Lexicon Urthus - Michael
Andre-Driussi 2008

Lexicon Urthus is an alphabetical dictionary for the complete Urth Cycle by Gene Wolfe: *The Shadow of the Torturer*; *The Claw of the Conciliator*; *The Sword of the Lictor*; *The Citadel of the Autarch*; the sequel *Urth of the New Sun*; the novella *Empires of Foliage and Flower*; the short stories "The Cat," "The Map," and "The Old Woman Whose Rolling Pin Is the Sun"; and Gene Wolfe's own commentaries in *The Castle of the Otter*. The first edition was nominated for a World Fantasy Award. This second edition includes over 1,200 entries. When the first edition was published, *Science Fiction Age* said: "Lexicon Urthus makes a perfect gift for any fan of [Wolfe's] work, and from the way his words sell, it appears that there are many deserving readers out there waiting." Gary K. Wolfe, in *Locus*, said: "A convenient and well

researched glossary of names and terms. . . . It provides enough of a gloss on the novels that it almost evokes Wolfe's distant future all by itself. . . . It can provide both a useful reference and a good deal of fun." Donald Keller said, in the *New York Review of Science Fiction*: "A fruitful product of obsession, this is a thorough . . . dictionary of the Urth Cycle. . . . Andre-Driussi's research has been exhaustive, and he has discovered many fascinating things . . . [it is] head-spinning to confront a myriad of small and large details, some merely interesting, others jawdropping."

SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK, compiled by Davis Langdon, provides the most accurate, detailed and professionally relevant construction price information currently available for the UK. Its unique Tender Index, updated through the year, provides an ongoing reality check and adjustment for changing market conditions. This is the only price book which sets out a detailed cost base for major works contracts exceeding £3,500,000 in value, as well as minor works. Major changes have been made to this 136th edition: Overheads and profits have been kept low and in line with actual levels.

Preliminaries have also been dropped to 11%, on a lower cost base. And labour rates have been adjusted to reflect today's fragile market. As well as an overhaul of prices, Spon's Architects' and Builders' Price Book 2011 includes: new Measured Works items including bio diverse roofs; Clayboard void formers; fire resisting glass blocks; UPVC

window options (coloured, Secured by Design); glazing (curve cutting, drill holes); insulating panels (Kooltherm, Thermafloor, Thermaline); more internal door options; blister tactile paving; Metsec SFS framing; Ecosil paint new Approximate Estimating items: lift pits; Corium brick tiles; solar hot water; photovoltaic cells; and polished plaster extra elemental building cost models on land remediation; school refurbishment; and office refurbishment. Buyers of this 2011 edition can make a free internet download of SPON'S ARCHITECTS' AND BUILDERS' price data, which will run to the end of 2011 and: Access Spon's new Approximate Estimates rate data, as well as the Measured Works data Produce estimate and tender documents Generate priced or unpriced schedules Adjust rates and data and enter rogue items Export schedules into Excel Carry out an index search. This year, for the first time, the resources include a versatile and powerful ebook.
