The Guyde - Howie Reith
2016-11-19

The Guyde is the most comprehensive men's dating and self-improvement book ever written, designed to be everything you need to transform into the most confident version of yourself. There are no lines or routines; instead you'll find exercises and information to improve your self-esteem, social skills, and other elements integral to social success. Everything in these pages is backed with scientific evidence, and when I say scientific evidence, I mean cited peer-reviewed literature, not pop evolutionary psychology or the "law of attraction." You won't be reading anecdotes telling you about my "successes" or

opinions; you'll be learning the practical steps necessary for the specific changes you want to manifest in your life. The Guyde is divided into four sections: Part I - Psychology Part I focuses on the internal elements of social interaction. How do you overcome your toxic self-limiting beliefs that keep you from being authentic with people? How do you overcome your fears? How can you stay motivated to make your changes? You will learn clinically effective approaches to all of these and more. Part II - Social Skills For many men, the biggest barrier between themselves and social success is a lack of social skills and awareness. In Part II, you'll learn how to shore up this weakness. You will learn how

to listen, banter, share stories, and assert yourself with others. You'll learn how to improve your body language and vocal tonality to project confidence and charisma. Part III - Physical Attractiveness Part III will teach you how to improve your physical features. The first two chapters detail the most clinically effective approaches to diet and exercise. We'll also discuss the basics of fashion and how to dress to impress. Master Part III, and when you go out, you will turn heads. Part IV - Dating The final portion of The Guyde deals with dating, in this version, in a heterosexual male context. You'll learn the best places to meet potential dates, how to flirt, and how to ask someone out. You'll learn how to plan brag-worthy romantic evenings and how to address problems like rude cancellations and "ghosting." You'll learn how to interact physically while being sensitive to your date's wishes, as well as how to perform better in bed. You'll learn why relationships fail and how to

avoid the pitfalls most couples fall into, and you'll come to understand a bit about what it's like to date from a woman's perspective, including many of the cultural factors they face that most men don't understand. The Guyde is a labor of love. I wrote it to be everything I wish I'd known when I was younger, the sorts of things that turned my life around for the better. I hope it does the same for you.

Slather - Patricia A. Kuess
2008-10

Have you ever wondered what your dental hygienist is thinking about as she cleans your teeth? Here's a clue-it's not your teeth. Patricia is a dental hygienist, an inveterate daydreamer, and a lesbian. In the midst of cleaning people's teeth, she fluctuates flawlessly between her inner and outer worlds. And it is during one of these routine cleanings that a story pops into her head.

There's Frederick, a guy who has failed his driving test ninety-nine times, and a woman on the run named Tulsa. Then there's RaeEllen and Daryl John, brilliant skaters who have always been in Patricia's mind, but never given her a story. As the days go by, Patricia continues to explore her characters by asking her patients questions about their own lives, and soon, she is merrily immersed in her fictional world. My friend Sue and I had spent so much time together we felt like sisters. We had made so many plans for our future, as young girls do. We would graduate from school, get married, have a career, children and we would be lifelong friends sharing those moments together. Part of that dream had already come true.

Sue was a year older than myself. I went to her graduation and was so proud of her. She had just got an apartment with her boyfriend. I was halfway through my senior year. We went Christmas shopping at the mall. But by January 16, 1980, my friend Sue went missing. When I graduated, Sue was not there. Then I got my first apartment, still no Sue. I would hear nothing about what happened to Sue for fifteen years. Now I will try to fill in the blanks that I have learned over the years. And the surprising shocker after thirty-three years. Because of the sensitive nature of this book I will be using the pen name Crystal Clary. The information I will be sharing with you was unknown to me at the time. I decided to write this book in Omniscient: so you as the reader will be able to see all and know all.

12 Sure Signs He Likes You: How To Know If A Guy Likes You - Tammie Taylor

2009-10-07

"12 Sure Signs He Likes You" is a book that discusses the types of behavior that you can look for in a guy to determine if he is interested in you. This book is for women who are interested in someone, but they are unsure of his feelings towards them. What makes this book different from other books is that the author describes signs that you can look for based upon the relationship stage that you are in. This guy could be someone that you just met or he could be someone that you have known for years or a guy that you have just started a relationship with. No matter

what relationship stage you are in, this book addresses the signs to look for.

Coming Close - Bernard Harper Friedman 1982

Coming Close is what the author calls "alternative autobiographies"—four stories, each dealing freely with different, though sometimes overlapping, material through which we understand the complexity of a man's life. In the previously unpublished novella "Watching Father Die," a son sees his father die—both as physical man and psychological symbol. At the same time, the son watches himself die, and cool rage balances warm compassion. "Drinking Smoke," and "Moving in Place," have both been published in prestigious literary magazines—New American Review and The Hudson Review. Like the novella, each is concerned with an obsession. "Moving in Place" received a Fels Award of the Coordinating Council of Literary Magazines as one of the five best stories of the year. Finally, "Choosing a Name"

focuses on how a man who is nameless, though precisely identified in the first three stories, comes close to being B.H. Friedman. Altogether, the four stories reinforce one another to become a coherent, multi-faceted self-portrait.

IGen - Jean M. Twenge
2017-08-22

"Analyzes how the young people born in the mid-1990s and later significantly differ from those of previous generations, examining how social media and texting may be behind today's unprecedented levels of anxiety, depression, and loneliness" -- Prové de l'editor.

Attached - Amir Levine
2012-01-05

"Over a decade after its publication, one book on dating has people firmly in its grip." —The New York Times We already rely on science to tell us what to eat, when to exercise, and how long to sleep. Why not use science to help us improve our relationships? In this revolutionary book, psychiatrist and neuroscientist Dr. Amir

Levine and Rachel Heller scientifically explain why some people seem to navigate relationships effortlessly, while others struggle. Discover how an understanding of adult attachment—the most advanced relationship science in existence today—can help us find and sustain love.

Pioneered by psychologist John Bowlby in the 1950s, the field of attachment posits that each of us behaves in relationships in one of three distinct ways: • Anxious people are often preoccupied with their relationships and tend to worry about their partner's ability to love them back • Avoidant people equate intimacy with a loss of independence and constantly try to minimize closeness. • Secure people feel comfortable with intimacy and are usually warm and loving. Attached guides readers in determining what attachment style they and their mate (or potential mate) follow, offering a road map for building stronger, more fulfilling connections with the people they love.

Get Over Yourself! - Patti

Novak 2008-12-30

True love doesn't just happen, notes professional matchmaker Patti Novak. You have to work for it—and want it. Forget eight-minute speed dates or online dating sites with twenty-page questionnaires that promise a scientifically calculated perfect match. The fact that you both like golf, stamp collecting, and pizza with anchovies is great, but it won't mean a thing if you don't feel that zing. But before there can be sparks, there have to be dates. And before the first date, you need to get over yourself! Taking a tough-love approach, and in her signature straight-shooting style, Patti will show you how to fix what needs to be fixed, reach your core, and identify who you are and what you want in a partner. She uses a three-part common-sense formula: • Getting Over What? Assess your dating weaknesses, recognize what's not working, and adjust your expectations. Delve into your personal history and past relationships, and pinpoint the issues that

have been holding you back. • Almost Over It Fine-tune your attitude, your look, and your behavior to maximize your dating chances. Novak lays out strategies to help you deal with the brutal dating monsters you find along the way. • Over It Learn the do's and don'ts of the first date, the second date, and beyond. Remember, it's not a job interview or therapy session. Pretend you're meeting a new friend, not a prospective husband or wife. Finding your one and only isn't about having the right shoes or a flat stomach. It's about being true to yourself, being vulnerable, and being ready for love. Whether you're new to the dating scene, divorced and looking, or just trying to reach that second date, Get Over Yourself! will help you get the love you've always wanted and deserve.
