SuicideGirls: Hard Girls, Soft Light - Missy Suicide 2012

The SuicideGirls are a collection of more than 2,500 pin-up girls devoted to changing your idea about what makes a woman beautiful ... and they are naked. Started in Portland, Oregon, by Missy Suicide and her friends in 2001, the SuicideGirls broke conventional notions of beauty and the pin-up girl ideal as defined by men's and women's magazines and the culture at large. In addition to the millions of visitors that frequent the SG Website, this book will appeal to both men and women (their membership is split nearly equally) who thought the shy, artsy chick with the black eyeliner and nose ring was the sexiest girl in high school (every guy in Silverlake, Williamsburg, and beyond).

history of women's tattoo art, providing a fascinating excursion to a subculture that dates back into the nineteenth-century and includes many never-before-seen photos of tattooed women from the last century. Author Margot Mifflin notes that women's interest in tattoos surged in the suffragist 20s and the feminist 70s. She chronicles: * Breast cancer survivors of the 90s who tattoo their mastectomy scars as an alternative to reconstructive surgery or prosthetics. * The parallel rise of tattooing and cosmetic surgery during the 80s when women tattooists became soul doctors to a nation afflicted with body anxieties. * Maud Wagner, the first known woman tattooist, who in 1904 traded a date with her tattooist husband-to-be for an apprenticeship. * Victorian society women who wore tattoos as custom couture, including Winston Churchill's mother, who wore a serpent on her wrist. * Nineteenth-century sideshow attractions who created fantastic abduction tales in which they claimed to have been forcibly

tattooed. "In Bodies of Subversion, Margot Mifflin insightfully chronicles the saga of skin as signage. Through compelling anecdotes and cleverly astute analysis, she shows and tells us new histories about women, tattoos, public pictures, and private parts. It's an indelible account of an indelible piece of cultural history."

SuicideGirls - Missy Suicide 2008-11

"SuicideGirls" explores the SuicideGirl phenomenon from their start in 2001 to their Web sites that attract more than one million visitors per week. This title shines a light on a new female aesthetic--a look reminiscent of vintage Betty Page and Bunny Yeager, but with a decisively 21st-century edge.

confronted with tragic news that changes everything. If that wasn't bad enough, she runs into her high school sweetheart, Jared Ferrara. Jared is the ultimate bad boy with sleeves of tattoos, a leather jacket, and, of course, a motorcycle. He let Sadie leave town once, but never again—if he has anything to do with it. While trying to keep her past at bay and repair her broken relationship with her mother, Sadie finds out the hard way that most tattoos aren't skin deep.

groping hands. She doesn't need distractions. Especially not the one that comes in the form of a hot-as-sin tattoo artist who works across the street from her apartment. Kicked out at sixteen, and a high school dropout, Chris Zelter is familiar with wanting things he can't have. His fractured life has never been easy. As the product of someone else's bad decisions, he knows exactly what happens when the wrong person controls your marionette strings. Now an accomplished tattoo artist in a renowned studio in Chicago, Chris has it together. Mostly. Apart from his infatuation with Sarah. She's way out of his league, and Chris knows it. But he's willing to be her bad decision. At least for now.

Photography After Capitalism - Ben Burbridge 2020-12-15

A polemical analysis of the politics and economics of today's vernacular photographic

cultures. In *Photography After Capitalism*, Benedict Burbridge makes the case for a radically expanded conception of photography, encompassing the types of labor too often obscured by black-boxed technologies, slick platform interfaces, and the compulsion to display lives to others. His lively and polemical analysis of today's vernacular photographic cultures shines new light on the hidden work of smartphone assembly teams, digital content moderators, Street View car drivers, Google "Scan-Ops," low-paid gallery interns, homeless participant photographers, and the photo-sharing masses. Bringing together cultural criticism, social history, and political philosophy, Burbridge examines how representations of our photographic lives—in advertising, journalism, scholarship and, particularly, contemporary art—shape a sense of what photography is and the social relations that comprise it. More precisely, he focuses on how different critical and creative strategies—from the appropriation

of social media imagery to performative traversals of the network, from documentaries about secretive manual labor to science fiction fantasies of future sabotage—affect our understanding of photography's interactions with political and economic systems. Drawing insight and inspiration from recent analyses of digital labour, community economies and post-capitalism, Burbridge harnesses the ubiquity of photography to cognitively map contemporary capitalism in search of its weak spots and levers, sites of resistance, and opportunities to build better worlds.

Notes from the Blender - Trish Cook 2011-05-01
Declan loves death metal—particularly from Finland. And video games—violent ones. And internet porn—any kind, really. He goes to school with Neilly Foster and spends most of his classroom time wondering what it might be like to know her, to talk to her, maybe even to graze against her sweater in the hallway. Neilly is an accomplished gymnast, naturally beautiful, and a

constant presence at all the best parties (to which Declan is never invited). She's the queen of cool, the princess of poker face, and her rule is uncontested—or it was until today, when she's dumped by her boyfriend, betrayed by her former BFF Lulu, and then informed she's getting a new brother—of the freaky fellow classmate variety. Declan's dad is marrying Neilly's mom. Soon. Which means they'll be moving in together.

They're celebrating the fact [they've] always been here, [they've] always been geeks, and [they've] always been beautiful." "SuicideGirls: Geekology" casts the spotlight on the self-proclaimed geeks of the SuicideGirls population--the video-game players, the comic-book readers, the Trekkies, and many other shining examples of the culture they're celebrating. There's something really wonderful about this book. There's something beautiful around the idea of showcasing girl geeks in all their glory: to go beyond the photos and find out that, to us, each piece of the picture means

something. To find out how many hours we put into designing our cosplay and how attentive we are to the homages we create. We're not just playing dress up in a world we know nothing about. We were right there with it, helping to build popularity from the ground up: first in line, issue number one. Once a subculture of a subculture, women are now a full force in the geek community.

Tattoos in crime and detective narratives - Kate Watson 2019-07-04

Examining representations of the tattoo and tattooing in literature, television, and film from two periods of tattoo renaissance (1851-1914, and 1955 to present), this study makes an original contribution to understandings of crime and detective genre and the ways in which tattoos act as a mimetic device that marks and remarks these narratives in complex ways.

Warriors - Jennifer K. Stuller 2010-01-30

From "Wonder Woman" to Buffy Summers, Emma Peel to Sydney Bristow, "Charlie's

Angels" to "The Powerpuff Girls", Superwomen are more than just love interests or sidekicks who stand by their Supermen. In her new book, Stuller shows how the female hero in modern mythology has broken through the boy's club barrier of tradition and reveals the pivotal role of high-heeled crime fighters in popular culture. Featuring spies and sexuality, daddy's girls and super-mothers, this is a comprehensive, engaging and thought-provoking guide to female detectives, meta-humans and action heroines, as well as their creators, directors, performers, and consumers. The book also includes a glossary of modern mythic women, from Aeon to Zoe, as well as a foreword by acclaimed cultural commentator Roz Kaveney, author of "Superheroes! Capes and Crusaders in Comics and Films" (published by I.B. Tauris, April 2008).
