The Psychology of Sexual Orientation, Behavior, and Identity - Louis Diamant 1995-10-18

This comprehensive overview of research, issues, and theories relating to sexual orientation, behavior, and identity by experts in various disciplines is unique in providing both historical perspectives and a synthesis of the recent advances in understanding homosexuality and heterosexuality. Drawing from biological and psychological research, this handbook critically reviews the major theories about sexual orientation and examines each theory on the basis of empirical support. One section summarizes recent developments in genetic and neuroanatomic research. Another section discusses problems with sexual performance among heterosexual, homosexual, and bisexual persons. A third section provides overviews of clinical disorders or sexual deviations. Various chapters clarify the distinction between sexual disorders, such as pedophilia, and sexual variations, such as homosexuality. Chapters also examine important social issues relevant to sexual orientation, such as disability, prejudice, aging, and gender roles. Experts address the continuing controversy over the feasibility of altering sexual orientation; new developments in treating different types of problems; and changing perspectives today. This handbook is designed for the use of educators, students, and researchers in the social and behavioral sciences.

Sex and Sexuality - Richard D. McAnulty 2006

Sex in College - Richard McAnulty 2012-03-30

Experts address key issues—from attitudes and behaviors to harassment and homophobia—related to sexuality among college students. With essays by a wide range of knowledgeable contributors, Sex in College: The Things They Don't Write Home About draws on recent research to examine just about every aspect of its intriguing subject. The book begins with general chapters that offer historical, cross-cultural, and theoretical perspectives on college students' sexual attitudes and behaviors. One chapter offers a framework for understanding the unique developmental perspective of young adults. Another chapter explores the research methods used to study college students' sexual practices. Subsequent chapters cover: dating and intimacy on campus, the perspective of young adults about love, sexuality education and classes, and sexual orientation. The darker side of college sexuality is also examined in chapters centering on such topics as infidelity in college dating relationships, homophobia and sexual harassment on campus, sexual risk-taking and sexually transmitted infections, sexual problems and dysfunction among young adults, and sexual assault among college students.

Censoring Sex Research - Thomas K Hubbard 2016-06-16

This volume sheds light on one of the most explosive episodes of censure of academic scholarship in recent decades. Bruce Rind, a former psychology professor at Temple University, investigated sexual relations between male adults and adolescents through history and across cultures, from highly institutionalized relationships in Ancient Greece and Rome, to 33 contemporary cultures including the USA, and among various species. His conclusions that these relations, when consensual, are not always negative was radical, but based in his research findings. Even before publication of an invited article on the topic, he was subjected to intensive attacks, censured, and censored. This book presents a substantially extended version of Rind's original, unpublished article, plus 12 scholarly responses to his work that argue for or against Rind's conclusions or offer useful context on his work. For anyone interested in sex research and the academic freedom issues surrounding it, whether supportive of or vehemently opposed to Rind's ideas, this book is a must-read.

Juvenile Sex Offenders - Camille Gibson 2008-07-30

Despite the fact that media bombard the public with the notion that sex offenders are everywhere-and could be just next door—official sources show that official sex offense rates have been steadily declining over the past 10 years. Yet, when a juvenile is accused of a sexually-based crime, media attention is swift and relentless. The truth about juvenile sex offenders is often, therefore, misunderstood. In many cases, such offenders are victims themselves. Here, Gibson and Vandiver reveal the truth about juvenile sex offenders and what can be done to help them and to prevent the cycle of abuse that leads to such tragic outcomes. This book sets the records straight about juvenile sex offending. It provides accurate, up-to-date statistics, real life cases, and information about offender characteristics, victim characteristics, family factors, social issues, media involvement, and other related areas. It offers explanations for juvenile sex offending from a variety of perspectives and reviews legal and criminal responses to the problem. Included are discussions of female offenders, punitive measures to prevent repeat offenses, and other steps the federal government and individual states are taking to address the problem. The authors conclude with advice on how to protect children from becoming victims and how to prevent sexual offending in the first place.

Homosexuell - und das ist (nicht?) gut so! - Heinz J. Aubeck 2023-08-24

Der Sozialwissenschaftler Heinz Jürgen Aubeck stellt die kontrovers diskutierten biologischen und sozialpsychologischen Theorien zur Ergründung homosexueller Orientierung vor und plädiert in diesem

Kontext für die Fortführung der poststrukturalistischen Diskursanalyse im Feld der Sexualität, welche das auf repressiven, hierarchischen gesellschaftlichen Machtstrukturen basierende System der Geschlechterdualität, das mit einer kohärenten, immanent kausalen Konzeption von naturalisierter Geschlechtsidentität, komplementärem Geschlechterrollendiktat und zwangsheterosexueller Orientierungsnorm verbunden ist, entgegen den konservativen essentialistischen Ideologien als soziokulturelles Produkt charakterisiert und speziell die geschlechtliche Identität als performativ konstruierten Effekt und mythologische Fiktion in emanzipatorischer Intention enthüllt und kritisiert. *Choice* - 2007

Girls & Sex - Peggy Orenstein 2017-09-18

Was bedeutet es, seine Sexualität in einer Gesellschaft zu entdecken, in der Mädchen möglichst sexy, aber bloß nicht zu freizügig sein sollen? Väter und Mütter wissen oft nicht, wie ihre Teenager-Töchter sich in diesem Spannungsfeld bewegen. Peggy Orenstein hat gefragt, was viele Eltern sich nicht trauen. In Interviews mit über 70 Mädchen sammelte sie bedeutsame Erkenntnisse und zeichnet ein erschreckend

deutliches Bild dessen, was das Leben in einer sexualisierten Gesellschaft für junge Frauen bedeutet.

Sexuality in World History - Peter N. Stearns 2017-02-14

This book examines sexuality in the past, and explores how it helps explain sexuality in the present. The subject of sexuality is often a controversial one, and exploring it through a world history perspective emphasizes the extent to which societies, including our own, are still reacting to historical change through contemporary sexual behaviors, values, and debates. The study uses a clear chronological structure to focus on major patterns and changes in sexuality—both sexual culture and sexual behaviors—in the main periods of world history, covering topics including: • The sexual implications of the transition from hunting and gathering economies to agricultural economies; • Sexuality in classical societies; • The postclassical period and the spread of the world religions; • Sex in an age of trade and colonies; • Changes in sexual behaviors and sexual attitudes between 1750 and 1950; • Sex in contemporary world history. This new edition examines these issues on a global scale, with attention to anthropological insights on sexuality and their relationship to history, the dynamics between sexuality and imperialism, sexuality in industrial society, and trends and conflicts surrounding views of sex and sexuality in the contemporary world.
