Dr. Elizabeth Morrel is back working in her pharmaceutical lab in California, but she hasn't give up her search for the mysterious creature. After a news story breaks about a sighting at the dorms of a nearby university, the scientist realizes the creature is nearby and breeding the sexy young coeds at SDU. When a mysterious young intern shows up at her lab with a strange interest in her search for the jungle tentacle plant, Elizabeth realizes the creature may be closer than she thought. This 12,000 word story is for adults only. It includes explicit descriptions of female masturbation and hot double penetration and breeding by an alien tentacle plant. Excerpt: "Take a seat," she said, motioning towards the futon as she walked over to her fridge. "Want a beer?" "Sure." Gavin sat down, looking at the few posters hanging on the walls: a movie poster for Amelie, a periodic table where all the elements were drawn as cartoon characters. "Here you go," Trish said, holding out a frosty bottle and taking a sip of her own as she sat down next to him. "Thank you," he said, tipping the bottle towards her in acknowledgement, before he set it down on the side table. Trish slowly turned her body so their knees were touching ever so slightly. Now was the inevitable awkward moment when she didn't know what to say or what to do, the moment she wished she could skip past. She took another sip of her beer and then set it on top of a magazine on her coffee table. Before Trish could react, Gavin's arms were around her, their mouths slamming together in passionate, hungry kisses. She hugged his torso back, surprised to feel defined muscles underneath. He didn't seem like the type to go to the gym, but his body told a different story. The last time Trish had slept with a man was over six months ago, after an awkward blind date with a guy her best friend set her up with. She had one too many glasses of wine and fell into bed with him faster than she would like. Then, of course, she never saw him again. Gavin was different—sure he was a little bit younger

that her—but he was very attractive and very funny. She didn't see anything long term or serious with him, but she definitely could imagine a quick and sweaty tumble. Their hungry kisses turned sloppy as her head started to feel a little foggy. There was a strange scent in the air—something floral, organic. Though it tickled her nose, she was too swept away by Gavin's kisses to give it much thought. The beer must have gone straight to her head, because she was feeling light-headed. She didn't want to stop though. TAKEN BY TENTACLES WHILE MY BOYFRIEND SLEPT CJ Smalls 2020-05-05 I'd already gone one round with my boyfriend, and the pleasant afterglow of my orgasm hadn't even faded completely before the tentacles arrived, pushing into my mouth and my pussy without warning. First anal sex was scary enough, but with a monster? It wasn't like I had a choice. I couldn't cry out for help, not with a tentacle pushing into my throat, and the other tentacles bound my body securely. All I could do was take whatever the tentacles gave me, including an intense and incomprehensible double penetration. Warning: This ebook contains very explicit descriptions of sexual activity during an alien monster sex encounter. It includes rough sex, reluctant sex, tentacle sex, first anal sex, tentacle bondage, and double penetration. Tentacle Erotica Mega Bundle Talia Trace Abbey is vacationing with her friends, looking for a little relaxation and maybe a little action. But sometimes action comes from the strangest places and Abbey is confronted with some tentacles eager to show her how.

Tentacles on the Boardwalk Kristi is supposed to find birthday presents down at the boardwalk, but the only thing of interest she finds is a strange little octopus pendent. Besotted with octopuses, Kristi immediately buys it. But afterwards, strange things start happening. The sensation of slimy tentacles start to cover her body, even though she can't see them. The sensations quickly

become too much for her, and she is quietly seduced under the staring gaze of her fellow shoppers. Tentacles in the Tundra
Becky is assigned to oversee a field station way out in the northern tundra and is left alone for a week while her coworkers go gather more supplies. It's a cold and lonely world up there, and Becky starts investigating a strange shape beneath the ice to occupy her time. Much to her surprise, the creature locked beneath the ice is an octopus, a strange thing to find so far north under the snow. Becky rescues the strange frozen thing, and the increasingly randy tentacled creature is happy to repay the favor. Becky finds her loneliness abated in more ways than one as the octopus seduces her with its chilled limbs and leaves behind a gift that Becky will never forget. Tentacles at the Zoo Tracy has been assigned what seemed like a simple job: report on the zoo's new occupant. All geared up with her notebook and camera and savvy journalist skills, Tracy heads on over to the attraction, unaware of what's in store. In front of a crowd, Tracy is dragged underwater and shown what she's been missing her entire life. Afterwards she can't stop thinking about the encounter, and can't stop herself from going back for more. But after her cousins abandoned her to her own devices, she discovered one of her uncle's fishing catches, living in a tank down in the bowels of the ship. Tentacles in the Ancient Ruins Amy's explored ancient ruins her entire life, and now she has an opportunity to lead her own expedition. But the temple she's in charge of has strange symbols on the walls that intrigue her and haunt her dreams, symbols of an ancient myth from a lost civilization. While she's investigating the temple she stumbles onto a sealed-off room that holds the source of all those myths, and it's eager to show her how it matches up to the legend.

Tentacles in the Lab Maggie's always found strange and unusual creatures in her job as a marine biologist, but she wasn't prepared for the strange weirdness of her lab's new occupant. Descended from ancient gods of old, the creature has an appetite-for seducable women. And Maggie, intrigued and titilated by the its past, is all too willing to let it indulge. Agile and flexible, the creature is willing and able to pin Maggie down and use her to its most perverted ends. Researching the Tentacles Sarah has been investigating a strange phenomenon that women have been experiencing. The same monster keeps showing up in the pictures that she's uncovered, leading her further into the mystery. But it's not until one of her friends gives her access to her lab and the specimens inside it is Sarah able to experience the phenomenon for herself. Researching the Tentacles 2 Sarah's new and intriguing research subject has already shown her indescribable things, and she wants more. Joined by her equally entranced friend Maggie, the two take a boat out into the middle of the ocean to search for meaning, for explanation, but most of all for pleasure.
