**The Dragoman Renaissance** E. Natalie Rothman 2021 "This book studies the role of dragomans (diplomatic interpreter-translators) in mediating ethno-linguistic, political, and religious relations between the Ottoman Empire and its European neighbors from ca. 1550 to ca. 1730. It considers both their Istanbul-centered social lives, and how the dictionaries, reports, and visual representations they created were central to the production of Europeanist knowledge about the Ottoman world"--

Modernizing Composition Garrett Field 2017-03-22 A free ebook version of this title is available through Luminos, University of California Press's Open Access publishing program. Visit [www.luminosoa.org](http://www.luminosoa.org) to learn more. The study of South Asian music falls under the purview of ethnomusicology, whereas that of South Asian literature falls under South Asian studies. As a consequence of this academic separation, scholars rarely take notice of connections between South Asian song and poetry. Modernizing Composition overcomes this disciplinary fragmentation by examining the history of Sinhala-language song and poetry in twentieth-century Sri Lanka. Garrett Field describes how songwriters and poets modernized song and poetry in response to colonial and postcolonial formations. The story of this modernization is significant in that it shifts focus from India's relationship to the West to little-studied connections between Sri Lanka and North India.

**Black Sugar** Miguel Bonnefoy 2018-03-15 Described as a 'beautifully crafted tale' by The Irish Times, Black Sugar is a magical realist fable about greed and corruption in Venezuela by prize-winning author Miguel Bonnefoy. 'One of the beautiful surprises of this autumn' L'Express On the edge of the Latin

American rainforest, the Oteros family farm sugar cane in their remote corner of the earth. Cut off entirely from the modern world, life is peaceful, uneventful. Until, that is, a succession of ships arrive in search of Henry Morgan's legendary lost treasure, said to be buried deep beneath the forest floor. Soon, the isolated villagers are exposed to all the trappings of modernity, while the travellers' search for booty unearths more than anybody could have anticipated...

**Rumi: Swallowing the Sun** Franklin D. Lewis 2013-04-01 A beautifully presented volume that draws from the breadth of the great Persian poet's work Timeless and eternal, the poetry of Jalal al-Din Rumi is loved the world over. The best-selling poet from America to Afghanistan, his words are as relevant today as ever, still resonating with contemporary concerns of both East and West alike. Commemorating the 800th anniversary of Rumi's birth, this beautifully presented volume draws from the breadth of Rumi's work, spanning his prolific career from start to finish. From the uplifting to the mellow, Franklin's Lewis polished translation will prove inspirational to both keen followers of Rumi's work and readers discovering the great poet for the first time.

Reincarnated as the Last of my Kind, Volume 2 Kiri Komori 2021-05-03 Who Are My Kind? Since my stepsister, Nakona Ril, has joined the family, I've finally settled into a happy life of cooking and potion brewing at the family inn. But the shadow of war looms ahead, with the fate of the world and my own destiny fast approaching. Monsters are coming, bandits seek to steal my potions, and countries set their sights upon the rumor of a talented alchemist. Why won't they all just leave me alone?!

School-based food and nutrition education Food and Agriculture Organization of the United Nations 2020-12-10 School-based food and nutrition education (SFNE) helps schoolchildren and the school community to achieve lasting improvements in their food practices and outlooks; build the capacity to change and to adapt

to external change; and pass on their learning to others. SFNE has also an important role in complementing efforts that are being made globally to improve food environments, and in empowering children and adolescents to become active participants in shaping the food system to be better able to deliver healthy and sustainable diets. Despite increasing interest for SFNE, the evidence that supports it and its potential, much of traditional SFNE, particularly in LMICs, is largely underfunded, not delivering results, and disconnected from other key interventions that aim to support the food, nutrition, environment, and education nexus. SFNE is under-resourced, with capacity development opportunities lacking throughout the school system. This White Paper is the first document of its kind, and it is based on the evidence, professional expertise, and field experience, lessons learned, and documented challenges of SFNE work in a variety of contexts. It presents the case for raising the profile and transforming the vision and learning model of SFNE. This document is directed firstly to a technical audience working in governmental organizations that deal with schoolchildren and adolescents and is also of interest to researchers, technical advisors, decision-makers, donors and investors, civil society, and UN organizations.

language, but strong oral traditions, which Japanese, Russian and western ethnographers recorded. Ainu Ethnobiology is a linguistic work as well as an ecological one. Williams analyses over 100 old texts, mostly translating from Japanese, with other original sources in Russian, French, German and English, thereby amassing a work with perhaps the most comprehensive bibliography of primary sources on the Ainu. Williams also spent many months in the field building a working knowledge of the environment in which the Ainu lived and worked. He presents the native flora and fauna of Ainu daily life, and explains their use in terms of activities, rituals, and material culture.

Late Colonial Sublime G. S. Sahota 2018-01-15 Taking cues from Walter Benjamin's fragmentary writings on literary-historical method, *Late Colonial Sublime* reconstellates the dialectic of Enlightenment across a wide imperial geography, with special focus on the fashioning of neo-epics in Hindi and Urdu literary cultures in British India. Working through the limits of both Marxism and postcolonial critique, this book forges an innovative approach to the question of late romanticism and grounds categories such as the sublime within the dynamic of commodification. While G. S. Sahota takes canonical European critics such as Theodor Adorno and Max Horkheimer to the outskirts of empire, he reads Indian writers such as Muhammad Iqbal and Jayashankar Prasad in light of the expansion of instrumental rationality and the neotraditional critiques of the West it spurred at the onset of decolonization. By bringing together distinct literary canons—both metropolitan and colonial, hegemonic and subaltern, Western and Eastern, all of which took shape upon the common realities of imperial capitalism—*Late Colonial Sublime* takes an original dialectical approach. It experiments with fragments, parallaxes, and constellational form to explore the aporias of modernity as well as the possible futures they may signal in our midst. A bold intervention into contemporary debates that synthesizes a wealth of sources, this

**Disease Control Priorities, Third Edition (Volume 8)** Donald A. P. Bundy 2017-11-20 More children born today will survive to adulthood than at any time in history. It is now time to emphasize health and development in middle childhood and adolescence--developmental phases that are critical to health in adulthood and the next generation. *Child and Adolescent Health and Development* explores the benefits that accrue from sustained and targeted interventions across the first two decades of life. The volume outlines the investment case for effective, costed, and scalable interventions for low-resource settings, emphasizing the cross-sectoral role of education. This evidence base can guide policy makers in prioritizing actions to promote survival, health, cognition, and physical growth throughout childhood and adolescence.

[Advanced Computational Intelligence Techniques for Virtual Reality in Healthcare](#) Deepak Gupta 2019-12-11 This book addresses the difficult task of integrating computational techniques with virtual reality and healthcare. human health overall, including poor nutrition, genomics, environmental toxicant exposures, fractured human interactions, limited physical movement, stress, sleep deprivation, and other lifestyle factors. Ultimately, this textbook serves to help practitioners, healthcare systems, and policy makers better understand this different and novel approach to complex chronic disorders. It provides the reader with real world examples of applications of the underlying principles and practices of integrative/functional nutrition therapies and presents the most up-to-date intervention strategies and clinical tools to help the reader keep abreast of developments in this emerging specialty field. Many chapters include comprehensive coverage of the topic and clinical applications with supplementary learning features such as case studies, take-home messages, patient and practitioner handouts, algorithms, and suggested readings. Integrative and Functional Medical Nutrition Therapy: Principles and Practices will serve as an invaluable guide for healthcare professionals in their clinical application of nutrition, lifestyle assessment, and intervention for each unique, individual patient.

*Memoirs Of A Highland Lady* Elizabeth Grant 2010-07-01 Edited and introduced by Andrew Tod. 'I was born on the 7th May 1797 of a Sunday evening at No. 5 N. side of Charlotte Square, Edinburgh, in my father's own lately built house and I am the eldest of five children he and my mother raised to maturity.' Thus opens one of the most famous set of memoirs ever written. Since its first bowdlerised edition in 1898, they have been consistently in print. This is the first ever complete text. Written between 1845 and 1854 the memoirs were originally intended simply for Elizabeth's family, but these vivid and inimitable records of life in the early 19th century, and above all on the great Rothiemurchus estate, full of sharp observation and wit, form an unforgettable picture of her time. The story ends with the thirty-three-year-old Elizabeth finding her own future happiness in marriage to an Irish landowner, Colonel Smith of Baltiboy. 'A masterpiece of

historical and personal recall.’ Scotsman

Visit [www.luminosoa.org](http://www.luminosoa.org) to learn more. Persian is one of the great lingua francas of world history. Yet despite its recognition as a shared language across the Islamic world and beyond, its scope, impact, and mechanisms remain underexplored. A world historical inquiry into pre-modern cosmopolitanism, *The Persianate World* traces the reach and limits of Persian as a Eurasian language in a comprehensive survey of its geographical, literary, and social frontiers. From Siberia to Southeast Asia, and between London and Beijing, this book shows how Persian gained, maintained, and finally surrendered its status to imperial and vernacular competitors. Fourteen essays trace Persian’s interactions with Bengali, Chinese, Turkic, Punjabi, and other languages to identify the forces that extended “Persographia,” the domain of written Persian. Spanning the ages expansion and contraction, *The Persianate World* offers a critical survey of both the supports and constraints of one of history’s key languages of global exchange.

**Suddenly the Minotaur** Marie H  l  ne Poitras 2006 Why did Guatemalan immigrant Mino Torr  s try to rape Quebec student Ariane? What was the failed attempt’s aftermath? In this terse, prize-winning novel, Marie H  l  ne Poitras, with an imagination tutored by the Minotaur myth, offers a controversial tale about a thug who exults in his ferocious urges and is as incorrigible as a primal force. Torr  s (the bull) enthusiastically and unapologetically seeks hectic transcendence through rape and recurring fits of epilepsy. Ariane (Ariadne), straying into his twisted, downtown Montreal labyrinth, suffers the consequences of his random sexual predation, though significantly, her refusal to be a terrorized and passive victim haunts him. Ariol, that cute little blue donkey with the big eye glasses, whose best friend is a pig, who is hopelessly in love with a cow, while a fly is equally head-over-heels in love with him (not that he cares). Ariol's ever-expanding universe features many endearing characters that will remind you of your friends and (possibly) your enemies too. After all, Ariol's just a donkey like you and me.

**The Silver Market Phenomenon** Florian Kohlbacher 2008 The current shift in demographics - aging and shrinking populations - in many countries around the world presents a major challenge to companies and societies alike. One particularly essential implication is the emergence and constant growth of the so-called "silver market," the market segment more or less broadly defined as those people aged 55 and older. Increasing in number and share of the total population while at the same time being relatively well-off, this market segment can be seen as very attractive and promising, although still very underdeveloped in terms of product and service offerings. This book offers a thorough and up-to-date analysis of the challenges and opportunities in leveraging innovation, technology, product development and marketing for elder consumers and employees. impact on human health. This book assembles the science related to vegetarian and plant-based diets in a comprehensive, balanced, single reference that discusses both the overall benefits of plant-based diets on health and the risk of disease and issues concerning the status in certain nutrients of the individuals, while providing overall consideration to the entire spectrum of vegetarian diets. Broken into five sections, the first provides a general overview of vegetarian / plant-based diets so that readers have a foundational understanding of the topic. Dietary choices and their relation with nutritional transition and sustainability issues are discussed. The second and third sections provide a comprehensive description of the relationship between plant-based diets and health and disease prevention. The fourth section provides a deeper look into how the relationship between plant-based diets and health and disease prevention may differ in populations with different age or physiological status. The fifth and final section of the book details the nutrients and substances whose intakes are related to the proportions of plant or animal products in the diet. Discusses the links between health and certain important characteristics of plant-based diets at the level of food groups Analyzes the relation between plant-based diet and health at the different nutritional levels, i.e. from dietary patterns to specific nutrients and substances Provides a balanced evidence-based approach to analyze the positive and negative aspects of vegetarianism Addresses the different aspects of diets predominantly based on plants, including geographical and cultural variations of vegetarianism

*Safe Drinking Water* Steve E. Hruddy 2004-05-31 Drinking water provides an efficient source for the spread of gastrointestinal microbial pathogens capable of causing serious human disease. The massive death toll and burden of disease worldwide caused by unsafe drinking water is a compelling reason to value the privilege of having safe drinking water delivered to individual homes. On rare occasions, that privilege has been undermined in affluent nations by waterborne disease outbreaks traced to the water supply. Using the rich and detailed perspectives offered by the evidence and reports from the Canadian public inquiries into the Walkerton (2000) and North Battleford (2001) outbreaks to develop templates for understanding their key dimensions, over 60 waterborne outbreaks from 15 affluent countries over the past 30 years are explored as individual case studies. Recurring themes and patterns are revealed and the critical human dimensions are highlighted suggesting insights for more effective and more individualized preventive strategies, personnel training, management, and regulatory control. *Safe Drinking Water* aims to raise understanding and awareness of those factors that have most commonly contributed to or caused drinking-water-transmitted disease outbreaks - essentially a case-history analysis within the multi-barrier framework. It contains detailed analysis of the failures underlying drinking-water-transmitted disease

epidemics that have been documented in the open literature, by public inquiry, in investigation reports, in surveillance databases and other reliable information sources. The book adopts a theme of 'converting hindsight into foresight', to inform drinking-water and health professionals including operators, managers, engineers, chemists and microbiologists, regulators, as well as undergraduates and graduates at specialty level. Key Features: Contains details and perspectives of major outbreaks not widely known or understood beyond those directly involved in the investigations. Technical and scientific background associated with case studies is offered in an accessible summary form. Does not require specialist training or experience to comprehend the details of the numerous outbreaks reviewed. By providing a broad-spectrum review using a consistent approach, several key recurring themes are revealed that offer insights for developing localized, tailor-made prevention strategies.

megacities are themselves changing: On the one hand they are prone to increasing socio-economic vulnerability due to pronounced poverty, socio-spatial and political fragmentation, sometimes with extreme forms of segregation, disparities and conflicts. On the other hand megacities offer positive potential for global transformation, e.g. minimisation of space consumption, highly effective use of resources, efficient disaster prevention and health care options – if good strategies were developed. At present in many megacities and urban areas of the developing world and the emerging economies the quality of life is eroding. Most of the megacities have grown to unprecedented size, and the pace of urbanisation has far exceeded the growth of the necessary infrastructure and services. As a result, an increasing number of urban dwellers are left without access to basic amenities like clean drinking water, fresh air and safe food. Additionally, social inequalities lead to subsequent and significant intra-urban health inequalities and unbalanced disease burdens that can trigger conflict and violence between subpopulations. The guiding idea of our book lies in a multi- and interdisciplinary approach to the complex topic of megacities and urban health that can only be adequately understood when different disciplines share their knowledge and methodological tools to work together. We hope that the book will allow readers to deepen their understanding of the complex dynamics of urban and megacity populations through the lens of public health, geographical and other research perspectives.

*Five On Finniston Farm* Enid Blyton 2011-01-06 Julian, Dick, Anne, George and Timmy the dog find excitement and adventure wherever they go in Enid Blyton's most popular series. In book eighteen, the Famous Five hunt for the lost dungeons of a ruined castle on Finniston Farm. The friends are determined to find them, and whatever they hide, but they are not alone. Can the Famous Five get there first? The text in this edition has been sensitively edited for today's reader and is unillustrated.

*A Life Course Perspective on Health Trajectories and Transitions* Claudine Burton-Jeangros 2015-08-11 This open access book examines health trajectories and health transitions at different stages of the life course, including childhood, adulthood and later life. It provides findings that assess the role of biological and social transitions on health status over time. The essays examine a wide range of health issues, including the consequences of military service on body mass index, childhood obesity and cardiovascular health, socio-economic inequalities in preventive health care use, depression and anxiety during the child rearing period, health trajectories and transitions in people with cystic fibrosis and oral health over the life course. The book addresses theoretical, empirical and methodological issues as well as examines different national contexts, which help to identify factors of vulnerability and potential resources that support resilience available for specific groups and/or populations. Health reflects the ability of individuals to adapt to their social environment. This book analyzes health as a dynamic experience. It examines how different aspects of individual health unfold over
