## **The sins of our fathers** -

Various 2003-06

Possibly even more wicked than the trail-blazing first volume in this series, this

fabulous collection of 19th century hard-core porn includes a staggering range of sexual activity, from masturbation to group sex. These arousing images are complemented by an excellent explanatory foreword and extracts from classic pornographic literature of the time. B/w photos throughout.

## **Sirens** - John Dupret

2007-02-12

John DuPret creates perverse imagery with the decadent feel of fetish photography from the 1920s and 30s. This is his first

collection. With a background in fine art and design, DuPret always creates the perfect ambience for his models. As the owner of the world's most important collection of pre-1930s fetish photography (the EPS publication *Dark Sex* was drawn from this collection) DuPret has an encyclopaedic knowledge of the subject, giving his vision a depth and awareness that few others can achieve.

2009-08-01

Fashion is everywhere. It is one of the main ways in which we present ourselves to others, signaling what we want to communicate about our sexuality, wealth, professionalism, subcultural and political allegiances, social status, even our mood. It is also a global industry with huge economic, political and cultural

impact on the lives of all of us who make, sell, wear or even just watch fashion. Fashion: the key concepts presents a clear introduction to the complex world of fashion. The aim throughout is to present a comprehensive but also accessible and provocative analysis. Readers will discover how the fashion industry is structured and how it thinks, the links between catwalk, celebrity branding, media promotion and mainstream retail, how clothes mean different things in different parts of the world, and how popular culture influences fashion and how fashion shapes global culture. Illustrated with a wealth of photographs, the text is further enlivened with over 30 detailed and rich case studies - ranging across topics as diverse as the meaning of black in fashion, the rise of celebrity branding, the cult of thinness, the politics of veiling, the eroticism of shoes and the power of cosmetics. Features: § Boxed chapter overviews open each chapter § Bullet points summarizing key ideas

conclude each chapter§  
Chapter discussions are  
illustrated with integrated case  
material§ Each chapter is  
supported by extended Case  
Studies§ Key words are  
highlighted in chapters and  
defined in an extensive  
Glossary§ Further Reading  
guides the reader to other  
literature§ A timeline of  
Fashion Milestones provides a  
chronology of major events in  
the history of fashion  
Responsible Innovation -  
Richard Owen 2013-03-21  
Science and innovation have  
the power to transform our  
lives and the world we live in -  
for better or worse - in ways  
that often transcend borders  
and generations: from the  
innovation of complex financial  
products that played such an  
important role in the recent  
financial crisis to current  
proposals to  
intentionally engineer our  
Earth's climate. The promise of  
science and innovation brings  
with it ethical dilemmas and  
impacts which are often  
uncertain and unpredictable: it  
is often only once these

have emerged that we feel able  
to control them. How do we  
undertake science and  
innovation responsibly under  
such conditions, towards not  
only socially acceptable, but  
socially desirable goals and in  
away that is democratic,  
equitable and sustainable?  
Responsible innovation  
challenges us all to think about  
our responsibilities for the  
future, as scientists, innovators  
and citizens, and to act upon  
these. This book begins with a  
description of the current  
landscape of innovation and in  
subsequent chapters offers  
perspectives on the emerging  
concept of responsible  
innovation and its  
historical foundations, including  
key elements of a responsible  
innovation approach and  
examples of practical  
implementation. Written in a  
constructive and accessible  
way, Responsible Innovation  
includes chapters on:  
Innovation and its management  
in the 21st century A vision and  
framework for responsible  
innovation Concepts of future-  
oriented responsibility as an

underpinning philosophy Values - sensitive design Key themes of anticipation, reflection, deliberation and responsiveness Multi - level governance and regulation Perspectives on responsible innovation in finance, ICT, geoengineering and nanotechnology Essentially multidisciplinary in nature, this landmark text combines research from the fields of science and technology studies, philosophy, innovation governance, business studies and beyond to address the question, "How do we ensure the responsible emergence of science and innovation in society?"

Frosty Fire - Olaf Martens 1996

When Clothes Become Fashion

- Ingrid Loschek 2009-09-15  
When, how and why do clothes become fashion? Fashion is more than mere clothing. It is a moment of invention, a distillation of desire, a reflection of a zeitgeist. This book explores the structures and strategies which underlie fashion innovation, how fashion is perceived and the point at

which clothing is accepted or rejected as fashion.

**Ethnographies of Islam: Ritual Performances and Everyday Practices -**

Baudouin Dupret 2012-07-23

This volume explores the ways in which ethnography can create a greater understanding of Islam in particular social contexts. It does so by advancing a pluralistic use of ethnography in research about Islam in anthropology and the other social science disciplines. The contributors have used ethnography to engage with and relate to specific empirical realities in regions around the world. They argue that this approach allows for a more precise and complex understanding of the practices and discourses that constitute social realities constructed and perceived as 'Islamic' by those who live them. Furthermore, the book encourages ethnography in the study of Muslim practices that have seldom been approached in this way.

**The Crime of Writing -**

Zouhair Ghazzal 2017-03-31

This book gives a unique portrait of Syrian society through the workings of its criminal records in the three decades prior to outbreak of the civil war in 2011. Based on actual crime files from Aleppo and Idlib, in addition to extensive interviews with criminal detainees, lawyers, judges, and court experts, this study manages an in-depth account of Syria under the Baathist rule of the two Asad régimes.

Historical Dictionary of the Fashion Industry - Francesca Sterlacci 2017-06-30

This second edition of Historical Dictionary of the Fashion Industry contains a chronology, an introduction, appendixes, a bibliography. The dictionary section has over 1,400 cross-referenced entries on designers, models, couture houses, significant articles of apparel and fabrics, trade

unions, and the international trade organizations.

**Feminizing the Fetish** - Emily Apter 2018-03-15

Shoes, gloves, umbrellas, cigars that are not just objects—the topic of fetishism seems both bizarre and inevitable. In this venturesome and provocative book, Emily Apter offers a fresh account of the complex relationship between representation and sexual obsession in turn-of-the-century French culture.

Analyzing works by authors in the naturalist and realist traditions as well as making use of documents from a contemporary medical archive, she considers fetishism as a cultural artifact and as a subgenre of realist fiction. Apter traces the web of connections among fin-de-siècle representations of perversion, the fiction of pathology, and the literary case history. She explores in particular the theme of "female fetishism" in the context of the feminine culture of mourning, collecting, and dressing.

**Japanese Fashion Designers**

- Bonnie English 2013-08-15  
Over the past 40 years, Japanese designers have led the way in aligning fashion with art and ideology, as well as addressing identity and social politics through dress. They have demonstrated that both creative and commercial enterprise is possible in today's international fashion industry, and have refused to compromise their ideals, remaining autonomous and independent in their design, business affairs and distribution methods. The inspirational Miyake, Yamamoto and Kawakubo have gained worldwide respect and admiration and have influenced a generation of designers and artists alike. Based on twelve years of research, this book provides a richly detailed and uniquely comprehensive view of the work of these three key designers. It outlines their major contributions and the subsequent impact that their work has had upon the next generation of fashion and textile designers around the world. Designers discussed

include: Issey Miyake, Yohji Yamamoto, Rei Kawakubo, Naoki Takizawa, Dai Fujiwara, Junya Watanabe, Tao Kurihara, Jun Takahashi, Yoshiki Hishinuma, Junichi Arai, Reiko Sudo & the Nuno Corporation, Makiko Minagawa, Hiroshi Matsushita, Martin Margiela, Ann Demeulemeester, Dries Van Noten, Walter Beirendonck, Dirk Bikkembergs, Alexander McQueen, Hussein Chalayan and Helmut Lang.

*Montessori Madness* - Trevor Eissler 2009

"We know we need to improve our traditional school system, both public and private. But how? More homework? Better-qualified teachers? Longer school days or school years? More testing? More funding? No, no, no, no, and no.

*Montessori Madness!* explains why the incremental steps politicians and administrators continue to propose are incremental steps politicians and administrators continue to propose are incremental steps in the wrong direction. The entire system must be turned

on its head. This book ask parents to take a look--one thirty-minute observation--at a Montessori school. Your picture of what educations should look like will never be the same"--Back cover.

*Dark Sex* - Various 2001-06  
The DuPret's is perhaps the finest collection of early 20th century fetish photographs ever assembled. Most record

sexual deviation of huge diversity from before the last war: bondage, domination, whipping, caning, spanking, urination, rubber and leather fetish-wear are among the list. A fascinating testimonial to the best-known pioneers of fetish photography and an important addition to any fetish library. B/w photos throughout.
