White Trash - Nancy Isenberg 2017-01-05

The New York Times Bestseller A ground-breaking history of the class system in America, which challenges popular myths about equality in the land of opportunity. In this landmark book, Nancy Isenberg argues that the voters who boosted Trump all the way to the White House have been a permanent part of the American fabric, and reveals how the wretched and landless poor have existed from the time of the earliest British colonial settlements to today's hillbillies. Poor whites were central to the rise of the Republican Party in the early nineteenth century and the Civil War itself was fought over class issues nearly as much as it was fought over slavery. Reconstruction pitted white trash against newly freed slaves, which factored in the rise of eugenics - a widely popular movement embraced by Theodore Roosevelt that targeted poor whites for sterilization. These poor were at the heart of New Deal reforms and Lyndon B. Johnson's Great Society; they are now offered up as entertainment in reality TV shows, and the label is applied to celebrities ranging from Dolly Parton to Bill Clinton. Marginalized as a class, white trash have always been at or near the centre of major political debates over the character of the American identity. Surveying political rhetoric and policy, popular literature and scientific theories over four hundred years, Isenberg upends assumptions about America's supposedly class-free society - where liberty and hard work were meant to ensure real social mobility - and forces a nation to face the truth about the enduring, malevolent nature of class.

The Matrix of Visual Culture - Patricia Pisters 2003

This book explores Gilles Deleuze's contribution to film theory. According to Deleuze, we have come to live in a universe that could be described as metacinematic. His conception of images implies a new kind of camera consciousness, one that determines our perceptions and sense of selves: aspects of our subjectivities are formed in, for instance, action-images, affection-images and time-images. We live in a matrix of visual culture that is always moving and changing. Each image is always connected to an assemblage of affects and forces. This book presents a model, as well as many concrete examples, of how to work with Deleuze in film theory. It asks questions about the universe as metacinema, subjectivity, violence, feminism, monstrosity, and music. Among the contemporary films it discusses within a Deleuzian framework are *Strange Days*, *Fight Club*, and *Dancer in the Dark*.

The Familiar Dark - Amy Engel 2021-03-16

One of Publishers Weekly's Best Books of 2020 (Mystery/Thriller) "From

its gripping beginning to its sobering finale, Amy Engel's *The Familiar Dark* never fails to enthrall with surprising twists."-Associated Press A spellbinding story of a mother with nothing left to lose who sets out on an all-consuming quest for justice after her daughter is murdered on the town playground. Sometimes the answers are worse than the questions. Sometimes it's better not to know. Set in the poorest part of the Missouri Ozarks, in a small town with big secrets, *The Familiar Dark* opens with a murder. Eve Taggart, desperate with grief over losing her daughter, takes it upon herself to find out the truth about what happened. Eve is no stranger to the dark side of life, having been raised by a hard-edged mother whose lessons Eve tried not to pass on to her own daughter. But Eve may need her mother's cruel brand of strength if she's going to face the reality about her daughter's death and about her own true nature. Her quest for justice takes her from the seedy underbelly of town to the quiet woods and, most frighteningly, back to her mother's trailer for a final lesson. *The Familiar Dark* is a story about the bonds of family—women doing the best they can for their daughters in dire circumstances—as well as a story about how even the darkest and most terrifying of places can provide the comfort of home.

Women, Monstrosity and Horror Film - Erin Harrington 2017-08-10

Women occupy a privileged place in horror film. Horror is a space of entertainment and excitement, of terror and dread, and one that relishes the complexities that arise when boundaries - of taste, of bodies, of reason - are blurred and dismantled. It is also a site of expression and exploration that leverages the narrative and aesthetic horrors of the reproductive, the maternal and the sexual to expose the underpinnings of the social, political and philosophical othering of women. This book offers an in-depth analysis of women in horror films through an exploration of 'gynaehorror': films concerned with all aspects of female reproductive horror, from reproductive and sexual organs, to virginity, pregnancy, birth, motherhood and finally to menopause. Some of the themes explored include: the intersection of horror, monstrosity and sexual difference; the relationships between normative female (hetero)sexuality and the twin figures of the chaste virgin and the voracious vagina dentata; embodiment and subjectivity in horror films about pregnancy and abortion; reproductive technologies, monstrosity and 'mad science'; the discursive construction and interrogation of monstrous motherhood; and the relationships between menopause, menstruation, hagsploitation and 'abject barren' bodies in horror. The book not only offers a feminist interrogation of gynaehorror, but also a counter-reading of the gynaehorrific, that both accounts for and opens up new spaces of productive, radical and subversive monstrosity within a mode of representation and expression that has often been accused of being misogynistic. It therefore makes a unique contribution to the study of women in horror film specifically, while also providing new insights in the broader area of popular culture, gender and film philosophy.
