Defining Rape - Linda Brookover Bourque 1989
Utilizing data from studies of Los Angeles County residents, the author examines the criteria used by that community to decide whether or not a given encounter constitutes an act of rape. She demonstrates how definitions of rape relate to social structures, research in sociology and psychology, and
Crime Stoppers - Dennis P. Rosenbaum 1986

The Outlet - Andy Adams 2005-09-20
Purchase one of 1st World Library's Classic Books and help support our free internet library of downloadable eBooks. Visit us online at www.1stWorldLibrary.ORG - - At the close of the civil war the need for a market for the surplus cattle of Texas was as urgent as it was general. There had been numerous experiments in seeking an outlet, and there is authority for the statement that in 1857 Texas cattle were driven to Illinois. Eleven years later forty thousand head were sent to the mouth of Red River in Louisiana, shipped by boat to Cairo, Illinois, and thence inland by rail. Fever resulted, and the experiment was never repeated. To the west of Texas stretched a forbidding desert, while on the other hand, nearly every drive to Louisiana resulted in financial disaster to the drover. The republic of Mexico, on the south, afforded no relief, as it was likewise overrun with a surplus of its own breeding. Immediately before and just after the war, a slight trade had sprung up in cattle between eastern points on Red River and Baxter Springs, in the southeast corner of Kansas. The route was perfectly feasible, being short and entirely within the reservations of the Choctaws and Cherokees, civilized Indians. This was the only route to the north; for farther to the westward was the home of the buffalo and the unconquered, nomadic tribes. A writer on that day, Mr. Emerson Hough, an acceptable authority, says: "The civil war stopped almost all plans to market the range cattle, and the close of that war found the vast grazing lands of Texas fairly covered with millions of cattle which had

no actual or determinate value. They were sorted and branded and herded after a fashion, but neither they nor their increase could be converted into anything but more cattle. The demand for a market became imperative."

The Bizarre Careers of John R. Brinkley - R. Alton Lee 2022-08-16

By 1926, it seemed that John R. Brinkley's experimental rejuvenation cure—transplanting goat glands into aging men—had taken the nation by storm. Never mind that "Doc" Brinkley's medical credentials were shaky at best and that he prescribed medication over the airwaves via his high-power radio stations. To most in the medical field, he was a quack. But to his many patients and listeners, he was a brilliant surgeon, a savior of their lost manhood and youth. His rogue radio stations, XER and its successor XERA, eventually broadcast at an antenna-shattering 1,000,000 watts and not only were a megaphone for Brinkley's lucrative quackery but also hosted an unprecedented number of then-unknown country musicians and other guests. *The Bizarre Careers of John R. Brinkley* tells the story of the infamous "Goat Gland Doctor"—a controversial medical charlatan, groundbreaking radio impresario, and prescient political campaigner—and recounts his amazing rags-to-riches-to-rags career. A master manipulator and skilled con artist, Brinkley left behind a patchwork of myths and unreliable personal accounts that many writers have merely perpetuated—until now. Alton Lee brings Brinkley's infamous legacy to the forefront, exploring how he ruthlessly exploited the sexual frustrations of aging men and the general public's antipathy toward medical doctors. Lee leaves no stone unturned in this account of a man who changed the course of American institutions forever.

Remembering Dallas - Michael V. Hazel 2010-05
With a selection of fine historic images from his bestselling book *Historic Photos of Dallas*, Michael V. Hazel provides a valuable and revealing historical retrospective on the growth

and development of Dallas. During the mid nineteenth century, Dallas emerged as a vibrant, commercial American city. At the turn of the century, Dallas continued to prosper, overcoming adversity and becoming a leading center of commerce in the southwestern United States. Remembering Dallas captures this journey through still photography selected from the finest archives. From the Civil War and the Great Depression, to the building of a modern metropolis, Remembering Dallas follows life, government, education, and events throughout the city's history. This volume captures unique and rare scenes as depicted in more than 100 historic photographs. Published in striking black-and-white, these images communicate historic events and everyday life of two centuries of people building a unique and prosperous city.

Filthy Rich - James Patterson 2017-04-18

You've read the Jeffrey Epstein headlines, now get the full story. The world's bestselling author, James Patterson, has written the definitive book on the billionaire pedophile at the center of the newly unsealed federal sex crimes case. Jeffrey Epstein rose from humble origins into the New York City and Palm Beach elite. A college dropout with an instinct for numbers -- and for people -- Epstein amassed his wealth through a combination of access and skill. But even after he had it all, Epstein wanted more. That unceasing desire -- and especially a taste for underage girls -- resulted in sexual-abuse charges, to which he pleaded guilty and received a shockingly lenient sentence. Included here are police interviews with girls who have alleged sexual abuse by Epstein, as well as details of the investigation against him.

Broken But Unbowed - Greg Abbott

2016-05-17

"The Republican governor of Texas describes the devastating accident that caused his paralysis, his achievements as Texas' longest-serving attorney general and his bold plan to restore America to international prominence through Constitutional improvements and leadership,"-- NoveList.

Twelve Years A Slave, Illustrated Edition -

Solomon Northup 2014-04-08

Kidnapped and sold into slavery in the American South, freeman Solomon Northup spent twelve years in bondage before being freed. Twelve Years a Slave is Northup's moving memoir, revealing unimaginable details of the horrors he faced as a slave on Southern plantations, and his unshakable belief that he would return home to his family. Written in the year after Northup was freed and published in the wake of Harriet Beecher Stowe's Uncle Tom's Cabin, Northup's story was quickly taken up by abolitionist groups and news organizations as part of the fight against slavery, and continues to resonate more than a century after the end of the American Civil War.

A Breed Apart - Eddie Michel 2012-09

The Texas Rangers are an iconic symbol of both Texas and the American West. As citizen soldiers and lawmen the Rangers have left an indelible mark in the annals of history and American culture. This book offers a balanced and informative history of the Ranger corps. The author integrates both the traditionalist view of the Rangers as heroic defenders of Texan liberty and justice with the revisionist scholarship of more recent historians which has exposed a darker side to the corps including instances of brutality, corruption, racism and on occasion exceptionally high levels of violence. A Breed Apart: The History of the Texas Rangers explores the history, character and development of the Texas Rangers from their creation as an irregular frontier force to their current status as highly trained and well respected agents of law enforcement. The book provides an excellent resource for any reader wishing to understand why the Texas Rangers remain such powerful historical symbols and continue to exert such fascination in the public imagination.

The New Jim Crow - Michelle Alexander 2012-01-16

Once in a great while a book comes along that changes the way we see the world and helps to fuel a nationwide social movement. The New Jim Crow is such a book. Praised by Harvard Law professor Lani Guinier as "brave and bold," this book directly challenges the notion that the election of Barack Obama signals a new era of colorblindness. With dazzling candor, legal scholar Michelle Alexander argues that "we have not ended racial caste in America; we have merely redesigned it." By targeting black men through the War on Drugs and decimating communities of color, the U.S. criminal justice system functions as a contemporary system of racial control—relegating millions to a permanent second-class status—even as it formally adheres to the principle of colorblindness. In the words of Benjamin Todd Jealous, president and CEO of the NAACP, this book is a "call to action." Called "stunning" by Pulitzer Prize-winning historian David Levering Lewis, "invaluable" by the Daily Kos, "explosive" by Kirkus, and "profoundly necessary" by the Miami Herald, this updated and revised paperback edition of *The New Jim Crow*, now with a foreword by Cornel West, is a must-read for all people of conscience.
