Contemporary Social Problems in the UK - Selwyn Stanley

2022-09-30

Social problems are endemic to all societies. The UK is no exception and is grappling with a plethora of issues including poverty, family

breakdown, domestic violence, teenage pregnancy, child abuse and neglect, youth offending, alcohol and drug misuse, mental health issues, homelessness, and ethnic and religious discrimination. These problems have huge implications for the individual, the family unit and society at

large and take their toll on health, wellbeing, and community resources. They place an enormous amount of strain on government finances and the welfare state, and add to the burden on social institutions, such as the National Health Service and the social work and criminal justice systems. Contemporary Social Problems in the UK explores a wide range of social problems in the UK. Each social problem has been explored using a range of psychosocial theories to generate an understanding of various causal factors and to examine the linkages between different social problems. Government policy and legislation, remedial measures, preventive approaches, and strategies of intervention are also considered for each social problem that has been dealt with. Each chapter deals with a particular social problem and has been penned by an expert in that topic. The endeavour has been to provide a multi-dimensional overview of the social problem in a manner that is engaging and easy to read. The end-of-chapter content includes supplementary reading, useful topic related websites besides a quiz and individual / group activities to generate discussion and stimulate learning. This informative yet accessible textbook will be an invaluable resource for instructors and students in the social sciences as well as professionals who work with people who experience some of these problems.

[De]constructing Identities in/through Sex Education - Anna Zoë Steininger 2023-11-22

Bachelor Thesis from the year 2023 in the subject English Language and Literature Studies - Other, grade: 1,0, University of Cologne (Philosophische Fakultät), language: English, abstract: When the British comedy-drama series Sex Education debuted on Netflix in 2020 (with three further seasons following in 2020, 2021 and 2023), screenwriter Laurie Nunn's show was welcomed by critics and audiences alike as an innovative addition to the often rather formulaic canon of cinematic teen narratives. This paper will investigate on various levels what role the eponymous [Sex-]Education plays in the series. Education is part and parcel of Sex Education. While telling a story that focuses on the lives of students, parents and teachers of Moordale Secondary School, including [sex-]educational matters in the plot, the show clearly has its own

didactics to eventually educate its spectators. On the one hand, conventional educational systems, and mechanisms of socialization such as school, therapy, family, and popular culture are part of the plot, which makes visible the kind of influence these might have on adolescent identity formation. On the other hand, common educational structures are taken and playfully converted. Also, well-known educational hierarchies are mentioned, are deconstructed, and finally re-emerge, their original order reversed. The spectator is presented with the question "Who educates who?". Normative, conventional forms of relation are often dissolved and new forms of companionship or even kinship are established. The series subjects its protagonists as well as its spectators to dichotomies such as direct/indirect education and conscious/unconscious education and it mirrors the different ways in which education can affect and [de-]construct identity. The series investigates the relation between power and knowledge, ultimately obtained through education, it negotiates questions regarding the place and the way in which people receive and share education and it reveals how ideologies are imparted and how they direct a certain discourse. For my analysis of how Sex Education/[Sex-]Education [de-]constructs identities, educational systems and institutions, uncommon educational structures and the development of the characters and their relations within the diegesis and on a metatextual level, the series' didactics will be considered. Recourses to conceptual works by Judith Butler, Kimberley Crenshaw, Donna Haraway, Louis Althusser, and Timothy Shary will be mobilized to conceptualize the manifold role education plays in this show.

Challenging Gender Stereotypes in the Early Years - Susie Heywood 2022-09-14

What does gender equity mean for early years practitioners? What are early years settings already doing to promote gender equality, and why is this so important? How can we provide children with a solid basis from

which they can grow into people who are not limited by society's expectations of their gender? This is a manual for every early years practitioner who wishes to expand their knowledge and improve their practice around gender stereotyping in the early years. Drawing from the authors' experience developing a public health programme tackling gender stereotypes, it explores the reasons why gender inequality is still an issue, identifies the ways it is perpetuated and provides a framework and practical tools to drive change. The framework includes an audit process to celebrate areas of success and to identify areas for development, alongside a host of suggestions on how to navigate tricky situations in creative, respectful and effective ways. With the voices and experiences of experts and practitioners woven throughout, alongside key reflections and scenarios to critically engage with, *Challenging Gender Stereotypes in the Early Years* challenges readers to consider their own practice, drive staff awareness and make a difference to their setting.

Voices From the Wreckage: Young Adult Voices in the #MeToo Movement - Kimberly Karshner 2023-04-18

'Voices From the Wreckage: Young Adult Voices in the #MeToo Movement' is an edited collection by Kimberly Greenfield Karshner (Lorain County Community College). This collection focuses on situating young adult voices in the #MeToo movement, and into American culture and identity. Children's and young adult literature is an area of study that has rapidly evolved in the past ten years, bringing previously silenced voices to light. This is especially true for YA LGBTQ+ voices, and also for young narrators who are not only discovering, celebrating, and coming to terms with their identities, but also dealing with assaults on their identities. This collection will build on what writers like Laurie Halse Anderson have begun, first with her groundbreaking book on sexual assault, 'Speak', published in 1999, and more currently, her follow-up book, 'Shout' (2019). These authors continue what Anderson started, exploring texts from the perspectives of YA male and female voices, Native American and international perspectives, and LGBTQ+ character representation. Chapters investigate various literary forms such as graphic novels, memoirs, and novels, and cover topics such as sexual desire, consent, trauma, and survivorship. The literature featured in this volume will assure young people that they can tell their stories and that they will be heard. 'Voices From the Wreckage' will be a valuable tool for anyone who teaches Young Adult Literature, or for those who are avid readers and fans of the genre. The authors in this collection are starting and continuing very important conversations on the topic of sexual abuse and trauma, a conversation necessary for the intended audiences of these books, and for adult readers and teachers who are facilitating the emotions connected to these topics.

Competing Masculinities in the British Netflix Series "Sex Education" - Lea-Christin Klaas 2023-11-13

Seminar paper from the year 2020 in the subject Gender Studies, grade: 2,0, University of Dortmund (Institut für Anglistik und Amerikanistik), course: British Proseminar, language: English, abstract: This paper deals with the competing masculinities in the British Netflix series "Sex Education". Especially the characters Otis Milburn, Adam Groff and Eric Effiong are taken into consideration. Otis is the typical lovable goof, whereas Adam is more likely to fulfill the stereotype of being a "real man", because of his tendency of being violent. It turns out that Adam's aggression is caused by him being insecure. Eric is also especially interesting to look at, since he serves several contrary stereotypes. He is a black, homosexual young male that is raised as a second generation immigrant in a traditionally catholic household and is often confronted with homophobia and racism. Eric turns out to be a modern gentleman. Each character's typical behavior patterns will be described and clarified by examples and interpreted in the context of masculinities.

LoveSex and Relationships - Cabby Laffy 2023-06-05

LoveSex and Relationships introduces a pleasure-focused rather than reproductive model of sex, exploring how our brains, minds, bodies and emotions interact to create our experience of sexuality. This book challenges the cultural commodification of sex and sexuality, and it encourages the reader to experience 'being sexual' rather than 'doing sex' or 'looking sexy'. This is crucial to our development of sexual self-esteem, particularly in the digital era of pornography, dating and hookup apps. Bringing the material of the first edition up to date, chapters include anatomical diagrams and social commentary with a focus on trauma and Polyvagal Theory. Diversity and cultural changes are also addressed, including a more expansive understanding of gender identity, and greater awareness of the impact of power and rank in sexual relationships. Lastly, each chapter features a new partnered exercise alongside every solo exercise from the first edition. The book's accessible language makes it a valuable resource for sex and relationship therapists and trainees, general mental health and sex/relationship professionals, and clients themselves.

Disability Representation in Film, TV, and Print Media - Michael S. Jeffress 2021-08-19

Using sources from a wide variety of print and digital media, this book discusses the need for ample and healthy portrayals of disability and neurodiversity in the media, as the primary way that most people learn about conditions. It contains 13 newly written chapters drawing on representations of disability in popular culture from film, television, and print media in both the Global North and the Global South, including the United States, Canada, India, and Kenya. Although disability is often framed using a limited range of stereotypical tropes such as victims, supercrips, or suffering patients, this book shows how disability and neurodiversity are making their way into more mainstream media

productions and publications with movies, television shows, and books featuring prominent and even lead characters with disabilities or neurodiversity. Disability Representation in Film, TV, and Print Media will be of interest to all scholars and students of disability studies, cultural studies, film studies, gender studies, and sociology more broadly.

Big American Problems - Sam Wittke 2022-01-27

In Big American Problems, Sam Wittke examines the link between various types of politics and the spiritual realities of God and human

sinfulness, as laid out in the scriptures. In an increasing atmosphere of division, enmity, confusion, and authoritarianism in our American cultural moment, it is critical for Christians to think through these things through a realistic, biblical framework. Big American Problems hopes to tell the truth about our unprecedented American moment comprehensively and in a simplified manner. The conclusions herein are only meant to be weighed in proportion to the more immense matter of the Gospel, but they do provide a startling glimpse into what happens when the Gospel is rejected by a society.
