[Transmedia Character Studies](#) - Tobias Kunz 2023-03-31

Transmedia Character Studies provides a range of methodological tools and foundational vocabulary for the analysis of characters across and between various forms of multimodal, interactive, and even non-narrative or non-fictional media. This highly innovative work offers new perspectives on how to interrelate production discourses, media texts, and reception discourses, and how to select a suitable research corpus for the discussion of characters whose serial appearances stretch across years, decades, or even centuries. Each chapter starts from a different notion of how fictional characters can be considered, tracing character theories and models to approach character representations from perspectives developed in various disciplines and fields. This book will enable graduate students and scholars of transmedia studies, film, television, comics studies, video game studies, popular culture studies, fandom studies, narratology, and creative industries to conduct comprehensive, media-conscious analyses of characters across a variety of media.

The Limits of Sexuality Education - Ketaki Chowkhani 2023-12-19

This book explores different strands of thinking about sexuality education in contemporary urban India. It interrogates the limits of sexuality education as we know it today by rethinking adolescent masculinities in middle-class urban India. This book contributes to the wide gap in theorising sexuality education and adolescent masculinities in urban India. It presents an adolescent perspective on sexuality education, looks at adolescent love from the school teachers' perspective, and tries to understand a teacher's negotiations with student romance. It unravels the sexual and romantic lives of adolescents and examines the circulation of sexual knowledge and sources of information on sex that adolescent boys in India have access to. This book uncovers the limits of sexuality education by examining State, feminist, Christian, and sexological materials on sexuality education in Mumbai and Delhi. Based on detailed research and narratives from teachers, young men, and women, the book explores adolescent male romance and its affective registers, adolescent male sexual knowledge, and the regulation of romance in school spaces. This book will be of interest to students and researchers of education, sexuality and gender studies, masculinity studies, sex education as well as those interested in education policy, education politics, educational research, and inclusion and special education. Located at the intersection of sexuality studies, education, masculinity studies, and cultural studies, it will also appeal to those working in sexuality education in urban India within the complex web of the middle classes, consumerism, post-feminism, romance, adolescent masculinities, and cinema.

Doing It - Hannah Witton 2017-04-06

Book of the Year at the Summer in the City Awards 2017 Sexting. Virginity. Consent. The Big O ... Let's face it, doing it can be tricky. I don't know anyone (including myself) who has sex all figured out. So I've written a book full of honest, hilarious (and sometimes awkward) anecdotes, confessions and revelations. And

because none of us have all the answers, I've invited some friends and fellow YouTubers to talk about their sexuality, too. My book is for everyone, no matter what gender you identify as or who you fancy. We talk about doing it safely. Doing it joyfully. Doing it when you're ready. Not doing it. Basically, doing it the way you want, when you want. So. Let's do this ... ----- Doing It candidly and openly explores topics like masturbation, slut-shaming, pornography and consent, as well as how to maintain healthy relationships in a digital age.

The Transformation of American Sex Education - Ellen S. More 2022-01-11

"This book examines Americans' attempts to come to terms with the vexed subject of sex education in the schools from the late 1940s to the early 21st century. Using Mary Calderone's life and career as a touchstone, it traces the origins of modern sex education in the United States from the work of a group of reformers who coalesced around Calderone to create SIECUS in 1964 through the development and use of the competing approaches known as 'abstinence-based' and 'comprehensive' sex education from the 1980s into the 21st century"--
