*Afterlives of the Garden* -

Gregson Davis 2023-12-18

The collection of essays in this volume offers fresh insights into varied modalities of reception of Epicurean thought among Roman authors of the late Republican and Imperial eras. Its generic purview encompasses prose as well as poetic texts by both minor and major writers in the Latin literary canon, including the anonymous poems, *Ciris* and *Aetna*, and an elegy from the Tibullan corpus by the female poet, Sulpicia. Major figures include the Augustan poets, Vergil and Horace, and the late antique Christian theologian,

Augustine. The method of analysis employed in the essays is uniformly interdisciplinary and reveals the depth of the engagement of each ancient author with major preoccupations of Epicurean thought, such as the balanced pursuit of erotic pleasure in the context of human flourishing and the role of the gods in relation to human existence. The ensemble of nuanced interpretations testifies to the immense vitality of the Epicurean philosophical tradition throughout Greco-Roman antiquity and thereby provides a welcome and substantial contribution to the

burgeoning field of reception studies. Latin literature. The sixteen chapters within offer fresh

*Grattius* - Steven J. Green 2018  
*Grattius*' 'Cynegetica' is the author's only surviving work and can confidently be dated to the Augustan period, yet *Grattius* is seldom read in comparison to his literary contemporaries. This study of the poet aims to make his work accessible to a wide audience and provide an impetus for future discussions.

Dicite, Pierides - Andreas N. Michalopoulos 2018-04-18  
This volume presents essays written in honour of Stratis Kyriakidis, Emeritus Professor of Latin Literature at the Aristotle University of Thessaloniki, Greece. It offers a rich assortment of scholarship on classical literature, ranging from Homeric epic, and the tradition of ecphrasis it spawned in a number of genres, to 17th-century English translations of Virgil's *Aeneid*. The collection is divided into two sections, the first on Greek literature, and the second on

insights and thoughtful readings of a variety of works of classical literature, as well-known as the *Iliad* and the *Aeneid* and as exotic as the epigrams of *Geminus*.

**Mirrors of the Divine** - Emily R. Cain 2023-01-30

*Mirrors of the Divine* brings into focus how four influential authors of the late ancient world--Tertullian of Carthage, Clement of Alexandria, Gregory of Nyssa, and Augustine of Hippo--employ language of vision and of mirrors in their discursive struggles to construct Christian agency, identity, and epistemology. Early Christian authors described the vision of God through the Pauline verse 1 Corinthians 13:12: "For now we see in a mirror, dimly, but then we will see face to face." Yet each author interpreted this verse differently, based on a diverse set of assumptions about how they understood seeing and mirrors to function: does vision occur by something leaving or entering the eye? Is

one impacted by seeing or by being seen? Do mirrors offer trustworthy knowledge? Spanning the second through fourth centuries CE in both Eastern and Western Christianity, *Mirrors of the Divine* analyzes these four authors' theological writings on vision and knowledge of God to explore how contradictory theories of sight shaped their cosmologies, theologies, subjectivities, genders, and discursive worlds. As Emily R. Cain demonstrates, how the authors portray eyes reveals how they envisioned one's relationship to the world, while how they portray mirrors reveals how they imagined the unknown. Both have dramatic impacts on how one interprets what it means to see God through a mirror dimly. She shows that arguments about the phenomenon of visual perception are deeply intertwined with broader debates about identity, agency, and epistemology, and uncovers some of the most self-conscious ways that late ancient Christians thought of

### **Empedocles Redivivus -**

Myrto Garani 2007-12-12

This book consists of a thorough study of Lucretius' poetic and philosophical debt to Empedocles, focusing on their respective uses of analogy and examining how both poets turn these poetic techniques to use in their epistemological approaches to nature.

*Laughing Atoms, Laughing Matter* - T.H.M. Gellar-Goad 2020-03-02

"The aim of this study is to track *De Rerum Natura* along two paths of satire. One is the broad boulevard of satiric literature from the beginnings of Greek poetry to the plays, essays, and broadcast media of the modern world. The other is the narrower lane of Roman verse satire, *satura*, whose canon begins in the Middle Republic with Ennius and Lucilius and closes with Juvenal, an author of the Flavian era. The first main portion of this book (chapters 2-3) focuses on Lucretius and Roman *satura*, while the

following chapters broaden the scope to satiric elements of Lucretius more generally, but still with plenty of reference to the poets of Roman satira as satirists par excellence. By examining how Lucretius' poem employs the tools, techniques, and tactics of satire-by evaluating how and where in De Rerum Natura the speaker functions as a satirist-we gain, I argue, a fuller, richer understanding of how the poem works and how its poetry interacts with its purported philosophical program. Attention to the role of De Rerum Natura in the more specific tradition of Roman verse satire demonstrates that Lucretius' poem stands as a detour on the genre's highway, a swerve in the trajectory of satira. The numerous satiric passages and frequently satiric narrator of De Rerum Natura draw on earlier Roman satire, and in turn the poem influences the later satiric verse of Horace, Persius, and Juvenal. While De Rerum Natura is not in and of itself a member of the Roman

genre of satire, it is an important player in the genre's development"--

**Virgil, Aeneid, 4.1-299** - Ingo Gildenhard 2012

Love and tragedy dominate book four of Virgil's most powerful work, building on the violent emotions invoked by the storms, battles, warring gods, and monster-plagued wanderings of the epic's opening. Destined to be the founder of Roman culture, Aeneas, nudged by the gods, decides to leave his beloved Dido, causing her suicide in pursuit of his historical destiny. A dark plot, in which erotic passion culminates in sex, and sex leads to tragedy and death in the human realm, unfolds within the larger horizon of a supernatural sphere, dominated by power-conscious divinities. Dido is Aeneas' most significant other, and in their encounter Virgil explores timeless themes of love and loyalty, fate and fortune, the justice of the gods, imperial ambition and its victims, and ethnic differences. This course book offers a portion of the

original Latin text, study questions, a commentary, and interpretative essays. Designed to stretch and stimulate readers, Ingo Gildenhard's incisive commentary will be of particular interest to students of Latin at both A2 and undergraduate level. It extends beyond detailed linguistic analysis to encourage critical engagement with Virgil's poetry and discussion of the most recent scholarly thought.

**A Commentary on Lucretius De Rerum Natura** - Former Fellow and Tutor in Classics Don Fowler 2002

Lucretius' theory of atomic motion is one of the most difficult and technical parts of De rerum natura, and, for that reason, has hitherto been neglected by commentators. This is the first commentary to take account of the remarkable discoveries and re-evaluations in the field of Hellenistic philosophy over the past thirty years, which have been stimulated by the publication of many more Epicurean fragments from Herculaneum.

**The Rhetoric of Explanation**

~~in Lucretius' De rerum natura - Daniel Markovic~~

2008-08-31

Based on the understanding of the term rhetoric that transcends the notion of literary genre, this book offers new answers to the questions of the provenance and the role of the main rhetorical strategies in Lucretius' De rerum natura.

**On the Nature of Things - Lucretius** 2001-03-09

Martin Ferguson Smith's work on Lucretius is both well known and highly regarded. However, his 1969 translation of De Rerum Natura -- long out of print -- is virtually unknown. Readers will share our excitement in the discovery of this accurate and fluent prose rendering. For this edition, Professor Smith provides a revised translation, new Introduction, headnotes and bibliography. Martin Ferguson Smith is Professor of Classics Emeritus, Univ. of Durham, United Kingdom. Among his scholarly achievements are his revisions of the Rouse translation of De Rerum Natura

~~Egyptianizing Figurines from~~

Delos - Caitlín Barrett

2011-09-20

This book investigates Hellenistic popular religion through an interdisciplinary study of figurines of Egyptian deities from Delos. The results offer a new perspective on Hellenistic reinterpretations of Egyptian religion, as well as the relationship between "popular" and "official" cults.

**The Oxford Handbook of New Testament, Gender, and Sexuality** - Benjamin H. Dunning 2019-10-14

Over several decades, scholarship in New Testament and early Christianity has drawn attention both to the ways in which ancient Mediterranean conceptions of embodiment, sexual difference, and desire were fundamentally different from modern ones and also to important lines of genealogical connection between the past and the present. The result is that the study of "gender" and "sexuality" in early Christianity has become an increasingly

1287 With Prolegomena Text And Translation  
complex undertaking. This is a complexity produced not only

by the intricacies of conflicting historical data, but also by historicizing approaches that query the very terms of analysis whereby we inquire into these questions in the first place. Yet at the same time, recent work on these topics has produced a rich and nuanced body of scholarly literature that has contributed substantially to our understanding of early Christian history and also proved relevant to ongoing theological and social debates. The Oxford Handbook of Gender and Sexuality in the New Testament provides a roadmap to this lively scholarly landscape, introducing both students and other scholars to the relevant problems, debates, and issues. Leading scholars in the field offer original contributions by way of synthesis, critical interrogation, and proposals for future questions, hypotheses, and research trajectories.

Passions and Moral Progress in Greco-Roman Thought - John T.

## Lucretius On Love And Sex A Commentary On De Rerum Natura Iv 1030

Fitzgerald 2007-11-23

This book contains a collection of 13 essays from leading scholars on the relationship between passionate emotions and moral advancement in Greek and Roman thought. Recognising that emotions played a key role in whether individuals lived happily, ancient philosophers extensively discussed the nature of "the passions", showing how those who managed their emotions properly would lead better, more moral lives. The contributions are preceded by an introduction to the subject by John Fitzgerald. Writers discussed include the Cynics, the Neopythagorians, Aristotle and Ovid; the discussion encompasses philosophy, literature and religion.

*Myth and Poetry in Lucretius -*  
Monica R. Gale 1994-03-10

### **Colloquial and Literary**

**Latin** - Eleanor Dickey

2010-07-22

What is colloquial Latin? What can we learn about it from Roman literature, and how does an understanding of colloquial Latin enhance our appreciation of literature? This book sets out to answer such questions, beginning with examinations of how the term 'colloquial' has been used by linguists and by classicists (and how its Latin equivalents were used by the Romans) and continuing with exciting new research on colloquial language in a wide range of

Latin authors. Each chapter is written by a leading expert in the relevant area, and the material presented includes new editions of several texts. The Introduction presents the first account in English of developments in the study of colloquial Latin over the last century, and throughout the book findings are presented in clear, lucid, and jargon-free language, making a major scholarly debate accessible to a broad range of students and non-specialists.

**The Cambridge Companion to Lucretius** - Stuart Gillespie 2007-10-18

Lucretius' didactic poem *De rerum natura* ('On the Nature of Things') is an impassioned and visionary presentation of the materialist philosophy of Epicurus, and one of the most powerful poetic texts of antiquity. After its rediscovery in 1417 it became a controversial and seminal work in successive phases of literary history, the history of science, and the Enlightenment. In this 2007 Cambridge Companion experts in the history of

literature, philosophy and science discuss the poem in its ancient contexts and in its reception both as a literary text and as a vehicle for progressive ideas. The Companion is designed both as an accessible handbook for the general reader who wishes to learn about Lucretius, and as a series of stimulating essays for students of classical antiquity and its reception. It is completely accessible to the reader who has only read Lucretius in translation.

**Tears in the Graeco-Roman World** - Thorsten Fögen 2009

This volume presents a wide range of contributions that analyse the cultural, sociological and communicative significance of tears and crying in Graeco-Roman antiquity. The papers cover the time from the eighth century BCE until late antiquity and take into account a broad variety of literary genres such as epic, tragedy, historiography, elegy, philosophical texts, epigram and the novel. The collection also contains two papers from modern socio-psychology.
