

Sex Symbols Of The 2010s

A New Benchmark in Amber Heard - 105 Facts - Brenda Rodriguez
2015-03-19

Culture Wars - Roger Chapman 2015-03-17

The term "culture wars" refers to the political and sociological polarisation that has characterised American society the past several decades. This new edition provides an enlightening and comprehensive A-to-Z ready reference, now with supporting primary documents, on major topics of contemporary importance for students, teachers, and the general reader. It aims to promote understanding and clarification on pertinent topics that too often are not adequately explained or discussed in a balanced context. With approximately 640 entries plus more than 120 primary documents supporting both sides of key issues, this is a unique and defining work, indispensable to informed discussions of the most timely and critical issues facing America today.

Defending Democracy from Its Christian Enemies - David P. Gushee
2023-10-03

American democracy is in danger. How do we protect it from authoritarian reactionary Christianity? On January 6, 2021, hundreds of Americans stormed the Capitol to prevent the certification of their political opponent's election. At the forefront were Christians claiming to act in the name of Jesus Christ and his supposed representative on earth, Donald Trump. How can this have happened? David P. Gushee tackles the question in this timely work of Christian political ethics. Gushee calls us to preserve democratic norms, including constitutional government, the rule of law, and equal rights for all, even as many Christians take a reactionary and antidemocratic stance. Surveying global politics and modern history, he analyzes how Christians have discarded their

commitment to democracy and bought into authoritarianism. He urges us to fight back by reviving our hard-won traditions of congregational democracy, dissident Black Christian politics, and covenantal theology. *Defending Democracy from Its Christian Enemies* makes a robust case for a renewed commitment to democracy on the part of Christians—not by succumbing to secular liberalism, but by drawing on our own best traditions. Any concerned Christian will leave its pages with eyes wide open to the dangers of our current form of political engagement. Readers will gain insight into what democracy is truly meant to be and why Christians once supported it wholeheartedly—and should do so again.

An Address in Paris - Aïssatou Mbodj-Pouye 2023-11-07

After West African migrants arrived in France in the 1960s, the authorities opened residences for them known as "foyers." Initially intended to contain the West African population, these hostels for single men fostered the emergence of Black communities in the heart of Paris and other cities. More recently, however, a nationwide renovation program sought to replace the collective living arrangements of foyers with more individualized spaces by constructing new buildings or drastically reshaping existing ones—and casting the West African presence as a threat to French identity. Aïssatou Mbodj-Pouye examines the changing roles that foyers have played in the lives of generations of West African migrants, weaving together rich ethnographic description with a critical historical account. She shows how migrants settled in foyers through kinship ties, making these buildings key parts of diasporic networks. Migrants also forged a sense of place in foyers, in an intricate relationship with bureaucratic requirements such as having an address. Mbodj-Pouye scrutinizes the physical and social evolution of foyers and the administrative dynamics that governed them. She argues that even

though these buildings originated in state attempts to manage migrants along racial lines, the shared way of life that they encouraged helped spark a sense of political agency and belonging whose significance extends far beyond their walls. Combining close attention to the social and cultural meanings of the foyers and keenly observed portraits of Black experiences in France across decades, *An Address in Paris* offers a new lens on the global African diaspora.

The Latest and the Greatest Kate Upton - 60 Success Secrets - Janice Reilly 2015-03-15

WORLD SOCIAL REPORT 2023; LEAVING NO ONE BEHIND IN AN AGEING WORLD - DEPARTMENT OF ECONOMIC AND SOCIAL AFFAIRS. 2023

Rural America in a Globalizing World - Conner Bailey 2014

"This fourth Rural Sociological Society decennial volume provides

advanced scholarship on rural North America during the 2010's, reflecting upon the increasingly global nature of social, cultural, and economic forces and the impact of neoliberal ideology upon policy, politics, and power in rural areas. The various chapters, representing the expertise of scholars in rural sociology and related social sciences, address the changing structure of North American agriculture, natural resources and the environment, demographics, diversity, and quality of life in rural communities"--

Fearless Femininity by Women in American Theatre, 1910s to 2010s - Student Edition - Greeley, Lynne 2015-02-06

Note: this is an abridged version of the book with references removed. The complete edition is also available. In this unprecedented, fascinating book which covers women in theatre from the 1910s to the 2010s, author Lynne Greeley notes that, for the purposes of this study, "feminism" is defined as the political impulse toward economic and social empowerment for females or the female-identified, a position perceived by many feminists as oppositional to ideas of femininity that they see as personally and politically constraining and that "femininity" comprises social behaviors and practices that mean as "many different things as there are women," some of which are empowering and others of which are not. This book illuminates how throughout the twentieth century and into the twenty-first, playwrights and artists in American theatre both embodied and disrupted the feminine of their times. Through approaches as wide ranging as performing their own recipes, energizing silences, raging against war and rape, and inviting the public to inscribe their naked bodies, theatre artists have used performance as a site to insert themselves between the physicality of their female presence and the liminality of their disrupting the role of the feminine. Capturing that place of liminality, a neither-here-nor-there place that is often unsafe, where the established order is overturned by acts as banal as raising a plant, women have written and performed and disrupted their way through one hundred years of theatre history, even within the constraints of a variably rigid and usually unsympathetic social order. Creating a feminist femininity, they have reinscribed their place in the culture and

provided models for their audiences to do the same. This comprehensive tome, part of the Cambria Contemporary Global Performing Arts headed by John Clum (Duke University) is an essential addition for theater studies and women's studies.

Tom Hiddleston 142 Success Facts - Everything You Need to Know about Tom Hiddleston - Stanley Coffey 2014-05

Compromising Positions - Leslie Smith 2019

Americans have long believed that the private lives of their politicians are important indicators of their fitness to lead and of their ability to

defend and uphold American values. For many, a sex scandal renders a person ineligible, or at the very least questionably qualified, for public service. In *Compromising Positions*, Leslie Dorrough Smith questions the assumption that sex scandals are really about sex-- that is, that they are primarily concerned with the discovery of sexual misconduct. She argues that they are, instead, a form of cultural storytelling that uses racial and gendered symbols to create a collective sense of national worth and strength. Smith shows that sex scandals involve the use of four very powerful social tools--gender, race, politics, and religion-- that together create a rhetoric about what America is, who is eligible to formally represent it, and what types of symbolic religiosity such leaders must display to legitimize their power. Americans tend to condemn or excuse the sexual misdeeds of their politicians depending on the degree to which the individual in question reinforces evangelical interpretations of "American values" and a "Christian nation." Such values include not just moral integrity, but strength, courage, and conquest. As a consequence, sex scandals are less likely to occur in cultural moments when the public is open to reading a politician's moral lapse as a symbolic form of national dominance. Put simply, when a leader is perceived as strong, domineering, and necessary for national health, many people will find ways either to overlook his illicit sexual behavior or somehow read it as an American act.

[Understanding Sexual Offending](#) - Patrick Lussier 2020-10-25

Addressing common myths and misconceptions about sexual offending, this book highlights the current state of scientific knowledge about the origins and the development of sexual offending. It offers a critical overview of current criminal justice policies and close to 100 years of research on how to best improve these policies through theoretically-grounded and methodologically-rigorous research. Focusing on proactive prevention-oriented strategies, this book revisits popular ideas about sexual offending through an evidence-based lens, addressing ideological and populist discourse that has led to ineffective and reactive policies. It advocates for a clearly defined concept of the phenomenon of sexual offending to underpin research and treatment. Uniquely, authors

consider sexual offending from the viewpoint of criminal justice research and practitioners, incorporating the sociohistorical construction of sexual offending as a social problem, developmental life course research, and the impact of social policies. This book is a call for more proactive research on the origins and the development of sexual offending over the life course.

Kate Upton 38 Success Facts - Everything You Need to Know about Kate Upton - Evelyn Lamb 2014-05-12

Women in Popular Culture [2 volumes] - Laura L. Finley 2023-03-24

Including more than 300 alphabetically listed entries, this 2-volume set presents a timely and detailed overview of some of the most significant contributions women have made to American popular culture from the silent film era to the present day. The lives and accomplishments of women from various aspects of popular culture are examined, including women from film, television, music, fashion, and literature. In addition to profiles, the encyclopedia also includes chapters that provide a historical review of gender, domesticity, marriage, work, and inclusivity in popular

culture as well as a chronology of key achievements. This reference work is an ideal introduction to the roles women have played, both in the spotlight and behind it, throughout the history of popular culture in America. From the stars of Hollywood's Golden Age to the chart toppers of the 2020s, author Laura L. Finley documents how attitudes towards these icons have evolved and how their influence has shifted throughout time. The entries and essays also address such timely topics as feminism, the #MeToo movement, and the gender pay gap.

A Quarter Century of the "Clash of Civilizations" - Jeffrey Haynes 2021-05-11

The "clash of civilizations" focuses on conflict and cooperation between and within states. Dealing with the clash is essential for a peaceful and harmonious world. The "clash of civilizations" is a topic of great interest around the world and constitutes an important dimension of religion and international relations. In the quarter century since Huntington first aired his controversial framework, inter-civilizational "clash" and "dialogue" have become mainstream issues both in international relations and in many Western countries' domestic concerns. The book examines a key question: how does Samuel Huntington's "clash of civilizations" "paradigm" help explain current Western governments' responses to Muslim migration and related security issues?

Understanding relations between the West/Westerners and Muslim-majority societies/Muslims is impossible without being aware that right-wing populist politicians in the West, as well as some policy makers and commentators, seem to view all Muslims in a malign way. This indicates a lack of willingness to make a distinction between, on the one hand, the mass of "moderate," "ordinary," and "peaceful" Muslims and, on the other hand, a small minority of Islamist extremists and even smaller number of Islamist terrorists. The result is a crucial topic of our times: how do different civilizations coexist in a small and increasingly congested planet without conflict? The chapters in this book were originally published as a special issue of *The Review of Faith & International Affairs*.

American Cinema of the 2010s - Dennis Bingham 2021-12-10

The 2010s might be remembered as a time of increased polarization in American life. The decade contained both the Obama era and the Trump era, and as the nation's political fissures widened, so did the gap between the haves and have-nots. Hollywood reflected these divisions, choosing to concentrate on big franchise blockbusters at the expense of mid-budget films, while new players like Netflix and Amazon offered fresh opportunities for low-budget and independent filmmakers. As the movie business changed, films ranging from American Sniper to Get Out found ways to speak to the concerns of a divided nation. The newest installment in the Screen Decades series, American Cinema in the 2010s takes a close look at the memorable movies, visionary filmmakers, and behind-the-scenes drama that made this decade such an exciting time to be a moviegoer. Each chapter offers an in-depth examination of a specific year, covering a wide variety of films, from blockbuster superhero movies like Black Panther and animated films like Frozen to smaller-budget biopics like I, Tonya and horror films like Hereditary. This volume introduces readers to a decade in which established auteurs like Quentin Tarantino were joined by an exceptionally diverse set of new talents, taking American cinema in new directions.

Selena Gomez 268 Success Facts - Everything You Need to Know about Selena Gomez - Chris Compton 2014-05

Not just another Selena Gomez title. This book is your ultimate resource for Selena Gomez. Here you will find the most up-to-date 268 Success Facts, Information, and much more. Fearless Femininity by Women in American Theatre, 1910s to 2010s - Lynne Greeley 2015-08-06

In this unprecedented, fascinating book which covers women in theatre from the 1910s to the 2010s, author Lynne Greeley notes that, for the purposes of this study, "feminism" is defined as the political impulse toward economic and social empowerment for females or the female-identified, a position perceived by many feminists as oppositional to ideas of femininity that they see as personally and politically constraining and that "femininity" comprises social behaviors and practices that mean as "many different things as there are women," some of which are empowering and others of which are not. This book illuminates how throughout the twentieth century and into the twenty-first, playwrights and artists in American theatre both embodied and disrupted the feminine of their times. Through approaches as wide ranging as performing their own recipes, energizing silences, raging against war and rape, and inviting the public to inscribe their naked bodies, theatre artists have used performance as a site to insert themselves between the physicality of their female presence and the liminality of their disrupting the role of the feminine. Capturing that place of liminality, a neither-here-nor-there place that is often unsafe, where the established order is overturned by acts as banal as raising a plant, women have written and performed and disrupted their way through one hundred years of theatre

history, even within the constraints of a variably rigid and usually unsympathetic social order. Creating a feminist femininity, they have reinscribed their place in the culture and provided models for their audiences to do the same. This comprehensive tome, part of the Cambria Contemporary Global Performing Arts headed by John Clum (Duke University) is an essential addition for theater studies and women's studies.

The Faces of Contemporary Populism in Western Europe and the US - Karine Tournier-Sol 2021-01-04

This edited book aims to contribute to the political science scholarship on populism by focusing on the contemporary manifestations of populism in

light of the current context. Populism has gone global, with populist parties gaining considerable ground, particularly in the last decade: populists are now in government in almost every part of the globe. In so doing, this book not only takes stock of the previous work on populism, but also builds upon it to further deepen our understanding of the phenomenon and take research forward. The authors explore different facets of the most recent manifestations of populism, trying to engage in new avenues as suggested by recent and authoritative academic work. The approach is comparative and multi-dimensional, with a cross-regional focus on Western Europe and the USA. The 12 contributions gathered in this book address a wide spectrum of aspects, many of which are largely understudied.
