The Gender Politics of the Namibian Liberation Struggle - Martha Akawa 2014

Women's contributions against apartheid under the auspices of the Namibian liberation movement SWAPO and their personal experiences in exile take center stage in this study. Male and female leadership structures in exile are analysed whilst the sexual politics in the refugee camps and the public imagery of female representation in SWAPO's nationalism receive special attention. The party's public pronouncements of women empowerment and gender equality are compared to the actual implementations of gender politics during and after the liberation struggle.

[Touching the Edge of Heaven](#) - Sarah O'Malley 2014-12-02

This is my biography. I was a single, divorced parent, and after years of abuse which led to alcoholism, and going through a rape, I sunk into the deepest depths of society. On a misty November night, while riding on Highway 202 in a New England town, I was rear-ended by a Mack truck, flung thirty feet in the air, and landed on cement. With no life left in me, I had a near-death experience that changed my life forever. I believe, and it is my prayer, that anyone who has been through any kind of trauma, rape, abuse, or addiction of any kind will read this and find new hope in their lives. Through my relationship with Jesus Christ, I have a new lease on life that gives me security, wisdom, peace, joy, and the unconditional love of God my Father. Every day, my strength is renewed in Him, and no matter what storms may come my way, He has taught me how to overcome.

**The Motherhood Penalty** - Joeli Brearley 2021-03-04

AN EYE-OPENING EXPLORATION OF MODERN MOTHERHOOD  
PACKED WITH PRACTICAL ADVICE ON NAVIGATING

DISCRIMINATION IN THE WORKPLACE 'It's the book that proves working mothers are shamefully mistreated' - Daily Mail 'Brearley's book leaves no stone unturned in what needs to be done to remedy these problems going forward' - Vogue UK 'Joeli is one of the most tenacious and impressive campaigners I know, and her work has had a massive positive impact on the lives of thousands of women. Her work is invaluable, from setting up a vital lifeline for women to learn about their rights on maternity discrimination, to the frontlines of the Covid-19 crisis, where she battled for women not to be left out of the picture altogether.' - Laura Bates Imagine suddenly being sacked from your job. After spending years building your career, it's all taken away in just one moment. Why? Because you told your boss you are pregnant. This happened to Joeli Brearley. And she quickly realised she wasn't alone - 54,000 women a year are forced out of their job because they dared to procreate, and three quarters of working mothers face workplace discrimination. And this was before the pandemic, with its never-ending cycle of extraordinary childcare challenges and overt pregnancy and maternity discrimination, resulting in a tsunami of mothers exiting the labour force. Pregnant Then Screwed is an expose of the unscrupulous work practices and antiquated systems that we've been conditioned to accept and a toolkit for how to challenge them. It's full of practical advice to help you navigate systemic barriers when they slap you in the face. Whether you're a mother who is sick of being sidelined, undermined, and underpaid. A "stay at home" mother who wants to work but can't. A future parent who is scared that having children will affect your career. An employer who wants to get the best out of its parent employees, or you simply want a stronger, fairer economy, Pregnant Then Screwed is a compelling manifesto for change and a call to arms for all women.

[Girl Warriors](#) - Svenja Hohenstein 2019-06-19

Quest narratives are as old as Western culture. In stories like The Odyssey, The Lord of the Rings, Star Wars and Harry Potter, men set out on journeys, fight battles and become heroes. Women traditionally feature in such stories as damsels in need of rescue or as the prizes at

the end of heroic quests. These narratives perpetuate predominant gender roles by casting men as active and women as passive. Focusing on stories in which popular teenage heroines--Buffy Summers, Katniss Everdeen and Disney's Princess Merida--embark on daring journeys, this book explores what happens when traditional gender roles and narrative patterns are subverted. The author examines representations of these characters across various media--film, television, novels, posters, merchandise, fan fiction and fan art, and online memes--that model concepts of heroism and girlhood inspired by feminist ideas.

**Inducing Labour** - Sara Wickham 2018-04-30

When is it better to induce labour than to let a woman's body or baby decide the best time for birth? What are the pros and cons of waiting and of being induced? What about after the due date? When the baby is thought to be bigger than average? When the woman is older? If she had IVF? Or when her waters have broken earlier than usual? Induction of labour is an increasingly common recommendation and more and more women find themselves having to decide whether to let their body and baby go into labour spontaneously or agree to medical intervention. This book explains the process of induction of labour and shares information from research studies, debates and women's, midwives' and doctors' experiences to help women and families become more informed and make the decision that is right for them.

*The Power of Habit* - Charles Duhigg 2012-02-28

NEW YORK TIMES BESTSELLER • This instant classic explores how we can change our lives by changing our habits. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Wall Street Journal • Financial Times In *The Power of Habit*, award-winning business reporter Charles Duhigg takes us to the thrilling edge of scientific discoveries that explain why habits exist and how they can be changed. At its core, *The Power of Habit* contains an exhilarating argument: The key to exercising regularly, losing weight,

being more productive, and achieving success is understanding how habits work. As Duhigg shows, by harnessing this new science, we can transform our businesses, our communities, and our lives. With a new Afterword by the author "Sharp, provocative, and useful."—Jim Collins "Few [books] become essential manuals for business and living. *The Power of Habit* is an exception. **Creating European Citizens** - Willem Maas 2007-02-03

Exploring a key aspect of European integration, this clear and thoughtful book considers the remarkable experiment with common rights and citizenship in the EU. Explaining this innovation—why states cede their sovereignty and eradicate or redefine the boundaries of the political community by including "foreigners"—Willem Maas analyzes the development of European citizenship within the larger context of the evolution of rights. More than simply a free trade market, the goal of building a community among peoples—creating European citizens—has informed European integration since its origins. The author argues that its success or failure will not only determine the future of Europe but provide lessons for political integration elsewhere.

*The End of Men* - Hanna Rosin 2012-10-11

What Betty Friedan, Simone de Beauvoir, Susan Faludi and Naomi Wolf did for feminism, senior editor of *The Atlantic* Hanna Rosin does for a new generation of women: an explosive new argument for why women are winning the battle of the sexes and why men are no longer top dog. Women are no longer catching up with men. By almost every measure, they are out-performing them. We are at an unprecedented moment in history. In 2010, for the first time, the balance of the British workforce

tipped towards women, who now hold around half of the nation's jobs. In the US, meanwhile, for every two men that receive a BA, three women will achieve the same. Not only do women now dominate colleges and professional schools on every continent except Africa, young single women in the US now earn more than their male counterparts, and more than a third of mothers in the UK and the US are their family's main breadwinner. The tides have turned. The 'age of testosterone' is decisively over. At almost every level of society women are proving themselves far more adaptable and suited to a job market that rewards people skills and intelligence, and a world that has a dramatically diminishing need for traditional male muscle. In this landmark, once-in-a-generation book, Hanna Rosin reveals how this new world order came to be and its profound implications for marriage, sex, children, work, families and society. Unhampered by old assumptions and ideologies and drawing on examples from across the globe, *The End of Men* helps us see how both men and women can - and must - adapt for a radically new era. 'In this bold and inspired dispatch, Rosin upends the common platitudes of contemporary sexual politics with a deeply reported meditation from the unexpected frontiers of our rapidly changing culture' Katie Roiphe, author of *The Morning After* and *Uncommon Arrangements* 'The End of Men describes a new paradigm that can, finally, take us beyond 'winners' and 'losers' in an endless 'gender war.' What a relief! Ultimately, Rosin's vision is both hope-filled and creative, allowing both sexes to become far more authentic: as workers, partners, parents...and people' Peggy Orenstein, author of *Cinderella Ate My Daughter* and *Schoolgirls* Hanna Rosin is a senior editor at *The Atlantic* magazine and a founder and co-editor of *DoubleX*, *Slate's* women's section. She has written for the *New Yorker*, *The New York Times*, *GQ*, and *The New Republic*, and for a number of years covered politics and religion for the *Washington Post*. In 2009 she was nominated for a National Magazine Award, and in 2010 she won one. She is the author of a previous book, *God's Harvard: A Christian College on a Mission to Save America*. Rosin lives in Washington, DC, with her husband, *Slate* editor David Plotz, and their three children.
