading to established and emerging scholars who explore film history, theory, and criticism, as well as to all readers with a general interest in film history and the effects of cinema on individuals and popular culture. The range of films analyzed includes *Being John Malkovich*, *Citizen Kane*, *Elizabeth*, *Female Perversions*, *From Here to Eternity*, *Gidget*, *The Incredible Shrinking Man*, *Jackass the Movie*, *The Matrix*, *Maurice*, *My Own Private Idaho*, *Porcile*, *The Road to Ruin*, and *Wilde*.
