**Contemporary Sex Offender Risk Management, Volume II** - Hazel Kemshall 2017-11-25

This book, the second of two volumes edited by Kemshall and McCartan, focuses on responses to sexual offending, and how risk is used by policy makers, stakeholders, academics and practitioners to both construct and respond to unknown and known sex offenders within the contexts of criminal justice, health and social policy. The chapters provide an oversight of contemporary policies, practices and debates within the area to help both professionals and researchers. The collection focuses on emerging areas (crime linkage, predictive policing, sexual offending across borders, desistance, and public health approaches), as well as more traditional topics (multi-agency working, risk assessment, sex offender policies, and treatment). The authors examine how professionals

can use multi-agency approaches to prevent sexual violence, and assessing the impact of desistance on framing sex offender management. A bold and engaging volume, this edited collection will be of great importance to scholars and practitioners working reframing traditional approaches to sex offender management in a contemporary fashion.

**Handbook of Public Protection** - Mike Nash 2010-09-27

Public protection has become an increasingly central theme in the work of the criminal justice agencies in many parts of the world in recent years. Its high public profile and consequent political sensitivity means that growing numbers of criminal justice professionals find their daily work load dominated by the assessment and management of high risk of harm offenders. Developments such as sex offender registers and (in the UK) Multi Agency Public Protection Arrangements (Mappa) have made

this issue not only a core activity for police, probation and prison services, but to a range of other organizations as well, in particular social work and the health services. Partnership has become central to the concept of public protection. At the same time the concept of public protection has occasioned increased political debate. Protecting the public from high risk or dangerous offenders has become an international issue and has increasingly shaped criminal justice policy. This text brings together leading authorities in the field, providing authoritative coverage of the theory and practice of public protection, both in the UK and internationally. It provides a critical review of contemporary public protection practice as well as up-to-date research and thinking in the field.

Managing High Risk Sex Offenders in the Community - Karen Harrison 2010-03

Sex offenders, and in particular paedophiles, have been the subject of much political and media attention, producing intensive debates about the best way of dealing with them. This book explores these issues, evaluating the measures in use or being considered, including drug treatment, MAPPA, the use of the Sex Offender Register, restorative justice techniques, and treatment programmes. It is concerned with high-risk sex offenders both when they are sentenced to a community order, and also when they are released back into the community after a custodial sentence. The introductory section opens with a discussion on how terms such as paedophilia are constructed and viewed, and then looks at how government policy regarding sex offending has developed over recent years. Section two looks at issues concerned with risk management, questioning whether enough is being done to monitor the risk that high-risk offenders pose when released into society; whilst section three, on risk reduction covers the main methods of treatment, including sex offender treatment programmes, pharmacotherapy (chemical castration) and restorative and reintegration techniques. Section Four focuses on specific offender groups; including female sexual offenders, sexual harm by youth, mentally disordered sexual offenders and intellectual disabled offenders. These assess in what ways these

offenders are different to the 'norm' and look at how we should be dealing and treating these differences. The final section looks at social and moral responsibilities, including the patterns, prevention and protection of cyber-sex offences and media constructions of and reactions to paedophilia. In the final chapter the concept of dignity is addressed and the balance between community protection and the rights of sex offenders involved is evaluated.

*Social Control of Sex Offenders* - D. Richard Laws 2016-05-11

This book surveys the history, current status, and critical issues regarding the various mechanisms designed to control sex offenders. It shows that the social problem of sex offending is not apparently resolvable by any of the means currently employed. A large array of procedures are used in the attempt to control the difficult population of sex offenders, including: imprisonment, institutional and community treatment, community monitoring by probation and parole, electronic monitoring, registration as a sex offender, community notification of an offender's status, strict limits on behavioral movement in the community, and residence restrictions. However, these constraints on behavior are almost completely the result of public outrage regarding sensational sex crimes, overreaction of media coverage that produce inaccurate statements of potential community risk, and the efforts of the legal profession and politicians to quell this anger and foreboding by enacting legislation that supposedly confronts the risk. This book demonstrates that we have constructed a massive edifice of community control that is socially and politically driven and which has largely failed to contain sex crime.

*Sex Crime* - Terry Thomas 2015-11-19

*Sex Crime*, Third edition offers a comprehensive and integrative introduction to sex crime, written by an expert in the field. The third edition has been fully expanded and updated to include further coverage of a range of critical topics, including child sexual exploitation, child pornography, female sex offenders, treatment approaches such as the 'Good Lives Model' and the European Convention on Human Rights. Delving into and beyond the news headlines about sexual crimes that

seem to appear on our screens and in our newspapers almost every day, this third edition draws on a range of high profile case studies, such as Vanessa George, Stuart Hall, Jimmy Savile and Operation Yewtree and also offers a review of all relevant legislation. This new edition also includes an analysis of possible causes of sex offending, as well as public and professional responses to sex crime. Including an examination of the policing of sexual crime; the prosecution of the accused; the sentencing and punishment of sexual offenders; and 'public protection' measures, this new edition covers all of the key aspects of sex crime and how it is dealt with. Wide-ranging and authoritative, *Sex Crime, Third edition* presents a complex area in a straightforward and understandable manner. Thomas guides the reader through the range of policies and law which have accumulated over the years, making this essential reading for academics and students engaged in the study of sex crime, sexual violence and the treatment of sex offenders. It will also be of great interest to criminal justice practitioners.

**The Resettlement of Sex Offenders after Custody** - David Thompson 2017-07-14

Circles of Support and Accountability is a voluntary initiative that assists people with convictions for sexual offences to resettle in the community. People leaving prison with such convictions often have difficulties in resettling. They carry the burden of the conviction itself, which may be both stigmatising and isolating, and they are the subject of sex offender register requirements, parole and other supervisory conditions. Circles of Support and Accountability in the UK started over ten years ago and have slowly spread across the country. They work closely with the police and probation services but rely entirely on volunteers prepared to give up their time to work with people often otherwise shunned by communities. Circles offer support to the person concerned but also hold them accountable for their future behaviour. They aim to ensure there are 'no more victims'. This book is based on original research and provides a close-up picture of how these Circles of Support and Accountability work in practice. It brings together for the first time the voices of all the participants, from the offenders and the volunteers

through to the Coordinators who link the volunteers to the professionals in the form of the police and probation services.

**Sexing and Young People** - Thomas Crofts 2016-04-29

This book explores young people's practices and perceptions of sexting and how sexting has been represented and responded to by the media, education campaigns, and the law. It analyses the important broader socio-legal issues raised by sexting and the appropriateness of current responses.

*Sex Offenders and the Internet* - Dennis Howitt 2009-09-28

Online, the opportunity to commit a crime is never more than a few clicks away. *Sex Offenders and the Internet* explores the nature of online sex offenders in order to help practitioners understand and treat this new category of client. Kerry Sheldon and Dennis Howitt examine the research base by reviewing case studies and psychological profiles, with a particular focus on paedophilic Internet sex offenders. Issues covered include child pornography, the often overlooked 'excuses' for paedophilia, and how we can move forward. The result is a book that comprehensively details the nature of Internet sex offenders, bringing together the relevant research into one essential volume.

**The National Register for Sexual Offenders** - Zubaida Jooma 2013

On the 16 of June 2009 the South African government put into force the National Register for Sexual Offenders in an attempt to alleviate the problem of sexual crime. The aim of this dissertation was thus, to engage in a comparative study on how the National Register for Sexual Offenders will operate in South Africa compared to a similarly implemented register in the UK, with specific references being made to the US. The dissertation also sought to ask the question of whether the implementation of the register could be the solution to protecting children in South Africa. After, an analysis into sexual offender registers abroad, the findings revealed that registers are not proactive, a crime must have already occurred and an offender must be listed on the register, before the register can be of any preventative value. Furthermore, they are expensive to maintain they are punitive and impede on any form of rehabilitation or reintegration of offenders into

society. As to whether the register could make South African communities safer, further research showed that the conviction rate of child sex abuse is very low as only one in nine children ever report such abuse and only 4% of these cases will result in conviction. Therefore because the provisions of the register require an offender to be convicted before they are registered, the consequence is that very few sex offenders will be listed on the register. Moreover the provisions of the register are narrow and seek to prevent registered offenders from being employed in positions where they may have access to children. Such an approach fails to recognise that in South Africa the majority of sexual offences involving children occur within the family environment and not at the work place. The conclusion of the research is that the National Register for Sex Offenders is not the solution to protecting children in South Africa and it was recommended that the South African government should look into a more immediate, long term and preventative solution to curbing sexual crime.

**Policing Sexual Offences and Sex Offenders** - Terry Thomas  
2016-08-13

Sexual offending has become a mainstay item of reporting in our daily newspapers, and television news bulletins. This book offers an account of the policing of sexual offences and the difficulties that confront the police in the investigation of these intrusive crimes. It surveys the breath of sexual offences and examines the reporting of sexual crime and the attrition level that follows. It proceeds by critically assessing the efforts the police are making to overcome these difficulties and the degree to which they are making progress. The book outlines the relatively new police role of policing the convicted sex offenders themselves, who are living in the community and are subject to risk 'management' by the police and the requirements of the sex offender register held by the police. Written by a leading expert, this timely book will be of great interest to scholars of sexual offending and criminal justice.

*Innocence Betrayed* - David C. Wilson 2002-12-30

*Innocence Betrayed* is the first sustained attempt to address the issue of how we can best protect children from the threat posed by predatory

paedophiles. It asks all the difficult questions: Can paedophiles be treated? Do they change their behaviour? Does naming and shaming help protect our children or make matters worse? Combining the skills of journalistic research and academic scholarship, this engaging and accessible book carefully untangles the News of the World's 'Sarah's Law' and presents, for the first time, the behind-the-scenes reaction to the newspaper. It contains an enlightening series of interviews with paedophiles, both in a penal setting and after release, in England, Wales and North America, as well as interviews with the victims of sexual abuse. This important and timely book will be of interest to anyone who wishes to understand the complexity of the problem posed by paedophiles and how we can make our communities safer places for children.

*Sex Offenders in the Community* - Amanda Matravers 2013-10-18

This book explores current criminal justice responses to the management of individuals who are convicted of sexual offences. It aims to help policy-makers, practitioners and students to develop an informed position on this complex and increasingly controversial issue. Although the focus is primarily upon the UK context, contributions from North America (USA and Canada) provide an important comparative perspective.

*Sex Offenders* - Cathy Cobley 2005

*Sex Offenders: Law, Policy and Practice* is a unique and authoritative book examining sexual offending and the management of sex offenders. The complex issues inherent in dealing with sex offenders are dealt with here including the investigation of sexual offences, trial procedures, sentencing, control, risk assessment, protection of the public, treatment, housing and protection of children and adolescent offenders. The responsibilities of local authorities, the rights of the individual and the community, the sexual offences register, employment restrictions and human rights questions are all considered. This new edition has been extensively re-written to take into account the fundamental changes in law and practice following the Sexual Offences Act 2003, which brought about the most radical overhaul of sexual offences legislation for 50 years. In addition the Criminal Justice Act 2003 has introduced a new

sentencing regime. Other changes include the introduction of the National Offender Management Service and the Bichard Inquiry made recommendations concerning the recording of criminal intelligence and the consequences of failures by police in the recording, retention and disclosure of relevant information. *Sex Offenders: Law, Policy and Practice* offers a clear explanation of relevant legal principles and practice, written for legal and non-legal professionals alike.

**Managing Sex Offender Risk** - Hazel Kemshall 2004

Based on key research into assessment, treatment and recidivism, this book offers practical guidance on improving intervention techniques with sex offenders. The contributors explore the monitoring and surveillance strategies and cognitive-behavioural techniques currently used both in prison and in the community, and give clear directions for future practice. Providing a detailed overview of the typologies and characteristics of offenders, they suggest strategies for managing different kinds of offender, including children and young people who are sexually aggressive. The Sex Offenders Act and the Crime and Disorder Act emphasise the need for effective community management of the predatory paedophile. Reviewing the recent growth in multi-agency approaches to this challenge, the book discusses how police, prisons and social work departments can share information and collaborate effectively, and will be essential reading for probation officers, prison staff, social workers and anyone involved in the assessment and management of sex offenders.

**Understanding The Management Of High Risk Offenders** - Kemshall, Hazel 2008-09-01

Drawing on a wide range of cross-national literature and original research by the author, this timely book reviews current approaches to the community management of high risk offenders.

*The Registration and Monitoring of Sex Offenders* - Terry Thomas 2012-03-29

This book seeks to track the origins of sex offender registers, their purpose and the law and policy that underpins them in various parts of the world. Sex offender registers are not really registers at all but a set

of 'legal requirements' that fall automatically on a person convicted or cautioned for a designated sexual offence; the term 'register' is a form of shorthand for these requirements, designed to be a contribution to greater public protection and community safety. This book provides the first serious and detailed narrative of the conception and implementation of the sex offender registers. It seeks to do so in a clear and easy-to-follow text that will be both informed and critical and will also serve as a resource book for those wanting to make further study of the process of registration and monitoring. It looks in detail at the practice of implementing registers and considers questions about their effectiveness in monitoring sex offenders and the implications of someone being on a sex offender register. The book examines the legal challenges to registers and monitoring and the position of registrants in the context of human rights and seeks to place registers and monitoring in the wider context of what is being called the surveillance society. The Registration and Monitoring of Sex Offenders will be key reading for students of criminology and criminal justice, surveillance and human rights and practitioners in criminal justice fields of policing, probation, social work, children's services, the judiciary, prison work and others.

**The Sex Offender Register** - Terry Thomas 2021-04-12

The Sex Offender Register examines the origins, history, structure and legalities of the UK sex offender register, and explores how political and public opinion has influenced the direction the policy of registration has taken. Delving into the origins of the UK sex offender register and how the registration policy has evolved, this book provides an understanding of the register and its contribution to public protection while attempting to see the register as a policy that has grown and developed and as having an organic life of its own. The sex offender register is designed as a form of public protection rather than a punishment, requiring offenders to notify the police of their circumstances and to accept a degree of offender management from the police. The book: • puts the development of the register in its political, social and ethical context • considers the position of children and young people as offenders • outlines the movement of registered offenders across international borders •

analyses how offenders can be removed from the register • explores how other countries in the UK manage sex offenders through registers • asks questions about the efficacy of the register and what contribution it makes to public protection • looks at specific aspects of registration including the management of information • delves into the experience of life on the register • examines the influence of public opinion • discusses the role of the police as custodians of the register and as offender managers. Exploring the different pressures brought to bear on the register, this book provides an authoritative starting point for police officers, social workers, probation officers, magistrates, students of Criminology, Criminal Justice and Policing, and the general reader wanting to understand where the UK sex offender register originated from and how it operates today.

*A Community-based Approach to the Reduction of Sexual Reoffending* - Stephen Hanvey 2011

A Circle of Support and Accountability is a group of trained volunteers who meet on a regular basis with a high risk sex offender living in their community. This pioneering approach, based on restorative justice principles, holds the offender accountable and provides them with care and support to prevent reoffending.

**Sex Crime** - Terry Thomas 2013-01-11

This book provides an account of the nature and extent of sex crime and offending in contemporary Britain, and the policies and legislative actions taken to combat this. Sex offenders have become 'demonised'

figures, which has made it essential to explain the phenomena and to formulate appropriate policies and law. This second edition builds upon the successful first edition, and is revised and expanded to reflect the many developments which have taken place in this field. The book now covers both criminal justice approaches to sexual offending and the civil processes towards greater protection from sexual offending. updated and expanded second edition of established textnow covers both criminal justice approaches to sexual offending and civil processesanalyses impact of Sexual Offences Act of 2003, new measures on internet sex crime and pornography, establishment of Criminal Records Bureau and international trafficking

**The Wiley-Blackwell Handbook of Legal and Ethical Aspects of Sex Offender Treatment and Management** - Karen Harrison 2013-04-01

This handbook combines the latest theory on a high-profile, complex subject in criminology, exploring the legal and ethical dimensions of society's response to sex offenders in jurisdictions from the USA to Japan. The first publication to offer a detailed and wide-ranging analysis of legal and ethical issues relating to sex offender treatment and management Covers a range of related issues, from media coverage to equality duties Presents research from numerous national jurisdictions including the UK, USA, Australia, New Zealand, Canada, Norway, Germany, Netherlands, Japan, and Israel Includes perspectives from respected leading academics and practitioners, including William Marshall, Tony Ward, Doug Boer, Daniel Wilcox, and Marnie Rice
