**Continuing Bonds** - Dennis Klass 2014-05-12  
First published in 1996. This new book gives voice to an emerging consensus among bereavement scholars that our understanding of the grief process needs to be expanded. The dominant 20th century

model holds that the function of grief and mourning is to cut bonds with the deceased, thereby freeing the survivor to reinvest in new relationships in the present. Pathological grief has been defined in terms of holding on to the deceased. Close examination reveals that

## Letting Go Of Relationships Cutting The Cord

this model is based more on the cultural values of modernity than on any substantial data of what people actually do. Presenting data from several populations, 22 authors - among the most respected in their fields - demonstrate that the health resolution of grief enables one to maintain a continuing bond with the deceased. Despite cultural disapproval and lack of validation by professionals, survivors find places for the dead in their on-going lives and even in their communities. Such bonds are not denial: the deceased can provide resources for enriched functioning in the present. Chapters examine widows and widowers, bereaved children, parents and siblings, and a population previously excluded from bereavement research: adoptees and their birth parents. Bereavement in Japanese culture is also discussed, as are meanings and implications of this new model of grief. Opening new areas of research and scholarly dialogue, this work provides

the basis for significant developments in clinical practice in the field.

Psychic Development and Mediumship - Karen Bernabo  
2015-11-19

Karen Bernabo believes that everyone has the ability to learn to become a medium and/or psychic clairvoyant with the right teacher, information, and dedication to their path. In her complete guidebook tailored for anyone from beginning students to advanced teachers, Bernabo shares seventeen step-by-step lessons and nineteen guided meditations that will help both students and educators develop and hone their skills.

In addition to the lessons that encourage work with a variety of

divination tools and Mediumship skills, Karen guides students and teachers through different meditational journeys that instigate the kind of deep relaxed state that invites messages from guides and helps utilize intuitive psychic impressions. In this comprehensive guidebook, a spiritual healer and medium shares advice, lessons, and meditations intended for anyone interested in learning more about psychic development and Mediumship or how to teach their own classes.

**Love Your Life** - Gayla Rinehart 2000-12

A book to identify how negativity and fear affect your life and physical body. A guide to learn how to reverse these emotions, re-program the subconscious mind and allow a positive happy, healthy life.

**Can I Let You Go, My Love** - Kay van Dijk 2010-10-29

Combining the poignant appeal of a love story cut short with the theme of personal growth and the spiritual search for meaning, this book will help to

give comfort to those who have shared the pain of bereavement. It shows them that they are not alone, and that the cycle of grieving is normal and that life does get better. Presented as a verse journal, *Can I Let You Go, My Love?* is more than an outpouring of one woman's experience of bereavement and life beyond grief. It is also a way of letting other people know what the bereaved are going through and so broadening understanding. The verses are full of life's lessons and the thoughts and feelings expressed are powerful, profound and heart-rending. It is a book that not only can be used by counsellors and their clients (the manuscript has already been adopted as a therapeutic aid by counsellors) but is just the gift to give to a friend who has lost a loved one or who is going through a crisis in life. *Can I Let You Go, My Love?* was cited as an Outstanding Contender for the CRUSE Excellence in Communication Award 1997.

You will also discover how to prevent unwanted energy transference and learn the fascinating skill of empathizing buildings, land and the natural world, and other dimensions. Confident Empath delves into aspects of empathizing not often explored, such as quantum and paranormal empathizing, soul contracts, and advanced empathizing strategies. 2018-03-20

This book helps you discover the cables, ropes, ribbons, strands, threads, and filaments of energy that flow to and through you. By learning ancient shamanic techniques, you'll learn how to release the cords that bind you and empower the strands that strengthen and heal you. Some energy strands allow us to feel vibrant and alive. Others deplete and weaken us. Most people are unaware of these energy strands, but they can feel them on a subconscious level. In *Energy Strands*, Denise Linn shares some of the methods she's learned over the years to support you in finding harmony and balance in your life through understanding these lines of energy. Topics covered include attachments with family, ancestors, friends, lovers, crowds, and pets. *Energy Strands* also explores the connection between sound

Divine Healing Transforming  
Pain into Personal Power -

Vonne Solis 2018-11-02

Realizing the potential you have to awaken to your power as an enlightened being is central to authentic healing.

There is a significant distinction between superficially healing wounds and authentically healing. If you feel ready to surrender all pain and struggle, Divine Healing is a must read.

Delivered as both a story and a practice, the author compassionately shares her journey to become whole after the suicide of her daughter in 2005. Though written in the context of the parental grief experience, Divine Healing is intended for anyone who desires authentic healing. Each chapter, a journey in itself, reminds us of the eternal truths that teach that all healing is possible, despite the origin of any pain. The lessons, while not confined to only one experience in pain, reach into the core root of all suffering

and will guide anyone through any difficulty to find peace and joy. Not only will you develop a richer understanding of suffering and healing, including viewing loss and grief differently, but by learning to work with the angels, you will reclaim your power as the authentic being you already are. You will learn to honor all of your hurtful experiences and trust in your ability to become whole on your own terms.

Realizing you are the catalyst for your own powerful transformation, Divine Healing inspires you to courageously want more for your life, and teaches you how to continually manifest the life you were meant to find and enjoy through a realistic, heartfelt practice.

This lovely book is a must read from such a talented soul." - A Reader "This is a special book that will give answers or peace to others in so many ways." - A Reader "I read the Warrior of Light book in separate chunks to really get the full value of it and the author's experience. I enjoyed

it! The writing style is directed towards the more masculine/male audience, and maybe one at the beginning of a spiritual path." - A Reader "More clarity came as I went back and re-read Warrior of Light from the beginning. I'm drawn to the author's story and for our similarities. As I was reading it I felt like the author was reading my mind, and relaying excerpts from my life. Until, I read Warrior of Light, I felt very alone in this process of overcoming. There really are no words I can find to thank this author for being the beacon of light at the end of this transition from 'victim' to the person I am today." - A Reader "I've been reading "Warrior of Light". I love how the author describes cord cutting and shielding. It is so helpful! I enjoyed the writing." - A Reader "I read the Warrior of light book. I loved every page!
