Sex, Society, and the Making of Pornography Jeffrey Escoffier 2021-02-12 Hardcore pornographic films combine fantasy and real sex to create a unique genre of entertainment. Pornographic films are also historical documents that give us access to the sexual behavior and eroticism of different historical periods. This book shows how the making of pornographic films is a social process that draws on the fantasies, sexual scripts, and sexual identities of performers, writers, directors, and editors to produce sexually exciting videos and movies. Yet hardcore pornographic films have also created a body of knowledge that constitutes, in this digital age, an enormous archive of sexual fantasies that serve as both a form of sex education and self-help guides. *Sex, Society, and the Making of Pornography* focuses on sex and what can be learned about it from pornographic representations.

The Sexual Revolution Toward a Self-governing Character Structure... [Die Sexualität Im Kulturkampf.] Transl.... Wilhelm Reich 1961

The Sexual Revolution Wilhelm Reich 2013-07-02 In this book, Wilhelm Reich summarizes the criticism of the prevailing sexual conditions and conflicts as it resulted from his sex-economic medical experiences over a period of years. He demonstrates, by way of individual examples, the general basic traits of the conflicts in present-day sexual living, dealing particularly with the institution of marriage and the revolution in family life as well as with the problems of infantile and adolescent sexuality. He also presents a detailed and revealing study of the sexual revolution that occurred briefly in Soviet Russia in the first few years of their economic revolution. "What we are living through," Reich states, "is a genuine, deep-reaching revolution of cultural living [which] goes to the roots of our emotional, social, and economic existence...The senses of the animal, man, for his natural life functions are awakening from a sleep of thousands of years."

Insult and the Making of the Gay Self Didier Eribon 2004-06-16 A bestseller in France following its publication in 1999, *Insult and the Making of the Gay Self* is an extraordinary set of reflections on "the gay question" by Didier Eribon, one of France's foremost public intellectuals. Known internationally as the author of a pathbreaking biography of Michel Foucault, Eribon is a leading voice in French gay studies. In explorations of gay subjectivity as it is lived now and as it has been expressed in literary history and in the life and work of Foucault, Eribon argues that gay male politics, social life, and culture are transformative responses to an oppressive social order. Bringing together the work of Jean-Paul Sartre, Pierre Bourdieu, Judith Butler, and Erving Goffman, he contends that gay culture and political movements flow from the need to overcome a world of insult in the process of creating gay selves. Eribon describes the emergence of homosexual literature in Britain and France at the turn of the last century and traces this new gay discourse from Oscar Wilde and the literary circles of late-Victorian Oxford to André Gide and Marcel Proust. He asserts that Foucault should be placed in a long line of authors—including Wilde, Gide, and Proust—who from the nineteenth century onward have tried to create spaces in which to resist subjection and reformulate oneself. Drawing on his unrivaled knowledge of Foucault's oeuvre, Eribon presents a masterful new interpretation of Foucault. He calls attention to a particular passage from *Madness and Civilization* that has never been translated into English. Written some fifteen years before *The History of Sexuality*, this passage seems to contradict Foucault's famous idea that homosexuality was a late-nineteenth-century construction. Including an argument for the use of Hannah Arendt's thought in gay rights advocacy, *Insult and the Making of the Gay Self* is an impassioned call for critical, active engagement with the question of how gay life is shaped both from without and within.

Reaching Across Boundaries of Culture and Class Rosemarie Perez-Foster 1996-06-01 In a world that is forever fragmenting into divisions of ethnicity and class, this groundbreaking book offers an approach to therapy that reaches across the boundaries that usually divide us. Reaffirming psychotherapy's roots in a progressive approach to social change, the contributors show how contemporary methods can be used to treat patients often previously thought unresponsive to psychodynamic therapy. Cultural values, countertransference guilt, immigration, bilingualism, and battered self-esteem in African-American patients are among the many topics discussed. Numerous examples guide the clinician to a better understanding of the role of culture in the therapeutic relationship.

Desiring Arabs Joseph A. Massad 2008-09-15 Sexual desire has long played a key role in Western judgments about the value of Arab civilization. In the past, Westerners viewed the Arab world as licentious, and Western intolerance of sex led them to brand Arabs as decadent; but as Western society became more sexually open, the supposedly prudish Arabs soon became viewed as backward. Rather than focusing exclusively on how these views developed in the West, in *Desiring Arabs* Joseph A. Massad reveals the history of how Arabs represented their own sexual desires. To this aim, he assembles a massive and diverse compendium of Arabic writing from the nineteenth century to the present in order to chart the changes in Arab sexual attitudes and their links to Arab notions of cultural heritage and civilization. A work of impressive scope and erudition, Massad's chronicle of both the history and modern permutations of the debate over representations of sexual desires and practices in the Arab world is a crucial addition to our understanding of a frequently oversimplified and vilified culture. "A pioneering work on a very timely yet frustratingly neglected topic. . . . I know of no other study that can even begin to compare with the detail and scope of [this] work."—Khaled El-Rouayheb, *Middle East Report* "In *Desiring Arabs*, [Edward] Said's disciple Joseph A. Massad corroborates his mentor's thesis that orientalist writing was racist and dehumanizing. . . . [Massad] brilliantly goes on to trace the legacy of this racist, internalized, orientalist discourse up to the present."—*Financial Times*

Pay for Your Pleasures Cary Levine 2013-06-11 Focuses on work by the three artists from the 1970s through the 1990s. Examines their participation in subcultural music scenes and discovers a common political strategy which lead them to create strange and unseemly imates that test the limites of art, gender roles, sex, acceptable behavior, poor taste, and the gag reflex.

Anthropology in Theological Perspective Wolfhart Pannenberg 1999-07-01 In this comprehensive study, a renowned theologian examines the anthropological disciplines-human biology, psychology, cultural anthropology, sociology and history-for their religious implications. The result is a theological anthropology that does not derive from dogma or prejudice, but critically evaluates the findings of the disciplines.Pannenberg begins with a consideration of human beings as part of nature; moves on to focus on the human person; and then considers the social world: its culture, history and institutions. All the elements of this multi-faceted study unite in the final chapter on the relation of human beings to their history.

Neopatriarchy Hisham Sharabi 1992-10-29 Focusing on the region of the Arab world--comprising some two hundred million people and twenty-one sovereign states extending from the Atlantic to the Persian Gulf--this book develops a theory of social change that demystifies the setbacks this

region has experienced on the road to transformation. Professor Sharabi pinpoints economic, political, social, and cultural changes in the last century that led the Arab world, as well as other developing countries, not to modernity but to neopatriarchy--a modernized form of patriarchy. He shows how authentic change was blocked and distorted forms and practices subsequently came to dominate all aspects of social existence and activity--among them militant religious fundamentalism, an ideology symptomatic of neopatriarchal culture. Presenting itself as the only valid option, Muslim fundamentalism now confronts the elements calling for secularism and democracy in a bitter battle whose outcome is likely to determine the future of the Arab world as well as that of other Muslim societies in Africa and Asia.

Putting Children's Interests First in U.S. Family Law and Policy Helen Alvaré 2018 Putting Children's Interests First in US Family Law and Policy details the rise of federal 'sexual expressionism' policy.

Religious Freedom After the Sexual Revolution Helen Alvaré 2022-06-24 Laws mandating cooperation with the state's new sexual orthodoxy are among the leading contemporary threats to the religious freedom of Catholic institutions in the United States. These demand that Catholic schools, health-care providers, or social services cooperate with contraception, cohabitation, abortion, same-sex marriage, or transgender identity and surgeries. But Catholic institutions' responses seem thin and uninspiring to many. They are criticized as legalistic, authoritarian, bureaucratic, retrograde and hurtful to women and to persons who identify as LGBTQ. They are even called "un-Christian." They invite disrespect both for Catholic sexual responsibility norms and for religious freedom generally, not only among lawmakers and judges, but also in the court of public opinion, which includes skeptical Catholics. The U.S. Constitution protects Catholic institutions' "autonomy" - their authority over faith and doctrine, internal operations, and the personnel involved in personifying and transmitting the faith. Other constitutional and statutory provisions also safeguard religious freedom, if not always perfectly. Catholic institutions could take far better advantage of all of these existing protections if they communicated, first, how they differ from secular institutions: how their missions emerge from their faith in Jesus Christ, and their efforts both to make his presence felt in the world today, and to display the inbreaking of the Kingdom of God. Second, they need to draw out the link between their teachings on sexual responsibility and love of God and neighbor. Drawing upon Scripture, tradition, history, theology and empirical evidence, Helen Alvaré frames a more complete, inspiring and appealing response to current laws' attempts to impose a new sexual orthodoxy upon Catholic institutions. It clarifies the "ecclesial" nature of Catholic schools, hospitals and social services. It summarizes the empirical evidence supporting the link between personnel decisions and mission, and between Catholic sexual responsibility norms and human flourishing. It grounds Catholic sexual responsibility teachings in the same love of God and neighbor that animate the existence, operations, and services of Catholic institutions.

1968 - Culture and Counterculture Thomas V. Gourlay 2020-11-11 Sexual revolution, terrorism, student riots, civil rights, Stonewall Riots, feminism, and the publication of *Humane vitae*. The year 1968 is a milestone in twentieth-century history. The papers presented in this volume mark an interdisciplinary and wide-ranging approach to a year, and indeed a decade, whose movements and events are still very much alive in contemporary society. The fruits of the conference are published in this volume to invite ongoing reflection and a critical discourse to a watershed moment in our history and culture.

The Weaponization of Loneliness Stella Morabito 2022-11-02 Do you keep your opinions to yourself because you're afraid people will reject you? Do you sign on to a cause just because everyone around you acts like it's the right thing to do? Welcome to *The Weaponization of Loneliness*. Tyrants of all stripes want to tell you what to believe and how to live your life. They get away with it by using the most potent weapon at their disposal: your fear of ostracism. This book explains how dictators—from the French Revolution to the Communist Party of China to today's globalists—aim to atomize us in order to control us. We fall for it because our need to connect with others and our fear of social rejection are so hardwired that they trigger our conformity impulse. These dynamics can even cause us to comply with evil orders. We all need a better understanding of how the merchants of loneliness—power elites in Big Tech, Big Media, Big Government, academia, Hollywood, and the corporate world—exploit our terror of social isolation. Their divide-and-conquer tactics include identity politics, political correctness, and mob agitation. Their media monopoly spawns the propaganda essential to demonization campaigns, censorship, cancel culture, snitch culture, struggle sessions, the criminalization of comedy, and the subversion of society's most fundamental institutions. It all adds up to a machinery of loneliness. Ironically, people tend to comply with this machinery to avoid loneliness, but such compliance only isolates us further. *The Weaponization of Loneliness* offers a message of hope. We can resist this psychological warfare if we have strong bonds in our families, faith communities, and friendships. Let's resolve to talk to one another openly and often, especially about the consequences of giving in to social pressures and media hype. Indeed, totalitarians always seek to destroy private life because it is the very fount of freedom.

Swinging Single Hilary Radner 1999 Critics and defenders alike connect today's widespread anxieties about sexuality and culture to the political activism of the 1960s and the counterculture's preoccupation with the individual pursuit of pleasure. In contrast, the essays in *Swinging Single* attribute the new sexual mores of that era not to its political upheavals but to a confluence of social, cultural, and economic factors that encouraged personal gratification and altered traditionally defined gender roles. Contributors analyze a broad range of topics: the commercialization of avant-garde and exploitation films; new visions of female sexuality in *That Girl* and *The Avengers*; the social context of such cultural icons as Hugh Hefner and Charles Manson; the intersection of race and sexuality in Eldridge Cleaver's *Soul on Ice*; and depictions of sexual pleasure in pornography and scientific films.

Sexuality in Adolescence and Emerging Adulthood Raymond Montemayor 2018-10-23 Written in an engaging question-and-answer format, this accessible text synthesizes contemporary empirical research to provide a panoramic view of adolescent sexual development and behavior. The book examines sexuality as part of normative growth and development, in addition to addressing traditional problem areas such as sexual risk taking. Candid personal stories bring the theory and research to life. Topics include the precursors of adolescent sexuality in childhood; biological aspects of adolescent sexuality, including puberty and the adolescent brain; the influences of parents, peers, and the media; and gender and racial/ethnic differences in attitudes and behavior. Coverage also encompasses romantic relationships; the experiences of sexual- and gender-minority youth; sexually transmitted infections; contraception, pregnancy, and teen parenthood; cross-cultural and international research; and approaches to sex education. Pedagogical Features *Headings written as questions throughout the chapters--for example, "How common is hooking up?" and "Is coming out to parents always a good thing?" *"In Their Own Words" boxes with firsthand accounts from adolescents and young adults. *"Focus on Research" sidebars that discuss research methods, challenges, and controversies in the field. *End-of-chapter summaries and suggested readings. Research Handbook on Critical Legal Theory Emiliios Christodoulidis 2019 Critical theory, characteristically linked with the politics of theoretical engagement, covers the manifold of the connections between theory and praxis. This thought-provoking Research Handbook captures the broad range of those connections as far as legal thought is concerned and retains an emphasis both on the politics of theory, and on the notion of theoretical engagement. The first part examines the question of definition and tracks the origins and development of critical legal theory along its European and North American trajectories. The second part looks at the thematic connections between the development of legal theory and other currents of critical thought such as; Feminism, Marxism, Critical Race Theory, varieties of post-modernism, as well as the various 'turns' (ethical, aesthetic, political) of critical legal theory. The third and final part explores particular fields of law, addressing the question how the field has been shaped by critical legal theory, or what critical approaches reveal about the field, with the clear focus on opportunities for social transformation.

The Sexual/Political Lorenzo Bernini 2023-06-28 The Sexual/Political engages with contemporary political issues in sexuality through a survey of modern philosophy, psychoanalytic thought, 20th-century political theory, and more recent queer philosophies. The book investigates how the sexual has perturbed philosophical, political, and psychoanalytic thought and how this has fed into discrimination against the LGBTQI community. It analyses the social stigmas applied to public and private sexual acts and the psychopolitical processes leading to the prevalence of neo-fascist populism in Italy and the world. Tracing the history of sexuality through Freud, Marx, Fanon, and Foucault, among many others, Bernini considers why the sexual has always been an exceptionally difficult object to consider in political theory. This book will be of key interest to scholars in queer theory; antisocial theory; psychoanalysis and politics; drive theory; political philosophy; critical theory; LGBTQIA+ issues; gender and sexuality studies; and Italian studies. Unclean Lips Josh Lambert 2014 Winner of the 2014 Jordan Schnitzer Book Award presented by the Association for Jewish Studies Jews have played an integral role in the history of obscenity in America. For most of the 20th century, Jewish entrepreneurs and editors led the charge against obscenity laws. Jewish lawyers battled literary censorship even when their non-Jewish counterparts refused to do so, and they won court decisions in favor of texts including *Ulysses*, *A Howl*, *Lady Chatterley's Lover*, and *Tropic of Cancer*. Jewish literary critics have provided some of the most influential courtroom testimony on behalf of freedom of expression. The anti-Semitic stereotype of the lascivious Jew has made many historians hesitant to draw a direct link between Jewishness and obscenity. In *Unclean Lips*, Josh Lambert addresses the Jewishness of participants in obscenity controversies in the U.S. directly, exploring the transformative roles played by a host of neglected figures in the development of modern and postmodern American culture. The diversity of American Jewry means that there is no single explanation for Jews' interventions in this field. Rejecting generalizations, this book offers case studies that pair cultural histories with close readings of both contested texts and trial transcripts to reveal the ways in which specific engagements with obscenity mattered to particular American Jews at discrete historical moments. Reading American culture from Theodore Dreiser and Henry Miller to *Curb Your Enthusiasm* and *FCC v. Fox*, *Unclean Lips* analyzes the variable historical and cultural factors that account for the central role Jews have played in the struggles over obscenity and censorship in the modern United States.

The End of Woman Carrie Gress 2023-08-15 *Feminism Doesn't Empower Women. It Erases Them.* The bestselling author of *Theology of Home*, Carrie Gress shows that fifty years of radical feminism have solidified the primacy of the traditionally male sphere of life and devalued the attributes, virtues, and strengths of women. Feminism, the ideology dedicated to "smashing the patriarchy," has instead made male lives the norm for everyone. After fifty years of radical feminism, we can't even define "woman." In this powerful new book, Carrie Gress says what cannot be said: feminism has abolished women. Hurling "trans women" thrash female athletes. Mothers abort their baby girls. Drag queens perform obscene parodies of women. Females are enslaved for men's pleasure—or they enslave themselves. Feminism doesn't avert these tragedies; it encourages them. The carefree binge of self-absorption has left women exploited, unhappy, dependent on the state, and at war with men. And still, feminists cling to their illusions of liberation. But there are real answers. Real answers for real women. Carrie Gress—a wife, mother, and philosopher—punctures the myth of feminism, exposing its legacy of abuse, abandonment, and anarchy. From the serpent's seduction of Eve to Mary Shelley's *Frankenstein* to Kate Millett's lust, violence, and insanity to Meghan Markle's havoc-ridden rise to royalty, Gress presents a history as intriguing as the characters who lived it. The answers women most desperately need, she concludes, are to be found precisely where they are most afraid to look. Only a rediscovery of true womanhood—and motherhood—can pull our society back from the brink. And happiness is possible only if women are open to making peace with men, with children, with God, and—no less difficult—with themselves. For feminism's victims, Gress is a welcoming voice in the darkness: The door is open. The lights are on. Come home.

Sexuality Joseph Bristow 2006-10-19 A brilliant and readable account of the history of sexuality in critical discourse, providing a context for the subject and an overview of current debates.

Sex and Reason Richard A. Posner 2009-07-01 Sexual drives are rooted in biology, but we don't act on them blindly. Indeed, as the eminently readable judge and legal scholar Richard Posner shows, we make quite rational choices about sex, based on the costs and benefits perceived. Drawing on the fields of biology, law, history, religion, and economics, this sweeping study examines societies from ancient Greece to today's Sweden and issues from masturbation, incest taboos, date rape, and gay marriage to Baby M. The first comprehensive approach to sexuality and its social controls, Posner's rational choice theory surprises, explains, predicts, and totally absorbs.

The Colors of Grief Janis Di Ciacco 2008-06-15 Following a life shattering experience, a child enters upon a confusing emotional journey that can be likened to a prism of many colors of dark feelings like sadness and fear, but also warm feelings of love and courage. The way they deal with these feelings has a lasting impact on their life as they grow. *The Colors of Grief* explores strategies for supporting a grieving child to ensure a healthy growth into adulthood. Drawing on the latest research in neurology and psychology, Janis Di Ciacco illustrates the child's grieving process using a model of development that employs 'key stages'. These range from preverbal infancy (0-2 years) through to early adulthood (about 25 years). She shows how a child's progress through these stages can be impaired by an early encounter with loss, which can contribute to cognitive, emotional and social difficulties. Drawing connections between bereavement, attachment issues and social dysfunction, the author suggests easy-to-use activities for intervention at each key stage, including infant massage, aromatherapy and storytelling. This is a revealing and accessible book for both parents and professionals working with, or caring for, bereaved infants, children or young adults.

Jewish Exiles' Psychological Interpretations of Nazism Avihu Zakai 2020-08-31 This book examines works of four German-Jewish scholars who, in their places of exile, sought to probe the pathology of the Nazi mind: Wilhelm Reich's *The Mass Psychology of Fascism* (1933), Erich Fromm's *Escape from Freedom* (1941), Siegfried Kracauer's *From Caligari to Hitler: A Psychological History of the German Film* (1947), and Erich Neumann's *Depth Psychology and a New Ethic* (1949). While scholars have examined these authors' individual legacies, no comparative analysis of their shared concerns has yet been undertaken, nor have the content and form of their psychological inquiries into Nazism been seriously and systematically analyzed. Yet, the sense of urgency in their works calls for attention. They all took up their pens to counter Nazi barbarism, believing, like the English jurist and judge Sir William Blackstone, who wrote in 1753 - *scribere est agere* ("to write is to act").

Queer(ing) Russian Art Brian James Baer 2023-08-22 While the topic of queer sexuality in imperial Russia and the Soviet Union has been investigated for decades by scholars working in the fields of sociology, history, literary studies, and musicology, it has yet to be studied in any

comprehensive or systematic way by those working in the visual arts. Queer(ing) Russian Art: Realism, Revolution, Performance is meant to address this lacuna by providing a platform for new scholarship that connects "Russian" art with queerness in a variety of ways. Situated at the intersection of Visual Studies and Queer Studies and working from different theoretical and disciplinary perspectives, the contributors expose and explore the queer imagery and sensibilities in works of visual art produced in pre-Soviet, Soviet and post-Soviet contexts and beneath the surface of conventional histories of Russian and Soviet art.

Sexual Violence Against Children in Britain Since 1965 Nick Basannavar 2021-11-30 This book investigates the changes and continuities in the ways in which sexual violence has been interpreted and represented in Britain since 1965. It explores the representational trail of the Moors murders and subsequent trial of 1966, the emergence of age of consent abolitionism in the 1970s, Cleveland's child sexual abuse crisis of 1987-8, and 2010 and 20s contemplations on the Jimmy Savile scandal. Harnessing research into popular media forms and a huge range of personal, political and professional records, Nick Basannavar carefully parses and illustrates the ways in which journalists, medical workers, politicians, lobbyists and other groups assembled and animated their narratives, revealing complex rhetorical and emotional processes. This book challenges problematic conceptual dichotomies such as silence/noise or ignorance/knowledge. It shows instead that although categories such as 'child sexual abuse' and 'paedophilia' may be relatively recent linguistic value-constructs, sexual violence against children has existed and been represented across historical moments, in changeable and challenging ways.

The Psychology of American Fascism Mark Jarmuth 2009-04 390 pages; non-fiction. Author looks at how what people think dictates how they are governed. Our Christian ancestors thought like self-governing citizens and governed themselves. Since the 1960s, however, Americans have thought less like their ancestors than like Europeans and been governed as such; governed, in other words, as if bureaucrats viewed them as objects of political domination. The relevant historical period is late eighteenth century European and American history to the present. Readers will discover how America was Europeanized post-1960 after one of the most war-torn regions of the world and how Darwin, Freud and Marx caused World War II.
