Happy Single? - Arnaud van der Veere 2021-02-07

All over the world, the number of singles is increasing. With the rise of the economy, people are able to keep a form of independence. Education and economic status promote

individuality. The need to commit yourself to another person becomes less important. In many countries' women get more space to have their own career and education. The male dominance is fading increasingly everywhere. One of the most important facts in history is the decrease of religious practice promoting male dominance with a following obedient female. Since only around 50+ years women begin to develop a strong sense of independence and are able to get a social position. The social stigma of a single woman is disappearing. One important reason why women more often chose for a single live position is due to the lack of "good" suitable men. Men have built philosophies, religions and believe that women should be followers and obedient to men. When they designed these moral repressive ideas, they did not consider the fact that women could develop above their level. Now many men get hit by their own ancestors. It is an ironical faith.

Models - Mark Manson

2017-09-11

"You can become irresistibly attractive to women without changing who you are." So says Mark Manson, superstar blogger and author of the international bestseller, *The Subtle Art of Not Giving A F*ck*, a self help book that packs a punch. Mark brings the same approach to teaching men what they need to know about attracting women. In *Models* he shows us how much it sucks trying to attract women using the tricks and tactics recommended by other books. Instead, he says, men need to focus on seduction as an emotional process not a physical or social one. What matters is the intention, the motivation, the authenticity. To improve your dating life you must improve your emotional life - how you feel about yourself and how you express yourself to others. Funny, irreverent and confronting, *Models* is a mature and honest guide on how a man can attract women by giving up the bullsh*t and becoming an

honest broker. "A detailed guide to modern sexual ethics" Sydney Morning Herald "There's nothing subtle about Mark Manson. He's crude and vulgar and doesn't give a f*ck . . . He's as painfully honest as he is outrageously funny" Huffington Post

Why Are You Still Single? -

Vince Guaglione 2020-03-08

"I am so over dating." As singles, we may have heard this statement echoed many times within our immediate dating circles. Friends have stated it. Many in our social networks have stated it. Even we may have stated it at one time or another. Many singles have reached such a level of frustration with dating that is has caused them to throw up their hands in defeat. But are they honestly over dating? Not exactly. At one time or another, almost every member of the

active singles community will have stated that yes, he or she is over dating. But the reality is that most are not. No matter how many times singles completely swear dating off, they continue to entertain the idea that the person of their dreams is out there, so they keep trying. But many are having trouble sifting through what the dating world serves up, and are continually bumping up against issues that prevent them from realizing their dreams, which is why, for most, dating has become exasperating. When posing the question, "Why are you still single?" to those who are active in the dating pool of the present day, you will likely hear replies such as: "I'm too old." "I'm too intimidating." "I have trust issues." "No one will date me." "I want someone who'll match my time and effort." "I haven't found a serious and decent guy who wants more than a hookup." "Women don't appreciate good men." "Something out of my control prevents things from going further." "I haven't met a

guy who's character I can trust." "I held onto someone for years hoping they would change." "I don't trust myself to make good decisions." Although in recent years, dating has seemingly become an exercise in futility, and outside factors beyond our control play a part in the lack of success we experience as daters, the truth is, we as individuals have made it much harder on ourselves, if not more so, than the dating world has on us. When we take a step back and look at society as a whole, we find that failing to connect to ourselves and to others in a meaningful way is our biggest problem. And nowhere is this more apparent than in the sub-section of society known as the available singles pool. Those that are actively swimming in its turbulent waters are having a difficult time making sense of what they are seeing, hearing, and experiencing, so it's not surprising that dating has become a casualty of the dysfunctional society of the present day. But there are things you can do to making

your personal dating life a more pleasurable, enjoyable, and ultimately, successful endeavor. In the first part of this book, Vince Guaglione take a deep dive into the issues that plague today's dating world, how those issues affect the entire dating community, and how they have created an environment that has resulted in dating being held in such low regard by those who are currently immersed in it. The second part of the book offers up helpful advice, tips, and strategies for navigating the current dating world, and provides guidance on how to make effective and efficient use of your dating time and effort, while providing some simple and effective concepts which, when implemented, will set you up for dating success. If you're single and are trying to make sense of the dating world, you will find something of value within these pages. It's a guide that will provide insight into what's really going on in the dating pool, and will aid you in creating a solid plan for remaining afloat

Online Dating for Senior Citizens - Anthony Ekanem
2016-08-31

Technically, a person is considered a senior citizen when they reach the age of 65. However, that's not always the way the general public feels - especially those who have hit the age of 50. To some people, this might send them into spasms of denial. After all, how can you be 60 when you still feel 30 in your mind? But, really, that's a good way to think. It's been said many, many times that age is simply a number - it's a state of mind how old you actually are! If you're over 50 years old, you've likely heard many times by now that you're over the hill. What started this rumor that once you've reached the middle of your life, it's all downhill from there? Today's baby-boomers will stop at nothing to put an end to this rumor. They'll prove that the over 50 crowd is stronger and smarter than ever. Those over age 50 are more physically active than ever. Many have a decent

amount of disposable income. They are politically active, culturally motivated and in tune with modern trends. Mark Twain once said "Age is an issue of mind over matter. If you don't mind, it doesn't matter." Truer words, I think, have never been spoken! So you're a senior citizen - so what! Life doesn't have to be relegated to planting flowers and rocking on your front porch talking about the good old days. Believe me; the good old days are just starting! With maturity comes new knowledge and experiences that you can embrace and enjoy. You are blessed with the past memories you can share with those around you - your loved ones. But what if you're a single senior? Is all hope lost for sharing your life and those memories with someone else? Not a chance! Many of those over the age of 50 actively date. Loss of a spouse or partner due to death or divorce or other life situation is no longer the beginning of many lonely years spent in mourning. Instead, dating for the over 50

crowd is big business. At one time, dating for seniors was essentially unthought-of. The general consensus "back in the day" was that you found someone to marry and stayed married to them forever. Once they passed away, you were expected to simply live out the rest of your days as a widow or widower. Well, the times have changed. Divorce can also bring you to a newly single status. The divorce rate today is alarmingly high, but for some people, there just isn't another option. Studies have shown that staying single can also put your health at risk. Researchers from the University of Chicago and Duke University have found that the longer a man spends in divorced or widower state: The higher his likelihood of developing heart or lung disease or cancer The greater his risk of high blood pressures, diabetes, and stroke The more difficulties he will have with mobility, such as walking or climbing stairs This particular study only involved men, but we're willing to be

that women run those same risks as well. It makes sense then to get back out in the social scene and date - for your health! If you're over 50 and you'd like to date, put your fears aside. There are so many safe ways to meet others who are in a similar situation. No longer do those over 50 have to rely on friends or family or neighbors to provide them with dating opportunities. Why should you be expected to be alone when you still have so much life to live? You shouldn't! So you need to get out there and meet people - date, have fun, make new memories, have new experiences! What's the best way to do that? Meeting new people can be challenging at any age, but for the senior, it can be especially daunting. If you've spent years with one person, you may not know where to begin. We think that's normal, but don't worry. Inside this book, you'll find everything you need to know to get started in the online dating scene. We'll give you all kinds of tips and tricks on how to create

your online profile, what to look for in a potential date, and ways to keep yourself safe."

Gladly Serve God In Sunshine or Storms - Linda L. Linn
2023-04-14

Who might be the next to fall in love in Pine City and find a loving spouse so they can be married and serve God together in unity? Maybe somebody we haven't met, because the ones we already know aren't ready to start

thinking in that direction yet, but give them time. As you read this third novel in the Sunshine Series, be looking for clues about the unmarried people in the Character list which is in the Addendum. Some will get married and some will decide to stay single. Either way, how much can the people in Pine City do for Jesus before he returns? You'll get to notice how Jesus loves and leads some his followers to love and serve him in new or old ways. You might also get some ideas of places where you might like to travel. Maybe you've wondered what happened during the amount of time the author skipped at the end of the second novel in this series. This book fills in some of that interval. If you haven't read the first two novels in the series, it would be most helpful for you to read "Everywhere There's a Sunrise, Let's Tell the Good News, and "Rejoice as the Sun Shines on Restorations," before you read this one, "Gladly Serve God In Sunshine or Storms." All three books are available to buy as

printed copies from thebookpatch.com. Or you could get each of these books as eBooks or PDF files, free of charge and read them in the right order.

The Subtle Art of Not Giving a F*ck - Mark Manson

2016-09-13

#1 New York Times Bestseller
Over 10 million copies sold
In this generation-defining self-help guide, a superstar blogger cuts through the crap to show us how to stop trying to be "positive" all the time so that we can truly become better, happier people. For decades, we've been told that positive thinking is the key to a happy, rich life. "F**k positivity," Mark Manson says. "Let's be honest, shit is f**ked and we have to live with it." In his wildly popular Internet blog, Manson

doesn't sugarcoat or equivocate. He tells it like it is—a dose of raw, refreshing, honest truth that is sorely lacking today. The Subtle Art of Not Giving a F**k is his antidote to the coddling, let's-all-feel-good mindset that has infected American society and spoiled a generation, rewarding them with gold medals just for showing up. Manson makes the argument, backed both by academic research and well-timed poop jokes, that improving our lives hinges not on our ability to turn lemons into lemonade, but on learning to stomach lemons better. Human beings are flawed and limited—"not everybody can be extraordinary, there are winners and losers in society, and some of it is not fair or your fault." Manson advises us to get to know our limitations and accept them. Once we embrace our fears, faults, and uncertainties, once we stop running and avoiding and start confronting painful truths, we can begin to find the courage, perseverance, honesty,

responsibility, curiosity, and forgiveness we seek. There are only so many things we can give a f**k about so we need to figure out which ones really matter, Manson makes clear. While money is nice, caring about what you do with your life is better, because true wealth is about experience. A much-needed grab-you-by-the-shoulders-and-look-you-in-the-eye moment of real-talk, filled with entertaining stories and profane, ruthless humor, *The Subtle Art of Not Giving a F**k* is a refreshing slap for a generation to help them lead contented, grounded lives. *The Everything Dating Book* - Alison Blackman Dunham 2005-10-31 Celebrated life and career expert Alison Blackman Dunham (aka "Advice Sister Alison") gives you the "must-have" basics of modern, adult dating, along with tons of tips and tactics that make dating exciting, safe, and successful!
