**Hasidism as Mysticism** - Rivka Schatz Uffenheimer 2015-03-08

Offered here for the first time in English translation, *Hasidism as Mysticism* is a classic in its field. Using the tools of phenomenology, Rivka Schatz Uffenheimer places Hasidism squarely in the context of religious studies. Hasidism's theoretical texts have been largely ignored by historians of the movement, but Schatz Uffenheimer analyzes these materials fully, disclosing the mystical, quietistic tendencies that existed alongside Hasidism's more activist, popular elements. The author carefully reviewed this translation of her work; it includes a revised introduction with much new material, two new chapters, and an appendix containing a translation, history, and literary analysis of one of the few extant texts attributed to the Baal Shem Tov. Schatz Uffenheimer's inquiry covers the full gamut of Hasidic life and thought, embracing such topics as the emphasis on joy and the concomitant ban on sadness and regret in Hasidism, the focus on contemplative rather than petitionary prayer, the subordination of the mizvot (commandments) to the spiritualistic goal of devequt (attachment to God), and the anarchic elements of Hasidism's approach to life within society. Also discussed are the problematic role of Torah study resulting from this spiritualistic emphasis, the movement's neutralization or internalization of the traditional concept of a historical messiah, and the transformation within Hasidism of traditional concepts borrowed from Kabbalah. The author's illuminating hints as to the affinity between Hasidism and Christian Quietism should be of particular interest to scholars in the field. Rivka Schatz Uffenheimer (1927-1992) was the Edmonton Community Professor of Jewish Mysticism at the Hebrew University of Jerusalem. One of the outstanding students of Gershom Scholem, she forged her own path in the world of scholarship. Her research encompassed a wide range of areas: Zohar and Lurianic Kabbalah, Sabbatianism, Hasidism, and the typology of Jewish messianism. In addition, she was deeply involved in the ongoing discussion concerning the major spiritual and existential issues confronting contemporary Judaism and the State of Israel. **Monster Culture in the 21st Century** - Marina Levina 2013-05-23

In the past decade, our rapidly changing world faced terrorism, global epidemics, economic and social strife, new communication technologies, immigration, and climate change to name a few. These fears and tensions reflect an evermore-interconnected global environment where increased mobility of people, technologies, and disease have produced great social, political, and economical uncertainty. The essays in this collection examine how monstrosity has been used to manage these rising fears and tensions. Analyzing popular films and televisions shows, such as *True Blood*, *Twilight*, *Paranormal Activity*, *District 9*, *Battlestar Galactica*, and *Avatar*, it argues that monstrous narratives of the past decade have become omnipresent specifically because they represent collective social anxieties over resisting and embracing change in the 21st century. The first comprehensive text that uses monstrosity not just as a metaphor for change, but rather a necessary condition through which change is lived and experienced in the 21st century, this approach introduces a different perspective toward the study of monstrosity in culture.

[Captivity](#) - György Spiró 2015-11-03

A literary sensation in Hungary, Gyorgy Spiro's *Captivity* is set in the tumultuous first century A.D., between the year of Christ's death and the outbreak of the Jewish War. It follows the adventures of the feeble-bodied, bookish Uri, a young Roman Jew. Frustrated with his hapless son, Uri's father sends the young man to the Holy Land to regain the family's prestige. In Jerusalem, Uri is imprisoned by Herod and meets two thieves and (perhaps) Jesus before their crucifixion. Later he has an awakening in cosmopolitan Alexandria, and then returns home to an unexpected inheritance.

**Psychiatry and Religion** - Dinesh Bhugra 2013-04-15

The argument of this book is that the divide between psychiatry and religion is an artificial one and that there is much room for understanding the same phenomena from different perspectives. In it thirteen senior mental health professionals and pastoral workers come together to explore what their different philosophies have to offer each other for the benefit of the individuals in their care. The book as a whole: \* sets the relationship between psychiatry and religion in historical context \* provides detailed information about specific religions and the significance of their belief systems for mental health management \* examines the relationship between psychopathology, psychiatry and religion.

**The Land Cries Out** - Salim J. Munayer 2011-10-21

Our theology does not exist in a vacuum but must relate to the world we inhabit and must influence our moral and ethical actions. This is especially true when discussing theology of "the land" in the context of a

violent territorial conflict. The Holy Land has seen so much bloodshed that the earth itself is crying out to God. The chapters presented in this book form a unique collection of voices speaking from different perspectives on the issue of the theology of the land. These voices include Messianic Jewish and Palestinian Christian theologians and scholars who live in the Holy Land, as well as others from around the world. The various chapters reflect a wide spectrum of opinion and reveal how much disagreement still exists among followers of Christ. However, the dialogue generated by having these opposing voices side by side, speaking to each other rather than past each other, is encouraging. This book is both challenging and inspirational, and contributes in an innovative way to this important discussion.

The Books of Jacob - Olga Tokarczuk 2022-02-01

A NEW YORKER "ESSENTIAL READ" "Just as awe-inspiring as the Nobel judges claimed." - The Washington Post "Olga Tokarczuk is one of our greatest living fiction writers. . . This could well be a decade-defining book akin to Bolaño's 2666." -AV Club "Sophisticated and ribald and brimming with folk wit. . . The comedy in this novel blends, as it does in life, with genuine tragedy." -Dwight Garner, The New York Times LONGLISTED FOR THE 2022 NATIONAL BOOK AWARD NAMED A BEST BOOK OF THE YEAR BY THE NEW YORK TIMES, THE WALL STREET JOURNAL, TIME, THE NEW YORKER, AND NPR The Nobel Prize-winner's richest, most sweeping and ambitious novel yet follows the comet-like rise and fall of a mysterious, messianic religious leader as he blazes his way across eighteenth-century Europe. In the mid-eighteenth century, as new ideas—and a new unrest—begin to sweep the Continent, a young Jew of mysterious origins arrives in a village in Poland. Before long, he has changed not only his name but his persona; visited by what seem to be ecstatic experiences, Jacob Frank casts a charismatic spell that attracts an increasingly fervent following. In the decade to come, Frank will traverse the Hapsburg and Ottoman empires with throngs of disciples in his thrall as he reinvents himself again and again, converts to Islam and then Catholicism, is pilloried as a heretic and revered as the Messiah, and wreaks havoc on the conventional order, Jewish and Christian alike, with scandalous rumors of his sect's secret rituals and the spread of his increasingly iconoclastic beliefs. The story of Frank—a real historical figure around whom mystery and controversy swirl to this day—is the perfect canvas for the genius and unparalleled reach of Olga Tokarczuk. Narrated through the perspectives of his contemporaries—those who revere him, those who revile him, the friend who betrays him, the lone woman who sees him for what he is—The Books of Jacob captures a world on the cusp of precipitous change, searching for certainty and longing for transcendence. In a nod to books written in Hebrew, The Books of Jacob is paginated in reverse, beginning on p. 955 and ending on p. 1 - but read traditionally, front cover to back.

Political Theology of the Earth - Catherine Keller 2018-10-30

Amid melting glaciers, rising waters, and spreading droughts, Earth has ceased to tolerate our pretense of

mastery over it. But how can we confront climate change when political crises keep exploding in the present? Noted ecotheologian and feminist philosopher of religion Catherine Keller reads the feedback loop of political and ecological depredation as secularized apocalypse. Carl Schmitt's political theology of the sovereign exception sheds light on present ideological warfare; racial, ethnic, economic, and sexual conflict; and hubristic anthropocentrism. If the politics of exceptionalism are theological in origin, she asks, should we not enlist the world's religious communities as part of the resistance? Keller calls for dissolving the opposition between the religious and the secular in favor of a broad planetary movement for social and ecological justice. When we are confronted by populist, authoritarian right wings founded on white male Christian supremacism, we can counter with a messianically charged, often unspoken theology of the now-moment, calling for a complex new public. Such a political theology of the earth activates the world's entangled populations, joined in solidarity and committed to revolutionary solutions to the entwined crises of the Anthropocene.

**God Is Not Great** - Christopher Hitchens 2011-11-01

In god is Not Great Hitchens turned his formidable eloquence and rhetorical energy to the most controversial issue in the world: God and religion. The result is a devastating critique of religious faith god Is Not Great is the ultimate case against religion. In a series of acute readings of the major religious texts, Christopher Hitchens demonstrates the ways in which religion is man-made, dangerously sexually repressive and distorts the very origins of the cosmos. Above all, Hitchens argues that the concept of an omniscient God has profoundly damaged humanity, and proposes that the world might be a great deal better off without 'him'.

Asymptote - Robert Ziegler 2009-01-01

Asymptote: An Approach to Decadent Fiction offers a radically new approach to the psychology of Decadent creation. Rejecting traditional arguments that Decadence is a celebration of deviance and exhaustion, this study presents the fin-de-siecle novel as a transformative process, a quest for health. By allowing the writer to project into fiction unwanted traits and destructive tendencies - by permitting the playful invention of provisional identities -, Decadent creation itself becomes a dynamic act of creative regeneration. In describing the interrelationship of Decadent authors and their fictions, Asymptote uses the mathematical figure of the asymptote to show how they converge, then split apart, and grow distant. The author's approach to the facsimile selves he plays with and discards is the curve that never merges with his authorial identity. In successive chapters, this study describes the Decadents' experimentation with perversion (Huysmans's A rebours and Mendes's Zo'har), and their subsequent validation of social regulation and creative discipline. It examines magic and its appeal to fantasies of elitism and omnipotence (Péladan's Le Vice supreme and Villiers's Axël ), then shows authors embracing the values of community and service. It considers the Decadent text as a vehicle of change in which an artist ventilates fantasies of aggression and revenge (Mirbeau's Le Journal d'une femme de chambre and Rachilde's La Marquise de Sade) then employs writing as the means by which these feelings are discharged. It examines creation as a form of play, "une aliénation grâce à laquelle l'esprit se récupère sous la forme des autres" (Schwob's Vies imaginaries and Lorrain's Histoires de masques), yet notes the Decadents' decision to return to a single generative center. Finally, it examines creation as an expression of artistic transience and failure, yet shows the Decadents' success in commemorating the very forces of disintegration (Rodenbach's L'Art en exil). In considering the Decadents' insistence on subjectivism and aloneness, this study concludes (Gourmont's Sixtine) by showing their wish to escape the prison of identity and to redefine their art as cooperative creation.
