It was from observing my roommate and learning the secrets she used to attract White men that I was able to have a date every weekend with different White guys. And you can too. You see, the secrets Asian women know that cause them to win at swirling can be applied to Black women and work just as well. behave in a certain way because of the colour of her skin. She faced restrictions imposed upon her by an unfair system; don't talk back to White people, expect to be stopped by the police and work twice as hard as your White peers. Alex Court, a White British man, moved through his life in a very different way. As someone with White and male privilege he saw himself represented in every field of life and so he always had the confidence to excel and push forward. When Tineka and Alex first fell in love, they didn't realise how much the colour of their skin might impact on their relationship. But as time went on, and as their lives and cultures became interwoven, they recognised how dramatically different their experiences were. In *Mixed Up*, Tineka and Alex open up about their interracial relationship for the first time, and with anecdotes, analysis and raw revelations, the pair attempt to navigate their new and challenging world, confronting race and relationships in the 21st century head on.

GIs and Fräuleins Maria Höhn 2003-04-03 With the outbreak of the Korean War, the poor, rural West German state of Rhineland-Palatinate became home to some of the largest American military installations outside the United States. In *GIs and Frauleins*, Maria Hohn offers a rich social history of this German-American encounter and provides new insights into how West Germans negotiated their transition from National Socialism to a consumer democracy during the 1950s. Focusing on the conservative reaction to the American military presence, Hohn shows that Germany's Christian Democrats, though eager to be allied politically and militarily with the United States, were appalled by the apparent Americanization of daily life and the decline in morality that accompanied the troops to the provinces.

Conservatives condemned the jazz clubs and striptease parlors that Holocaust survivors from Eastern Europe opened to cater to the troops, and they expressed scorn toward the German women who eagerly pursued white and black American GIs. While most Germans rejected the conservative effort to punish as prostitutes

all women who associated with American GIs, they vilified the sexual relationships between African American men and German women. Hohn demonstrates that German anxieties over widespread Americanization were always debates about proper gender norms and racial boundaries, and that while the American military brought democracy with them to Germany, it also brought Jim Crow.

Don't Bring Home a White Boy Karyn Langhorne Folan 2010-02-02 Folan encourages readers to look beyond common generalizations and stereotypes about race and gender in interracial relationships. In *Don't Bring Home a White Boy*, writer Karyn Langhorne Folan debunks the myths and common preconceptions about interracial relationships: Is a black woman who dates white men a traitor to her race? And is America's history of black oppression a factor? Drawing on real-life testimonials, she boldly tackles this difficult subject with warmth, humor, and understanding, as she explores stereotypes of black female sexuality and white male perspectives on black female beauty. Folan goes beyond statistics and offers firsthand insights on her own interracial relationship and attempts to tap into a woman's desire to have all that they deserve instead of restricting themselves, simply because they want a "good black man." Frank, authoritative, and universally relevant, her message to women is to look beyond skin color, accept themselves for who they are, and seek a man who truly loves them, regardless of race.

Americans were able to overcome their subjugation, and it shows you how the election of President Obama made America a new nation, discussing some of the things he did as president. It shows you what Donald Trump did as president, and it discusses the challenges facing Joe Biden as president. Democrats and Republicans want to lead in America, and this book gives the reader an opportunity to decide which of these political parties should lead. White people helped African Americans change America, and I believe White people and African Americans will continue working together to change America into a color-blind society. This book also aims to make the reader see how police officers and the Black Lives Matter organization have factored into the relationship between White people and African Americans.

Black Men in Interracial Relationships Kellina Craig-Henderson 2017-07-28 Why is it that successful black men--black men who are "at the top of their game" in the arts, entertainment, politics and athletics--are four times as apt to be married to or dating a woman who is not an African American than they were only thirty years ago? And why are twice as many black men involved in interracial relationships as black women? In addition to their celebrity status, which includes widespread popularity

and wealth, black men from Charles Barkley to James Earl Jones to Russell Simmons to Bryant Gumbel share something else in common; something that also characterizes the experiences of more than 250,000 less well-known black men in the United States. They happen to be involved in interracial intimate relationships. Less than fifty years ago such relationships were next to impossible, leading to severe social sanctions. The fact that this is no longer the case is concrete evidence of changes in the quality and character of contemporary race relations.

Drawing on her own observations, and her examination of the responses of a small, diverse group of black men who date (in some cases exclusively), have sexual relations with, and marry women who are not of African descent, the book provides insight into the continuing ways that race and ethnic status affect the choices people make in their lives. Until this book, though, these types of relationships have received scant serious attention.

Craig-Henderson forthrightly addresses the taboo, interspersing analysis with verbatim accounts from black men involved in such relationships. Grounded in serious research, interviews, and analysis of census data, *Black Men in Interracial Relationships* examines why such relationships appear to be so popular among black male elites. In the process, the author unravels the mystery behind the apparent absence of black women in black men's lives. It will be of interest to specialists in race, gender, family, and sexual issues, and appropriate for courses in these areas. It is also highly readable and thought-provoking for the general public, who will find its observations and findings fascinating.

Black Women in Interracial Relationships Kellina Craig-Henderson 2017-07-28 According to the most recent U.S. census, twice as many black men are involved in interracial relationships as black women. Do black women consciously resist such involvement? What motivates the relatively few women who are in these types of relationships? And how do they navigate the unfamiliar terrain in intimacy? One of the most popular explanations for black women's involvement in interracial intimacy is the unavailability of eligible black men. This explanation focuses on the dismal statistics popularly discussed in reports that forecast lonely futures for African American females. Craig-Henderson explores another, more provocative explanation. She argues that some black women may disassociate from larger social stereotypes by consciously and strategically making choices that distance them from what is considered characteristic of the "typical" African American woman. Scant serious attention has focused upon intimate interracial relationships, perhaps because of a general reluctance to deal with two extremely provocative issues: race and sex. As rates of interracial relationships continue to increase, discussions about interracial intimacy are relevant and timely. Craig-Henderson considers the continuing taboo of interracial relationships involving African Americans, the way this taboo is changing, and the way that contemporary race relations perpetuate longstanding stereotypes about race and sex. The book includes in-depth, unstructured interviews with a wide range of black women currently involved

To Have, to Hold, and to Never Let Go Cattina C. Coleman

2012-12-28 I am a woman of many attributes and as impressive as my background is I too find it hard to juggle a relationship, family, friends, and my career. With a two year old son, a new found relationship with a handsome young man who is just a year younger than me but so much wisdom he could teach a teacher; still pursuing my Doctorate Degree in Business, and building a company from the ground up; has definitely put my life in the fast lane. The inspiration to my book was having seen male friends of mine who are battling their own love lives and or the family. I wanted to create a book to help guide them in a path where they too can understand where we women are coming from when we ask them a million and one questions about relationships and family. So in my book To Have, To Hold, and To Never Let Go, I am letting men know the inner thoughts and acts of women and show how we are not that much different from you guys in the sense of commitment. The same thoughts you men have us women have too; we just go about them a little differently. So in this book allow these chapters to guide you men on how To Have a Woman, Hold a Woman, and To Never Let Her Go.

Oral Histories of Older Gay Men in Hong Kong Travis S. K. Kong 2019-08-15 “This is very personal and private, but I’ve told you everything.” Old Chan thus gives voice to the attitude expressed in all thirteen stories told in this intimate oral history of life at the margins of Hong Kong society, stories punctuated by laughter, joy, happiness, and pride, as well as tears, anger, remorse, shame, and guilt. Illustrated with photos, letters, and other images, *Oral Histories of Older Gay Men in Hong Kong: Unspoken but Unforgotten* gives voice to the complexities of a “secretive” past with unique hardships as these men came to terms with their sexuality, adulthood, and a colonial society. The men talk with equal candour about how their sexuality remains a complication as they negotiate failing health, ageing, and their current role in society. While fascinating as life histories, these stories also add insight to the theoretical debates surrounding identity and masculinity, coming out, ageing and sexuality, and power and resistance. Confined within the heteronormative culture prescribed by government, family, and religion, these men have lived the whole of their lives struggling to find their social role, challenging the distinction between public and private, and longing for a stable homosexual relationship and a liberating homosexual space in the face of deteriorating health and a youth-obsessed gay community. “This book makes an original contribution. Very few scholars, anywhere, have recorded the lives of older gay men. The stories of the men in this collection are intrinsically interesting, often poignant, and make for a

Language Choice in Interracial Marriages: The Case of Filipino-Malaysian Couples Francisco Perlas Dumanig 2010-10-19

Language choice has become a common phenomenon in interracial encounters in which speakers are always faced with the challenge of choosing an appropriate language in various domains of communication. In multilingual and multiracial societies, language choice can sometimes be crucial because of its social, political, and economic impact on the speakers. Even in the smallest unit of a society which is the family, language choice plays an important role particularly in interactions between husbands and wives who come from different linguistic and cultural backgrounds. It is therefore the objective of this research to examine the language choice in interracial couples' communication. More specifically, this research examines the language choice, accommodation strategies, and code switching

patterns in verbal communication of Filipino-Malaysian couples in the home domain. Furthermore, this study explores the occurrence of language choice in relation to ethnicity, first language, and gender. To carry out the study, 60 spouses consisting of Filipino-Malay, Filipino-Malaysian Chinese and Filipino-Malaysian Indian couples were interviewed and given questionnaires which include the socio demographic profile, language choice and accommodation strategies used. Data were collected using the qualitative approach by interviewing and recording the conversations of Filipino-Malaysian couples. To support the qualitative findings, a quantitative approach based on the questionnaire results was also used. The findings of the study reveal that Filipino-Malaysian couples prefer English as their medium of communication at home with some switching to Bahasa Malaysia, Chinese and Filipino languages. The couples' preference of English is prevalent although none of them considered English as their first language. Their mother tongue becomes the secondary preference which is evident in the use of code switching. The findings further reveal that couples' language choice is influenced by ethnicity, first language and gender. On the other hand, the use of accommodation strategies such as approximation, interpretability, discourse management and interpersonal control accommodation strategies occurs in many interactions. The findings of the study support Giles' and Powesland's (1978) Communication Accommodation Theory (CAT) that in interracial couples' communication spouses tend to accommodate each other by using a range of accommodation strategies which include code switching.

And how can an understanding of the rules of "appropriateness" help us understand personal relationships in our modern world? Contributors to this book discuss the personal boundaries and taboos of modern relationships. Together they examine the power struggles that can occur when individuals are involved in "inappropriate" relationships, and the ways individuals in such a relationship may attempt to buffer themselves against sanctions--or even embrace this relationship as an agent of social change.
