**Gerontological Nursing** - Kristen L. Mauk 2010

Important Notice: The digital edition of this book is missing some of the images or content found in the physical edition. Gerontological Nursing: Competencies for Care, Second Edition is a comprehensive and student-accessible text that offers a holistic and inter-disciplinary approach to caring for the elderly. The framework for the text is built around the Core Competencies set forth by the American Association of Colleges of Nursing (AACN) and the John A. Hartford Foundation Institute for

Geriatric Nursing. Building upon their knowledge in prior medical surgical courses, this text gives students the skills and theory needed to provide outstanding care for the growing elderly population. It is the first of its kind to have more than 40 contributing authors from many different disciplines. Some of the key features include chapter outlines, learning objectives, discussion questions, personal reflection boxes, and case studies.

*The Food Cure: Eat Your Way to Good Health* - Christine & Sonny Gray 2018-02-04

Poor health is America's #1 problem. Over 70% of us are either overweight or obese. Over 70% of Americans are on at least one prescription medication, and more than half take two. Preventable chronic diseases are responsible for the overwhelming majority of deaths in this country. Just two of these chronic illnesses—heart disease and cancer—together account for nearly half of all deaths in the U.S., needlessly taking the lives of 1.2 million loved ones each year. Currently, 94% of the calories being consumed by Americans come from meat, dairy products and processed foods with only 6% of calories coming from healthy fresh vegetables, fruits, beans/legumes, and whole grains, according to the USDA's Profiling Food Consumption in America. The Standard American Diet full of fat and sugar (meats and sweets) is depriving us of real nutrients that our bodies require for good health. In this eye-opening book, the authors reveal the causes of our chronic diseases and the foods that can make us well.
