**Red Hot Chili Peppers** - Jake Brown 2008-06  
Nine multiplatinum albums are revisited in this tour of the recorded works of the Red Hot Chili Peppers, the ongoing cornerstone of L.A.'s alternative rock scene for nearly a quarter of a century. Widely credited as the founders of rap-rock with such efforts as their 1983 self-titled debut album, the 1989 crossover hit *Mother's Milk*, and their 1991 commercial breakthrough *BloodSugarSexMagik*, the Red Hot Chili Peppers have remained consistently at the top of the album charts with their potent mix of hard rock and funk, selling 50 million albums and winning seven Grammy Awards along the way. The writing and production of each album is thoroughly investigated and detailed, including behind-the-scenes stories of such generation-defining hits as *Higher Ground*, *Give It Away*, *Under the Bridge*, *Californication*, and *Scar Tissue*, ultimately providing an alternative history to one of the most-loved American bands.

**Red Hot Chili Peppers** - Jake Brown 2014-03  
*Red Hot Chili Peppers in the Studio* brings you right on the scene from the formation of the group to their rocky road where you get first hand details of the successes, the producers, the engineers, the controversies; Frusciante's drug addiction, Slovak's death, the break ups, the tours, the mayhem and of course, the music. **Scar Tissue** - Anthony Kiedis 2004-10-01  
In this "vivid and inspiring" New York Times bestseller (*Newsweek*), the Red Hot Chili Peppers' lead singer and songwriter shares a searingly honest account of life in the rock scene's fast lane—from the darkness into the light. In 1983, four self-described "knuckleheads" burst out of the mosh-pitted mosaic of the neo-punk rock scene in L.A. with their own unique brand of cosmic hardcore mayhem funk. Over twenty years later, the Red Hot Chili Peppers, against all odds, have become one of the most successful bands in the world. Though the band has gone through many incarnations, Anthony Kiedis, the group's lyricist and dynamic lead singer, has been there for the whole roller-coaster ride. In *Scar Tissue*, Kiedis delivers a compelling life story from a man "in

love with everything"—the darkness, the death, the disease. Even his descent into drug addiction was a part of that journey, another element transformed into art. Whether he's honoring the influence of the beautiful, strong women who have been his muses or remembering the roaring crowds of Woodstock and the Dalai Lama's humble compound, Kiedis shares a compelling story about the price of success and excess. *Scar Tissue* is a story of dedication and debauchery, of intrigue and integrity, of recklessness and redemption—a story that could only have come out of the world of rock.

**Red Hot Chili Peppers** - Rob Fitzpatrick 2004  
An exploration of the creative genius and insane chemistry of the Red Hot Chili Peppers. Fired up by 1970s funk, rock, ska and soul, the band fought, split, kissed and made up, then fought again. This work tells their stories through their hugely popular songs.

**Red Hot Chili Peppers FAQ** - Dan Bogosian 2020-05-15

From their humble beginnings as friends in high school, to playing strip clubs in nothing but well-placed socks, through a struggle to find the right guitarist, to the present day, *Red Hot Chili Peppers FAQ* chronicles the adventures of the best-selling alternative rock band of all time. No other book goes through each era of the band's history. Unlike other band biographies, *Red Hot Chili Peppers FAQ* digs into the trivia that hardcore fans obsess over: every recorded (and unreleased) song and their origins, the story behind each band member's every tattoo, and every piece of gear each band member past and present has ever used. Ever wonder why current drummer Chad Smith switched drum companies? Or how Flea and Dave Navarro ended up recording with Alanis Morissette on "You Oughta Know"? Just when did Anthony Kiedis meet current guitarist Josh Klinghoffer for the first time? When did Kiedis first try harder drugs? How did Cher end up as a babysitter for young Kiedis? When did Buckethead try out for the band? Who currently owns the mansion where they recorded *Blood Sugar Sex Magik*? All the answers lay in the pages of *Red Hot Chili Peppers FAQ*.

**Lords of the Sunset Strip** - Blackie Dammett 2013-03-31

'I did a double take when I saw fourteen-year-old Drew Barrymore at the bar, drinking with the Bukowski crowd. She was adorable, spoke with a potty mouth and carried on as if she was in her twenties. I was straining to approach her but backed off. I'd been in enough trouble. The next time I looked she was gone. A couple nights later she reappeared and in the same spot at the middle of the bar, entertaining the bartender. I pulled the trigger this time, and whatever I had to say she bought.' "I'm eating your book! It's delicious!" Lia Mack - Portland, Oregon "Fervent shades of Jack Kerouac." Terry Wells - Brigg, England "Lords of the Sunset Strip" is the brutally honest and hilarious memoir of actor and writer Blackie Dammett—AKA John Kiedis—who happens to be the father of Red Hot Chili Peppers frontman Anthony Kiedis. Set mostly in Hollywood but with multiple national and worldwide excursions for film shoots, love affairs and drug deals, this tell-all provides an unexpectedly candid look at an actor's transition from a wild man with a dream to a sensitive if unconventional parent with a dream. And of course, there were the women. New girls were always replenishing the scene. Dammett towed his young Red Hot Chili Pepper with him through a torrent of sex-fueled parties, auditions and business deals in Hollywood, New York and London. It's an exhilarating, exhausting and romantic journey. It had a profound and ineffable influence on Rock & Roll Hall of Famer Anthony. "Lords of the Sunset Strip" will no doubt have a similar influence on its readers as well. It's simply the biggest, baddest, boldest tale of Hollywood and Rock & Roll ever written.

*Red Hot Chili Peppers - Greatest Hits (Songbook)* - Red Hot Chili Peppers 2004-05-01 (Bass Recorded Versions). Essential for Peppers fans! [Fornication: The Red Hot Chili Peppers Story](#) -

Jeff Apter 2009-12-15

Here is the extreme story of the indestructible LA group from their early funk days to eventual success as one of America's top-selling bands. Despite an epic reputation for exhibitionism, drug taking and debauchery, through it all the Chili Peppers have continued to produce records that shock, challenge and intrigue their fans. Author Jeff Apter has interviewed dozens of people - many speaking openly for the first time - who have moved in and out of the Chili Peppers' circle over the past three decades. He has spoken with former Chili Peppers, life-long friends, classmates, family members, album producers and music business insiders, as he plots the band's rise from Hollywood 'latchkey kids', willing to test-drive any drug or woman they could score, to the camomile-tea sipping superstars of today, whose only true family is this band.

Red Hot Chili Peppers - Rob Fitzpatrick  
2004-06-07

Red Hot Chili Peppers front man Anthony Kiedis grew up in Hollywood, hustling a living with his actor father. He eventually discovered music and fell in with Hillel Slovak, Jack Irons, and Michael "Flea" Balzary to form the Red Hot Chili Peppers. Fired up by 1970s funk, rock, ska, and soul, the band fought, split, kissed, made up, and then fought again. This collision of singular personalities and musical genius resulted in a run of albums and reputation as a formidable live act. By the end of the 1980s, though, the band was one man down, with lead guitarist Hillel Slovak dying from a drug overdose. The struggle gave rise to 1989's groundbreaking Mother's Milk album. Pre-dating Nirvana, the Red Hot Chili Peppers was the first underground band to take what critics dubbed "alternative rock" into the mainstream charts. In 1991, Blood Sugar Sex Magik compounded the Chili Peppers' success, turning its members into bona fide rock stars and plunging them headlong into a riot of drugs, sex, near-death experiences, and spiritual awakening. This book looks at the group through dozens of photographs, and examines the music and stories of one of the most original bands on the planet.

**The Bass Handbook** - Adrian Ashton  
2006-06-01

This indispensable handbook helps players of all

levels produce better, more creative, and more varied bass lines. Divided into two sections - Playing Your Bass and Knowing Your Bass - it covers everything from tuning, reading music, scales and chords, and advanced techniques to tips on buying and upgrading a budget bass and troubleshooting. Along with a list of suggested listening and a reference guide, this book provides an unrivaled digest of bass information that might otherwise take an entire career to amass.

Red Hot Chili Peppers: Fandemonium - The Red Hot Chili Peppers 2014-11-18

One-of-a-kind tribute from one of the best-selling bands in the world direct to their legions of fans. The Red Hot Chili Peppers' performances have become legendary as much for the music and antics on stage as the generous, loving community of people who stand side by side, screaming their approval. This is a fan appreciation book from the band that puts the emphasis where it should be -- on the fans. A vivid montage of words from the band members to their fans, it includes hundreds of photos taken at concerts worldwide, and interviews with fifty of the most devoted RHCP fans around the globe. The stories that emerge range from fantastic to tragic, but always inspirational and life-affirming. Lead singer Anthony Kiedis -- New York Times best-selling author of his memoir, Scar Tissue -- writes about the making of this book, and tells the story of the band's connection with their fans from day one in 1983 and how that relationship has evolved over three decades. Designed with a DIY/fanzine feel, this book is more than a fan tribute; it's a cultural exchange that captures the unique connection of an iconic band as devoted to their fans as the fans are to them.

**Spin Alternative Record Guide** - Eric Weisbard 1995

America's premiere alternative music magazine presents a book of outrageously opinionated reviews of the essential albums of punk, new wave, indie rock, grunge, and rap. 101 Essential Rock Records - Jeff Gold 2012

The story behind rockmusic's most famous

record covers as told by some of music business' most prolific rockstars.

The Red Hot Chili Peppers - The Red Hot Chili Peppers 2010-10-19

This is the book fans have been waiting for since Mother's Milk and Blood Sugar Sex Magik first hit the charts: The first (and only!) official Red Hot Chili Peppers story—an oral and visual autobiography from one of the world's greatest rock groups. Together, Anthony Kiedis, John Frusciante, Flea, and Chad Smith tell the 61-

million-album selling band's rollercoaster story, with anecdotes of their concert tours and creative collaborations, memories of surprise successes and dark battles with drug addiction, revelations about their personalities and feelings, and admissions about their lives outside the band. With hundreds of photographs, poster images, ticket stubs, and other RHCP memorabilia, this is a must-have for any die-hard fan.
