Facing the Climate Emergency - Margaret Klein Salamon 2020-04-21

Stop fretting and start fighting global warming: “A remarkable account of how you can become a climate warrior.” —Bill McKibben, founder of 350.org Yes, we’re facing catastrophic breakdown of our climate. Yes, it’s terrifying. But you don’t have to be paralyzed. You can use your pain to transform yourself, your friends, and the world. You can become the hero humanity needs. This book will show you how. Facing the Climate Emergency is an action-oriented self-help guide showing you how to maximize your potential to meet the greatest challenge humanity has ever faced. Written for all of us struggling to cope and wanting to do

something to stop the climate crisis, it gives us the blueprint to leave “normal” behind and enter climate “emergency mode.” How to face the climate crisis and accept your fears, anger, grief, guilt, and other emotions Turning negative feelings into tangible action to respond to the crisis Rising to heroism and maximizing your impact by joining the Climate Emergency Movement Information on further reading, questions for self-reflection, and exercises “This book will wake you up, no matter how aware you think you are.” —David Wallace-Wells, #1 New York Times-bestselling author of The Uninhabitable Earth Billionaire's Contract Engagement / Money Man's Fiancée Negotiation: Billionaire's

HEY, U UP? (For a Serious Relationship) - Emily Axford
2018-02-13

Humorous dating advice from two married comedians, former CollegeHumor writers and stars of the Hot Date tv series. Who better to write a very humorous manual about evolving modern relationships than two CollegeHumor veterans and viral-video stars who happen to be a real-life husband-and-wife team? With candor, bite, and charm, HEY, U UP? takes readers on

an eight-chapter journey through the trials of hooking up to the foibles of marriage, and combines the authors' prescriptive advice with the unfolding story of their own relationship. HEY, U UP? tackles all the milestones of relationships today—both glorious and embarrassing—with sections ranging from “How to Ask Someone Out After You’ve Slept with Them” all the way to “Establish Your Family as the Christmas Family by Turning Your Significant Other Against Their Own Parents.” In addition to the laugh-out-loud essays, lists, questionnaires, and even flowcharts further enliven the pages.

Geriatric Emergency Medicine - Christian Nickel
2017-12-11

This book discusses all important aspects of emergency medicine in older people, identifying the particular care needs of this population, which all too often remain unmet. The up-to-date and in-depth coverage will assist emergency physicians in identifying patients at risk for

adverse outcomes, in conducting appropriate assessment, and in providing timely and adequate care. Particular attention is paid to the common pitfalls in emergency management and means of avoiding them. Between 1980 and 2013, the number of older patients in emergency departments worldwide doubled. Compared with younger patients, older people suffer from more comorbidities, a higher mortality rate, require more complex assessment and diagnostic testing, and tend to stay longer in the emergency department. This book, written by internationally recognized experts in emergency medicine and geriatrics, not only presents the state of the art in the care of this population but also underlines the increasing need for adequate training and development in the field.

Hands Free Mama - Rachel Macy Stafford

2014-01-07

"Rachel Macy Stafford's post "The Day I Stopped Saying Hurry Up" was a true phenomenon on The Huffington Post, igniting countless

conversations online and off about freeing ourselves from the vicious cycle of keeping up with our overstuffed agendas. Hands Free Mama has the power to keep that conversation going and remind us that we must not let our lives pass us by." --Arianna Huffington, Chair, President, and Editor-in-Chief of the Huffington Post Media Group, nationally syndicated columnist, and author of thirteen books <http://www.huffingtonpost.com/> DISCOVER THE POWER, JOY, AND LOVE of Living "Hands Free" If technology is the new addiction, then multi-tasking is the new marching order. We check our email while cooking dinner, send a text while bathing the kids, and spend more time looking into electronic screens than into the eyes of our loved ones. With our never-ending to-do lists and jam-packed schedules, it's no wonder we're distracted. But this isn't the way it has to be. In July 2010, special education teacher and mother Rachel Macy Stafford decided enough was enough. Tired of losing track of what matters

most in life, Rachel began practicing simple strategies that enabled her to momentarily let go of largely meaningless distractions and engage in meaningful soul-to-soul connections. She started a blog to chronicle her endeavors and soon saw how both external and internal distractions had been sabotaging her happiness and preventing her from bonding with the people she loves most. Hands Free Mama is the digital society's answer to finding balance in a media-saturated, perfection-obsessed world. It doesn't mean giving up all technology forever. It doesn't mean forgoing our jobs and responsibilities. What it does mean is seizing the little moments that life offers us to engage in real and meaningful interaction. It means looking our loved ones in the eye and giving them the gift of our undivided attention, leaving the laundry till later to dance with our kids in the rain, and living a present, authentic, and intentional life despite a world full of distractions. So join Rachel and go hands-free.

Discover what happens when you choose to open your heart—and your hands—to the possibilities of each God-given moment.

Everything Is an Emergency - Jason Adam Katzenstein 2020-06-30

New York Times Book Review Editors' Choice “A brilliant, honest, necessary book that exposes the intricacies of the human brain while showing us the way creativity and friendship can anchor us. This is a must-read for anyone who has ever wondered if they see the world a little differently.” –Ada Limón A New Yorker cartoonist illustrates his lifelong struggle with OCD in cartoon vignettes frank and funny Jason Adam Katzenstein is just trying to live his life, but he keeps getting sidetracked by his over-active, anxious brain. Mundane events like shaking hands or sharing a drink snowball into absolute catastrophes. Jason has Obsessive Compulsive Disorder, a mental illness that compels him to perform rituals in order to protect himself from dangers that don't really

exist. He checks, washes, over-thinks, rinse, repeat. He does his best to hide his embarrassing compulsions, and sometimes this even works. He grows up, worries about his first kiss, falls in love with making cartoons, moves to New York City — which is magical and gross, etc. All the while, half his energy goes into living his life, while the other half is devoted to the increasingly ridiculous rituals he's decided to maintain to keep himself from fully short-circuiting. Then, he fully short-circuits. At his absolute lowest, Jason finally decides to do the things he's always been told to do to get better: exposure therapy and medication. These are the things that have always freaked him out, and they continue to freak him out. Also, they help him recover. Everything is an Emergency is a comic about all the self-destructive stories someone tells himself, over and over, until they start to seem true. In images surreal, witty, and confessional, Jason shows us that OCD can be funny, even when it feels like it's ruining your

life.

Parenting Matters - National Academies of Sciences, Engineering, and Medicine 2016-12-21
Decades of research have demonstrated that the parent-child dyad and the environment of the family — which includes all primary caregivers — are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and

create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in

effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Love is Green: Compassion as responsibility in the ecological emergency - Lucy Weir
2020-01-31

This book links three themes, non-dualistic agency, 'the good' of systems, and compassionate attunement, and relates them to the ecological emergency. The author begins by examining how we currently understand our ability to choose what we do, our agency and conclude that this is dualistic: we think of an action to do, and then we physically act. Yet an

understanding that we are enmeshed in context means our capacity to act freely dissolves in the mesh. We evolved capacities for consciousness and awareness, capacities that allow us to realise that we are here, now but that do not inevitably imply choice. Our capacity for 'realisation' gives us the ability to elicit an emotional response. When we understand our enmeshment, we can attune to a deep compassion for ourselves and indeed for all systems unfolding through time. Compassionate attunement allows a different set of options for action to become available to us. This then shifts how we respond to ourselves, our human relationships and to the ecological emergency we are currently embroiled in. This work is inspired by the great Kamakura Zen Master Eihei Dōgen. The book's contribution is to extend and link the notion of practice-realisation with the literature on evolutionary biology and entropy maximisation which allows us to speak of 'the good' of systems. Systems unfold as

'good' for us when biodiversity maximisation occurs. By considering the ecological emergency in light of compassionate attunement, we open ourselves to a new array of possibilities for action. Some of these the author outlines in the conclusion, relating them to existing literature on compassionate achievement and compassionate communication, to show how our this practice shifts our relationship to ourselves, to one another, and to the ecological emergency, thus changing the course of human history.

The Actual Star - Monica Byrne 2021-09-14
David Mitchell's *Cloud Atlas* meets Octavia Butler's *Earthseed* series, as acclaimed author Monica Byrne (*The Girl in the Road*) crafts an unforgettable piece of speculative fiction about where humanity came from, where we are now, and where we're going—and how, in every age, the same forces that drive us apart also bind us together. "A stone-cold masterpiece."—New Scientist
The Actual Star takes readers on a journey over two millennia and six continents—telling three powerful tales a thousand years apart, all of them converging in the same cave in the Belizean jungle. Braided together are the stories of a pair of teenage twins who ascend the throne of a Maya kingdom; a young American woman on a trip of self-discovery in Belize; and two dangerous charismatics vying for the leadership of a new religion, racing toward a confrontation that will

determine the fate of the few humans left on Earth after massive climate change. In each era, a reincarnated trinity of souls navigates the entanglements of tradition and progress, sister and stranger, and love and hate—until all of their age-old questions about the nature of existence converge deep underground, where only in complete darkness can they truly see. Communities in Action - National Academies of Sciences, Engineering, and Medicine 2017-04-27 In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying

neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. Communities in Action: Pathways to Health Equity seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

Ten years ago when Shane Maguire chose the Marines as his escape from some trouble of his own making, he only regretted one thing—leaving Sinclair Smith behind. Despite his best intentions, she ended up as the one that got away. Now he's back, determined to reclaim everything he gave up, including Sinclair. Sinclair is immune to Shane's charms. She's immune to stolen kisses behind the gym. And she's definitely immune to that maneuver he did in the back seat of his car... Okay, maybe her hormones are susceptible, but she has absolutely no desire to risk anything on the bad boy who broke all his promises. When a little emergency lands her at his mercy, he offers her a deal she can't refuse. And this time, she'll show Shane what it means to be left wanting... Best Friends with Benefits - Candy Sloane

2016-03-14

Seven minutes in heaven never felt so good... Valerie Barkin and Alec Rogers survived bullies, awful parents, and seriously shitty social standing the only way best friends can—together. But with the unexpected sexual tension suddenly flaring between them, surviving their ten-year high school reunion might be a different story... Val hasn't changed. She still feels like the stringy-haired band geek the popular kids teased, but Alec has definitely changed. He's now the front man for the Grammy-winning rock band Chronic Disharmony, with the sexual reputation to match. And he's more than willing to help Val rock the reunion. And then it happens—a drunken game of Seven Minutes in Heaven—and their fourteen-years-long foreplay comes crashing to the forefront...changing everything. Seven minutes turns into a weekend of mind-

blowing, no-strings-attached sex. But these best friends won't be able to leave their hearts out of it forever, not when the most meaningful benefit could change their relationship for good. Each book in the Most Likely To series is a standalone, full-length story that can be enjoyed out of order. Series Order: Book #1 Best Friends with Benefits Book #2 Wrong Bed Reunion
