Born to Be Hanged Syeda Saiyidain Hameed 2017-01-12 Pakistan's former Prime Minister Zulfikar Ali Bhutto held the reins of the country from 1971 to 1977. He was overthrown in 1977 by his Chief of Army Staff, General Zia-ul-Haq, and executed in 1979. Zia-ul-Haq ruled over Pakistan for eleven years with an iron fist, curbing all dissent until he got blown up in an air crash in 1988. In almost three decades since, Pakistan's leadership has changed hands fifteen times. An extremely controversial and confrontational politics is associated with the era of Zulfikar Ali Bhutto. It is therefore not surprising that, considering his towering stature, not enough has been researched and written about the tumultuous years of his accession to power culminating in what today is best described as regicide. Syeda Hameed delves deep into the politics of Pakistan, meeting Bhutto's contemporaries, mining information from archives and letters to bring to the fore a rich yet disturbing life and times of Zulfikar Ali Bhutto.

Pakistan Tilak Devasher 2016-12-10 Recent writings on Pakistan have tended to focus on the role of the Pakistan Army, the nuclear programme, terrorism, Pak-Afghan and Pak-US relations and, of course, Indo-Pak relations. *Pakistan: Courting the Abyss* goes beyond sensationalist headlines and current crises like terrorism and tensions with India, to the deeper malaise that afflicts the nation. The book examines issues like identity, the looming water crisis, the perilous state of education, the economic meltdown and the danger of an unrealized 'demographic dividend' that have been eating the innards of Pakistan since its creation. It looks back at the Pakistan movement, where the seeds of many current problems were sown - the opportunistic use of religion being the most lethal of these. *Pakistan: Courting the Abyss* questions the flawed prescriptions and responses of successive governments, especially during military rule, to these critical challenges that have brought Pakistan to an abyss where it risks multi-organ failure, unless things change dramatically in the near future.

**The Religion of God (Divine Love)** His Divine Eminence Ra Gohar Shahi 2012-05-17 The excerpts from the book for quick awareness: 1. Those who love God but do not practise a religion are better than you if you follow a religion and yet are deprived of God's love. 2. Love relates to the heart. The word, "Allah," when synchronised within heartbeats, reaches all veins and arteries through the blood and revives the souls. Then the souls, engulfed by God's name, "Allah," enter God's love. 3. All names given to God in all languages are worthy of respect. However, God's original name is "Allah," which is a word from the Suryani language. The creatures of empyrean speak this language. The angels call upon God with the name of "Allah." "Allah" is attached with the faith declaration motto of every prophet. 4. Any person who, with all the sincerity of heart, is in search for God, on land or in the sea, is worthy of respect. 5. Many Adams were sent in different regions of the world simultaneously. All Adams were moulded from the clay in this world, for except the last Adam who was moulded from the clay in paradise, and is buried in the Arab region. The angels did not prostrate to any other Adam for except Adam Safi Allah. And Iblis (the Devil) developed enmity for the progeny of Adam Safi Allah only. 6. There are seven different sub-spirits in the human skeleton, and each relates to a different realm, a different paradise, and different functions in the human body. If these sub-spirits are empowered with God's light (Noor), they may appear in human form in many places simultaneously. They may reach the esoteric gatherings of the saints and the prophets, speak with God, and even see God in person also. 7. There are two different types of religions for all humans: the religion for the body, which expires when the body does, and the religion for the soul, which existed even in the primordial time—that is God's love. And only this religion elevates humans. 8. Ishq (Rapturous Love) of Allah is above all other religions, and seeing Allah is above all forms of worship. 9. Information on how human beings, animals, plants, and stones were brought into existence, and why something is prohibited or permissible. 10. Who pre-existed the Amr Kun (the command "Be") of the souls and the angels? Which dog will enter the paradise in form of Qatmir? The souls of which individuals had already affirmed the declaration of faith in the primordial time? The secret of which man is not mentioned in this book?

**The Persianate World** Nile Green 2019-04-09 At publication date, a free ebook version of this title will be available through Luminos, University of California Press's Open Access publishing program. Visit [www.luminoso.org](http://www.luminoso.org) to learn more. Persian is one of the great lingua francas of world history. Yet despite its recognition as a shared language across the Islamic world and beyond, its scope, impact, and mechanisms remain underexplored. A world historical inquiry into pre-modern cosmopolitanism, *The Persianate World* traces the reach and limits of Persian as a Eurasian language in a comprehensive survey of its geographical, literary, and social frontiers. From Siberia to Southeast Asia, and between London and Beijing, this book shows how Persian gained, maintained, and finally surrendered its status to imperial and vernacular competitors. Fourteen essays trace Persian's interactions with Bengali, Chinese, Turkic, Punjabi, and other languages to identify the forces that extended "Persographia," the domain of written Persian. Spanning the ages expansion and contraction, *The Persianate World* offers a critical survey of both the supports and constraints of one of history's key languages of global exchange.

**Postrevolutionary Iran** Mehrzad Boroujerdi 2018-06-05 The 1979 revolution fundamentally altered Iran's political landscape as a generation of inexperienced clerics who did not hail from the ranks of the upper class—and were not tainted by association with the old regime—came to power. The actions and intentions of these truculent new leaders and their lay allies caused major international concern. Meanwhile, Iran's domestic and foreign policy and its nuclear program have loomed large in daily news coverage. Despite global consternation, however, our knowledge about Iran's political elite remains skeletal. Nearly four decades after the clergy became the state elite par excellence, there has been no empirical study of the recruitment, composition, and circulation of the Iranian ruling members after 1979. *Postrevolutionary Iran: A Political Handbook* provides the most comprehensive collection of data on political life in postrevolutionary Iran, including coverage of 36 national elections, more than 400 legal and outlawed political organizations, and family ties among the elite. It provides biographical sketches of more than 2,300 political personalities ranging from cabinet ministers and parliament deputies to clerical, judicial, and military leaders, much of this information previously unavailable in English. Providing a cartography of the complex structure of power in postrevolutionary Iran, this volume offers a window not only into the immediate years before and after the Iranian Revolution but also into what has happened during the last four turbulent decades. This volume and the data it contains will be invaluable to policymakers, researchers, and scholars of the Middle East alike.

**In Other Rooms, Other Wonders** Daniyal Mueenuddin 2011-10-01 Moving from the elegant drawing rooms of Lahore to the mud villages of rural Multan, a powerful collection of short stories about feudal Pakistan. An impoverished young woman becomes a wealthy relative's mistress; an electrician on the make confronts his desperate assailant to protect his most prized possession; a farm manager rises far in the world—but his family discovers after his death the transience of power; a maid, who advances herself through sexual favours, unexpectedly falls in love. In these linked stories about the family and household staff of the ageing KK Harouni, we meet masters and servants, landlords and supplicants, politicians and electricians, village women, and Karachi housewives. Part Chekhov, part RK Narayan, these stories are dark and light, complex and humane; at heart about the relationship between the powerful and powerless, bound together in life—and in death. Together they make up a vivid portrait of a feudal world rarely brought alive in the English language. Sensuous, graceful, melancholy, *In Other Rooms, Other Wonders* gives you Pakistan as you have never seen it. It marks the debut of an amazing new talent.

**Poverty Strategies in Asia** John Weiss 2006-01-01 . . . the volume makes interesting reading. . . The language of the text is indeed lucid and the organization of the materials could not have been better. Arup Mitra, *The Developing Economies* This is an important book making a convincing case that structural elements are of crucial importance in filtering the impact of growth on poverty. A successful development strategy needs to address these structural elements at the country level and modify them in order to take greater advantage of the potential benefits of globalization in reducing poverty. Erik Thorbecke, Cornell University, US This volume makes an important contribution to our understanding of the complex relationship between economic growth and poverty reduction. The focus on assessing the impact of specific poverty-reduction interventions at the disaggregated, case-study level marks an important and welcome departure from the standard approach to research in this area . . . researchers and practitioners working in the field of poverty reduction and development in Asia and beyond will find much to interest them in this stimulating and informative volume. Colin Kirkpatrick, University of Manchester, UK *Poverty Strategies in Asia* is an examination of a wide range of measures aimed at reducing poverty in the region. It is widely recognized that while high and sustained economic growth is critical for poverty reduction, there are other policy interventions that may also be significant in a growth plus approach to poverty reduction. This volume brings together a series of case studies on the poverty impact of alternative interventions in a broad range of Asian economies. The measures examined within the book cover trade liberalization both in general and in a specific market, infrastructure investment (particularly in roads), population policies, cash transfers, microfinance, employment guarantee programs and contract farming. The countries covered include the Philippines, Lao PDR, Pakistan, India and Thailand. While the results illustrated by the contributors are mixed, they demonstrate the potential for further progress in poverty reduction. This latest joint publication by the ADBI and Edward Elgar Publishing will be warmly welcomed by scholars and researchers of Asian studies and development. Professional economists within international and bilateral development agencies and policymakers will also find much to engage them.

**The Afghan Solution** Lucy Morgan Edwards 2011-10-15 October 7, 2011 marked the tenth anniversary of the start of the Afghan war, and this explosive book exposes how the West lost its chance to rout the Taliban and stabilize Afghanistan. In late 2001, a group of Afghan tribal leaders met to plan how to topple the Taliban. Within weeks, the plan was in tatters, thwarted by the West and its leader, Abdul Haq, assassinated by the Taliban. Lucy Morgan Edwards's investigation into Haq's tragic mission led her to Taliban Ministers, warlords, spies, and two American Republican brothers who financed Haq's venture. Based on the author's own experience of the war in Afghanistan, this book reveals how a solution to the war was lost and why it matters today.

**The Cambridge History of the Kurds** Hamit Bozarslan 2021-04-22 *The Cambridge History of the Kurds* is an authoritative and comprehensive volume exploring the social, political and economic features, forces and evolution amongst the Kurds, and in the region known as Kurdistan, from the fifteenth to the twenty-first century. Written in a clear and accessible style by leading scholars in the field, the chapters survey key issues and themes vital to any understanding of the Kurds and Kurdistan including Kurdish language; Kurdish art, culture and literature; Kurdistan in the age of empires; political, social and religious movements in Kurdistan; and domestic political developments in the twentieth and twenty-first centuries. Other chapters on gender, diaspora, political economy, tribes, cinema and folklore offer fresh perspectives on the Kurds and Kurdistan as well as neatly meeting an exigent need in Middle Eastern studies. Situating contemporary developments taking place in Kurdish-majority regions within broader histories of the region, it forms a definitive survey of the history of the Kurds and Kurdistan.

**The Kite Runner** Khaled Hosseini 2007 Traces the unlikely friendship of a wealthy Afghan youth and a servant's son in a tale that spans the final days of Afghanistan's monarchy through the atrocities of the present day.

**Before Taliban** David B. Edwards 2002-04-02 In this powerful book, David B. Edwards traces the lives of three recent Afghan leaders in Afghanistan's history--Nur Muhammad Taraki, Samiullah Safi, and Qazi Amin Waqad--to explain how the promise of progress and prosperity that animated Afghanistan in the 1960s crumbled and became the present tragedy of discord, destruction, and despair. Before Taliban builds on the foundation that Edwards laid in his previous book, *Heroes of the Age*, in which he examines the lives of three significant figures of the late nineteenth century--a tribal khan, a Muslim saint, and a prince who became king of the newly created state. In the mid twentieth century, Afghans believed their

nation could be a model of economic and social development that would inspire the world. Instead, political conflict, foreign invasion, and civil war have left the country impoverished and politically dysfunctional. Each of the men Edwards profiles were engaged in the political struggles of the country's recent history. They hoped to see Afghanistan become a more just and democratic nation. But their visions for their country were radically different, and in the end, all three failed and were killed or exiled. Now, Afghanistan is associated with international terrorism, drug trafficking, and repression. Before Taliban tells these men's stories and provides a thorough analysis of why their dreams for a progressive nation lie in ruins while the Taliban has succeeded. In Edwards's able hands, this culturally informed biography provides a mesmerizing and revealing look into the social and cultural contexts of political change.

More Than Bollywood Gregory D. Booth 2014 This is the first book to tackle the diverse styles and multiple histories of popular music in India. It brings together fourteen of the world's leading scholars on Indian popular music to contribute chapters on a range of topics from the classic songs of Bollywood to contemporary remixes, summarized by a reflective afterword by popular music scholar Timothy Taylor. The chapters in this volume address the impact of media and technology on contemporary music, the variety of industrial developments and contexts for Indian popular music, and historical trends in popular music development both before and after the Indian Independence in 1947. The book identifies new ways of engaging popular music in India beyond the Bollywood musical canon, and offers several case studies of local and regional styles of music. The contributors address the subcontinent's historical relationships with colonialism, the transnational market economies, local governmental factors, international conventions, and a host of other circumstances to shed light on the development of popular music throughout India. To illustrate each chapter author's points, and to make available music not easily accessible in North America, the book features an Oxford web music companion website of audio and video tracks.

**The Future of Drylands** Cathy Lee 2008-10-29 Drylands have been cradles to some of the world's greatest civilizations, and contemporary dryland communities feature rich and unique cultures. Dryland ecosystems support a surprising amount of biodiversity. Desertification, however, is a significant land degradation problem in the arid, semi-arid and dry sub-humid regions of the world. Deterioration of soil and plant cover has adversely affected 70% of the world's drylands as a result of extended droughts as well as mismanagement of range and cultivated lands. The situation is likely to worsen with high population growth rates and accompanying land-use conflicts. The contributions to *The Future of Drylands* - an international scientific conference held under the leadership of UNESCO - address these issues and offer practical solutions for combating desertification along with conserving and sustainably managing dryland ecosystems. Major themes include the conservation of dryland biological and cultural diversity and the human dryland interface. This volume documents how our improved understanding of drylands provides insight into the health and future prospects of these precious ecosystems that should help ensure that dryland communities enjoy a sustainable future.

*Pivot of the Universe* Abbas Amanat 1997 "In this book, the first in English about Nasir al-Din Shah, Abbas Amanat gives us both a biography of the man and an analysis of the institution of monarchy in modern Iran. Amanat poses a fundamental question: how did monarchy, the center-piece of an ancient political order, withstand and adjust to the challenges of modern times, both at home and abroad? Nasir al-Din Shah's life and career, his upbringing and personality, and his political conduct provide remarkable material for answering this question.

**Militant Groups in South Asia** Surinder Kumar Sharma 2014 Profiles important militant groups presently active in South Asian countries. The information related to these militant groups has been culled from open sources and due care has been taken to check the facts for consistency and reliability. The threat perception from each group is covered in detail.

Demystifying Kashmir Navnita Chadha Behera 2007-05-01 The Kashmir issue is typically cast as a "territorial dispute" between two belligerent neighbors in South Asia. But there is much more to the story than that. The Jammu and Kashmir state, home to an extraordinary medley of races, tribal groups, languages, and religions, makes up one of the most diverse regions in the subcontinent. *Demystifying Kashmir* argues that recognizing the rich, complex, and multi-faceted character of Kashmir is important not only for understanding the structural causes of this conflict but also for providing opportunities to establish a just, viable, and lasting solution. In this remarkable book, Navnita Chadha Behera traces the history of Kashmir from the pre-partition India to the current-day situation. She provides a comprehensive analysis of the philosophical underpinnings and the local, bilateral, and international dynamics of the key players involved in this flashpoint of conflict, including New Delhi, Islamabad, political groups and militant outfits on both sides of the Line of Control, and international powers. The book explores the political and military components of India's and Pakistan's Kashmir strategy, the self-determination debate, and the insurgent movement that began in 1989. The conclusion focuses on what Behera terms the four P's: parameters, players, politics, and prognosis of the ongoing peace process in Kashmir. Behera also reflects on the devastation of the October 2005 earthquake and its implications for the future of the area. Based on extensive field research and primary sources, *Demystifying Kashmir* breaks new ground by framing the conflict as a political battle of state-making between India and Pakistan rather than as a rigid and ideological Hindu-Muslim conflict. Behera's work will be an essential guide for journalists, scholars, activists, policymakers, and anyone interested in how to avert a war between these nuclear powers.

**The Unfinished War in Afghanistan** Vishal Chandra 2014 This book makes a modest attempt to contribute to the ongoing debate on future challenges for Afghanistan as the largest ever coalition of Western forces prepares to withdraw. It seeks to examine key political developments within Afghanistan over the last one decade in response to the US-led Western military and political intervention. Perhaps, much more is still to come in a war that could aptly be termed as the last big war of the twentieth and first long war of the twenty-first century. The emerging social and political narratives are unmistakably old and echo the sentiments of the past. Though a 'New Afghanistan' has emerged in the meanwhile, it remains fundamentally an urban phenomenon. The diversity of narratives and perceptions, and failure of past political transitions to build a sustainable internal balance of power, based on changed social and political realities, have turned Afghanistan into a complex entity that defies established theoretical formulations and explanations. The evolving security and political scenario suggests that elections alone may not help bring stability and order to Afghanistan. The next dispensation in Kabul, irrespective of its composition, is most likely to be confronted with a host of old and familiar challenges to its legitimacy and survival.

**The All-Pakistan Legal Decisions** 1999

*Caste Based Discrimination in South Asia* Iftekhar Uddin Chowdhury 2009

*Islam on the Move* Farish A. Noor 2012 "Much nuance and variability have been lost in the process of the reductivist analysis of Islam post 9/11 and, as this study amply demonstrates, we are all the poorer as a result. This exhaustive examination of the rise and spread of the Tablighi Jama'at, arguably the world's largest Islamic missionary movement, locates it in the larger perspective of global Islam and developments in the Muslim

societies. Combining an overview of the history and current socio-political perception of the Tablighi Jama'at with a more analytical and philosophical approach to fundamental questions of identity, subject-positioning and representation, the author creates a comprehensive resource of interest to all scholars and students of Islam. Drawing on exhaustive research and records of conversion narratives of the new members of Tablighi Jama'at, cited here at length, the author creates a unique perspective on this complex phenomenon from both an internal and external viewpoints. Ahmad-Noor locates the spiritual framework of the movement in the context of its perception in the eyes of the political and religious authorities of the countries where it has a following, as well as the Western 'securocrat' approach."--Publisher's website.
