Nature Inside - Penny Sparke 2021-02-02

The story of how plants and flowers have shaped interior design for over 200 years. From ferns in 19th-century British parlors to contemporary "living walls" in commercial spaces, plants and flowers have long been incorporated into the design of public and private spaces. Spanning two centuries, *Nature Inside* explores the history and popularity of indoor plants, revealing the close relationship between architecture, interior design, and nature. Studying the international modern interior through the lens of plants in the human environment, author Penny Sparke attributes a degree of the interest in indoor

plants to urbanization, and, more recently, the climate crisis, which serve as ongoing reminders that people must maintain a connection to, and respect for, the natural world. While architectural and interior design styles have evolved alongside the popularity of various plant species, the human need to bring nature indoors has remained constant.

Supply Chain Science - Wallace J. Hopp
2011-08-25

Managers face an infinite range of situations and problems that involve bringing materials and information together to produce and deliver goods and services to customers. In Hopps solid, practical introduction to manufacturing and supply chain dynamics, managers learn how to use the scientific approach to understand why systems behave the way they do as an effective way to deal with almost any scenario they may face. Written in a reader-friendly style, the text includes useful examples from manufacturers as well as service providers, presents the key concepts that underlie the behavior of operations systems in a largely non-mathematical way, contains illustrations and analogies to everyday life, links theory to practice, and reinforces the learning process with end-of-chapter Questions for Thought.

A Close-knit Family - Melissa Leapman 1999
Most knitters create garments for someone else, usually a family member. With this beautiful collection of sweaters from knitwear designer

Melissa Leapman, knitters will find projects to delight everyone on their gift list. Each chapter has a basic design that has been interpreted into different sweaters for adults and children.

Instead of taking one sweater and changing the size, Melissa has created different designs from a similar theme for each family member. By not merely reworking the same sweater in many different sizes, these projects will keep even the most prolific knitter engaged. The sweaters are grouped in families, so the knitter can knit sweaters for herself, her husband, and her children that are all variations on a theme. The designs are new and different without being too untraditional or high fashion, and they use a wide variety of stitches and techniques that will appeal to whatever the knitter is in the mood for, such as intarsia, slipped stitch patterns, gansey, and cables. There are patterns in this book for knitters of all skill levels and designs for every season and climate; knit in wool, cotton, and blended yarns. Yarn substitution information

allows knitters to adapt projects for their needs and budgets.

A Foodie Afloat - Di Murrell 2020-07-28

A Foodie Afloat is the story of a cook's journey through France on a barge. Di Murrell takes us on a gentle journey across France; her main preoccupation being to make sure that tasty food arrives on the table each day. As she voyages across the country she shows, through her recipes, how the cuisine changes with the landscape. Whether bought in the market, dug from a lock-keeper's garden or even foraged along the towpath, the food she finds and cooks is always seasonal and local to the region. This book is more than just a collection of recipes though. It is the result of a life spent on the waterways of Europe. She talks to lock-keepers, skippers of working barges and those, who, like her, find their sustenance on or near the canal. Di's enjoyment of good champagne, foie gras

and truffles leads to an eclectic mix of simplicity and sophistication in her cooking. The boating life, though rarely sensational, is full of small events and chance encounters. This is an enticing story of slow boats and slow food. Di makes it come alive, and her combination of travel and recipe book tempts us to give up everything and join her on the waterways of Northern and Central France. A Foodie Afloat is the 2020 UK winner of the World Gourmand Cookbook Awards in the Food Tourism category.

Dressing Modern Frenchwomen - Mary Lynn Stewart 2020-03-03

At a glance, high fashion and feminism seem unlikely partners. Between the First and Second World Wars, however, these forces combined femininity and modernity to create the new, modern French woman. In this engaging study, Mary Lynn Stewart reveals the fashion industry as an integral part of women's transition into modernity. Analyzing what female columnists in fashion magazines and popular women novelists wrote about the "new silhouette," Stewart shows how bourgeois women feminized the more severe, masculine images that elite designers

promoted to create a hybrid form of modern that both emancipated women and celebrated their femininity. She delves into the intricacies of marketing the new clothes and the new image to middle-class women and examines the nuts and bolts of a changing industry—including textile production, relationships between suppliers and department stores, and privacy and intellectual property issues surrounding ready-to-wear couture designs. *Dressing Modern Frenchwomen* draws from thousands of magazine covers, advertisements, fashion columns, and features to uncover and untangle the fascinating relationships among the fashion industry, the development of modern marketing techniques, and the evolution of the modern woman as active, mobile, and liberated.

Mastering Color Knitting - Melissa Leapman
2011-07-13

One of the reasons knitting and colorwork master Melissa Leapman first learned to knit was her wish to make one special project—a

sweater using Fair Isle technique. Now, for the first time, she brings her passion for advanced color knitting to knitters who want to knit with any and every color of yarn they can wrap around their needles. Conquer classic stranded knitting, “draw” images in yarn using intarsia, and make two projects in one with reversible double knitting. Leapman’s clear instruction proves that knitting with multiple colors may appear more complex, but it doesn’t have to be difficult. She includes the quickest, easiest, and most intuitive methods for each technique, using knowledge honed over years of color knitting workshops with knitters from across the country. Once you’ve learned the basics, practice your new skills by creating projects for yourself, your friends, and everyone on your gift list. Each chapter includes a handful of sample projects to get you started, a Designer Workshop that teaches you important concepts in every designer’s toolbox, and a pattern treasury of unique patterns to apply to projects of your own

creation—more than 50 patterns and 12 projects in all. Throughout, Leapman’s helpful collection of how-tos, diagrams, tips, and hints (including a refresher course in color theory to help you choose the perfect color combinations) makes *Mastering Color Knitting* the book you’ll turn to for information and inspiration time and time again.

The Company I Keep - Leonard A. Lauder
2020-11-17

In his much-anticipated memoir, *The Company I Keep: My Life in Beauty, Chairman Emeritus and former CEO of The Estée Lauder Companies* Leonard A. Lauder shares the business and life lessons he learned as well as the adventures he had while helping transform the mom-and-pop business his mother founded in 1946 in the family kitchen into the beloved brand and ultimately into the iconic global prestige beauty company it is today. In its infancy in the 1940s

and 50s, the company comprised a handful of products, sold under a single brand in just a few prestigious department stores across the United States. Today, The Estée Lauder Companies constitutes one of the world’s leading manufacturers and marketers of prestige skin care, makeup, fragrance and hair care products. It comprises more than 25 brands, whose products are sold in over 150 countries and territories. This growth and success was led by Leonard A. Lauder, Estée Lauder’s oldest son, who envisioned and effected this expansion during a remarkable 60-year tenure, including leading the company as CEO and Chairman. In this captivating personal account complete with great stories as only he can tell them, Mr. Lauder, now known as The Estée Lauder Companies’ “Chief Teaching Officer,” reflects on his childhood, growing up during the Great Depression, the vibrant decades of the post-World War II boom, and his work growing the company into the beauty powerhouse it is today.

Mr. Lauder pays loving tribute to his mother Estée Lauder, its eponymous founder, and to the employees of the company, both past and present, while sharing inside stories about the company, including tales of cutthroat rivalry with Charles Revson of Revlon and others. The book offers keen insights on honing ambition, leveraging success, learning from mistakes, and growing an international company in an age of economic turbulence, uncertainty, and fierce competition.
