Stories from Songs - Gail de Vos 2009

The sensational content of folk ballads makes them especially attractive to young adults. In this fascinating study of folk ballads and their evolution, you'll explore various renditions of such popular songs as Frankie and Johnny, Stagolee, Pretty Polly, and Barbara Allen, as well as lesser known ballads (e.g., Lord Thomas and Fair Annet, Twa Sisters, and King Orfeo). You'll learn about the origins of the stories, how they have developed and changed over time, traveled throughout countries and across oceans, and ultimately evolved into literary forms, such as poetry, novels, and graphic novels, many of which are directed at young adults. Citing numerous critical interpretations and

commentary, this book offers great insight into this genre of popular folk literature. After an introduction to the form and its place in history, the author explores various types of ballads (e.g., child ballads, border ballads, broadside ballads). An examination of modern and contemporary re-workings of ballads, organized by themes, comprises the heart of the book. Ballad types covered include: tragic love stories, murder ballads, otherworld beings, tricks and disguises, and ballads from other cultures. Oral origins and history, critical interpretations, re-workings, and current recordings are included for each ballad; along with a list of resources.

The Forbidden Body -

Douglas E. Cowan 2022-05-17

"Throughout history, the religious imagination has attempted to control nothing so much as our bodies: what they are and what they mean; what we do with them, with whom, and under what circumstances; how they may be displayed-or, more commonly, how they must be hidden. Religious belief and mandate affect how our bodies are used in ritual practice, as well as how we use them to identify and marginalize threatening religious Others. This book examines how horror culture treats religious bodies that have stepped (or been pushed) out of their 'proper' place. Unlike most books on religion and horror, This book explores the dark spaces where sex, sexual representation, and the sexual body come together

with religious belief and scary stories. Because these intersections of sex, horror, and the religious imagination force us to question the nature of consensus reality, supernatural horror, especially as it concerns the body, often shows us the religious imagination at work in real time. It is important to note that the discussion in this book is not limited either to horror cinema or to popular fiction, but considers a wide range of material, including literary horror, weird fiction, graphic storytelling, visual arts, participative culture, and aspects of real-world religious fear. It is less concerned with horror as a genre (which is mainly a function of marketing) and more with the horror mode, a way of storytelling that finds expression across a number of genres, a variety of media, and even blurs the boundary between fiction and non-fiction. This expanded focus not only deepens the pool of potential examples, but invites a much broader readership in for a swim"--

Separated by Their Sex - Mary Beth Norton 2011-05-16
 In Separated by Their Sex, Mary Beth Norton offers a bold genealogy that shows how gender came to determine the right of access to the Anglo-American public sphere by the middle of the eighteenth century. Earlier, high-status men and women alike had been recognized as appropriate political actors, as exemplified during and after Bacon's Rebellion by the actions of—and reactions to—Lady Frances Berkeley, wife of Virginia's governor. By contrast, when the first ordinary English women to claim a political voice directed group petitions to Parliament during the Civil War of the 1640s, men relentlessly criticized and parodied their efforts. Even so, as late as 1690, Anglo-American women's political interests and opinions were publicly acknowledged. Norton traces the profound shift in attitudes toward women's participation in public affairs to the age's cultural arbiters, including John

Dunton, editor of the *Athenian Mercury*, a popular 1690s periodical that promoted women's links to husband, family, and household. Fittingly, Dunton was the first author known to apply the word "private" to women and their domestic lives. Subsequently, the immensely influential authors Richard Steele and Joseph Addison (in the *Tatler* and the *Spectator*) advanced the notion that women's participation in politics—even in political dialogues—was absurd. They and many imitators on both sides of the Atlantic argued that women should confine themselves to home and family, a position that American women themselves had adopted by the 1760s. Colonial women incorporated the novel ideas into their self-conceptions; during such "private" activities as sitting around a table drinking tea, they worked to define their own lives. On the cusp of the American Revolution, Norton concludes, a newly gendered public-private division was

A Handbook of Philippine Folklore - Mellie Leandicho Lopez 2006

The voluminous book provides a range of international theories and methodologies in analytical folklore investigations, and a classification scheme based on genre is offered as the system of taxonomy for Philippine traditional materials. Lopez counts on the regional folklorists to refine the classification according to the texts of their respective areas. The different genres, too, are explained and examined in another part of Lopez's study. The reader will definitely find interesting and useful, the illustrative examples for each genre.

The Man and a Boy - James J. McBride Ph. D. 2009-04
Picture by Lance Fairchild
Photography A Man finds a despondent and brutally abused eight-year-old boy in a garden and although he is on

the verge of suicide, the Man is able to convey that he cares for the boy. After that initial meeting, the Man and the boy begin a series of dialogues. He helps the boy become a child of God, and He encourages him to always be child like as he gains enlightenment. As the boy acquires wisdom, he learns to listen with his heart, mind, and soul. Using the messages in the Bible, the Man teaches the boy truths about life's greatest mysteries, including, physics, cosmology, the arts, and human nature. Over the course of their discussions, the boy grows from a miserable eight-year-old to a well-rounded nineteen-year-old. The Man becomes his teacher, friend, and spiritual father. With the Man's guidance, the boy solves his problems and becomes strong. Find out how the heavens and the earth are tied together, examine the nature of faith, and celebrate the power of good over evil in The Man and a Boy.

From Montaigne to Montaigne

- Claude Lévi-Strauss

2019-11-19

Two previously unpublished lectures charting the renowned anthropologist's intellectual engagement with the sixteenth-century French essayist Michel de Montaigne. In January 1937, between the two ethnographic trips he would describe in *Tristes Tropiques*, Claude Lévi-Strauss gave a talk to the Confédération générale du travail in Paris. Only recently discovered in the archives of the Bibliothèque nationale de France, this lecture, "Ethnography: The Revolutionary Science," discussed the French essayist Michel de Montaigne, to whom Lévi-Strauss would return in

remarks delivered more than a half-century later, in the spring of 1992. Bracketing the career of one of the most celebrated anthropologists of the twentieth century, these two talks reveal how Lévi-Strauss's ethnography begins and ends with Montaigne—and how his reading of his intellectual forebear and his understanding of anthropology evolve along the way. Published here for the first time, these lectures offer new insight into the development of ethnography and the thinking of one of its most important practitioners. Essays by Emmanuel Désveaux, who edited the original French volume *De Montaigne à Montaigne*, and Peter Skafish expand the context of Lévi-Strauss's talks with contemporary perspectives and commentary.

Sex in Development -

Vincanne Adams 2005-04-12
Sex in Development examines how development projects around the world intended to promote population management, disease prevention, and maternal and child health intentionally and unintentionally shape ideas about what constitutes “normal” sexual practices and identities. From sex education in Uganda to aids prevention in India to family planning in Greece, various sites of development work related to sex, sexuality, and reproduction are examined in the rich, ethnographically grounded essays in this volume. These essays demonstrate that ideas related to morality are repeatedly enacted in ostensibly value-neutral efforts to put into practice a “global” agenda reflecting the latest medical science. Sex in Development combines the cultural analysis of sexuality, critiques of global development, and science and technology studies. Whether

considering the resistance encountered by representatives of an American pharmaceutical company attempting to teach Russian doctors a "value free" way to offer patients birth control or the tension between Tibetan Buddhist ideas of fertility and the modernization schemes of the Chinese government, these essays show that attempts to make sex a universal moral object to be managed and controlled leave a host of moral ambiguities in their wake as they are engaged, resisted, and reinvented in different ways throughout the world.

Riddles of Belonging - Christi A. Merrill 2009

Can the subaltern joke? Christi A. Merrill answers by invoking riddling, oral-based fictions from Hindi, Rajasthani, Sanskrit, and Urdu that dare to laugh at the details of contentious traditions often

kept hidden--whether spouse abuse, ethnic violence, or the uncertain legacies of a divinely wrought sex change. Merrill argues that the playful lessons of these narratives offer insight into the networks of transnational relation connecting us across a sea of differences. A translator herself, Merrill uses these examples, especially from the work of Rajasthani writer Vijay Dan Detha, to investigate the expectation that translated work should allow the non-English-speaking subaltern to speak directly to the English-speaking reader. She plays with the trope of speaking to argue against treating a translated text as property and thus as a singular material object to be "carried across" (as trans-latus implies.) She refigures it instead as a performative "telling in turn" (from the Hindi word anuvad) to explain how a text might be multiply possessed.

[Inside Jokes](#) - Matthew M. Hurley 2011-03-04

An evolutionary and cognitive account of the science behind why we crack up—"one of the most complex and sophisticated humor theories ever presented" (Evolutionary Psychology). Some things are funny—jokes, puns, sitcoms, Charlie Chaplin, The Far Side, Malvolio with his yellow garters crossed—but why? Why does humor exist in the first place? Why do we spend so much of our time passing on amusing anecdotes, making wisecracks, watching The

Simpsons? In *Inside Jokes*, Matthew Hurley, Daniel Dennett, and Reginald Adams offer an evolutionary and cognitive perspective. Humor, they propose, evolved out of a computational problem that arose when our long-ago ancestors were furnished with open-ended thinking. Mother Nature—aka natural selection—cannot just order the brain to find and fix all our time-pressured misleaps and near-misses. She has to bribe the brain with pleasure. So we find them funny. This wired-in source of pleasure has been tickled relentlessly by humorists over the centuries, and we have become addicted to the endogenous mind candy that is humor.
