Sex: Untold Stories - Messeret Assefa 2019

Sex Trafficking - Kimberly A. McCabe 2010-04-12

Global estimates of human trafficking range from 600,000 to four million victims each year with the majority being victims of sex trafficking. This strikingly large range belies the difficulty in gathering, defining, and accountability of sex-trafficking data. Victims of sex trafficking may be forced into pornography, prostitution for the military or militia, spousal prostitution, and prostitution for the sex-tourism industry. In response to the problem of sex trafficking, many nations have either misunderstood the definition or failed to comprehend the magnitude that have occurs within their borders. The United Nations has defined 'human trafficking' as 'the recruitment, transfer, harboring or receipt of persons by threat or use of force.' Similarly, the U.S. State Department's Trafficking Victims Protection Act 2000 describes severe forms of trafficking as: (a) sex trafficking in which a commercial sex act is induced by force, fraud, or coercion, or in which the person induced to perform such an act has not attained 18 years of age; or (b) the recruitment, harboring, transportation, provision, or obtaining of a person for labor or services, through the use of force, fraud, or coercion for the purpose of subjection to involuntary servitude, peonage, debt bondage, or slavery. In *Sex Trafficking: A Global Perspective*, sex trafficking is discussed in terms of its multiple purposes and its victims. The essays provide information to build upon the limited knowledge-base on the subject of sex trafficking and the legislative responses to human trafficking by the various highlighted countries. This collection is unique because it serves the needs of those studying human trafficking from a global perspective by targeting the issue within every geographic region, it provides a general profile of geographic regions in terms of demographic characteristics and political conditions that may support the growth of sex trafficking, and it is written on a basic information-supply-level to provide readers with a foundation on human trafficking throughout the world.

Mobility, Sexuality and AIDS - Felicity Thomas 2009-10-16

Mobility, Sexuality and AIDS recognises the complex relationships between individual circumstances, different forms of migration and the different ways in which communities and states respond. It will be invaluable for students and academics of migration, development studies, anthropology, sociology, geography and public health.

Revolting Prostitutes - Molly Smith 2018-11-06

How the law harms sex workers—and what they want instead Do you have to endorse prostitution in order to support sex worker rights? Should clients be criminalized, and can the police deliver justice? In *Revolting Prostitutes*, sex workers Juno Mac and Molly Smith bring a fresh perspective to questions that have long

been contentious. Speaking from a growing global sex worker rights movement, and situating their argument firmly within wider questions of migration, work, feminism, and resistance to white supremacy, they make it clear that anyone committed to working towards justice and freedom should be in support of the sex worker rights movement.

The Act of Living - Marco Di Nunzio 2019-04-15

The Act of Living explores the relation between development and marginality in Ethiopia, one of the fastest growing economies in Africa. Replete with richly depicted characters and multi-layered narratives on history, everyday life and visions of the future, Marco Di Nunzio's ethnography of hustling and street life is an investigation of what is to live, hope and act in the face of the failing promises of development and change. Di Nunzio follows the life trajectories of two men, "Haile" and "Ibrahim," as they grow up in the Ethiopian capital Addis Ababa, enter street life to get by, and turn to the city's expanding economies of work and entrepreneurship to search for a better life. Apparently favourable circumstances of development have not helped them achieve social improvement. As their condition of marginality endures, the two men embark in restless attempts to transform living into a site for hope and possibility. By narrating Haile and Ibrahim's lives, *The Act of Living* explores how and why development continues to fail the poor, how marginality is understood and acted upon in a time of promise, and why poor people's claims for open-endedness can lead to better and more just alternative futures. Tying together anthropology, African studies, political science, and urban studies, Di Nunzio takes readers on a bold exploration of the meaning of existence, hope, marginality, and street life.

Experiences of Massage Parlors Sex Workers of Addis Ababa, Ethiopia - Sisay Oda Melka 2017

The Khat Conundrum in Ethiopia - Admassie, Yeraswork 2018-11-05

In recent years, Ethiopia has experienced a rapid expansion of Khat production, marketing and consumption that has put her in a double bind. Her economy is becoming increasingly dependent on the production and export of Khat, the same way a significant section of her population is getting progressively enticed into its unbridled consumption. Khat abuse/addiction has led to serious and manifold socioeconomic problems including those relating to health. In spite of the fact that several millions of her citizens are preoccupied with Khat in the capacities of growers, traders, and chewers, the country has no clear policy to guide its production, distribution or use. The study, the findings of which are reported in this volume, focused on the unravelling the intertwined socioeconomic impacts of Khat consumption and addiction, and culminates with the identification of feasible national-level strategies and policy responses to the Khat conundrum.

Sex: Untold Stories - Dr. Messeret Assefa

The purpose of this book is to capture an insiders' view on sex work in Ethiopia's capital, Addis Ababa. While most of the case stories focus on female sex-workers, it also contains stories of promiscuous sex e.g. pre-marital multiple sexual partnerships and extra-marital affairs, university students, civil servants, older women, and married partners. Nonetheless, the reader will readily and pleasantly learn more about the sex-worker's position than is known to the average non-reader. If my labors induce the concerned reader to improve the appalling sex-workers life circumstances, I trust, s/he will become a solution seeker and master of much more gender activist than the ordinary citizen. This book is indeed a legacy which I bequeath to everyone concerned to help sex-workers stop working out their own death.

Adolescent Girls' Migration in The Global South - Katarzyna Grabska 2018-09-26

This book provides a nuanced, complex, comparative analysis of adolescent girls' migration and mobility in the Global South. The stories and the narratives of migrant girls collected in Bangladesh, Ethiopia and Sudan guide the readers in drawing the contours of their lives on the move, a complex, fluid scenario of choices, constraints, setbacks, risks, aspirations and experiences in which internal or international migration plays a pivotal role. The main argument of the book is that migration of adolescent girls intersects with other important transitions in their lives, such as those related to education, work, marriage and childbearing, and that this affects their transition into adulthood in various ways. While migration is sometimes negative, it can also offer girls new and better opportunities with positive implications for their future lives. The book explores also how concepts of adolescence and adulthood for girls are being

transformed in the context of migration.

Poverty and the Social Context of Sex Work in Addis Ababa - Bethlehem Tekola 2005

This book explores the social context of sex work in the city of Addis Ababa. It focuses on the social ties between sex workers and other categories of people: their family members, colleagues and neighbours, considering how these relationships are formed and affected as a result of women's involvement in sex work.

The World of Girls and Boys in Rural and Urban Ethiopia - Eva Poluha 2007

This collection of essays is about the lives, ideas and modes of interaction of children in Ethiopia, against the background that in-depth knowledge of perceptions of cultural values and practices regarding children would contribute to improved work with them and to the promotion of their rights as children. The study is supported by Save the Children Sweden and Norway, and the essays are a collaboration between those bodies and the Department of Social Anthropology at Addis Ababa University. Some essays are based on Master theses from the Department, and others on fieldwork. Seminars and meetings formed part of the research with and about children. The editor provides a theoretical, methodological and ethical aspects overview, and makes proposals on possible new themes. The five other contributors cover Conceptualizations of Children and Childhood: The Case of Kolfe and Semen Mazegaja, Addis Ababa;

Growing up in Town and in the Countryside in Amhara Society; Continuity and Change in the Lives of Urban and Rural Children: The Case of Two Schools in SNNPR; Conceptualizations of Children and Childhood in Bishoftu, Oromia; and Children in Ethiopian Media and School Textbooks.

Reconfiguring Stigma in Studies of Sex for Sale - Jeanett Bjønness 2021-09-23

Reconfiguring Stigma in Studies of Sex for Sale is about the production and effects of stigma in sex work or prostitution with contributions from four continents and different disciplines that taken together explore how such stigma is conditioned by differences in time, place, citizenship, gender, sexuality, class and race. Stigma is about relationships between people and also sets an interpretative frame whereby people understand and react to situations and actions, and the book is developed and organized to investigate this from various angles. It presents empirical studies that build on and expand the scholarship on stigma and sex work. This means that it contributes to a more complex understanding of stigma in sex work studies. Further, by using the example of sex work to explore how we can best understand the production and consequences of stigma, the book makes a contribution that is relevant for all scholars who work on stigma and stigmatization. The book is intended for academic audiences interested in sex work or prostitution, on the one hand, and stigmatization, on the other. It is also intended for students in a broad range of disciplines, as well as for practitioners and activists who encounter or work with stigmatization or stigmatized populations.
