Histories of Sexuality - Stephen Garton 2014-12-18

This book presents the first assessment of one of the most rapidly expanding fields of research: the history of sexuality. From the early efforts of historians to work out

a model for sexual history, to the extraordinary impact of French philosopher Michel Foucault, to the vigorous debates about essentialism and social constructionism, to the emergence of contemporary debates about historicism,

queer theory, embodiment, gender and cultural history - we now have vast and diverse historical scholarship on sex and sexuality. 'Histories of Sexuality' highlights the key historical moments and issues: pederasty and cultures of male passivity in ancient Greece and Rome; the impact of early Christianity and ideals of renunciation on the sexual cultures of late antiquity; the sustained existence of homosexual cultures in medieval and renaissance Europe; the "invention" of homosexuality and heterosexuality in eighteenth century Europe and America; the truth behind Victorian sexual repression; the work of reformers and scientists such as Havelock Ellis, Marie Stopes, Stella Browne, Margaret Sanger, Alfred Kinsey, William Masters and Virginia Johnson.

Straight - Hanne Blank
2012-01-31

It's surprising that the term "heterosexuality" is less than 150 years old and that heterosexuality's history has

never before been written, given how obsessed we are with it. In *Straight*, independent scholar Hanne Blank delves deep into the contemporary psyche as well as the historical record to chronicle the realm of heterosexual relations--a subject that is anything but straight and narrow. Consider how Catholic monasticism, the reading of novels, the abolition of slavery, leisure time, divorce, and constipation of the bowels have all at some time been labeled enemies of the heterosexual state. With an extensive historical scope and plenty of juicy details and examples, *Straight* provides a fascinating look at the vagaries, schisms, and contradictions of what has so often been perceived as an irreducible fact of nature.

Unheroic Conduct - Daniel Boyarin 1997-06-13

The Western notion of the aggressive, sexually dominant male and the passive female, as Daniel Boyarin makes clear, is not universal. Analyzing ancient and modern texts, he

Downloaded from
legacy.opendemocracy.net
on 2023-10-23 by guest

recovers the studious and gentle rabbi as the male ideal and the prime object of the female desire in traditional Jewish society. Challenging those who view the "feminized Jew" as a pathological product of the Diaspora or a figment of anti-Semitic imagination, Boyarin finds the origins of the rabbinic model of masculinity in the Talmud. The book provides an unrelenting critique of the oppression of women in rabbinic society, while also arguing that later European bourgeois society disempowered women even further. Boyarin also analyzes the self-transformation of three iconic Viennese modern Jews: Sigmund Freud, Theodor Herzl, and Bertha Pappenheim (Anna O.).

Straights - James Joseph Dean
2014-08-01

Since the Stonewall Riots in 1969, the politics of sexual identity in America have drastically transformed. It's almost old news that recent generations of Americans have grown up in a culture more accepting of out lesbians and

gay men, seen the proliferation of LGBTQ media representation, and witnessed the attainment of a range of legal rights for same-sex couples. But the changes wrought by a so-called "post-closeted culture" have not just affected the queer community—heterosexuals are also in the midst of a sea change in how their sexuality plays out in everyday life. In *Straights*, James Joseph Dean argues that heterosexuals can neither assume the invisibility of gays and lesbians, nor count on the assumption that their own heterosexuality will go unchallenged. The presumption that we are all heterosexual, or that there is such a thing as 'compulsory heterosexuality,' he claims, has vanished. Based on 60 in-depth interviews with a diverse group of straight men and women, *Straights* explores how straight Americans make sense of their sexual and gendered selves in this new landscape, particularly with an understanding of how race does and does not play a role in these conceptions. Dean

*Downloaded from
legacy.opendemocracy.net
on 2023-10-23 by guest*

provides a historical understanding of heterosexuality and how it was first established, then moves on to examine the changing nature of masculinity and femininity and, most importantly, the emergence of a new kind of heterosexuality—notably, for men, the metrosexual, and for women, the emergence of a more fluid sexuality. The book also documents the way heterosexuals interact and form relationships with their LGBTQ family members, friends, acquaintances, and coworkers. Although homophobia persists among straight individuals, Dean shows that being gay-friendly or against homophobic expressions is also increasingly common among straight Americans. A fascinating study, Straights provides an in-depth look at the changing nature of sexual expression in America. Thinking Straight - Chrys Ingraham 2013-05-13

This collection of original essays will unravel the current heterosexual scene in two parts: one on rights and privileges, the other on popular culture. Topics covered include weddings, proms, citizenship, marriage penalties, cartoons, mermaids and myth.

The Invention of Heterosexuality - Jonathan Ned Katz 2014-12-10
“Heterosexuality,” assumed to denote a universal sexual and cultural norm, has been largely exempt from critical scrutiny.

In this boldly original work, Jonathan Ned Katz challenges the common notion that the distinction between heterosexuality and homosexuality has been a timeless one. Building on the history of medical terminology, he reveals that as late as 1923,

*Downloaded from
legacy.opendemocracy.net
on 2023-10-23 by guest*

the term “heterosexuality” referred to a “morbid sexual passion,” and that its current usage emerged to legitimate men and women having sex for pleasure. Drawing on the works of Sigmund Freud, James Baldwin, Betty Friedan, and Michel Foucault, *The Invention of Heterosexuality* considers the effects of heterosexuality’s recently forged primacy on both scientific literature and popular culture. “Lively and provocative.”—Carol Tavris, *New York Times Book Review* “A valuable primer . . . misses no significant twists in sexual politics.”—Gary Indiana, *Village Voice Literary Supplement* “One of the most important—if not outright subversive—works to emerge from gay and lesbian studies in years.”—Mark Thompson, *The Advocate*

The Invention of Heterosexuality - Jonathan Katz 1996

Foreword by Gore Vidal

The Book of Minor Perverts
- Benjamin Kahan 2019-02-05
Shortlisted for the Modernist

Studies Association Book Prize
Statue-fondlers, wanderlusters, sex magicians, and nymphomaniacs: the story of these forgotten sexualities—what Michel Foucault deemed “minor perverts”—has never before been told. In *The Book of Minor Perverts*, Benjamin Kahan sets out to chart the proliferation of sexual classification that arose with the advent of nineteenth-century sexology. The book narrates the shift from Foucault’s “thousand aberrant sexualities” to one: homosexuality. The focus here is less on the effects of queer identity and more on the lines of causation behind a surprising array of minor perverts who refuse to fit neatly into our familiar sexual frameworks. The result stands at the intersection of history, queer studies, and the medical humanities to offer us a new way of feeling our way into the past.

The Tragedy of Heterosexuality
- Jane Ward 2020-09-01
Winner, 2021 PROSE Award in

Downloaded from
legacy.opendemocracy.net
on 2023-10-23 by guest

the Cultural Anthropology & Sociology Category Finalist, 2021 Lambda Literary Award in LGBTQ Studies A troubling account of heterosexual desire in the era of #MeToo

Heterosexuality is in crisis.

Reports of sexual harassment, misconduct, and rape saturate the news in the era of #MeToo. Straight men and women spend thousands of dollars every day on relationship coaches, seduction boot camps, and couple's therapy in a search for happiness. In *The Tragedy of Heterosexuality*, Jane Ward smartly explores what, exactly, is wrong with heterosexuality in the twenty-first century, and what straight people can do to fix it for good. She shows how straight women, and to a lesser extent straight men, have tried to mend a fraught patriarchal system in which intimacy, sexual fulfillment, and mutual respect are expected to coexist alongside enduring forms of inequality, alienation, and violence in straight relationships. Ward also takes an intriguing look at the multi-billion-dollar self-help industry,

which markets goods and services to help heterosexual couples without addressing the root of their problems.

Ultimately, she encourages straight men and women to take a page out of queer culture, reminding them "about the human capacity to desire, fuck, and show respect at the same time."

Routledge International Handbook of

Heterosexualities Studies -

James Joseph Dean 2019-12-19

While a majority of people identify as "heterosexual" if asked about their sexual identity, what does that really mean? How did identifying as "straight" arise, particularly in relation to identifying as "queer," "lesbian," and "gay"? How are individuals socialized to view themselves and others as straight, even when many people are sexually fluid? How do institutions like government bodies, the educational system, and the family reinforce heterosexuality? This collection introduces the field of Critical Heterosexualities Studies and key lines of inquiry within the

Downloaded from
legacy.opendemocracy.net
on 2023-10-23 by guest

field. Like Masculinity Studies and Whiteness Studies, Heterosexualities Studies critically examines the dominant category and identity group in order to illuminate the taken-for-granted assumptions that surround heterosexual identities. This critical perspective questions the idea that heterosexuality is natural, normal, and biologically driven. A recurring question throughout this Handbook is: what does it mean to say that there are multiple forms of heterosexuality? The answer is provided by cases showing how straightness varies between men and women but also across different racial groups, social classes, and one's status as trans or cisgender. Organized around key themes of inquiry including heterosexualities across the life course, straight identities and their intersections, the power of straightness in state politics, and the changing meaning of heterosexualities in the context of sexual fluidity, this collection provides readers with an introduction to Critical

Heterosexualities Studies through important theoretical statements, key historical studies, and current empirical research. Featuring both classic works and original essays written expressly for this volume, this collection provides a state-of-the-art overview of this exciting new field in sexualities studies.

The Invention of

Heterosexual Culture - Louis-Georges Tin 2012-08-17

The rise of heterosexual culture and the resistance it met from feudal lords, church fathers, and the medical profession. Heterosexuality is celebrated—in film and television, in pop songs and opera, in literature and on greeting cards—and at the same time taken for granted. It is the cultural and sexual norm by default. And yet, as Louis-Georges Tin shows in *The Invention of Heterosexual Culture*, in premodern Europe heterosexuality was perceived as an alternative culture. The practice of heterosexuality may have been standard, but the symbolic primacy of the

*Downloaded from
legacy.opendemocracy.net
on 2023-10-23 by guest*

heterosexual couple was not. Tin maps the emergence of heterosexual culture in Western Europe and the significant resistance to it from feudal lords, church fathers, and the medical profession. Tin writes that before the phenomenon of "courtly love" in the early twelfth century, the man-woman pairing had not been deemed a subject worthy of more than passing interest. As heterosexuality became a recurrent theme in art and literature, the nobility came to view it as a disruption of the feudal chivalric ethos of virility and male bonding. If feudal lords objected to the "hetero" in heterosexuality and what they saw as the associated dangers of weakness and effeminacy, the church took issue with the "sexuality," which threatened the Christian ethos of renunciation and divine love. Finally, the medical profession cast heterosexuality as pathology, warning of an epidemic of "lovesickness." Noting that the discourse of heterosexuality does not belong to heterosexuals alone,

Tin offers a groundbreaking history that reasserts the cultural identity of heterosexuality.

Sexualities and Communication in Everyday Life

- Karen E. Lovaas 2007
Excerpts from foundational work, recent journal articles and pieces written for this text about the role of communication in the construction and performance of sexualities in interpersonal contexts and public discourses.

How to Do the History of Homosexuality

- David M. Halperin 2002
In this long-awaited book, David M. Halperin revisits and refines the argument he put forward in his classic *One Hundred Years of Homosexuality*: that hetero- and homosexuality are not biologically constituted but are, instead, historically and culturally produced. *How to Do the History of Homosexuality* expands on this view, updates it, answers its critics, and makes greater allowance for continuities in the history of sexuality. Above all, Halperin

Downloaded from
legacy.opendemocracy.net
on 2023-10-23 by guest

offers a vigorous defense of the historicist approach to the construction of sexuality, an approach that sets a premium on the description of other societies in all their irreducible specificity and does not force them to fit our own conceptions of what sexuality is or ought to be. Dealing both with male homosexuality and with lesbianism, this study imparts to the history of sexuality a renewed sense of adventure and daring. It recovers the radical design of Michel Foucault's epochal work, salvaging Foucault's insights from common misapprehensions and making them newly available to historians, so that they can once again provide a powerful impetus for innovation in the field. Far from having exhausted Foucault's revolutionary ideas, Halperin maintains that we have yet to come to terms with their startling implications. Exploring the broader significance of historicizing desire, Halperin questions the tendency among scholars to

reduce the history of sexuality to a mere history of sexual classifications instead of a history of human subjectivity itself. Finally, in a theoretical tour de force, Halperin offers an altogether new strategy for approaching the history of homosexuality—one that can accommodate both ruptures and continuities, both identity and difference in sexual experiences across time and space. Impassioned but judicious, controversial but deeply informed, *How to Do the History of Homosexuality* is a book rich in suggestive propositions as well as eye-opening details. It will prove to be essential reading for anyone interested in the history of sexuality.

The Invention of Heterosexuality - Jonathan Katz 2007-06-15

Widely reviewed and praised in hardcover, this work is the first book to study the social construction of heterosexuality. This is a provocative re-examination of the very definitions of sexual identity--"a valuable primer . . . misses no

*Downloaded from
legacy.opendemocracy.net
on 2023-10-23 by guest*

significant twists in sexual politics".--the Village Voice.

The Wilde Century - Alan Sinfield 1994

Explores how the characters in Oscar Wilde's plays, though not specifically gay, epitomize today's image of the effeminate male, how they relate to British theatrical fops and other characters since early modern times, how the representation of same-sex passion was altered by Wilde's expose and trial as a homosexual, and how the stereotype of the gay man became established in the 20th century. Annotation copyright by Book News, Inc., Portland, OR

[Love Stories](#) - Jonathan Ned Katz 2003-06-15

In presenting stories of men's intimacies with men during the 19th century--in a world before the words "gay" and "straight" referred to sexuality--Katz dives into histories through diaries, letters, and poems, offering a clearer picture of how men navigated the uncharted territory of male-male desire.

The Apartheid of Sex -

Martine Aliana Rothblatt 1995
"Is the categorization of people from the moment of birth as either male or female a form of sexual segregation as pernicious as racial apartheid? In this bold and provocative manifesto, Martine Rothblatt cites current academic opinion and research to argue that the answer is yes - and that the time is right for a new sexual revolution." "In *The Apartheid of Sex*, Rothblatt makes a case for the adoption of a new sexual model that accommodates every possible shade of gender identity. It reveals that traditional male and female roles are dictated neither by genetics, genitals, nor reproductive biology, but rather by social attitudes that originated in early patriarchal cultures and that have been institutionalized in modern law. In the name of the countless people of unique gender who continue to suffer on the procrustean bed of sexual duality, Rothblatt calls for a new acceptance of human sexuality in all its prismatic variety."--BOOK JACKET.Title

A Radical Jew - Daniel Boyarin
1997-11-11

Talmudic scholar Daniel Boyarin turns to the Epistles of Paul as the spiritual autobiography of a first-century Jewish cultural critic and explores what led Paul--in his dramatic conversion to Christianity--to such a radical critique of Jewish culture.

"Boyarin's incisive questioning is relevant to cultural clashes in many parts of the world".--
Robin Scroggs, PRINCETON SEMINARY BULLETIN.

The Trouble with Normal -
Mary Louise Adams 1997-01-01
In the years after the Second World War, economic and social factors combined to produce an intense concern over the sexual development and behaviour of young people. In a context where heterosexuality and 'normality' were understood to be synonymous and assumed to be necessary for social and national stability, teenagers were the target of a range of

materials and practices meant to turn young people into proper heterosexuals. In this study, Mary Louise Adams explores discourses about youth and their place in the production and reproduction of heterosexual norms. She examines debates over juvenile delinquency, indecent literature, and sex education to show not why heterosexuality became a peculiar obsession in English Canada following the Second World War as much as how it came to hold such sway. Drawing on feminist theory, cultural studies, and lesbian/gay studies, *The Trouble with Normal* is the first Canadian study of 'youth' as a sexual and moral category. Adams looks not only at sexual material aimed at teenagers but also at sexual discourses generally, for what they had to say about young people and for the ways in which 'youth,' as a concept, made those discourses work. She argues that postwar insecurities about young people narrowed the sexual possibilities of both young people and adults. While much

Downloaded from
legacy.opendemocracy.net
on 2023-10-23 by guest

of the recent history of sexuality examines sexuality 'from the margins,' The Trouble with Normal is firmly committed to examining the 'centre,' to unpacking normality itself. As the first

book-length study of the history of sexuality in postwar Canada, it will make an important contribution to the growing international literature on sexual regulation.
