Unorthodox - Deborah Feldman 2012-10-02

44 Chapters About 4 Men - BB Easton 2019-11-19

One woman's secret journal completely changes her marriage in this hilarious and biting memoir—the inspiration for the Netflix Original Series SEX/LIFE. School psychologists aren't supposed to write books about sex. Doing so would be considered "unethical" and "a fireable offense." Lucky for you, ethics was never my strong suit. *Sex/Life: 44 Chapters About 4 Men* is a laugh-out-loud funny and brutally honest look at female sexuality, as told through the razor-sharp lens of domesticated bad girl BB Easton. No one and nothing is off limits as BB revisits the ex-boyfriends—a sadistic tattoo artist, a punk rock parolee, and a heavy metal bass player—that led her to finally find true love with a straight-laced, drop-dead-gorgeous . . . accountant. After settling down and starting a family with her perfectly vanilla "husbot," Ken, BB finds herself longing for the reckless passion she had in her youth. She begins to write about these escapades in a secret journal, just for fun, but when Ken starts to act out the words on the pages, BB realizes that she might have stumbled upon the holy grail of behavior modification techniques. The psychological dance that ensues is nothing short of hilarious as BB wields her journal like a blowtorch, trying to light a fire under her cold,

distant partner. Sometimes it works, sometimes it doesn't, but in the end, BB learns that the man she was trying so hard to change was perfect for her all along.

Global Trends 2040 - National Intelligence Council 2021-03

"The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021) *Global Trends 2040-A More Contested World* (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

Dash And Lily's Book Of Dares (Dash & Lily, Book 1) - Rachel Cohn  
2012-10-01

A whirlwind romance from the New York Times bestselling authors of Nick & Norah's Infinite Playlist, now a Netflix original series! I've left some clues for you. If you want them, turn the page. If you don't, put the book back on the shelf, please.

Television's Spatial Capital - Myles McNutt 2021-12-30

This book launches a comprehensive detailing of the dramatic expansion of the geography of television production into new cities, states, provinces, and countries, and how those responsible for shaping the "landscape" of television have been forced to adapt, taking established strategies for engaging with space and place through mediated representation and renegotiating them to account for the new map of television production. Modeling media studies research that considers the intersection of production, textuality, distribution, and reception, Myles McNutt identifies how the expansion of where television is produced has intersected with the kinds of places represented on television, and how shifts in the production, distribution, and consumption of television content have shifted the burden of representing cities and countries both locally and internationally.

Through a combination of industry interviews, textual analysis, and in-depth consideration of industry and audience discourse, the book argues that where television takes place matters more today than it ever has, but that the current system of spatial capital remains constrained by traditional industry logics that limit the depth of engagement with place identity even as the expectation of authenticity grows significantly.

Representing a cross section of media industry studies, television studies, and cultural geography, this book will appeal to scholars and students within multiple areas of media studies, including production studies and audience studies, in addition to television studies broadly.

*Come As You Are: Revised and Updated* - Emily Nagoski 2021-03-02

A revised and updated edition of Emily Nagoski's game-changing New York Times bestseller *Come As You Are*, featuring new information and research on mindfulness, desire, and pleasure that will radically transform your sex life. For much of the 20th and 21st centuries, women's sexuality was an uncharted territory in science, studied far less frequently—and far less seriously—than its male counterpart. That is, until Emily Nagoski's *Come As You Are*, which used groundbreaking science and research to prove that the most important factor in creating and sustaining a sex life filled with confidence and joy is not what the

parts are or how they're organized but how you feel about them. In the years since the book's initial publication, countless women have learned through Nagoski's accessible and informative guide that things like stress, mood, trust, and body image are not peripheral factors in a woman's sexual wellbeing; they are central to it—and that even if you don't always feel like it, you are already sexually whole by just being yourself. This revised and updated edition continues that mission with new information and advanced research, demystifying and decoding the science of sex so that everyone can create a better sex life and discover more pleasure than you ever thought possible.

*Welcome To Serenity (A Sweet Magnolias Novel, Book 4)* - Sherryl Woods 2014-02-28

Now a Major Netflix Series It's Christmas in Serenity...

*Run Towards the Danger* - Sarah Polley 2022-04-14

FROM THE DIRECTOR AND SCREENWRITER OF WOMEN TALKING

'Fascinating, harrowing, courageous, and deeply felt, these explorations of "dangerous stories", harmful past events and trials of the soul speak to all who've encountered dark waters and have had to navigate them.'

Margaret Atwood Sarah Polley's work as an actor, screenwriter and director is celebrated for its honesty, complexity and deep humanity. She brings all those qualities, along with her exquisite storytelling skills, to these six essays. Each one captures a piece of Polley's life as she remembers it, while at the same time examining the fallibility of memory and the embodied reactions of children and women adapting and surviving. The guiding light is the possibility of experiencing the past anew, as the person she is now but was not then. In this extraordinary book, Polley explores what it is to live in one's body, in a constant state of becoming, learning and changing. As she was advised after a catastrophic head injury - if we relinquish our protective crouch and run towards the danger, then life can be reset, reshaped and lived afresh. '[Polley is] a stunningly sophisticated observer of the world and an imperfect witness to the truth.' New York Times

*I'm Special* - Ryan O'Connell 2015-06-02

NOW a NETFLIX series entitled Special from Executive Producer JIM

PARSONS starring RYAN O'CONNELL as himself. From the beloved blogger turned voice of an online generation, an unforgettable and hilarious memoir-meets-manifesto exploring what it means to be a millennial gay man living with cerebral palsy, which VICE calls "a younger, gay version of Mary Karr's Lit." People are obsessed with Ryan O'Connell's blogs. With tens of thousands reading his pieces on Thought Catalog and Vice, watching his videos on YouTube, and hanging on to each and every #dark tweet, Ryan has established himself as a unique young voice who's not afraid to dole out some real talk. He's that candid, snarky friend you consult when you fear you're spending too much time falling down virtual k-holes stalking your ex on Facebook or when you've made the all-too-common mistake of befriending a psycho while wasted at last night's party and need to find a way to get rid of them the next morning. But Ryan didn't always have the answers to these modern-day dilemmas. Growing up gay and disabled with cerebral palsy, he constantly felt like he was one step behind everybody else. Then the rude curveball known as your twenties happened and things got even more confusing. Ryan spent years as a Millennial cliché: he had dead-end internships; dabbled in unemployment; worked in his pajamas as a blogger; communicated mostly via text; looked for love online; spent hundreds on "necessary" items, like candles, while claiming to have no money; and even descended into aimless pill-popping. But through extensive trial and error, Ryan eventually figured out how to take his life from bleak to chic and began limping towards adulthood. Sharp and entertaining, I'm Special will educate twentysomethings (or other adolescents-at-heart) on what NOT to do if they ever want to become happy fully functioning grown-ups with a 401k and a dog.

*As Nature Made Him* - John Colapinto 2013-03-05

NEW YORK TIMES BESTSELLER "We should aspire to Colapinto's stellar journalist example: listening carefully to the circumstances of those who are different rather than demanding that they conform to our own." —Washington Post The true story about the "twins case" and a riveting exploration of medical arrogance, misguided science, societal confusion, gender differences, and one man's ultimate triumph In 1967,

after a twin baby boy suffered a botched circumcision, his family agreed to a radical treatment that would alter his gender. The case would become one of the most famous in modern medicine—and a total failure. The boy's uninjured brother, raised as a boy, provided to the experiment the perfect matched control. As *Nature Made Him* tells the extraordinary story of David Reimer, who, when finally informed of his medical history, made the decision to live as a male. Writing with uncommon intelligence, insight, and compassion, John Colapinto sets the historical and medical context for the case, exposing the thirty-year-long scientific feud between Dr. John Money and his fellow sex researcher, Dr. Milton Diamond—a rivalry over the nature/nurture debate whose very bitterness finally brought the truth to light. A macabre tale of medical arrogance, it is first and foremost a human drama of one man's—and one family's—amazing survival in the face of terrible odds.

**A Sentimental Education** - Hannah McGregor 2022-09-20

How do you tell the story of a feminist education, when the work of feminism can never be perfected or completed? In *A Sentimental Education*, Hannah McGregor, the podcaster behind *Witch, Please* and *Secret Feminist Agenda*, explores what podcasting has taught her about doing feminist scholarship not as a methodology but as a way of life. Moving between memoir and theory, these essays consider the collective practices of feminist meaning-making in activities as varied as reading, critique, podcasting, and even mourning. In part this book is a memoir of one person's education as a reader and a thinker, and in part it is an analysis of some of the genres and aesthetic modes that have been sites of feminist meaning-making: the sentimental, the personal, the banal, and the relatable. Above all, it is a meditation on what it means to care deeply and to know that caring is both necessary and utterly insufficient. In the tradition of feminist autotheory, this collection works outward from the specificity of McGregor's embodied experience - as a white settler, a fat femme, and a motherless daughter. In so doing, it invites readers to reconsider the culture, media, political structures, and lived experiences that inform how we move through the world separately and together.
