On the Game - Sophie Day 2007-06-20

Winner of the Eileen Basker Prize and the Wellcome Medal for Anthropology as Applied to Medical Problems. On the Game is an ethnographic account of prostitutes and prostitution. Sophie Day has followed the lives of individual women over fifteen years, and her book details their attempts to manage their lives against a backdrop of social disapproval. The period was one of substantial change within the sex industry. Through the lens of public health, economics, criminalisation and human rights, Day explores how individual sex workers live, in public and in private. This offers a unique perspective on contemporary capitalist society that will be of interest both to a broad range of social scientists. The author brings a unique perspective to her work -- as both an anthropologist and the founder of the renowned Praed Street Project, set up in 1986, as a referral and support centre for London prostitutes.

Third Sector Organizations in Sex Work and Prostitution - Isabel Crowhurst 2021-03-30

Third Sector Organizations in Sex Work and Prostitution is about sex work and prostitution third sector organizations (TSOs): non-governmental and non-profit organizations that provide support services to, and advocate for the well-being of people operating in the sex industries. With a focus on three vast and extremely diverse regions, Africa, the Americas, and Europe, this book provides a unique vantage point that shows how interlinked these organizations' histories and configurations are. TSOs are fascinating research sites because they operate as zones of contestation which translate their understandings of sex work and prostitution into different support practices and advocacy initiatives. This book reveals that these organizations are not external to normative power but participate in it and are subject to it, conditioning how they can exist, who they can reach out to, where, and what they can achieve. Third Sector Organizations in Sex Work and Prostitution is a resource for scholars, policymakers, and activists involved in research on, and work with third sector organizations in the fields of sex work and prostitution, gender and sexuality, and human rights among others.

This book uses an innovative case study on frontline sex work support officers to understand sex work policy and its impacts.

Tackling Street Prostitution - Marianne Hester 2004

This report presents the key findings and recommendations from the Crime and Disorder associated with Prostitution Initiative, which was part of the work conducted under the umbrella of the Crime Reduction Programme (CRP). The CRP was an evidence based initiative, which aimed to find out which approaches and practices were effective in tackling crime. The Crime and Disorder associated with Prostitution Initiative provided seed funding to 11 multi-agency pilot projects to address street based prostitution. The projects were grouped and evaluated by their main intervention type into three groups : policing and enforcement, protecting young people and providing support to exiting.

For a Good Time - Patty Tierney 2022-09-27

It's 1953 in Southern California, Patty is five years old, and her mother hasn't been home in two days. A police officer eventually arrives and takes Patty and her brothers to juvenile hall—their mother has been drinking again. Twenty-eight years later, Patty herself is an alcoholic mother to three children. Divorced and homeless, she soon realizes that she can't support her children with her job cleaning houses, so she accepts the offer of a man who works at the gas station: she'll have sex with him for money. For the next seventeen years, Patty lives a double life as a sex worker. Though she supports her family with the money she makes, she struggles to be the parent she wants to be, until she realizes she has become just like her own mother: an alcoholic who doesn't give her children what they need. When Patty gets sober, her life begins to change. She finds healing through therapy, spirituality, community, and, most importantly, speaking the truth to her children. Powerful and insightful, Patty's story is proof that we all are capable of healing ourselves—and that forgiveness can transform our lives completely.

Sex Work and the City - Yasmina Katsulis 2009-09-15

A gateway at the U.S.-Mexico border, Tijuana is a complex urban center with a sizeable population of sex workers. An in-depth case study of the trade, Sex Work and the City is the first major ethnographic publication

on contemporary prostitution in this locale, providing a detailed analysis of how sex workers' experiences and practices are shaped by policing and regulation. Contextualizing her research within the realm of occupational risk, Yasmina Katsulis examines the experiences of a diverse range of sex workers in the region and explores the implications of prostitution, particularly regarding the spheres of class hierarchies, public health, and other broad social effects. Based on eighteen months of intensive fieldwork and nearly 400 interviews with sex workers, customers, city officials, police, local health providers, and advocates, *Sex Work and the City* describes the arenas of power and the potential for disenfranchisement created by municipal laws designed to regulate the trade. Providing a detailed analysis of this subculture's significance within Tijuana and its implications for debates over legalization of "vice" elsewhere in the world, Katsulis draws on powerful narratives as workers describe the risks of their world, ranging from HIV/AIDS and rape (by police or customers) to depression, work-related stress, drug and alcohol addiction, and social stigma. Insightful and compelling, *Sex Work and the City* captures the lives (and deaths) of a population whose industry has broad implications for contemporary society at large.

Quitting the Sex Trade - Amber Horning 2021-05-13

This anthology of original research studies focuses on why and how sex workers and pimps quit the sex trade. There is an extensive literature on 'desistance' with different theories explaining why people quit crime. However, with a few notable exceptions, researchers to date have not focused on desistance among pimps and sex workers. These studies explore a spectrum of quitting the sex trade from voluntarily stopping, 'drifting,' and retiring; to intervention-based or coerced stopping due to influences and impositions by programs and/or by specialized courts. This book provides insight into the meaning of this work; how people in the sex trade view their engagement in licit/illicit spheres; and it will inform providers who interface with people from these communities regarding how to support desistance. Further this book may help those engaged in emerging topics related to the sex trade, including: (1) global trends in sex trade decriminalization and/or human trafficking

criminalization, (2) the recent emergence of human trafficking intervention courts in the USA, and (3) the development (and impact) of new laws, policies, and intervention programs designed to reduce human trafficking (globally, regionally, country level) and/or more localized efforts to support desistance among participants in the sex trade. The book will be of interest to academics, researchers and advanced students of Criminology, Sociology, Law, Policy, and Psychology. It was originally published as a special issue in the journal *Victims & Offenders*.

Rethinking Prostitution - Graham Scambler 2003-09-02

The growth of AIDS has focused renewed attention on the institution of prostitution. In contrast to the moral panic reaction of some sectors of society, very different initiatives are being displayed by other groups in relation to the need to scrutinize the social, moral and legal status of prostitution and to reflect on the arguments in support of and against legalising brothels, paying particular concern to prostitutes' own health. *Rethinking Prostitution* covers male as well as female sex workers and considers in detail their status in law; drugs; issues of health and health care; the changing nature of sex work; partners, boyfriends and pimps; and the potential for redefining prostitution. By drawing on the expertise of researchers across all aspects of the industry, this up-to-date text focuses on an institution and industry ripe for re-assessment. *Rethinking Prostitution* will be of considerable interest to students, lecturers and researchers in medical sociology and women's studies as well as to social workers in training and practice.

Religious Responses to Sex Work and Sex Trafficking - Lauren McGrow 2022-08-01

This book examines the history, theological beliefs and current contextual practices of faith-based NGOs who work in the area of human trafficking that involves the sex industry. There are hundreds of religious organizations around the globe who minister with human trafficking survivors and sex workers, but what is really happening on the ground and how do theological beliefs support a faith-based response? Many of these groups represent their work as a cosmic battle against evil forces, yet important structural critiques are ignored in the urgency to rescue

women and children. Using perspectives from both NGO staff and sex workers, an interdisciplinary panel of contributors examine specific organizations, highlight marginalized voices, and analyze undergirding methodologies. In doing so, the authors provide clear critiques and establish best practice guidelines for faith-based NGOs and future religious leaders, affirming an intersection of justice based upon critical reflection and careful action. This book addresses with nuance an important topic that is often over-simplified. It will, therefore, be of great interest to scholars studying the interaction of religion to sex work and human trafficking, as well as academics of religious studies and theology more generally.

Why Amnesty International Must Hold Firm in Its Support for Sex Workers - Sebastian Kohn 2015

One of the world's leading human rights organizations is on track to do something that could benefit thousands of people across the world-but not everyone is happy about it. For the last two years or so, Amnesty International has been considering whether to support the decriminalization of sex work. With the recent publication of a draft policy, the organization seems poised to do so. This is the right decision: from a health and rights perspective, decriminalization is the best way to empower sex workers around the world and to address the human rights violations they face. But last week a number of signatories, including a handful of Hollywood celebrities, wrote a letter to Amnesty to oppose such a policy, arguing that it would leave the organization "severely and irreparably tarnished" and legitimize violence against women. The signatories favor a system of partial criminalization known as the "Swedish model," in which those who buy sex are criminals, but those who sell are victims.

Organizing for Sex Workers' Rights in Montréal - Francine Tremblay 2020-01-15

This book explores how a group of ostracized female-identified sex workers transformed themselves into a collective to promote the health and well-being of women working in the sex industry.

Funding for Sex Worker Rights - 2014

This report updates the 2008 study 'Sex worker health and rights: where's the funding?' to gauge the extent of funding available for organisations that address sex worker health and rights. Unlike the first - broader - study, this new report focuses on the current state of funding by foundations and other non-governmental grant-makers in support of the human rights of sex workers. The report provides information about what is being funded and where the gaps and funding issues are, and provides a basis for tracking changes and trends over time. It also makes the case for increased funding in support of sex worker rights and presents recommendations on how to better respond to the needs of sex worker organisations and make more effective grants in support of sex worker rights.

Sex Work and HIV/AIDS. - 2002

Internet Sex Work - Teela Sanders 2017-09-18

This book takes readers behind the screen to uncover how digital technologies have affected the UK sex industry. The authors use extensive new datasets to explore the working practices, safety and regulation of the sex industry, for female, male and trans sex workers primarily working in the UK. Insights are given as to how sex workers use the internet in their everyday working lives, appropriating social media, private online spaces and marketing strategies to manage their profiles, businesses and careers. *Internet Sex Work* also explores safety strategies in response to new forms of crimes experienced by sex workers, as well as policing responses. The book will be of interest to students and scholars across a range of social science disciplines, including gender studies, socio-legal studies, criminology and sociology.

Organizing for Sex Workers' Rights in Montréal - Francine Tremblay 2020-02-13

This book is based on a case study about Stella, l'amie de Maimie a Montréal sex workers' rights organization, founded by and for sex workers. It explores how a group of ostracized female-identified sex workers transformed themselves into a collective to promote the health and well-being of women working in the sex industry. Weighed down by

the old and tenacious whore symbol, the sex workers at Stella had to find a way to navigate the criminality of sex work and sex workers, in order to do advocacy and support work, and create safer spaces for sex workers to engage in such advocacy. This book focuses on sex workers, but the advocacy challenges and strategies it outlines can also apply to the lives of other marginalized groups who are often ignored, pitied, or reviled, but who are seldom seen as fully human.

Sex Work and Hate Crime - Rosie Campbell 2021-11-09

This book brings together literature, empirical research findings from two projects, and policy analysis to examine how some forces in England have adopted the approach of treating crimes against sex workers as hate crimes. This book identifies some of the benefits of the hate crime approach to crimes against sex workers, both operationally and for some of the victims of crime. The authors argue that the hate crime approach should not be seen as an alternative to decriminalisation of sex work but can provide a pathway to achieving more sensitive but robust policing of crimes against sex workers and support in accessing justice through the criminal justice system. They also examine the broader context of hate crime policy and scholarship as they debate the relevance, problems and merits of the sex work hate crime model. The book provides another dimension to current theoretical and policy debates about widening definitions and law around hate crime to include other groups beyond existing protected characteristics.

Developing and Integrating Community Conditions to Support

Survival Sex Workers - Susan Claire Howard 2009

This action research project explored the conditions required to support the development and integration of community resources to assist women transitioning from survival sex work. Data were gathered through an interview with an experiential expert and a focus group with participants from the sectors of Aboriginal services, addictions, enforcement, mental health, business, residential, and social services. Findings are that survival sex workers possess the strength and capacity to adapt and survive while facing debilitating challenges; numerous factors impede successful service provision; shirring community

perspective will reduce stigmatization and marginalization of survival sex workers; and an available, cooperative, integrative support system is essential. Conclusions are that survival sex workers are extremely vulnerable and resilient; the community needs to support them as fellow citizens and provide coordinated, accessible, and collaborative resources; service providers and agencies need support to maximize efficacy and minimize burnout; and systemic community collaboration will increase service capacity.

Revolting Prostitutes - Molly Smith 2018-11-06

How the law harms sex workers - and what they want instead Do you have to endorse prostitution in order to support sex worker rights? Should clients be criminalized, and can the police deliver justice? In

Revolting Prostitutes, sex workers Juno Mac and Molly Smith bring a fresh perspective to questions that have long been contentious. Speaking from a growing global sex worker rights movement, and situating their argument firmly within wider questions of migration, work, feminism, and resistance to white supremacy, they make it clear that anyone committed to working towards justice and freedom should be in support of the sex worker rights movement.
