The final part focuses on special populations such as gay, sexually abused and developmentally disabled boys.

"Confronting Social Attitudes in Textbooks: The Response and Responsibility of Today's Educator" (Steven Selden); "Children's Play and Adult Leisure: The Social Responsibility of Educators" (Nancy R. King); "Ethnic Diversity, the Social Responsibility of Educators, and School Reform" (James A. Banks); "Peering into the Well of Loneliness: The Responsibility of Educators to Gay and Lesbian Youth" (James T. Politics of Education - Susan Gushee O'Malley 1990-01-01

This book brings together thirty of the best essays from *Radical Teacher*. The journal is devoted to feminist and socialist approaches to teaching--to showing teachers how to democratize the classroom and empower students. The articles included here have been chosen for their continuing usefulness to school and college teachers with emphasis on critical pedagogy as well as radical course content. These essays provide not only a wealth of ideas for teachers already involved in radical education but also an accessible, readable, and wide-ranging introduction for those new to it.

Dual Identities - Dana G. Finnegan 1987

Campus Violence - Leighton Whitaker 2014-02-04

This timely book shows how the rapidly increasing phenomenon of violence in the U.S. is invading college and university campuses. Campus

Violence shows what colleges, universities, and other schools can do to deconstruct the violence culture and begin to educate for a better society. The chapters assist educators in determining the nature of both external and internal violence and what to do about it. Readers will benefit from the experiences of many institutions of higher learning as communicated by various outstanding contributors to this book. By becoming sharply aware of the issues and solutions, administrators may engage in better, more realistic long-range planning, as well as get help for the myriad daily questions and problems inherent to running today's campuses. As a whole, the book is devoted to highlighting important kinds, causes, and cures of violence destructive to living and learning opportunities. The contributors address the full range of issues from conceptualization to practical ways of handling violent behaviors. Section I: Addresses the broadest, most far-reaching views of campus violence: the conceptualization of campus violence, administration perspectives, the destructive concoction of alcohol and other drugs and morbidity, and the commercial promotion of mindless violence. Section II: Addresses specific kinds of violence. Section III: Focuses on the most frequent immediate perpetrators--male college students--and how their behavior can be dealt with and improved. Section IV: Focuses very specifically on how the college counselor or psychotherapist can be a consultant to staff and faculty in regard to disruptive students. Campus Violence depicts the need to nurture and develop atmospheres for learning, respect, and constructive action--arguably the most pressing topic in education today. Counselors, therapists, security officers, deans, and presidents can begin to counter the rapidly increasing phenomenon of violence in American colleges and universities and cultivate a positive leadership atmosphere. The implications of the contributing authors reach to the primary and secondary schools in our nation--the training grounds for college life and education--and provoke some questions which begin to create a better learning environment.

Homosexual Issues In The Workplace - Louis Diamant 2018-10-24

First published in 1993. This book looks at the stress of gay and lesbian workers within the work world, and for that reason alone deserves its place on a list of recommended mental health, psycho-social health readings. However, more than this major factor merits consideration. Issues that are core to the identity of any person must be examined from the particular position of the homosexual worker and career seeker, and include such fundamental concepts as fairness, self-esteem, economics, survival, the need and right to participate in the work force, and the need and right for a voice and basic identity in vocational systems.

Women's Sexuality Across the Life Span - Judith C. Daniluk
2003-06-09

Moving beyond a traditional focus on sexual functioning, this book emphasizes the complex interaction of psychological, social, cultural and biological influences on women's sense of themselves as sexual beings. Written for practitioners and educators, its goal is to challenge contradictory messages and meanings that cause many women to feel disconnected from their bodies and from their needs and desires. Themes explored include the development of sexual awareness and sexuality in childhood and adolescence, the critical sexual choices of young adulthood, and the multiple transitions characterizing the middle and later years of life. The book features creative exercises and interventions to help girls and women construct more affirming sexual meanings.
