The First Day on the Eastern Front Craig W. H. Luther 2018-11-01 Sunday, June 22, 1941: three million German soldiers invaded the Soviet Union as part of Hitler's long-planned Operation Barbarossa, which aimed to destroy the Soviet Union, secure its land as lebensraum for the Third Reich, and enslave its Slavic population. From launching points in newly acquired Poland, in three prongs—North, Central, South—German forces stormed western Russia, virtually from the Baltic to the Black Sea. By late fall, the invasion had foundered against Russian weather, terrain, and resistance, and by December, it had failed at the gates of Moscow, but early on, as the Germans sliced through Russian territory and soldiers with impunity, capturing hundreds of thousands, it seemed as though Russia would fall. In the spirit of Martin Middlebrook's classic *First Day on the Somme*, Craig Luther narrates the events of June 22, 1941, a day when German military might was at its peak and seemed as though it would easily conquer the Soviet Union, a day the common soldiers would remember for its tension and the frogs bellowing in the Polish marshlands. It was a day when the German blitzkrieg decimated Soviet command and control within hours and seemed like nothing would stop it from taking Moscow. Luther narrates June 22—one of the pivotal days of World War II—from high command down to the tanks and soldiers at the sharp end, covering strategy as well as tactics and the vivid personal stories of the men who crossed the border into the Soviet Union that fateful day, which is the Eastern Front in microcosm, representing the years of industrial-scale warfare that followed and the unremitting hostility of Germans and Soviets.

The American President William E. Leuchtenburg 2015-11-19 *The American President* is an enthralling account of American presidential actions from the assassination of William McKinley in 1901 to Bill Clinton's last night in office in January 2001. William Leuchtenburg, one of the great presidential historians of the century, portrays each of the presidents in a chronicle sparkling with anecdote and wit. Leuchtenburg offers a nuanced assessment of their conduct in office, preoccupations, and temperament. His book presents countless moments of high drama: FDR hurling defiance at the "economic royalists" who exploited the poor; ratcheting tension for JFK as Soviet vessels approach an American naval blockade; a grievously wounded Reagan joking with nurses while fighting for his life. This book charts the enormous growth of presidential power from its lowly state in the late nineteenth century to the imperial presidency of the twentieth. That striking change was manifested both at home in periods of progressive reform and abroad, notably in two world wars, Vietnam, and the war on terror. Leuchtenburg sheds light on presidents battling with contradictory forces. Caught between maintaining their reputation and executing their goals, many practiced deceptions that shape their image today. But he also reveals how the country's leaders pulled off magnificent achievements worthy of the nation's pride.

Revenge Tragedy John Kerrigan 1996 *Revenge* has long been a central theme in Western culture. From Homer to Nietzsche, from St. Paul to Sylvia Plath, major writers have been fascinated by its emotional intensity and by the questions it raises about the nature of justice, violence, sexuality, and death. John Kerrigan employs both wide-ranging historical analysis and subtle attention to individual texts to explore the culture of vengeance in several languages and genres. Thus, he shows how evolving attitudes to retribution have shaped and reconstituted tragedy in the West and elucidates the remarkable capacity of this ancient theme to generate innovative works of art. Although this book is a literary study, it makes use of anthropology, social theory, and moral philosophy. As a result, it will be of interest to students in a variety of disciplines, as well as to the general reader.

Field Marshal Bernard Law Montgomery, 1887-1976 Colin F. Baxter 1999-10-30 In the desperate summer of 1942, Hitler seemed to be on the verge of victory in Russia and the Middle East. With Rommel nearing Cairo, a little known lieutenant-general, Bernard Montgomery, took charge of what Churchill called a baffled and bewildered British 8th Army. Assuming command, Montgomery issued his famous order, Here we will stand and fight;...If we can't stay here alive, then let us stay here dead, and led the Army to one of the Allies' greatest victories—El Alamein. Monty became an instantly recognizable Allied leader, but as a man with strong views, unbending principles, and outspoken frankness, he was both loved and disliked, praised and criticized. This bibliography presents and evaluates the extensive body of literature that has grown up around the controversial Field Marshal. Any serious study of World War II military campaigns must confront Field Marshal Bernard Montgomery, an individualist with both admirers and detractors. This book provides an extensive historiographical overview of the literature in Part I and a bibliography of significant works in Part II. It is a basic reference and research guide for the student, scholar, and general reader.

Transnational Gothic Professor Bridget M Marshall 2013-02-28 Offering a variety of critical approaches to late eighteenth- and nineteenth-century Gothic literature, this collection provides a transnational view of the emergence and flowering of the Gothic. The essays expand on now well-known approaches to the Gothic (such as those that concentrate exclusively on race, gender, or nation) by focusing on international issues: religious traditions, social reform, economic and financial pitfalls, manifest destiny and expansion, changing concepts of nationhood, and destabilizing moments of empire-building. By examining a wide array of Gothic texts, including novels, drama, and poetry, the contributors present the Gothic not as a peripheral, marginal genre, but as a central mode of literary exchange in an ever-expanding global context. Thus the traditional conventions of the Gothic, such as those associated with Ann Radcliffe and Monk Lewis, are read alongside unexpected Gothic formulations and lesser-known Gothic authors and texts. These include Mary Rowlandson and Bram Stoker, Frances and Anthony Trollope, Louisa May Alcott, Elizabeth Gaskell, Theodore Dreiser, Rudyard Kipling, and Lafcadio Hearn, as well as the actors Edmund Kean and George Frederick Cooke. Individually and collectively, the essays provide a much-needed perspective that eschews national borders in order to explore the central role that global (and particularly transatlantic) exchange played in the development of the Gothic. British, American, Continental, Caribbean, and Asian Gothic are represented in this collection, which seeks to deepen our understanding of the Gothic as not merely a national but a global aesthetic.

Counterinsurgency Wars and the Anglo-American Alliance Andrew Mumford 2018-01-02 Andrew Mumford challenges the notion of a "special relationship" between the United States and United Kingdom in diplomatic and military affairs, the most vaunted and, he says, exaggerated of associations in the post-1945 era. Though they are allies to be sure, national self-interest and domestic politics have often undercut their relationship. This is the first book to combine a history of US-UK interaction during major counterinsurgency campaigns since 1945, from Palestine to Iraq and Afghanistan, with a critical examination of the so called special relationship that has been tested during these difficult, protracted, and costly conflicts. Mumford's assessment of each nation's internal political discussions and diplomatic exchanges reveals that in actuality there is only a thin layer of specialness at work in the wars that shaped the postcolonial balance of power, the fight against Communism in the Cold War, and the twenty-first-century "war on terror." This book is especially timely given that the US-UK relationship is once again under scrutiny because of the Trump administration's "America First" rhetoric and Britain's changing international relations as a result of Brexit. *Counterinsurgency Wars and the Anglo-American Alliance* will interest scholars and students of history, international relations, and security studies as well as policy practitioners in the field.

Rommel's Desert Commanders Samuel W. Mitcham Jr. 2007-02-28 Perhaps the most famous and admired soldier to fight in World War II was Field Marshal Erwin Rommel, who achieved immortality as the Desert Fox. Rommel's first field command during the war was the 7th Panzer Division—also known as the Ghost Division—which he led in France in 1940. During this campaign, the 7th Panzer suffered more casualties than any other division in the German Army, at the same time inflicting a disproportionate number of casualties upon the enemy. It took 97,486 prisoners, captured 458 tanks and armored vehicles, 277 field guns, 64 anti-tank guns and 4,000 to 5,000 trucks. It captured or destroyed hundreds of tons of other military equipment, shot down 52 aircraft, destroyed 15 more aircraft on the ground, and captured 12 additional planes. It destroyed the French 1st Armored

Division and the 4th North African Division, punched through the Maginot Line extension near Sivry, and checked the largest Allied counteroffensive of the campaign at Arras. When France surrendered, the Ghost Division was within 200 miles of the Spanish border. No doubt about it—Rommel had proven himself a great military leader who was capable of greater things. His next command, in fact, would be the Afrika Korps, where the legend of the Desert Fox was born. Rommel had a great deal of help in France—much more than his published papers suggest. His staff officers and company, battalion, and regimental commanders were an extremely capable collection of military leaders that included 12 future generals (two of them SS), and two colonels who briefly commanded panzer divisions but never reached general rank. They also included Colonel Erich von Unger, who would no doubt have become a general had he not been killed in action while commanding a motorized rifle brigade on the Eastern Front in 1941, as well as Karl Hanke, a Nazi gauleiter who later succeeded Heinrich Himmler as the last Reichsfuehrer-SS. No historian has ever recognized the talented cast of characters who supported the Desert Fox in 1940. No one has ever attempted to tell their stories. This book remedies that deficiency.

Seen That, Now What? Andrea Shaw 1996-04-09 You've never used a video guide like this before. You loved *Chariots of Fire* and you want to see something like it. Where do you start? Look up *Chariots of Fire* in the index, and find it in Drama. There you'll see it listed under White Flannel Films: Welcome to the glory days of the British empire when the ruling class rode horses on large country estates, servants were in plentiful supply, and only an adulterous lover questioned the status quo. As in other costume dramas, the period details are celebrations of all that was brilliant and luxurious, with the camera sweeping over British, Indian, or African countryscapes and exquisite turn-of-the-century interiors. But all this lush upholstery doesn't cover up the intelligent, thoughtful stories -- usually based on Lawrence, Forster, and Waugh novels -- played by stellar British actors. In White Flannel Films there are concise, witty reviews of select movies like *A Room with a View* *A Passage to India* *Heat and Dust* *The Shooting Party* *Out of Africa* *White Mischief* and more There is also a unique ratings system that helps you distinguish the bombs from the sleepers. But the key is that all these films offer the same kind of viewing experience -- if you like one, chances are good you'll like the others, too. *Seen That, Now What?* is your own personal video genius, who knows everything about movies and exactly what you like to watch.

A Tragedy of Errors Ken Bloomfield 2007-01-01 The decommissioning of the Provisional IRA in 2005 suggests that Northern Ireland may finally be ready to turn from the deadly paramilitary clashes of the twentieth century to the thorny problems of a normalized political process. As both former head of the Northern Ireland Civil Service and Victim's Commissioner, Sir Kenneth Bloomfield is in a unique position to evaluate the wisdom and long-term effects of the past fifty years of Northern Irish politics and policy. Bloomfield probes a number of crucial questions about the United Kingdom's management of Irish affairs. Three decades of fighting have had grave consequences for Northern Ireland—what were the costs? Was violence inevitable? Bloomfield delineates the unwise decisions and abrogated responsibilities that led to the civil crisis of the Troubles while emphasizing the United Kingdom's overriding duty to ensure peace. Peppered with incisive—and critical—portraits of the major political players, including Tony Blair and John Hume, *A Tragedy of Errors* gives us an unflinching insider's view of Northern Irish politics and helps us understand the divisions that still dominate the region.

Six Days Jeremy Bowen 2012-09-27 The Six-Day War was an extraordinary human drama. It swept up a generation of Israelis and Arabs whose children still cannot live peacefully in the world the war created. Today, Israel is the superpower of the region. It has nuclear weapons but has never been able to digest the land it swallowed in 1967. However big its army, it will never be at peace or feel secure until the future of this land is settled. Forty years after the end of the six days of fighting, after thousands more deaths and the failure of years of negotiation to try to reach a political settlement, Israelis and Palestinians are fighting once again on the streets in the West Bank and Gaza. It is still a low-level conflict, but if another full-blown Middle East war breaks out, its roots will lie in those six days in June 1967. Drawing on his experiences as the BBC's former Middle East correspondent, and building on extensive original research and interviews with some of the key participants, Jeremy Bowen uses his vast array of contacts to weave together a completely convincing and compelling account, hour by hour, of the 1967 war between Israel and Egypt, Jordan and Syria. As insightful as the best modern history writing and as gripping as fiction, this is a deeply personal book.

Westerns and American Culture, 1930-1955 R. Philip Loy 2001-07-11 Many people have fond memories of Friday nights and Saturday afternoons spent in theatres watching cowboy stars of the 1930s, 1940s, and 1950s chase villains across the silver screen or help a heroine out of harm's way. Over 2,600 Westerns were produced between 1930 and 1955 and they became a defining part of American culture. This work focuses on the idea that Westerns were one of the vehicles by which viewers learned the values and norms of a wide range of social relationships and behavior, and thus examines the ways in which Western movies reflected American life and culture during this quarter century. Chapters discuss such topics as the ways that Westerns included current events in film plot and dialogue, reinforced the role of Christianity in American culture, reflected the emergence of a strong central government, and mirrored attitudes toward private enterprise. Also covered is how Westerns represented racial minorities, women, and Indians.

Greek Drama V Hallie Marshall 2020-02-06 Drawing together new research from emerging and senior scholars, this selection of papers from the decennial Greek Drama V conference (Vancouver, 2017) explores the works of the ancient Greek playwrights and showcases new methodologies with which to study them. Sixteen chapters from a field of international contributors examine a range of topics, from the politics of the ancient theatre, to the role of the chorus, to the earliest history of the reception of Aeschylus' *Oresteia*. Employing anthropological, historical, and psychological critical methods alongside performance analysis and textual criticism, these studies bring fresh and original interpretations to the plays. Several contributions analyse fragmentary tragedies, while others incorporate ideas on the performance aspect of certain plays. The final chapters deal separately with comedy, naturally focusing on the plays of Aristophanes and Menander. Greek Drama V offers a window into where the academic

field of Greek drama is now, and points towards the future scholarship it will produce.

Arnhem Antony Beevor 2018-05-17 The Sunday Times #1 Bestseller The great airborne battle for the bridges in 1944 by Britain's Number One bestselling historian and author of the classic Stalingrad 'Our greatest chronicler of the Second World War . . . his fans will love it' - Robert Fox, Evening Standard 'The eye for telling detail which we have come to expect from Antony Beevor. . . this time, though, he turns his brilliance as a military historian to a subject not just of defeat, but dunderhead stupidity' Daily Mail On 17 September 1944, General Kurt Student, the founder of Nazi Germany's parachute forces, heard the growing roar of aeroplane engines. He went out on to his balcony above the flat landscape of southern Holland to watch the air armada of Dakotas and gliders carrying the British 1st Airborne and the American 101st and 82nd Airborne divisions. He gazed up in envy at this massive demonstration of paratroop power. Operation Market Garden, the plan to end the war by capturing the bridges leading to the Lower Rhine and beyond, was a bold concept: the Americans thought it unusually bold for Field Marshal Montgomery. But could it ever have worked? The cost of failure was horrendous, above all for the Dutch, who risked everything to help. German reprisals were pitiless and cruel, and lasted until the end of the war. The British fascination with heroic failure has clouded the story of Arnhem in myths. Antony Beevor, using often overlooked sources from Dutch, British, American, Polish and German archives, has reconstructed the terrible reality of the fighting, which General Student himself called 'The Last German Victory'. Yet this book, written in Beevor's inimitable and gripping narrative style, is about much more than a single, dramatic battle. It looks into the very heart of war. 'In Beevor's hands, Arnhem becomes a study of national character' - Ben Macintyre, The Times 'Superb book, tirelessly researched and beautifully written' - Saul David, Daily Telegraph 'Complete mastery of both the story and the sources' - Keith Lowe, Literary Review 'Another masterwork from the most feted military historian of our time' - Jay Elwes, Prospect Magazine 'The analysis he has produced of the disaster is forensic' - Giles Milton, Sunday Times 'He is a master of his craft . . . we have here a definitive account' - Piers Paul Read, The Tablet

Monty and Rommel: Parallel Lives Peter Caddick-Adams 2011-06-08 Two men came to personify British and German generalship in the Second World War: Bernard Montgomery and Erwin Rommel. They fought a series of extraordinary duels across several theatres of war which established them as two of the greatest captains of their age. Our understanding of leadership in battle was altered for ever by their electrifying personal qualities. Ever since, historians have assessed their outstanding leadership, personalities and skill. The careers of both began on the periphery of the military establishment and represent the first time military commanders proactively and systematically used (and were used by) the media as they came to prominence, first in North Africa, then in Normandy. Dynamic and forward-thinking, their lives also represent a study of pride, propaganda and nostalgia. Caddick-Adams tracks and compares their military talents and personalities in battle. Each brought something special to their commands. Rommel's breathtaking advance in May-June 1940 was nothing less than inspired. Montgomery is a gift for leadership gurus in the way he took over a demoralised Eighth Army in August 1942 and led it to victory just two months later. This compelling work is both scholarly and entertaining and marks the debut of a major new talent in historical biography.

Embitterment Michael Linden 2011-02-26 Embitterment is a distinct state of mood known to everyone. It can be seen in the context of exceptional though "normal" negative life events. It is an emotional reaction e.g. to humiliation, to being severely disappointed by others, or to violations of basic values. Embitterment is accompanied by other emotions like feelings of hopelessness and helplessness, poor moods and a lack of drive, and aggression towards oneself and others. It can end in suicide or even murder-suicide and in a distinct pathological state known as "Posttraumatic Embitterment Disorder (PTED)". But despite the high prevalence rates, the detrimental effects on individuals and its forensic and societal importance, embitterment has yet to receive due scientific attention. In this book pioneers in embitterment research summarize the current knowledge on embitterment, its triggers, phenomenology and consequences. The work is intended to stimulate international debate and to contribute to a better understanding of embitterment and a deeper appreciation of the impact of exceptional but normal negative life events on psychological well-being.

The Field Marshal's Revenge Charles Whiting 2004 This is an incisive exploration of the "special relationship" between Britain and the United States told from the perspective of the volatile, often fraught, alliance during World War Two. The spotlight falls on Monty and Ike, then takes in the ordinary "squaddie" who becomes a pawn in the game, and finally Montgomery's unsuccessful attempt to assert Britain's superiority in the closing months of the war. Charles Whiting, author of the Spellmount Siegfried Line series, is one of the UK's most prolific military writers, and approaches his subject with his characteristic authority and insight.

Losing Vietnam Ira A. Hunt 2013-07-16 An intelligence officer stationed in Southeast Asia offers a "detailed, insightful, documented, and authentic account" of US policy failure in the region (Lewis Sorley, author of Westmoreland). In the early 1970s, the United States began to withdraw combat forces from Southeast Asia. Though the American government promised to support the South Vietnamese and Cambodian forces in their continued fight against the Viet Cong, the funding was drastically reduced over time. The strain on America's allies in the region was immense, as Major General Ira Hunt demonstrates in Losing Vietnam. As deputy commander of the United States Support Activities Group Headquarters (USAAG) in Nakhon Phanom, Thailand, Hunt received all Southeast Asia operational reports, reconnaissance information, and electronic intercepts, placing him at the forefront of military intelligence and analysis in the area. He also met frequently with senior military leaders of Cambodia and South Vietnam, contacts who shared their insights and gave him personal accounts of the ground wars raging in the region. In Losing Vietnam, Major Hunt details the catastrophic effects of reduced funding and of conducting "wars by budget." This detailed and fascinating work highlights how analytical studies provided to commanders and staff agencies improved decision making in military operations. By assessing allied capabilities and the strength of enemy operations, Hunt effectively demonstrates that America's lack of financial support and resolve doomed Cambodia and South Vietnam to defeat.
