Human Chemistry (Volume One) Libb Thims 2007-09-01 Human chemistry is the study of bond-forming and bond-breaking reactions between people and the structures they form. People often speak of having either good or bad chemistry together: whereby, according to consensus, the phenomenon of love is a chemical reaction. The new science of human chemistry is the study of these reactions. Historically, human chemistry was founded with the 1809 publication of the classic novella *Elective Affinities*, by German polymath Johann von Goethe, a chemical treatise on the origin of love. Goethe based his human chemistry on Swedish chemist Torbern Bergman's 1775 chemistry textbook *A Dissertation on Elective Attractions*, which itself was founded on Isaac Newton's 1687 supposition that the cause of chemical phenomena may 'all depend upon certain forces by which the particles of bodies, by some causes hitherto unknown, are either mutually impelled towards each other, and cohere in regular figures, or are repelled and recede from one another'; which thus defines life.

Din Din Book of No-Nonsense Poetry#1 Diane Sytarchuk-Kent 2014-06-13 Here is a book of easy reading poetry that is meant for everyone's pleasure especially someone who likes a good rhyme. More importantly it has a bonus of having social stories in the margins of all the pages of poetry to help a developmentally challenged child understand what is in the text of the poem. Diane has found that social stories are very helpful in teaching her autistic child to understand concepts he may not otherwise be able to understand. These pictures and corresponding text would be a good way to pass on social skills to people like her child. She has found that social skills are at the very root and basis of a meaningful life and help enrich the learning experience. This has helped her child to understand difficult concepts and has worked well in conjunction with the medicine he takes from a well recognized physician. She wants to make as much of this new language as she can. This is her first book and hopefully the first of many.

Jesus of Nazareth and Other Writings Richard Wagner 1995-01-01 Near the end of his life, Richard Wagner supervised the publication of his collected writings, providing an extensive view of his thoughts about art and politics from his youth to his final period of triumph. After his death, there was still more to be told: his admirers discovered a large number of writings he had forgotten, misplaced, never published, or had chosen to omit from his collected works. This volume, the last of eight volumes now reprinted by the University of Nebraska Press, collects the most illuminating of those works. The title work, "Jesus of Nazareth," was written in 1848 or 1849; its composition coincided with the most widespread revolutionary ferment seen in Europe. It expresses Wagner's own revolutionary ideals, thoroughly justified (or so he thought) by Jesus and the early Church. At the time Wagner considered Jesus as a revolutionary leader whose struggles with authority and traditions were much like his own. The opening work is "Siegfried's Death," a poem written in 1848 that set the tone for his most famous operatic work, the tetralogy *Der Ring des Nibelungen*. Whole sections of the poem were later incorporated into the fourth Ring opera, *Götterdämmerung*, but the differences are as revealing as the carryover. The essays that Wagner published in journals but saw fit to exclude from his *Gesammelte Schriften* might have embarrassed the elderly sage but are key documents to Wagner's activities in his revolutionary period. For example, his ardently prorevolutionary essay, "The Revolution," would have displeased the wealthy patrons of his later years. This edition includes the full text of volume 8 of the translation of Wagner's works published in 1899 for the London Wagner Society.

Percolations Marilyn J. Agee 2010-10-19 Many a famous tale began with Once upon a Time. While yet others led off with It was a dark and dreary night. Each author, using these openings, was attempting to set the tone for his or her story and poem that followed. None of the stories or poetry that follow in this book set their tone with such epic or historic and yes sometimes hackneyed openings. Instead they all begin with what the individual author considered a fresh perspective on a subject of either his or her choosing or one chosen for him/her. In order to better understand this last statement, an explanation of how these authors came together to write such stories is required. In 2005, Milli Thornton, the author of the book Fear of Writing, for writers & closet writers, established a writing group in a back room of Chickis Coffee Shop in the small Texas Hill Country community of Bulverde. Each Tuesday morning this eclectic group of would-be authors gathered, and over coffee and a variety of pastries would write for two hours. The two retired school teachers, a nurse and federal agent along with, an Irish lass, and an interior designer/artist would write their stories and poems from prompts offered by Thornton in her book or from other sources such as Texas Public Radio or WritersDigest.com. Making liberal use of their literary licenses, these writers crafted their pieces from these prompts by either embodying the entire prompt or selecting key words and or phrases from these prompts. On a number of occasions the single word that was chosen from the prompt and woven into a tale. Or the writers would choose a subject that was of importance to them at that moment. A tale from one's past; a rail against some minor injustice or poking fun at one of life's inane situations became fodder for these authors. Just as important as the prompt or fertile material as Thornton refers to them as, was the understanding that the stories and poems, when read at the conclusion of each weekly meeting, would not be negatively critiqued unless requested by the author. Instead, each participant would receive positive feedback and encouragement on his or her works in hopes that it would inspire him/her to continue writing. The theory behind this kind of writing support can best be articulated in the words of Thornton when she discussed unleashing your imagination. She advised, The more you flex it the more limber it becomes. Positive reinforcement was intended to aid in the limbering effort, to encourage them to continue to write and therefore become better writers. That the theory proffered by Thornton was effective one merely has to look at the limited success of several of the authors who have contributed to this book. Two authors submitted and had their short stories selected to be read on Texas Public Radio. One author received honorable mention in another short story competition. Another of this group of authors finished and published a novel and has completed another book that is being readied for publication. These accomplishments might have not been achieved had it not been for this writing group. Moreover, this book would have not been written had it not been for the

desire and dedication of these authors who week in and week out continued to pour out their souls in their short stories. Over the succeeding years, numerous writers passed through this group. Some moved on as their life situations changed; others needed something other than what was offered by the group. And still others, decided for personal reasons that the group did not satisfy their writing needs. What remained, was a constant core of writers who continued to meet and toil each Tuesday or whenever possible. The stories and poems contained in this book are the works of that core of writers. This group of writers hope that you, the reader, get as much joy from reading this collection of short stories as their authors did in creating them. The book has been divided

Women and Religion in the African Diaspora R. Marie Griffith 2006-09-22 This landmark collection of newly commissioned essays explores how diverse women of African descent have practiced religion as part of the work of their ordinary and sometimes extraordinary lives. By examining women from North America, the Caribbean, Brazil, and Africa, the contributors identify the patterns that emerge as women, religion, and diaspora intersect, mapping fresh approaches to this emergent field of inquiry. The volume focuses on issues of history, tradition, and the authenticity of African-derived spiritual practices in a variety of contexts, including those where memories of suffering remain fresh and powerful. The contributors discuss matters of power and leadership and of religious expressions outside of institutional settings. The essays study women of Christian denominations, African and Afro-Caribbean traditions, and Islam, addressing their roles as spiritual leaders, artists and musicians, preachers, and participants in bible-study groups. This volume's transnational mixture, along with its use of creative analytical approaches, challenges existing paradigms and summons new models for studying women, religions, and diasporic shiftings across time and space.

Ever since her best friend's murder, she's struggled with the loneliness and grief of losing yet another loved one, but can't quite relax her guards enough to make new friends, and possibly new lovers. The woman is human, annoying, resistant to orders, determined, with little regard to her own safety when it comes to hunting killers.
