Affaires de Famille Marie-Claire Barnet 2007 What are families like in contemporary France? And what begins to emerge when we consider them from the point of view of recent theoretical perspectives: (faulty) cohesion, (fake) coherence, (carefully planned or subversive) deconstruction, loss (of love, confidence or credibility), or, even (utter) chaos and (alarming) confusion? Which media revamp old stereotypes, generate alternative reinterpretations, and imply more ambiguous answers? ...]Uneasy contradictions and ambiguities emerge in this bilingual collection of approaches and genre studies. The family plot seems to thicken as family ties appear to loosen. Has the family' been lost from sight, or is it being reinvented in our collective imaginary? This book proposes a new series of perspectives and questions on an old and familiar' topic, exploring the state and status of the family in contemporary literature, culture, critical and psychoanalytic theory and sociology.

New Millennial Sexstyles Carol Siegel 2000 New Millennial Sexstyles questions the twin feminist orthodoxies that the 1960s sexual revolution failed women and that the sexual attitudes most prominent in current youth cultures are deplorably regressive. Comparing the American sexscape she inhabits to the vision of contemporary culture produced by feminist theorists, Carol Siegel considers whether the sexual revolution may have succeeded, but in ways not recognized by current academic studies of gender and sexuality. In discouraging undomesticated heterosexuality, academic feminism ignores the connection between mainstream opposition to all unrestrained sexual expression and the growth of new forms of homophobia in our times. At the same time, the youth subcultures' challenges to these views of sexuality and gender have been dismissed as insignificant, or misunderstood as sexist. In this book, they receive more respectful attention. Siegel draws on her own experience as a college student to create a personal history of academic feminism's early sympathy with bourgeois values. She looks at the development of American sex advice literature and at the reception of such "'transgressive'" popular films as Basic Instinct, Thelma and Louise, and Natural Born Killers to demonstrate that the most profoundly capitalist feminist theories have always been the most culturally authoritative. A more encouraging vision emerges in the book's second half, where a record of conversations about sex and gender with young people, and of their responses to products designed for their consumption, takes the reader through some of today's most radical youth cultures and suggests new directions for gender studies.

Dirt, Greed and Sex William Countryman 2013-01-25 Conducting a thorough examination of sexual ethics in the New Testament, this work argues that the New Testament writers did not construct a new sexual ethic from the ground up, but took over existing cultural patterns and refocused them, pushing some elements from the centre to the periphery. This suggests a pattern of ethics for contemporary life. Discussing biblical notions of purity and property, which dominate ethical ideas in the New Testament, the author characterizes sex as one of the rich blessings of creation, "to be received with delight and thanksgiving". Countryman's generous and eirenic views on sexual matters, based as they are on solid biblical research, are a welcome intervention in an area which unfortunately, in Christian circles, tends still to be dominated by conservatism and misinformation, rather than by liberal principle.

Cosmopolitan Sexuality Ahonaa Roy 2022-10-31 "In a historic verdict, the Supreme Court of India in September 2018, struck down Section 377 of the Indian Penal Code and decriminalized homosexuality and granted personal rights and freedom to the LGBTQIA community at large. However, in December 2018, the Transgender Persons Bill was passed in the Lok Sabha (the People's House and lower house of Indian Parliament) that has negated and undermined the rights of the trans community in India. The Bill omits the reference to a 'neither male nor female' formulation, and covers any person whose gender does not match the gender assigned at birth, as well as transmen, transwomen, those with intersex variations, the gender-queer, and those who designate themselves based on socio-cultural identities such as hijra, aravani, kinner and jogta. This book articulates the ethnographic and anthropological studies of hijras (eunuchs) and the popular transgender culture in India through the case study of contemporary Mumbai. It studies how their identity is shaped through consumption of various practices of beauty and takes into account the direct provincial dialogues as to how the hijras negotiate different spaces of surgeries, clinics and medicine to shape their new forms of identity. It highlights how globalizing modernity would build a concrete understanding of the way local patterns of transgender sexuality and eroticism are shaped by this sort of culture. It attempts to build a more robust and

complex understanding of sexual experiences among these subjects in the locale, thus projecting the intersection of local meanings of transgender eroticism that intersect global patterns of similar identities with their desire and sexuality. The local specificity of the hijra sexual economy relates to global transgender practices, thus proposing a nuanced discourse of space, culture and sexuality to the local context of the globalized and modernized India, instead of the articulation of global homogeneity of transgender identities"--

Name, Shame and Blame Christine Stewart 2014-12-02 Papua New Guinea is one of the many former British Commonwealth colonies which maintain the criminalisation of the sexual activities of two groups, despite the fact that the sex takes place between consenting adults in private: sellers of sex and males who have sex with males. The English common law system was imposed on the colonies with little regard for the social regulation and belief systems of the colonised, and in most instances, was retained and developed post-Independence, regardless of the infringements of human rights involved. Now the HIV pandemic has thrown a spotlight, not altogether welcome, on the sexual activities of these two groups. In Papua New Guinea, a growing body of behavioural research has focused on such matters as individual sexual partnering, condom use and awareness of HIV. My work, however, has a different purpose. I chose the terms in the title to highlight a nexus which I believe exists between the criminal law and negative attitudes of society. At an international level, the argument has been put that decriminalising sex work and sodomy will facilitate HIV epidemic management, reducing the stigma and discrimination these groups encounter and making them easier to reach. I undertook my research therefore with the aim of gaining deeper understanding of the effects the current situation of criminalisation might have on the social lives of these criminalised people today, in the country generally and in Port Moresby the capital in particular, and whether these effects might provide evidence to support the argument for law reform. This is a rich and well-researched study of the legal, social and moral issues surrounding the criminalisation of two forms of consensual sex.... A very impressive piece of work, it is extensively documented, relies on a wide range of material and makes a clear and coherent argument about the place of law in producing identities and exclusions.... The attention to change over time and the complexity of the ways in which sexual behaviour is enacted and punished is a particular strength of the book.

—Professor Sally Engle Merry, Anthropology, Law and Society, New York University This book is an exceptional contribution to our knowledge of the nexus between the criminal law and negative attitudes of society, and what effects criminalization has on the social lives of prostitutes and males who have sex with males, and whether these effects might provide evidence to support the argument for law reform.... The author's experience of Papua New Guinea allows her to comment in depth on such matters as the United Nations' human rights approach to the HIV epidemic and their call to decriminalize all sexual acts between consenting adults.... She shows that criminal laws—with the help of the normative discourse of religion and media—underpin and legitimize high levels of stigma, discrimination and abuse of prostitutes and males who have sex with males.... The quality of the writing and general presentation are exceptional. —Laura Zimmer-Tamakoshi, Truman State University (retired)

Reconstructing the Household Peter W. Bardaglio 2000-11-09 In Reconstructing the Household, Peter Bardaglio examines the connections between race, gender, sexuality, and the law in the nineteenth-century South. He focuses on miscegenation, rape, incest, child custody, and adoption laws to show how southerners struggled with the conflicts and stresses that surfaced within their own households and in the larger society during the Civil War era. Based on literary as well as legal sources, Bardaglio's analysis reveals how legal contests involving African Americans, women, children, and the poor led to a rethinking of families, sexuality, and the social order. Before the Civil War, a distinctive variation of republicanism, based primarily on hierarchy and dependence, characterized southern domestic relations. This organic ideal of the household and its power structure differed significantly from domestic law in the North, which tended to emphasize individual rights and contractual obligations. The defeat of the Confederacy, emancipation, and economic change transformed family law and the governance of sexuality in the South and allowed an unprecedented intrusion of the state into private life. But Bardaglio argues that despite these profound social changes, a preoccupation with traditional notions of gender and race continued to shape southern legal attitudes.

Tomorrow Sex Will Be Good Again Katherine Angel 2021-03-02 Women are in a bind. In the name of consent and empowerment, they must proclaim their desires clearly and confidently. Yet sex researchers suggest that women's desire is often slow to emerge. And men are keen to insist that they know what women—and their bodies—want. Meanwhile, sexual violence abounds. How can women, in this environment, possibly know what they want? And why do we expect them to? In this elegant, searching book—spanning science and popular culture; pornography and literature; debates on Me-Too, consent and feminism—Katherine Angel challenges our assumptions about women's desire. Why, she asks, should they be expected to know their desires? And how do we take sexual violence seriously, when not knowing what we want is key to both eroticism and personhood? In today's crucial moment of renewed attention to violence and power, Angel urges that we remake our thinking about sex, pleasure, and autonomy without any illusions about perfect self-knowledge.

Only then will we fulfil Michel Foucault's teasing promise, in 1976, that 'tomorrow sex will be good again'

Challenging Knowledge, Sex and Power Julie E. Mills 2013-07-18 Women in the developed world expect to work in the labour force over the course of their lives. On finishing school more girls are entering universities and undertaking professional training for careers than ever before. Males and females enter many high status professions in roughly equal numbers. However, engineering stands out as a profession that remains obstinately male dominated. Despite efforts to change, little progress has been made in attracting and retaining women in engineering. This book analyses the outcomes of a decade-long investigation into this phenomenon, framed by two questions: Why are there so few women in engineering? And why is this so difficult to change? The study includes data from two major surveys, accounts from female engineers in a range of locations and engineering fields, and case studies of three large engineering corporations. The authors explore the history and politics of several organisations related to women in engineering, and conclude with an analysis of a range of campaigns that have been waged to address the issue of women's minority status in engineering. *Challenging Knowledge, Sex and Power* will be of great interest to students of feminist economics, and is also relevant to researchers in women's studies and engineering education.

Female-Perpetrated Sex Abuse Sherianne Kramer 2017-06-26 *Female-Perpetrated Sex Abuse* is a groundbreaking study into gender, sexuality and victimhood. It examines the cultural conditions of possibility for FSA victimhood as a means to advance contemporary critical understandings of the role of gender and sexuality as instruments of modern power. As the first direct exploration of FSA victimhood, this book analyses: why victims of FSA remain so underexplored and invisible as objects of human science knowledge; the limited and overly rigid discourses in local and global psychological theory and practice that continues to treat particular subjects as 'victim worthy' through paradigms that construct victimhood as gendered; and the possibility of new discourses that could disrupt normative understandings of gender, sexuality, and power in sex

abuse, and as constitutive to the beginnings of a counter-knowledge on transgressive sexualities. By tracing the historical and cultural conditions of the emergence of FSA broadly and FSA victimhood specifically, Kramer illustrates how deeply engrained constructions of gender and sexuality both produce and constrain the possibilities for reporting, disclosing and self-identifying victimhood. Female-Perpetrated Sex Abuse is essential reading for academics, researchers and students alike, in the areas of psychology, sociology, gender studies, criminology, counselling and social work.

Tapping into your sexual energy will give you the creative edge in business, the deeper connection you crave, and a new found trust in yourself that cannot be taken away.

How Sex Got Screwed Up: The Ghosts that Haunt Our Sexual Pleasure - Book Two Jon Knowles 2019-03-31 The ghosts that haunt our sexual pleasure were born in the Stone Age. Sex and gender taboos were used by tribes to differentiate themselves from one another. These taboos filtered into the lives of Bronze and Iron Age men and women who lived in city-states and empires. For the early Christians, all sex play was turned into sin, instilled with guilt, and punished severely. With the invention of sin came the construction of women as subordinate beings to men. Despite the birth of romance in the late middle ages, Renaissance churches held inquisitions to seek out and destroy sex sinners, all of whom it saw as heretics. The Age of Reason saw the demise of these inquisitions. But, it was doctors who would take over the roles of priests and ministers as sex became defined by discourses of crime, degeneracy, and sickness. The middle of the 20th century saw these medical and religious teachings challenged for the first time as activists, such as Alfred Kinsey and Margaret Sanger, sought to carve out a place for sexual freedom in society. However, strong opposition to their beliefs and the growing exploitation of sex by the media at the close of the century would ultimately shape 21st century sexual ambivalence. Book Two of this two-part publication traces the history of sex from the Victorian Era to present day. Interspersed with 'personal hauntings' from his own life and the lives of friends and relatives, Knowles reveals how historical discourses of sex continue to haunt us today. This book is a page-turner in simple and plain language about 'how sex got screwed up' for millennia. For Knowles, if we know the history of sex, we can get over it.
