Chimpanzee Politics Frans de Waal 2000-04-10 The first edition of Frans de Waal's *Chimpanzee Politics* was acclaimed not only by primatologists for its scientific achievement but also by a much broader audience of politicians, business leaders, and social psychologists for its remarkable insights into very basic human needs and behaviors. In this revised edition—featuring a new gallery of color photographs along with a new introduction and epilogue—de Waal expands and updates his story of the Arnhem colony and its continuing political upheavals. We learn the fate of many memorable chimpanzees and meet the colony's current leaders and their allies. The new edition remains a detailed and thoroughly engrossing account—of sexual rivalries and coalitions, of actions governed by intelligence rather than instinct—and it reaffirms the complex bond between humans and their closest living relatives. As we watch the chimpanzees of Arnhem behave in ways we recognize from Machiavelli (and from the nightly news), de Waal reminds us again that the roots of politics are older than humanity.

A Man of the People Chinua Achebe 2013-04-25 As Minister for Culture, the Honourable M. A. Nanga is 'a man of the people', as cynical as he is charming, and a roguish opportunist. At first, the contrast between Nanga and Odili, a former pupil who is visiting the ministry, appears huge. But in the 'eat-and-let-eat' atmosphere, Odili's idealism soon collides with his lusts - and the two men's personal and political tauntings threaten to send their country into chaos. Published, prophetically, just days before Nigeria's first attempted coup in 1966, A Man of the People is an essential part of his body of work dealing with modern African history.

Mortality Weekly Report dated June 5, 1981 entitled, "Pneumocystis Pneumonia - Los Angeles", which announced what was to become HIV/AIDS. HIV has now affected virtually all countries that have looked for it and has had a devastating impact on the public health and medical care infrastructure around the world. HIV/AIDS has also disproportionately affected nations with the least capacity to confront it, especially the developing world nations in Sub-Saharan Africa, South and Southeast Asia, and the emerging republics of Eastern and Central Asia. The pandemic, unlike any other disease of our time, has had profound impacts on the practice of public health itself: bringing affected communities into decision making; demanding North-South partnerships and collaborations; and changing the basic conduct of clinical and prevention trials research. While much has been written in scholarly publications for medical, epidemiologic and disease control specialists, there is no comprehensive review of the public health impact and response to HIV/AIDS in the developing world. This edited volume seeks to systematically describe the emergence and form of the epidemics (epidemiology), the social, community and political response, and the various measures to confront and control the epidemic, with varying levels of success. Of particular importance are strategies that appear to have been useful in ameliorating the epidemic, while contrasting the situation in a neighboring country or region where contrasting prevention or care initiatives have had a deleterious outcome. Common to all responses has been the international multi-sectoral response represented by the Global Fund for HIV/AIDS, Malaria and Tuberculosis, the President's Emergency Plan for AIDS Relief, and the Gates Foundation, among others, to promote HIV pharmacologic therapy in resource-poor settings. The chapter authors will explore the political challenges in meeting HIV/AIDS prevention and care in concert with the public health realities in specific country and regional context.

The Calling Barry Blanchard 2014-08-18 With heart-pounding descriptions of avalanches and treacherous ascents, Barry Blanchard chronicles his transformation from a poor Metis (half-breed) kid from the wrong side of the tracks to one of the most respected alpinists in the world. He describes early climbs attempted with nothing to guide him but written trail descriptions and the cajones of youth. He slowly acquires the skills, equipment and partners necessary to tackle more and more difficult climbs, farther and farther afield: throughout the Canadian Rockies, into Alaska and the French Alps and on to Everest, Peru, and the challenging mountains in Pakistan. From each he learns lessons that only nature and extreme endeavor can teach. This is the story of the culture of climbing in the days of punk rock and rock 'n' roll, accompanied by the rhythm of adrenaline and the arrogance of youth. It is a portrait of the power of the mountains to lift us - physically, emotionally, intellectually, spiritually - and the depths of relationships based on total trust in the person at the

Handbook of African Medicinal Plants, Second Edition Maurice M. Iwu 2014-02-04 With over 50,000 distinct species in sub-Saharan Africa alone, the African continent is endowed with an enormous wealth of plant resources. While more than 25 percent of known species have been used for several centuries in traditional African medicine for the prevention and treatment of diseases, Africa remains a minor player in the global natural products market largely due to lack of practical information. This updated and expanded second edition of the Handbook of African Medicinal Plants provides a comprehensive review of more than 2,000 species of plants employed in indigenous African medicine, with full-color photographs and references from over 1,100 publications. The first part of the book contains a catalog of the plants used as ingredients for the preparation of traditional remedies, including their medicinal uses and the parts of the plant used. This is followed by a pharmacognostical profile of 170 of the major herbs, with a brief description of the diagnostic

The second part of the book provides an introduction to African traditional medicine, outlining African cosmology and beliefs as they relate to healing and the use of herbs, health foods, and medicinal plants. This book presents scientific documentation of the correlation between the observed folk use and demonstrable biological activity, as well as the characterized constituents of the plants.

Gujarat Files Rana Ayyub 2016 Gujarat Files is the account of an eight-month long undercover investigation by journalist Rana Ayyub into the Gujarat riots, fake encounters and the murder of state Home Minister Haren Pandya that brings to the fore startling revelations. Posing as Maithili Tyagi, a filmmaker from the American Film Institute Conservatory, Rana met bureaucrats and top cops in Gujarat who held pivotal positions in the state between 2001 and 2010. The transcripts of the sting operation reveal the complicity of the state and its officials in crimes against humanity. With sensational disclosures about cases that run parallel to Narendra Modi and Amit Shah's ascent to power and their journey from Gujarat to New Delhi, the book tells you the hushed truth of the state in the words of those who developed amnesia while speaking before commissions of enquiry, but held nothing back in the secretly taped videos which form the basis of this remarkable read.

In Some Lost Place Sandy Allan 2015-07-08 In the summer of 2012, a team of six climbers set out to attempt the first ascent of one of the great unclimbed lines of the Himalaya - the giant Mazeno Ridge on Nanga Parbat, the world's ninth highest mountain. At ten kilometres in length, the Mazeno is the longest route to the summit of an 8,000-metre peak. Ten expeditions had tried and failed to climb this enormous ridge. Eleven days later two of the team, Sandy Allan and Rick Allen, both in their late fifties, reached the summit. They had run out of food and water and began hallucinating wildly from the effects of altitude and exhaustion. Heavy snow conditions meant they would need another three days to descend the far side of the 'killer mountain'. 'I began to wonder whether what we were doing was humanly possible. We had climbed the Mazeno and reached the summit, but we both knew we had wasted too much energy. In among the conflicting emotions, the exhaustion and the elation, we knew our bodies could not sustain this amount of time at altitude indefinitely,

especially now we had no water. The slow trickle of attrition had turned into a flood; it was simply a matter of time before our bodies stopped functioning. Which one of us would succumb first?' In *Some Lost Place* is Sandy Allan's epic account of an incredible feat of endurance and commitment at the very limits of survival - and the first ascent of one of the last challenges in the Himalaya.

Be A Triangle Lilly Singh 2022-04-14 'We need to create a home to return to. And when I say home, I'm not talking about a physical place or somewhere where pants are optional. I'm talking about a set of beliefs after a day full of, well, anything. We need to dig a foundation so deep that it will exist and thrive even if our surface-level efforts fail.' Ever wondered what the point of all those school maths lessons about triangles was? Youtuber and comedian Lilly Singh has finally discovered the answer: triangles are the perfect model for building your self-esteem and getting to know your own values. Triangles have a strong base, they're hard to knock-over and always retain their own shape, even when they grow. With her incomparable sense of humour and fun, Lilly explains how she has put the ethos of the triangle to work in her own life, and shows how you can do the same. Complete with playful illustrations and inspiring ideas, this book is like a best friend cheering you on as you find your purpose and get to know yourself.

Full Disclosure Stormy Daniels 2018-10-02 Instant New York Times bestseller "Standing up to bullies is my kind of thing." How did Stormy Daniels become the woman willing to take on a president? In this book, Stormy Daniels tells her whole story for the first time: what it's like to be a leading actress and director in the adult film business, the full truth about her journey from a rough childhood in Louisiana onto the national stage, and everything about her interaction with Donald Trump that led to the nondisclosure agreement and the behind-the-scenes attempts to intimidate her. Stormy is funny, sharp, warm, and impassioned by turns. Her story is a thoroughly American one, of a girl who loved reading and horses and who understood from a very young age what she wanted?and who also knew she'd have to get every step of the way there on her own. 127 Hours Aron Ralston 2011-02-03 On Sunday April 27, 2003, 27-year old Aron Ralston set off for a day's hiking in the Utah canyons. Dressed in a t-shirt and shorts, Ralston, a seasoned climber, figured he'd hike for a few hours and then head off to work. 40 miles from the nearest paved road, he found himself on top of an 800-pound boulder. As he slid down and off of the boulder it shifted, trapping his right hand against the canyon wall. No one knew where he was; he had little water; he wasn't dressed correctly; and the boulder wasn't going anywhere. He remained trapped for five days in the canyon: hypothermic at night, de-hydrated and hallucinating by day. Finally, he faced the most

terrible decision of his life: braking the bones in his wrist by snapping them against the boulder, he hacked through the skin, and finally succeeded in amputating his right hand and wrist. The ordeal, however, was only beginning. He still faced a 60-foot rappell to freedom, and a walk of several hours back to his car - along the way, he miraculously met a family of hikers, and with his arms tourniqued, and blood-loss almost critical, they heard above them the whir of helicopter blades; just in time, Aron was rescued and rushed to hospital. Since that day, Aron has had a remarkable recovery. He is back out on the mountains, with an artificial limb; he speaks to select groups on his ordeal and rescue; and amazingly, he is upbeat, positive, and an inspiration to all who meet him. This is the account of those five days, of the years that led up to them, and where he goes from here. It is narrative non-fiction at its most compelling.

As they move from a cramped, ant-infested shack to a larger house on the other side of Bangalore, and try to adjust to a new way of life, the family dynamic begins to shift. Allegiances realign; marriages are arranged and begin to falter; and conflict brews ominously in the background. Things become "ghachar ghochar"—a nonsense phrase uttered by one meaning something tangled beyond repair, a knot that can't be untied. Elegantly written and punctuated by moments of unexpected warmth and humor, Ghachar Ghochar is a quietly enthralling, deeply unsettling novel about the shifting meanings—and consequences—of financial gain in contemporary India. Wilson doesn't know how to climb. He barely knows how to fly. But he has the right plane, the right equipment, and a deep yearning to achieve his goal. In 1933, he takes off from London in a Gipsy Moth biplane with his course set for the highest mountain on earth. Wilson's eleven-month journey to Everest is wild: full of twists, turns, and daring.
