The second edition of *Understanding the Social and Emotional Lives of Gifted Students* presents a comprehensive treatment of social and emotional development in high-ability learners. This text: Discusses theories that guide the examination of the lived experiences of gifted students. Features new topics, such as cyberbullying and microaggressions. Covers social and emotional characteristics and behaviors evidenced in gifted learners. Includes considerations for gifted underachievers, gifted culturally diverse students, twice-exceptional students, LGBTQ gifted students, and young people from low-income backgrounds. Describes gifted students' friendships and family relationships that support them, contextual influences that shape their social and emotional lives, and identity development. The author provides a wealth of field-tested strategies for addressing social and emotional development. In addition, the book offers a plan for designing a gifted-friendly classroom environment to support the social and emotional well-being of gifted students and a comprehensive collection of resources to support professionals in gifted education research and practice.

Snowboarding - Holly Thorpe 2012-01-06

This book provides a comprehensive look at the snowboarding phenomenon, including its history; techniques and equipment; biographies of the sport's pioneers, athletes, and heroes; key sites and events; and future directions. While snowboarding didn't become a commercial success until the early 1980s, the roots of the modern snowboard go back to at least 1964, when Sherman Poppen invented the "Snurfer" by bolting two skis together and adding a rope for stability. Today snowboarding is one of the most prominent and appealing youth sports. Want proof? Professional snowboarder and two-time Olympic gold medalist Shaun White was the highest paid athlete entering the 2010 Winter Olympics with an estimated annual salary of \$10 million. The book is a highly accessible and extensive overview of snowboarding, providing an introduction to the sport and lifestyle of snowboarding; a historical timeline of the rapid growth of snowboarding; techniques and equipment used; and a discussion of key places and events, such as Alaska, Winter X Games, and the Winter Olympics.

Pretty Good for a Girl - Tina Basich 2011-05-24

When Tina Basich grabbed her rented snowboard and headed to the mountains in Lake Tahoe, snowboarding wasn't even considered a sport . . . yet. It was the beginning, and could have easily gone the way of many other sports and become dominated by male-driven competition. But not with Tina on the scene . . . Comments like "You're pretty good . . . for a girl" only pushed her harder to be the best and to prove she was more than just a token player on the slopes. Representing for women everywhere, she became a snowboarding all-star, started her own signature board and clothing lines for women, founded Boarding for Breast Cancer, and followed her heart, which led her on the adventure of a lifetime. This is her story.

Declaration of Independents - Heckler Magazine 2001-07

Declaration of Independents is the state of the union address for the most energetic of today's youth cultures. The editors of Heckler magazine, the mouthpiece for the thriving community of skateboarders, snowboarders, and music fans, have assembled hundreds of photographs, original essays, interviews, and profiles of the famous, not-so famous, and utterly notorious figures of the scene over the last two decades. From the generation of Jake Burton, Tony Alva, and Ian Mackaye to today's greats, the editors of Heckler include the athletes and musicians that matter. Together they ponder the big questions: how did everyone get their starts, how has everything changed since the suits and sponsorships walked on the scene, and who still rips? Declaration of Independents puts Heckler magazine's years of frontline writing and photography together in one master document of the forces that will continue to shape our culture for years to come.

Bears Above the Valley - Mike McPhee 2012

"The granite spire peaks of the Three Bears rise above the Lizard Range and Cedar Valley like sentinels guarding a secret place. And a very special place it is. The Cedar Valley is home to a unique old growth rainforest including: 800-year-old Cedar trees, giant larch, spruce and Douglas fir. Grizzly bears, cougar, elk and moose prowl the pristine valley as they have for millennia. The intense micro-climate produces an unusual amount of snow for this part of the Rocky Mountains, thus adding to the reputation of one of the best know backcountry lodges in North America ? Island Lake Lodge. Bears Above the Valley explores the diverse history of the Cedar Valley and Island Lake Lodge. Flora and fauna, as well as a history of skiing and snowboarding, are well documented with stunning photography and insightful text. Scot Schmidt, the godfather of freeskiing, and Craig Kelly, the pioneer of big mountain snowboarding, are two of the many ski industry characters that are covered and an integral part of the Island Lake story." --Publisher's description.

The Professionalization of Action Sports - Guillaume Dumont

2022-07-28

Action sports have undergone dramatic growth, commercialization, and institutionalization over recent decades. This book uncovers the social, political, economic and organizational dynamics of their professionalization. After sketching some of the main transformations at stake in the field, the contributors provide novel insights into the changing structures in the action sports industry and the effects on athletes, coaches, agents and the cultures more broadly. Such trends came to the fore in the inclusion of surfing, skateboarding, sport climbing and BMX freestyle into the Tokyo Olympic Games. The book explores the working lives of action sports athletes, more specifically when it comes to their social media practices and the commercial pressure emerging from sponsors, and it also provides key insights into the institutionalization and professionalization of action sports amid ongoing processes of globalization, commodification and incorporation. Overall, the book reveals how different action sports (i.e., snowboarding, surfing, kiteboarding, parkour, climbing, skateboarding), and across countries, are at various stages in the professionalization process, with local, national and international responses and reactions to such trends differing considerably. The chapters in this book were originally published as a special issue of *Sport in Society*.

Women in Snowboarding - Mari Kristin Sisjord 2023-06-13

This is the first book to examine the role of women in the origins, development and contemporary landscape of snowboarding. Focusing on organised and professional snowboarding, it explores the significance of women as participants, coaches, leaders, and high-profile sport stars.

The book explores the history of snowboarding, the organisation of international snowboarding, issues related to facilities, competition formats which are the same for female and male riders, and injury risk, safeguarding, training and coaching. Before the concluding chapter, three elite snowboarders representing different epochs and riding styles - Åshild Lofthus, Stine Brun Kjeldaas, and Kjersti Buaas - are introduced, whose narratives shed light on the main themes of the book. With a broad scope in terms of topics and academic disciplines, from medicine and biomechanics to the social sciences and sport governance, the book is grounded in sociology and gender studies. This book is fascinating reading for scholars and students with an interest in the sociology of sport, coaching, sport management, sport history or interdisciplinary perspectives in sport science, or anybody with a passion for snowboarding.
