Ecology and Behaviour of the Ladybird Beetles (Coccinellidae) - Ivo Hodek 2012-04-19

Ladybirds are probably the best known predators of aphids and coccids in the world, though this greatly underestimates the diversity of their biology. Maximising their impact on their prey is an important element in modern conservation biological control of indigenous natural enemies in contrast to the classical approach of releasing alien species. Ivo Hodek is one of the most internationally respected experts on coccinellids who has researched these insects for his entire career. He has now brought together 14

scientists of international standing to author 12 chapters, making this book the definitive treatment of coccinellid biology and ecology. This volume covers the rapid scientific developments of recent years in the understanding of coccinellid phylogeny, the semiochemicals influencing their behaviour and of molecular genetics. Recent insights in relation to intraguild predation and the assessment of the predatory impact of coccinellids are also covered. Other special features of the volume are the extensive references covering the literature from both East and West and a taxonomic glossary of the up-to-date nomenclature for species of coccinellids as well as of other organisms mentioned in the text. While aimed at researchers, university teachers and agricultural entomologists, the book is readable and appropriate for others who just have a liking for these interesting and attractive insects.

Their story is over.

The Ladybird Book of the Hangover - Jason Hazeley 2015-10-29

THE PERFECT GIFT for anyone who likes a glass of red. And a double gin. And a vodka shot. And a flaming tequila. And a candy floss caipirinha . . . and a small Bahama Mama. 'A good hangover should be a total mystery to you. How did this happen? Why do you feel so ill? Pretend to yourself that you drank less than you did. Insist you stuck to beer, forgetting the champagne at the start of the evening and the round of jalapeno tequilas you did for a bet in that club next to the dual carriageway at 2am.'

'What a confusing world it can seem with a hangover. Sit as still as you can. Do not attempt to make any decisions. Look out of the window. Can you recognise simple shapes or colours? Is there a moon or a sun in the sky? What sort of a name might you have? Where might there be bacon?'
