**Citizen Bachelors** John Gilbert McCurdy 2011-03-15 In 1755 Benjamin Franklin observed "a man without a wife is but half a man" and since then historians have taken Franklin at his word. In *Citizen Bachelors*, John Gilbert McCurdy demonstrates that

Franklin's comment was only one side of a much larger conversation. Early Americans vigorously debated the status of unmarried men and this debate was instrumental in the creation of American citizenship. In a sweeping examination of the bachelor in early America, McCurdy fleshes out a largely unexamined aspect of the history of gender. Single men were instrumental to the settlement of the United States and for most of the seventeenth century their presence was not particularly problematic. However, as the colonies matured, Americans began to worry about those who stood outside the family. Lawmakers began to limit the freedoms of single men with laws requiring bachelors to pay higher taxes and face harsher penalties for crimes than married men, while moralists began to decry the sexual immorality of unmarried men. But many resisted these new tactics, including single men who reveled in their hedonistic reputations by delighting in sexual horseplay without marital consequences. At the time of the Revolution, these conflicting views were confronted head-on. As the incipient American state needed men to stand at the forefront of the fight for independence, the bachelor came to be seen as possessing just the sort of political, social, and economic agency associated with citizenship in a democratic society. When the war was won, these men demanded an end to their unequal treatment, sometimes grudgingly, and the citizen bachelor was welcomed into American society. Drawing on sources as varied as laws, diaries, political manifestos, and newspapers, McCurdy shows that in the course of the seventeenth and eighteenth centuries the bachelor was a simultaneously suspicious and desirable figure: suspicious because he was not tethered to family and household obligations yet desirable because he was free to study, devote himself to political office, and fight and die in battle. He suggests that this dichotomy remains with us to this day and thus it is in early America that we find the origins of the modern-day identity of the bachelor as a symbol of masculine independence. McCurdy also

observes that by extending citizenship to bachelors, the founders affirmed their commitment to individual freedom, a commitment that has subsequently come to define the very essence of American citizenship.

**Portnoy's Complaint** Philip Roth 2010-09-07 'The most outrageously funny book about sex written' Guardian Portnoy's Complaint n. [after Alexander Portnoy (1933-)]: A disorder in which strongly-felt ethical and altruistic impulses are perpetually warring with extreme sexual longings, often of a perverse nature. Portnoy's Complaint tells the tale of young Jewish lawyer Alexander Portnoy and his scandalous sexual confessions to his psychiatrist. As narrated by Portnoy, he takes the reader on a journey through his childhood to adolescence to present day while articulating his sexual desire, frustration and neurosis in shockingly candid ways. Hysterically funny and daringly intimate, Portnoy's Complaint was an immediate bestseller upon its publication and elevated Roth to an international literary celebrity.

(Sub)Urban Sexscapes Paul J. Maginn 2014-10-10 (Sub)Urban Sexscapes brings together a collection of theoretically-informed and empirically rich case studies from internationally renowned and emerging scholars highlighting the contemporary and historical geographies and regulation of the commercial sex industry. Contributions in this edited volume examine the spatial and regulatory contours of the sex industry from a range of disciplinary perspectives—urban planning, urban geography, urban sociology, and, cultural and media studies—and geographical contexts—Australia, the UK, US and North Africa. In overall terms, (Sub)urban Sexscapes highlights the mainstreaming of commercial sex premises—sex shops, brothels, strip clubs and queer spaces—and products—sex toys, erotic literature and pornography—now being commonplace in night time economy spaces, the high street, suburban shopping centres and the home. In addition, the aesthetics of commercial and

alternative sexual practices—BDSM and pornography—permeate the (sub)urban landscape via billboards, newspapers and magazines, television, music videos and the Internet. The role of sex, sexuality and commercialized sex, in contributing to the general character of our cities cannot be ignored. In short, there is a need for policy-makers to be realistic about the historical, contemporary and future presence of the sex industry. Ultimately, the regulation of the sex industry should be informed by evidence as opposed to moral panics. \*\*\* Winner of the Planning Institute of Australia (WA) 2015 Award for Excellence in Cutting Edge Research and Teaching \*\*\*

**Sex in Middlesex** Roger Thompson 1989-01-13 Social historian

Roger Thompson brings the forgotten and faceless men and women in 17th-century Massachusetts to suggest that records from Middlesex County of the Colony and Province of Massachusetts Bay show that the puritan social system was not so rigid and the relationships between sexes not so regulated as some historians have suggested. The argument of 'Sex in Middlesex' is revisionist: the 'puritans' and 'theocrats' who throng its pages do not behave in accordance with popular stereotype or conform to the interpretations of major historians.

Sex Media Feona Attwood 2017-12-08 Media are central to our experiences and understandings of sex, whether in the form of familiar 'mainstream' genres, pornographies and other sex genres, or the new zones, interactions and technosexualities made possible by the internet and mobile devices. In this engaging new book, Feona Attwood argues that to understand the significance of sex media, we need to examine them in terms of their distinctive characteristics, relationships to art and culture, and changing place in society. Observing the role that media play in relation to sex, gender, and sexuality, this book considers the regulation of sex and sexual representation, issues around the 'sexualization of culture', and demonstrates how a critical focus

**Policing the Sex Industry** Teela Sanders 2017-12-12 The exponential growth of sexual commerce, migration and movement of people into the sex industry, as well as localised concerns about transactional sex, are key areas of interest across the urban west. Given the complex regulatory frameworks under-which the sex industry manifests, the role of the police is significant.

Policing the Sex Industry draws on the research and expertise of academics and practitioners, presenting advanced scholarship across a range of countries and spaces. Unpicking the relationship between police practice and commercial sex whilst speaking to the current policy agendas, Policing the Sex Industry explores key issues including: trafficking, decriminalisation, localised impacts of punitive policing approaches, uneven policing approaches, hate-crime approaches and the impact of policing on trans sex workers. **Fat Sex: New Directions in Theory and Activism** Helen Hester 2016-03-09 While fat sexual bodies are highly visible as vehicles for stigma, there has been a lack of scholarly research addressing this facet of contemporary body politics. *Fat Sex: New Directions in Theory and Activism* seeks to rectify this, bringing debates about fat sex into the academic arena and providing a much-needed critical space for voices from across the spectrum of theory and activism. It examines the intersection of fat, sex and sexuality within a contemporary cultural landscape that is openly hostile towards fat people and their perceived social and aesthetic transgressions. Acknowledging and engaging with some of the innovative work being done by artists, activists, and academics around the issue of fat sex, this collection both challenges preconceptions regarding fatness and sexuality, but also critiques and debates various aspects of the fat activist approach. It draws on a wide range of disciplinary perspectives, bringing together work from the UK, US, Europe, and Australia to offer a wide-ranging examination of the issues of size, sex, and sexuality. A cutting-edge exploration not only of fat sex, but of identity politics, neoliberalism and contemporary body activism in general, *Fat Sex: New Directions in Theory and Activism* will be of interest to scholars of sociology, cultural studies, geography, porn studies and literary studies working on questions of gender, sexuality and the body.

**A Shared Experience** Laura Mccall 1998-08 Only by focusing on the similarities, as well as the differences, in the lives of men and women can we achieve a fully representative portrait. However, shared experiences and complementary lives of men and women have rarely been considered in historical inquiry. This important new anthology, reflecting recent trends in the history of men and

women calls for the reintegration of the study of gender.

Sex Crime in the News Keith Soothill 2023-03-31 First published in 1991, *Sex Crime in the News* is a unique examination of the nature of sex crime reporting in the press. Analysing examples from forty years of newspaper coverage, the authors provide a systematic study of this controversial topic. The book reveals the misleading and trivializing nature of sex crime coverage, with serious research reports on rape and discussions on law reform being given short shrift. The authors examine the increasing gap between the reality of sexual abuse and the coverage it receives in the press, and they set their detailed empirical work within a context of broader concerns about the relationship between the media, the individual and the state. Critical though it is of the press, this book will be of special interest to people working in the media, and to legislators involved in debates about the press. It will also be of value to students on course in women's studies, cultural and media studies, and deviancy.

When *The Second Sex* was first published in Paris in 1949—groundbreaking, risqué, brilliantly written and strikingly modern—it provoked both outrage and inspiration. *The Independent Woman* contains three key chapters of Beauvoir's masterwork, which illuminate the feminine condition and identify practical social reforms for gender equality. It captures the essence of the spirited manifesto that switched on light bulbs in the heads of a generation of women.

*Divided We Stand* Roger Thompson 2012-09-07 Established in 1630, Watertown was among the original six towns of Massachusetts. Its early history was marked by frequent disputes, a penchant for questioning authority, and an atmosphere of tension and discord. In recounting the story of Watertown's formative years, Roger Thompson examines how the community managed to avoid descending into anarchy. He also explores the ways in which English settlers preserved their habits of behavior in a new-world environment, even as they were obliged to innovate and embrace change. Thompson describes Watertown's early government, its relations with Native Americans and neighboring communities, its religious and economic affairs, and the day-to-day experiences of its people. Conflict occurred over a wide variety of issues: land allocation, administrative accountability, religious orthodoxy and exclusivity, generational and gender differences, livestock and fencing, haves and have-nots. Thompson brings these disputes to life through a series of vivid case studies drawn from the unpublished Middlesex County Court Records. Among others, we meet John Sawin, who despite his best efforts at subterfuge was convicted of stealing and selling a neighbor's horse; Susanna Woodward, whose pregnancy

resulted in a fiercely contested paternity case; and Edward Sanders, whose punishment for child abuse was both a whipping and a ruling that when in public he must "wear a rope round his neck openly to be seen hanging down two feet." Throughout the book, the same themes reappear: continuity and change, the persistent conflicts of the first two generations, and the countervailing forces of communal cohesion.

The Routledge Companion to Media, Sex and Sexuality Clarissa Smith 2017-08-09 The Routledge Companion to Media, Sex and Sexuality is a vibrant and authoritative exploration of the ways in which sex and sexualities are mediated in modern media and everyday life. The 40 chapters in this volume offer a snapshot of the remarkable diversification of approaches and research within the field, bringing together a wide range of scholars and researchers from around the world and from different disciplinary backgrounds including cultural studies, education, history, media studies, sexuality studies and sociology. The volume presents a broad array of global and transnational issues and intersectional perspectives, as authors address a series of important questions that have consequences for current and future thinking in the field. Topics explored include post-feminism, masculinities, media industries, queer identities, video games, media activism, music videos, sexualisation, celebrities, sport, sex-advice books, pornography and erotica, and social and mobile media. The Routledge Companion to Media, Sex and Sexuality is an essential guide to the central ideas, concepts and debates currently shaping research in mediated sexualities and the connections between conceptions of sexual identity, bodies and media technologies.

*Sex Traffic* Paola Monzini 2005-11 "The trafficking of women and girls for the purpose of prostitution is big business. It is one of the most lucrative industries in the world, particularly given the explosion of the sex industry since the 1990s. The collapse of the Soviet Union and the devastating impact of neoliberal economic

policies in many parts of the world have resulted in significant numbers of women seeking income however they can." "This book draws on a wealth of new empirical data: case studies from several countries of origin, transit and destination; research produced by NGOs, police and criminal courts; interviews and field research with the women themselves. Monzini's primary aim is to identify the mechanisms of what has truly become a global market. Most important, she assesses recent attempts to control trafficking, and strategies for resistance and change."--BOOK JACKET.

**Sex Exposed** Lynne Segal 1993 Over the past twenty years debates about pornography have raged within feminism and beyond. Throughout the 1970s feminists increasingly addressed the problem of men's sexual violence against women, and many women reduced the politics of men's power to questions about sexuality. By the 1980s these questions had become more and more focused on the issue of pornography--now a metaphor for the menace of male power. Collapsing feminist politics into sexuality and sexuality into pornography has not only caused some of the deepest splits between feminists, but made it harder to think clearly about either sexuality or pornography--indeed, about feminist politics more generally. This provocative collection, by well-known feminists, surveys these arguments, and in particular asks why recent feminist debates about sexuality keep reducing to questions of pornography.

*Beyond Explicit* Helen Hester 2014-01-23 Develops a novel characterization of the pornographic as a cultural concept. This original contribution to porn studies aims to interrogate previously untheorized changes in contemporary understandings of the pornographic. Helen Hester argues that the words “porn” and “pornographic” are currently being applied to an ever-expanding range of material and that this change in language usage reflects a wider shift in perception. She suggests that we are witnessing a seemingly paradoxical move away from sex within contemporary understandings of porn, as a range of other factors come to influence the concept. Using examples from media, literature, and culture, and discussing the rise of notions such as “torture porn” and “misery porn,” Hester’s argument ranges from sexually explicit German novels and British policy documents to a discussion of the differences between European and American editions of pornographic films. She concludes that four factors in particular—transgression, intensity, prurience, and authenticity—can be seen to influence the way that we think about porn. Helen Hester is Lecturer in Promotional Cultures at Middlesex University, London.

Sexual Identities and Sexuality in Social Work Priscilla Dunk-West 2016-04-01 Sexuality and sexual identity have been relatively marginalized areas in both social work education and practice. However, changes in policy and legislation in the UK and other countries over the past decade have brought discussions of sexuality into the mainstream public service agenda. In social work and social care, gay and lesbian citizenship rights have been explicitly recognised. In the fields of adoption and fostering new regulations and guidance have helped improve and develop practice around assessment and intervention. It remains the case, however, that sex is often perceived as a problem area within social work and social care, discussed only in relation to sexually diverse communities or in the realm of dysfunction or pathology.

This collection aims to generate a more proactive and challenging discussion of sexuality and sexual identity in social work. Its starting point is that sexuality is an essential aspect of individual identity, that users must be able to express their sexuality, and that it is essential for social workers to be able to respond and discuss sexual issues appropriately. The contributions are informed by feminist research, considering, in particular, the experiences of women working in and using social care services since the 1990s. In addition to a consideration of the wider policy, legislative and service providers' perspectives, the book includes reflective accounts as well as research-led contributions, offering a comprehensive and balanced account of this important field, which aims to inform both theory and practice.

**Exploring Health Care Access for Gay, Bisexual, and Other Men who Have Sex with Men Living in Middlesex County, Ontario**

Todd Anthony Coleman 2014 Published research suggests gay, bisexual, and other men who have sex with men (GB-MSM) present in health care with additional, distinct psychosocial and sexual health concerns compared to heterosexual men, emphasizing the importance of access to health care for these groups. This exploratory thesis used data from the online survey (n=202) of the Health in Middlesex Men Matters (HiMMM) Project - a community-based study examining health care access for GB-MSM living in Middlesex County, Ontario. For each manuscript, blockwise modified Poisson regression models were fit sequentially with predisposing, enabling, and need variables, as theorized by the Behavioral Model of Health Services Use. The first manuscript identified factors associated with access to a primary care provider (PCP), identifying subgroups with which to direct health care promotion efforts centred upon access. Older age, student status, marital and relationship status, social support (from a significant other and from GLBT - gay, lesbian, bisexual and transgender - communities), and self-perceived general health were crudely

associated with having a PCP and were variably significantly associated with the outcome during the modelling process with additional variables. The second examined factors associated with sexual orientation disclosure and communication with providers about GB-MSM health issues. Marital/relationship status, experiences of homophobia, and assessment of provider's communication were associated with having a PCP know respondents' sexual orientation, crudely and in the modelling process with other variables. Internalized homonegativity, experiences of homophobia, provider communication, and prior negative experiences with a PCP were associated with talking to a PCP about GB-MSM health issues. The third examined demographic, socio-behavioural, and community-relevant factors associated with mental health service utilization in the past 12 months for local GB-MSM. Access to a PCP, childhood versus current religiosity or spirituality, self-perceived mental health, and internalized homonegativity were associated with the outcome, crudely, and in the blockwise modelling process with other variables. The fourth manuscript investigated demographic and socio-behavioural factors associated with not accessing HIV testing services, and explored descriptive reasons for this, discussing implications for HIV testing promotion. Factors significantly associated with being untested included social connection to GLBT communities, current versus childhood religiosity/spirituality levels, education, and employment.
